

OFFICIAL STATEMENT

Dated March 31, 2005

NEW ISSUE – BOOK-ENTRY-ONLY

RATINGS: Fitch: “AA+”

Moody’s: “Aa2”

S&P: “AA+”

(See “RATINGS” herein.)

In the opinions of Co-Bond Counsel (named below) assuming continuing compliance by the City (defined below) after the date of issuance of the 2005 Obligations (defined below) with certain covenants in the ordinances described herein and subject to the matters discussed herein under “TAX MATTERS,” interest on the 2005 Obligations under existing statutes, regulations, published rulings, and court decisions (1) will be excludable from gross income of the owners thereof for federal income tax purposes under section 103 of the Internal Revenue Code of 1986, as amended, and (2) will not be included in computing the alternative minimum taxable income of the owners thereof who are individuals or, except as described herein under “TAX MATTERS,” corporations. (See “TAX MATTERS” herein.)

\$126,705,000 CITY OF SAN ANTONIO, TEXAS 2005 OBLIGATIONS

Consisting of

\$116,170,000
General Improvement and Refunding Bonds,
Series 2005

\$10,535,000
Combination Tax and Revenue
Certificates of Obligation, Series 2005

Date: March 15, 2005

Due: February 1, as shown herein

The \$116,170,000 “City of San Antonio, Texas General Improvement and Refunding Bonds, Series 2005” (the “2005 Bonds”) are being issued by the City of San Antonio, Texas (the “City”) pursuant to the Constitution and general laws of the State of Texas, particularly Chapters 1207, 1251 and 1331, Texas Government Code, as amended; an election held within the City on November 4, 2003; the Home Rule Charter of the City (the “City Charter”); and an ordinance adopted by the City Council of the City (the “City Council”) on March 31, 2005. (See “THE 2005 OBLIGATIONS - Authority for Issuance of the 2005 Bonds” herein.)

The \$10,535,000 “City of San Antonio, Texas Combination Tax and Revenue Certificates of Obligation, Series 2005” (the “2005 Certificates”) are being issued by the City pursuant to the Constitution and general laws of the State of Texas, particularly the Certificate of Obligation Act of 1971, Chapter 271, Subchapter C, Texas Local Government Code, as amended; Chapter 1502, Texas Government Code, as amended; the City Charter; and an ordinance adopted by the City Council on March 31, 2005. (See “THE 2005 OBLIGATIONS - Authority for Issuance of the 2005 Certificates” herein.) The 2005 Bonds and 2005 Certificates are collectively referred to herein as the “2005 Obligations.”

Interest on the 2005 Obligations will accrue from March 15, 2005 and will be payable on February 1 and August 1 of each year, commencing August 1, 2005, and will be calculated on the basis of a 360-day year composed of twelve 30-day months. The 2005 Obligations will be issued as fully registered obligations in book-entry-only form and when issued will be registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York (“DTC”). DTC will act as securities depository (the “Securities Depository”). Book-entry interests in the 2005 Obligations will be made available for purchase in the principal amount of \$5,000 or any integral multiple thereof. Purchasers of the 2005 Obligations (the “Beneficial Owners”) will not receive physical delivery of certificates representing their interest in the 2005 Obligations. So long as the Securities Depository is the registered owner of the 2005 Obligations, the principal of and interest on the 2005 Obligations will be payable by JPMorgan Chase Bank, National Association, Dallas, Texas, as the initial Paying Agent/Registrar, to the Securities Depository, which will in turn remit such principal and interest to its participants, which will in turn remit such principal and interest to the Beneficial Owners. (See “THE 2005 OBLIGATIONS - Book-Entry-Only System” herein.)

The 2005 Obligations are payable from ad valorem taxes levied annually against all taxable property located within the City, within the limitations prescribed by law, including the constitutional tax limit of \$2.50 per \$100 of assessed valuation. The 2005 Certificates are additionally secured by a lien on and pledge of certain Pledged Revenues (defined herein) of the City’s municipal parks system, not to exceed \$1,000 during the entire period the 2005 Certificates or interest thereon remain outstanding, solely to permit the 2005 Certificates to be sold for cash. (See “THE 2005 OBLIGATIONS – Security” herein.)

SEE INSIDE COVER PAGE FOR STATED MATURITIES, PRINCIPAL AMOUNTS, INTEREST RATES, INITIAL YIELDS, CUSIP NUMBERS, AND REDEMPTION PROVISIONS FOR THE 2005 OBLIGATIONS

The 2005 Obligations are offered for delivery, when, as and if issued and received by the initial purchasers (the “Underwriters”), and subject to the approving opinion of the Attorney General of the State of Texas and the approval of certain legal matters by Fulbright & Jaworski L.L.P., San Antonio, Texas and the Law Offices of William T. Avila, P.C., San Antonio, Texas, as Co-Bond Counsel. Certain legal matters will be passed upon for the Underwriters by their counsel, McCall, Parkhurst & Horton L.L.P., San Antonio, Texas, and for the City by the City Attorney. (See “LEGAL MATTERS” herein.) It is expected that the 2005 Obligations will be available for initial delivery through the services of DTC on or about April 27, 2005.

USE OF INFORMATION IN THE OFFICIAL STATEMENT

This Official Statement and the information contained herein are subject to completion and amendment. These securities may not be sold nor may offers to buy be accepted prior to the time the Official Statement is delivered in final form. Under no circumstances shall this Official Statement constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation, or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

No dealer, broker, salesman, or other person has been authorized by the City to give any information or to make any representation with respect to the 2005 Obligations, other than as contained in this Official Statement, and if given or made, such other information or representations must not be relied upon as having been authorized by either of the foregoing. The information set forth herein has been obtained from sources which are believed to be reliable but is not guaranteed as to accuracy or completeness by the Co-Financial Advisors or the Underwriters and is not to be construed as a promise or guarantee of the Co-Financial Advisors or the Underwriters. The information and expressions of opinion herein are subject to change without notice, and neither the delivery of this Official Statement nor any sale made hereunder shall under any circumstances create any implication that there has been no change in the information or opinions set forth hereinafter the date of this Official Statement.

IN CONNECTION WITH THIS OFFERING, THE UNDERWRITERS MAY OVER-ALLOT OR EFFECT TRANSACTIONS WHICH STABILIZE THE MARKET PRICE OF THE ISSUE AT A LEVEL ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

The agreements of the City and others related to the 2005 Obligations are contained solely in the contracts described herein. Neither this Official Statement nor any other statement made in connection with the offer or sale of the 2005 Obligations is to be construed as constituting an agreement with the purchasers of the 2005 Obligations. INVESTORS SHOULD READ THE ENTIRE OFFICIAL STATEMENT, INCLUDING ALL APPENDICES ATTACHED HERETO, TO OBTAIN INFORMATION ESSENTIAL TO MAKING AN INFORMED INVESTMENT DECISION.

THE UNDERWRITERS HAVE PROVIDED THE FOLLOWING SENTENCE FOR INCLUSION IN THIS OFFICIAL STATEMENT. THE UNDERWRITERS HAVE REVIEWED THE INFORMATION IN THIS OFFICIAL STATEMENT IN ACCORDANCE WITH, AND AS PART OF, THEIR RESPONSIBILITIES TO INVESTORS UNDER THE FEDERAL SECURITIES LAWS AS APPLIED TO THE FACTS AND CIRCUMSTANCES OF THIS TRANSACTION, BUT THE UNDERWRITERS DO NOT GUARANTEE THE ACCURACY OR COMPLETENESS OF SUCH INFORMATION.

THE 2005 OBLIGATIONS ARE EXEMPT FROM REGISTRATION WITH THE SECURITIES AND EXCHANGE COMMISSION AND CONSEQUENTLY HAVE NOT BEEN REGISTERED THEREWITH. THE REGISTRATION, QUALIFICATION, OR EXEMPTION OF THE 2005 OBLIGATIONS IN ACCORDANCE WITH APPLICABLE SECURITIES LAW PROVISIONS OF THE JURISDICTIONS IN WHICH THESE SECURITIES HAVE BEEN REGISTERED, QUALIFIED, OR EXEMPTED SHOULD NOT BE REGARDED AS A RECOMMENDATION THEREOF.

All information contained in this Official Statement is subject, in all respects, to the complete body of information contained in the original sources thereof and no guaranty, warranty, or other representation is made concerning the accuracy or completeness of the information herein. In particular, no opinion or representation is rendered as to whether any projection will approximate actual results, and all opinions, estimates and assumptions, whether or not expressly identified as such, should not be considered statements of fact.

Neither the City, the Underwriters, nor the Co-Financial Advisors make any representation or warranty with respect to the information contained in this Official Statement regarding DTC or its Book-Entry-Only System.

OFFICIAL STATEMENT
Relating to the
\$126,705,000
CITY OF SAN ANTONIO, TEXAS
2005 OBLIGATIONS
Consisting of

\$116,170,000		\$10,535,000
General Improvement and Refunding Bonds,	and	Combination Tax and Revenue
Series 2005		Certificates of Obligation, Series 2005

INTRODUCTION

This Official Statement of the City of San Antonio, Texas (the "City") is provided to furnish information in connection with the sale of the "City of San Antonio, Texas General Improvement and Refunding Bonds, Series 2005," in the principal amount of \$116,170,000 (the "2005 Bonds") and the "City of San Antonio, Texas Combination Tax and Revenue Certificates of Obligation, Series 2005," in the principal amount of \$10,535,000 (the "2005 Certificates"). The 2005 Bonds and the 2005 Certificates are collectively referred to herein as the "2005 Obligations." A portion of the principal amount of the 2005 Bonds (i.e., \$30,160,000) represents the second installment of general obligation bonds approved at an election held in the City on November 4, 2003. (See "DEBT AND TAX RATE LIMITATIONS - Authorized but Unissued Ad Valorem Tax Debt" herein.)

There follow in this Official Statement descriptions of the 2005 Obligations, the 2005 Bond Ordinance (defined herein), and the 2005 Certificate Ordinance (defined herein) (the 2005 Bond Ordinance and the 2005 Certificate Ordinance, collectively herein, the "2005 Ordinances"); and certain other information about the City and its finances. All descriptions of documents contained herein are only summaries and are qualified in their entirety by reference to each such document. Copies of such documents may be obtained from the City at the Office of the Director of Finance, City Hall Annex, 506 Dolorosa, San Antonio, Texas, 78204; or from the City's Co-Financial Advisors, Coastal Securities, 600 Navarro, Suite 350, San Antonio, Texas, 78205 and Estrada Hinojosa & Company, Inc., 100 West Houston Street, Suite 1485, San Antonio, Texas, 78205, by electronic mail or upon payment of reasonable copying, mailing, and handling charges.

This Official Statement speaks only as to its date. The information contained herein is subject to change. Copies of the final Official Statement and the Escrow Agreement (hereinafter defined) will be filed with the Municipal Securities Rulemaking Board, 1900 Duke Street, Suite 600, Alexandria, Virginia 22314. (See "CONTINUING DISCLOSURE OF INFORMATION" for a description of the City's undertaking to provide certain information on a continuing basis.)

PURPOSES AND PLAN OF FINANCING

Purpose of the 2005 Bonds

The 2005 Bonds are being issued to provide funds: (1) to finance the construction of general improvements to the City, including (a) streets and pedestrian improvements; (b) drainage improvements; (c) library improvements; (d) parks and recreation improvements; (e) public health and safety improvements; (2) to refund certain outstanding obligations of the City identified on Schedule I attached hereto (the "Refunded Obligations"); and (3) to pay the costs of issuance of the 2005 Bonds.

Refunded Obligations

The Refunded Obligations, and interest due thereon, are to be paid on the scheduled payment dates from funds to be deposited with JPMorgan Chase Bank, National Association, Dallas, Texas (the "Escrow Agent") pursuant to an

Escrow and Trust Agreement dated as of the date hereof (the “Escrow Agreement”) between the City and the Escrow Agent. See Schedule I for a list of the Refunded Obligations.

The 2005 Bond Ordinance provides that the City will deposit certain proceeds of the sale of the 2005 Bonds along with other lawfully available funds of the City with the Escrow Agent in the amount necessary to accomplish the discharge and final payment of the Refunded Obligations. Such funds will be held by the Escrow Agent in an escrow fund (the “Escrow Fund”) irrevocably pledged to the payment of principal of and interest on the Refunded Obligations and will be used to purchase certain obligations of the United States of America and obligations of agencies or instrumentalities of the United States, including obligations that are unconditionally guaranteed by the agency or instrumentality, that are noncallable and that were, on the date the 2005 Bond Ordinance was adopted, rated as to investment quality by a nationally recognized rating firm not less than “AAA” (the “Federal Securities”). Such maturing principal of and interest on the Federal Securities will not be available to pay the debt service requirements on the 2005 Obligations. Under the general laws of the State of Texas (the “State”), particularly Section 1207.062(b), as amended, Texas Government Code, “AAA”-rated obligations of agencies or instrumentalities of the United States may be deposited with the Escrow Agent under the terms of the Escrow Agreement for payment and defeasance of the Refunded Obligations issued after September 1, 1999.

Simultaneously with the issuance of the 2005 Bonds, the City will give irrevocable instructions to provide notice, if any, to the owners of the Refunded Obligations that the Refunded Obligations will be redeemed prior to stated maturity on which date money will be made available to redeem the Refunded Obligations from money held under the Escrow Agreement.

Issuance of the 2005 Obligations will be subject to delivery by Grant Thornton, LLP, Minneapolis, Minnesota, certified public accounts (the “Accountants”), of a report of the mathematical accuracy of certain computations. The Accountants will verify from the information provided to them the mathematical accuracy as of the date of the closing on the 2005 Obligations of (1) the computations contained in the provided schedules to determine that the anticipated receipts from the Federal Securities and cash deposits listed in the schedules provided by Coastal Securities, to be held in escrow, will be sufficient to pay, when due, the principal and interest requirements of the Refunded Obligations, and (2) the computations of yield on both the Federal Securities and the 2005 Obligations contained in the provided schedules used by Co-Bond Counsel in their determination that the interest on the 2005 Obligations is excludable from the gross income of the holders thereof. The Accountants will express no opinion on the assumptions provided to them, nor as to the exemption from taxation of the interest on the 2005 Obligations. See “VERIFICATION OF ARITHMETICAL AND MATHEMATICAL COMPUTATIONS” herein. Such verification of accuracy of such mathematical computation will be based upon information and assumptions supplied by Coastal Securities, and such verification, information and assumptions will be relied on by Co-Bond Counsel in rendering its opinion described herein.

By the deposit of the Federal Securities, if any, and cash with the Escrow Agent pursuant to the Escrow Agreement, the City will have effected the defeasance of the Refunded Obligations pursuant to the terms of the ordinances authorizing the issuance of the Refunded Obligations. It is the opinion of Co-Bond Counsel that, as a result of such defeasance, the Refunded Obligations will no longer be payable from ad valorem taxes but will be payable solely from the principal of and interest on the Federal Securities, if any, and cash on deposit in the Escrow Fund and held for such purpose by the Escrow Agent, and that the Refunded Obligations will be defeased and are not to be included in or considered to be indebtedness of the City for the purpose of a limitation of indebtedness or for any other purpose. See “Appendix B-Form of Opinions of Co-Bond Counsel” herein.

The City has covenanted in the Escrow Agreement to make timely deposits to the Escrow Fund, from lawfully available funds, of any additional amounts required to pay the principal of, premium, if any, and interest on the Refunded Obligations if for any reason the cash balance on deposit or scheduled to be on deposit in the Escrow Fund should be insufficient to make such payment.

Sources and Uses of the 2005 Bonds

The following table summarizes the application of the proceeds resulting from the sale of the 2005 Bonds and the sources and uses of funds.

Sources of Funds

Principal Amount of the 2005 Bonds	\$116,170,000.00

Underwriters' Discount	<u>697,537.36</u>
Total Uses of Funds	<u>\$126,909,974.62</u>

Purpose of the 2005 Certificates

The 2005 Certificates will be used for the purpose of providing funds for the payment of contractual obligations to be incurred for making permanent public improvements and for other public purposes, to-wit: (1) constructing public safety improvements, including renovating and improving existing fire stations, (2) constructing drainage improvements, sidewalk improvements, bridge improvements, street improvements and drainage incidental thereto, (3) constructing improvements and renovations to existing municipal facilities, (4) acquiring, constructing, and renovating park facilities, (5) constructing improvements for flood control, dams, landscaping and amenities along the San Antonio River, (6) purchasing materials, supplies, machinery, land, and rights-of-way for authorized needs and purposes relating to public safety, drainage, street, parks, and public works purposes, and (7) payment of professional services related to the construction and financing of the aforementioned projects.

Sources and Uses of the 2005 Certificates

The following table summarizes the application of the proceeds resulting from the sale of the 2005 Certificates and the sources and uses of funds.

Sources of Funds

Principal Amount of the 2005 Certificates	\$10,535,000.00
Net Original Issue Premium	71,570.45
Accrued Interest	<u>55,983.08</u>
Total Sources of Funds	<u>\$10,662,553.53</u>

Uses of Funds

Project Fund Deposit	\$10,492,000.00
Interest and Sinking Fund Deposit	55,983.08
Costs of Issuance	50,676.78
Underwriters' Discount	<u>63,893.67</u>
Total Uses of Funds	<u>\$10,662,553.53</u>

THE 2005 OBLIGATIONS

General Description

Interest on the 2005 Obligations accrues from March 15, 2005 and is payable semiannually on February 1 and August 1 of each year, commencing August 1, 2005. The principal of and interest on the 2005 Obligations are payable in the manner described herein under "Book-Entry-Only System." In the event the Book-Entry-Only System is discontinued, the interest on the 2005 Obligations will be payable to the registered owner as shown on the security register maintained by JPMorgan Chase Bank, National Association, Dallas, Texas, as the initial Paying Agent/Registrar, as of the fifteenth (15th) day of the month next preceding such interest payment date by check, mailed first-class, postage prepaid, to the address of such person on the security register, or by such other method acceptable to the Paying Agent/Registrar requested by and at the risk and expense of the registered owner. In the event the Book-Entry-Only System is discontinued, the principal of the 2005 Obligations will be payable at stated maturity or prior redemption upon presentation and surrender thereof at the designated payment office of the Paying Agent/Registrar.

If the date for the payment of the principal of or interest on the 2005 Obligations is a Saturday, Sunday, a legal holiday, or a day when banking institutions in the city where the Paying Agent/Registrar is located are authorized to close or the United States Post Office is not open for business, then the date for such payment will be the next succeeding day which is not such a day, and payment on such date will have the same force and effect as if made on the date payment was due.

Authority for Issuance of the 2005 Bonds

The 2005 Bonds are issued pursuant to the Home Rule Charter of the City (the "City Charter"); the general laws of the State, particularly Chapters 1207, 1251 and 1331, Texas Government Code, as amended; an election held within the City on November 4, 2003; and the ordinance adopted by the City Council of the City (the "City Council") on March 31, 2005 authorizing the issuance of the 2005 Bonds (the "2005 Bond Ordinance"). A portion of the principal amount of the 2005 Bonds (i.e., \$30,160,000) represents the second installment of the total amount of \$115,000,000 general obligation bonds approved at an election held in the City on November 4, 2003. (See "DEBT AND TAX RATE LIMITATIONS - Authorized but Unissued Ad Valorem Tax Debt" herein.)

Authority for Issuance of the 2005 Certificates

The 2005 Certificates are issued pursuant to the City Charter; the general laws of the State, including the Certificate of Obligation Act of 1971, as amended, Chapter 271, Subchapter C, Texas Local Government Code, and Chapter 1502, Texas Government Code, as amended; and the ordinance adopted by the City Council on March 31, 2005 authorizing the issuance of the 2005 Certificates (the "2005 Certificate Ordinance," which together with the 2005 Bond Ordinance are collectively referred to herein as the "2005 Ordinances").

Security

Ad Valorem Tax Pledge

In the 2005 Ordinances, the City covenants that it will levy and collect an annual ad valorem tax within the limitations prescribed by law against all taxable property located within the City sufficient to meet the debt service requirements on the 2005 Obligations. The City had outstanding, as of March 15, 2005, \$867,506,140 in principal amount of tax-supported obligations prior to the issuance of the 2005 Obligations. After effectuating delivery of the 2005 Obligations on or about April 27, 2005, the City's outstanding principal amount of indebtedness payable from ad valorem taxes will be \$907,801,140, assuming no other obligations are issued prior to such date.

Tax Rate Limitations

The Texas Constitution and the City Charter provide that the ad valorem taxes levied by the City for general purposes and for the purpose of paying the principal of and interest on the City's indebtedness must not exceed \$2.50 for each \$100 of assessed valuation of taxable property. There is no constitutional or statutory limitation within the \$2.50 rate for interest and sinking fund purposes; however, the Texas Attorney General, who must approve the issuance of the 2005 Obligations, has adopted an administrative policy that prohibits the issuance of debt by a municipality, such as the City, if its issuance produces debt service requirements exceeding that which can be paid from \$1.50 of the foregoing \$2.50 maximum tax rate calculated at 90% collections. In addition, the City is subject to a City Charter provision that limits the amount of debt payable from the ad valorem tax proceeds. This City Charter provision prohibits the total debt of the City from exceeding 10% of the total assessed valuation of property shown by the last assessment roll, exclusive of any indebtedness secured in whole or in part by special assessments, exclusive of the debt of any improvement district, and exclusive of any indebtedness secured by revenues, other than taxes of the City or of any department or agency thereof. The issuance of the 2005 Obligations does not result in the City's violation of these provisions.

Limited Net Revenue Pledge for the 2005 Certificates

Solely to comply with Texas law allowing the 2005 Certificates to be sold for cash, the 2005 Certificates are additionally secured by a lien on and pledge of a portion of the net revenues the City receives from its ownership and operation of its municipal parks system (the "System") in an amount not to exceed \$1,000 (the "Pledged Revenues") during the entire period the 2005 Certificates or interest thereon remain outstanding. Such lien on and pledge of Pledged Revenues, however, is subordinate and inferior to the lien on and pledge of the net revenues of the System securing any Revenue Obligations hereafter issued by the City, but prior and superior to the lien on and pledge of the Surplus Revenues, which are pledged to the payment of the City's currently outstanding Inferior Lien Obligations or any Additional Inferior Lien Obligations hereafter issued by the City (each as described and defined in the 2005 Certificate Ordinance). Additionally, the City previously authorized the issuance of the Limited Pledge Obligations that are payable from and secured by a lien on and pledge of a limited amount of the net revenues of the System in accordance with the ordinances authorizing the issuance of the Limited Pledge Obligations. The City has reserved the right to issue Revenue Obligations, Additional Limited Pledge Obligations, and Additional Inferior Lien Obligations without limitation as to principal amount but subject to any terms, conditions, or restrictions as may be applicable thereto under law or otherwise.

Even though the City has pledged the Pledged Revenues of the System to further secure the 2005 Certificates, the City does not expect that any net revenues from the System will actually be utilized to pay debt service requirements on the 2005 Certificates.

Redemption Provisions

Optional Redemption

The City reserves the right, at its sole option, to redeem 2005 Obligations stated to mature on or after February 1, 2016, in whole or in part, in principal amounts of \$5,000 or any integral multiple thereof on February 1, 2015, or any date thereafter, at the par value thereof plus accrued interest to the date fixed for redemption. The City will determine the maturity or maturities, and the principal amount of the 2005 Obligations within each maturity to be redeemed. If less than all of the 2005 Bonds within a stated maturity are to be redeemed, the particular 2005 Bonds to be redeemed will be selected at random and by lot by the Paying Agent/Registrar. If less than all of the 2005 Certificates within a stated maturity are to be redeemed, the particular 2005 Certificates to be redeemed will be selected at random and by lot by the Paying Agent/Registrar.

Notice of Redemption

At least 30 days prior to the date fixed for any redemption of any 2005 Obligations, or portions thereof, prior to stated maturity, the City must cause written notice of such redemption to be sent by United States mail, first-class, postage prepaid, to the registered owner of each of the 2005 Obligations or a portion thereof to be redeemed at its address as it appeared on the registration books of the Paying Agent/Registrar on the day such notice of redemption is mailed. By

the date fixed for any such redemption, due provision must be made with the Paying Agent/Registrar for the payment of the required redemption price for the 2005 Obligations or portions thereof which are to be so redeemed. If such notice of redemption is given and if due provision for such payment is made, all as provided above, the 2005 Obligations or portions thereof which are to be so redeemed thereby automatically will be treated as redeemed prior to their scheduled maturities, and they will not bear interest after the date fixed for redemption, and they will not be regarded as being outstanding except for the right of the registered owner to receive the redemption price from the Paying Agent/Registrar out of the funds provided for such payment.

Denominations

The 2005 Obligations of a denomination larger than \$5,000 may be redeemed in part (\$5,000 or any integral multiple thereof). Any of the 2005 Obligations to be partially redeemed may be surrendered in exchange for one or more new 2005 Obligations in authorized denominations of the same stated maturity, series, and interest rate for the unredeemed portion of the principal.

Redemption through The Depository Trust Company

The Paying Agent/Registrar and the City, so long as a Book-Entry-Only System is used for the 2005 Obligations, will send any notice of redemption, notice of proposed amendment to the 2005 Ordinances, or other notices with respect to the 2005 Obligations only to DTC (defined herein). Any failure by DTC to advise any DTC Participant, or of any DTC Participant or Indirect Participant to notify the Beneficial Owner, will not affect the validity of the redemption of the 2005 Obligations called for redemption or any other action premised on any such notice. Redemption of portions of the 2005 Obligations by the City will reduce the outstanding principal amount of such 2005 Obligations held by DTC. In such event, DTC may implement, through its Book-Entry-Only System, a redemption of such 2005 Obligations held for the account of DTC Participants in accordance with its rules or other agreements with DTC Participants and then DTC Participants and Indirect Participants may implement a redemption of such 2005 Obligations from the Beneficial Owners. Any such selection of 2005 Obligations to be redeemed will not be governed by the 2005 Ordinances and will not be conducted by the City or the Paying Agent/Registrar. Neither the City nor the Paying Agent/Registrar will have any responsibility to DTC Participants, Indirect Participants, or the persons for whom DTC Participants act as nominees, with respect to the payments on the 2005 Obligations or the providing of notice to DTC Participants, Indirect Participants, or Beneficial Owners of the selection of portions of the 2005 Obligations for redemption. (See "Book-Entry-Only System" herein.)

Paying Agent/Registrar

The initial Paying Agent/Registrar is JPMorgan Chase Bank, National Association, Dallas, Texas. In the 2005 Ordinances, the City covenants to provide a competent and legally qualified bank, trust company, financial institution, or other entity to act as and perform the services of Paying Agent/Registrar at all times until the 2005 Obligations are duly paid. In the 2005 Ordinances, the City retains the right to replace the Paying Agent/Registrar. If the Paying Agent/Registrar is replaced by the City, the new Paying Agent/Registrar must accept the previous Paying Agent/Registrar's records and act in the same capacity as the previous Paying Agent/Registrar. Any successor Paying Agent/Registrar, selected at the sole discretion of the City, must be a bank, trust company, financial institution, or other entity duly qualified and legally authorized to serve as a Paying Agent/Registrar for the 2005 Obligations. Upon a change in the Paying Agent/Registrar for the 2005 Obligations, the City will promptly cause written notice thereof to be sent to each registered owner of the 2005 Obligations by United States mail, first-class, postage prepaid.

Transfer, Exchange and Registration

In the event the 2005 Obligations are not in the Book-Entry-Only System, the 2005 Obligations may be registered, transferred, assigned, and exchanged on the registration books of the Paying Agent/Registrar only upon presentation and surrender thereof to the Paying Agent/Registrar, and such registration, transfer, and exchange will be without expense or service charge to the registered owner, except for any tax or other governmental charges required to be paid with respect to such registration, transfer, and exchange. A 2005 Obligation may be assigned by the execution of an assignment form on the 2005 Obligations or by other instrument of transfer and assignment acceptable to the Paying Agent/Registrar. A new 2005 Obligation or 2005 Obligations will be delivered by the Paying Agent/Registrar in lieu of

the 2005 Obligations being transferred or exchanged at the designated payment office of the Paying Agent/Registrar, or sent by United States registered mail to the new registered owner at the registered owner's request, risk, and expense. New 2005 Obligations issued in an exchange or transfer of 2005 Obligations will be delivered to the registered owner or assignee of the registered owner, to the extent possible, within three business days after the receipt of the 2005 Obligations to be canceled in the exchange or transfer and the written instrument of transfer or request for exchange duly executed by the registered owner or his duly authorized agent, in form satisfactory to the Paying Agent/Registrar. New 2005 Obligations registered and delivered in an exchange or transfer will be in denominations of \$5,000 for any one stated maturity or any integral multiple thereof and for a like aggregate principal amount, series, and rate of interest as the 2005 Obligations surrendered for exchange or transfer. (See "THE 2005 OBLIGATIONS - Book-Entry-Only System" herein for a description of the system to be utilized in regard to ownership and transferability of the 2005 Obligations.)

Mutilated, Destroyed, Lost or Stolen 2005 Obligations

The City has agreed to replace damaged, mutilated, destroyed, lost, or stolen 2005 Obligations upon surrender of the damaged or mutilated 2005 Obligations to the Paying Agent/Registrar or receipt of satisfactory evidence of such destruction, loss, or theft, and receipt by the City and the Paying Agent/Registrar of security or indemnity as may be required by either of them to hold them harmless. The City may require payment of taxes, governmental charges, and other expenses in connection with any such replacement.

Limitation on Transfer

Neither the City nor the Paying Agent/Registrar will be required to transfer or exchange any 2005 Obligations (1) during the period commencing at the close of business on the Record Date (as hereinafter defined) and ending at the opening of business on the next interest payment date; and (2) with respect to the 2005 Obligations selected for redemption in whole or in part, within 45 days of the date fixed for redemption; provided, however, that this limitation is not applicable to the transfer or exchange of the unredeemed balance of the 2005 Obligations called for redemption in part.

Defaults and Remedies

The 2005 Ordinances do not establish specific events of default or remedies with respect to the 2005 Obligations. If the City defaults in the payment of the principal and interest on any 2005 Obligation when due, or defaults in the observance or performance of any covenants, conditions, or obligations set forth in the respective 2005 Ordinances, any registered owner of the series of obligations as to which the default occurred is entitled to seek a writ of mandamus from a court of proper jurisdiction requiring the City to make such payment or observe and perform such covenants, conditions, or obligations. Such right is in addition to any other rights the registered owners of 2005 Obligations may be provided by the laws of the State. Under State law, there is no right to the acceleration of maturity of the 2005 Obligations upon the failure of the City to observe any covenant under the 2005 Ordinances. Although a registered owner of 2005 Obligations could presumably obtain a judgment against the City if a default occurred in payment of principal or interest on any such 2005 Obligations, such judgment could not be satisfied by execution against any property of the City. Such registered owner's only practical remedy, if a default occurs, is a mandamus or mandatory injunction proceeding to compel the City to levy, assess, and collect an annual ad valorem tax sufficient to pay principal of and interest on the 2005 Obligations as it becomes due. The enforcement of any such remedy may be difficult and time-consuming and a registered owner could be required to enforce such remedy on a periodic basis. The 2005 Ordinances do not provide for the appointment of a trustee to represent the interest of the holders of the 2005 Obligations upon any failure of the City to perform in accordance with the terms of such 2005 Ordinances, or upon any other condition. Furthermore, the City is eligible to seek relief from its creditors under Chapter 9 of the U.S. Bankruptcy Code ("Chapter 9"). Although Chapter 9 provides for the recognition of a security interest represented by a specifically pledged source of revenues, the pledge of taxes in support of a general obligation debt of a bankrupt entity is not specifically recognized as a security interest under Chapter 9. Chapter 9 also includes an automatic stay provision that would prohibit, without Bankruptcy Court approval, the prosecution of any other legal action by creditors or bondholders of an entity which has sought protection under Chapter 9. Therefore, should the City avail itself of Chapter 9 protection from creditors, the ability to enforce remedies would be subject to the approval of the Bankruptcy Court (which could require that the action be heard in Bankruptcy Court instead of other federal or state court), and the

Bankruptcy Code provides for broad discretionary powers of a Bankruptcy Court in administering any proceeding brought before it. The opinions of Co-Bond Counsel will note that all opinions relative to the enforceability of the 2005 Ordinances and the 2005 Obligations are qualified with respect to the customary rights of debtors relative to their creditors.

Record Date for Interest Payment

The record date for determining the person to whom the interest is payable on any interest payment date (the “Record Date”) is the fifteenth (15th) day of the month next preceding such interest payment date, as specified in the 2005 Ordinances. In the event of a non-payment of interest on a scheduled payment date, and for 30 days thereafter, a new Record Date for such interest payment (a “Special Record Date”) will be established by the Paying Agent/Registrar, if and when funds for the payment of such interest have been received from the City. Notice of the Special Record Date and of the scheduled payment date of the past due interest (which must be 15 days after the Special Record Date) will be sent at least five business days prior to the Special Record Date by United States mail, first class, postage prepaid, to the address of each registered owner of a 2005 Obligation appearing on the registration books of the Paying Agent/Registrar at the close of business on the day next preceding the date of mailing of such notice.

Amendments

The City may amend, change, or modify either of the 2005 Ordinances without the consent of or notice to any registered owners, as may be required (1) by the provisions of the 2005 Ordinances; (2) for the purpose of curing any ambiguity, inconsistency, or formal defect or omission therein; or (3) in connection with any other change which is not to the prejudice of the registered owners. In addition, the City may, with the written consent of the holders of a majority in aggregate principal amount of each respective series of the 2005 Obligations then outstanding and affected thereby, amend, change, modify, or rescind any of the provisions of either the 2005 Bond Ordinance and/or the 2005 Certificate Ordinance; except that, without the consent of the registered owners of all of each respective series of the 2005 Obligations affected, no such amendment, change, modification, or rescission may (1) change the date specified as the date on which the principal of or any installment of interest on any 2005 Obligations is due and payable, reduce the principal amount thereof or the rate of interest thereon, or in any other way modify the terms of payment of the principal of, redemption price, or interest on the 2005 Obligations; (2) give any preference to any 2005 Obligations over any other 2005 Obligations; (3) extend any waiver of default to subsequent defaults; or (4) reduce the respective aggregate principal amount of 2005 Obligations required for consent to any amendment, change, modification, or rescission.

Defeasance

The 2005 Ordinances provide for the defeasance of the 2005 Obligations when the payment of the principal of the respective 2005 Obligations, plus interest thereon to the due date thereof (whether such due date be by reason of maturity, redemption, or otherwise), is provided by irrevocably depositing with a paying agent, in trust (1) money sufficient to make such payment and/or (2) Government Securities, certified by an independent public accounting firm of national reputation to mature as to principal and interest in such amounts and at such times to insure the availability, without reinvestment, of sufficient money to make such payment. The 2005 Ordinances provide that “Government Securities” means (i) direct, noncallable obligations of the United States of America, including obligations that are unconditionally guaranteed by the United States of America, including obligations that are unconditionally guaranteed or insured by the agency or instrumentality and that are rated as to investment quality by a nationally recognized investment rating firm not less than “AAA” or its equivalent; and (ii) noncallable obligations of a state or an agency or a county, municipality, or other political subdivision of a state that have been refunded and that are rated as to investment quality by a nationally recognized investment rating firm not less than “AAA” or its equivalent. The City has additionally reserved the right, subject to satisfying the requirements of (1) and (2) above, to substitute other Government Securities for the Government Securities originally deposited, to reinvest the uninvested moneys on deposit for such defeasance and to withdraw for the benefit of the City moneys in excess of the amount required for such defeasance.

Upon such deposit as described above, such 2005 Obligations will no longer be regarded as being outstanding or unpaid; provided, however, the City has reserved the option, to be exercised at the time of the defeasance of the

2005 Obligations, to call for redemption, at an earlier date, those 2005 Obligations which have been defeased to their maturity date, if the City (1) in the proceedings for the firm banking and financial arrangements, expressly reserves the right to call the 2005 Obligations for redemption; (2) gives notice of the reservation of that right to the owners of the 2005 Obligations immediately following the making of the firm banking and financial arrangements; and (3) directs that notice of the reservation be included in any redemption notices that it authorizes.

Payment Record

The City has never defaulted in payments on its bonded indebtedness.

Book-Entry-Only System

This section describes how ownership of the 2005 Obligations is to be transferred and how the principal of, premium, if any, and interest on the 2005 Obligations are to be paid to and credited by The Depository Trust Company, New York, New York (“DTC”), while the 2005 Obligations are registered in its nominee name. The information in this section concerning DTC and the Book-Entry-Only System has been provided by DTC for use in disclosure documents such as this Official Statement. The City believes the source of such information to be reliable, but takes no responsibility for the accuracy or completeness thereof.

The City cannot and does not give any assurance that (1) DTC will distribute payments of debt service on the 2005 Obligations, or redemption or other notices, to DTC Participants, (2) DTC Participants or others will distribute debt service payments paid to DTC or its nominee (as the registered owner of the 2005 Obligations), or redemption or other notices, to the Beneficial Owners, or that they will do so on a timely basis, or (3) DTC will serve and act in the manner described in this Official Statement. The current rules applicable to DTC are on file with the Securities and Exchange Commission, and the current procedures of DTC to be followed in dealing with DTC Participants are on file with DTC.

DTC will act as securities depository for the 2005 Obligations. The 2005 Obligations will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered certificate will be issued for the 2005 Obligations, in the aggregate principal amount of such issue, and will be deposited with DTC.

DTC, the world’s largest depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 2 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments from over 100 countries that its participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC, in turn, is owned by a number of Direct Participants of DTC and Members of the National Securities Clearing Corporation, Fixed Income Clearing Corporation, and Emerging Markets Clearing Corporation (NSCC, GSCC, MBSCC, and EMCC, also subsidiaries of DTCC), as well as the New York Stock Exchange, Inc., the American Stock Exchange, Inc., and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has Standard & Poor’s highest rating: “AAA.” The DTC Rules applicable to its participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of the 2005 Obligations under the DTC system must be made by or through Direct Participants, which will receive a credit for the 2005 Obligations on DTC’s records. The ownership interest of each actual purchaser of

the 2005 Obligations (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interest in the 2005 Obligations are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the 2005 Obligations, except in the event that use of the book-entry system for the 2005 Obligations is discontinued.

To facilitate subsequent transfers, all 2005 Obligations deposited by Direct Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of the 2005 Obligations with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the 2005 Obligations; DTC’s records reflect only the identity of the Direct Participants to whose accounts such 2005 Obligations are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of 2005 Obligations may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the 2005 Obligations, such as redemptions, tenders, defaults, and proposed amendments to the 2005 Obligation documents. For example, Beneficial Owners of the 2005 Obligations may wish to ascertain that the nominee holding the 2005 Obligations for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the 2005 Obligations within an issue are being redeemed, DTC’s practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the 2005 Obligations unless authorized by a Direct Participant in accordance with DTC’s Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the City as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.’s consenting or voting rights to those Direct Participants to whose accounts the 2005 Obligations are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, principal, and interest payments on the 2005 Obligations will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC’s practice is to credit Direct Participants’ accounts upon DTC’s receipt of funds and corresponding detail information from the City or the Paying Agent/Registrar, on payable date in accordance with their respective holdings shown on DTC’s records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in “street name,” and will be the responsibility of such Participant and not of DTC (nor its nominee), the Paying Agent/Registrar or the City, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, principal and interest payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the City, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the 2005 Obligations at any time by giving reasonable notice to the City. Under such circumstances, in the event that a successor depository is not obtained, 2005 Obligations are required to be printed and delivered.

The City may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, 2005 Obligations will be printed and delivered.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the City believes to be reliable, but the City takes no responsibility for the accuracy thereof.

So long as Cede & Co. is the registered owner of the 2005 Obligations, the City will have no obligation or responsibility to the DTC Participants or Indirect Participants, or the persons for which they act as nominees, with respect to payment to or providing of notice to such Participants, or the persons for which they act as nominees.

Use of Certain Terms in Other Sections of this Official Statement

In reading this Official Statement it should be understood that while the 2005 Obligations are in the Book-Entry-Only System, references in other sections of this Official Statement to registered owners should be read to include the person for which the Direct Participant or Indirect Participant acquires an interest in the 2005 Obligations, but (i) all rights of ownership must be exercised through DTC and the Book-Entry-Only System, and (ii) except as described above, notices that are to be given to registered owners under the 2005 Ordinances will be given only to DTC.

The following Tables 1A – 6 contain information on assessed valuation, debt payable from ad valorem taxes, estimated debt payable from ad valorem taxes, tax adequacy, indicated interest and sinking fund, ad valorem tax debt principal repayment schedule, and debt obligations – capital leases payable.

¹ Excludes the Refunded Obligations.

Debt Obligations – Capital Leases Payable**Table 6**

The City has entered into various lease purchase agreements for the acquisition of computers, copiers, fire trucks, golf operations equipment, public works equipment, a high capacity trailer, a library automation system, and a hazardous materials (“HAZMAT”) vehicle. Shown below is the gross value of the assets at September 30, 2004. Payments on each of the lease purchases will be made from budgeted annual appropriations to be approved by the City Council. The following is a schedule of the projected remaining future minimum lease payments under these capital leases together with the present value of the net minimum lease payments as of September 30, 2004.

Description	Lease Termination Date	Present Value Of Minimum Lease Payments *	Amount Representing Interest *	Total Future Minimum Lease Payments *
Color Copier	12/1/2007	\$ 85,570	\$ 15,691	\$ 101,261

Total		\$ 7,531,610	\$ 397,314	\$ 7,928,924

The adopted budget for fiscal year 2005 included appropriations for a lease purchase arrangement to acquire self-contained breathing apparatus components for the City’s Fire Department. Additionally, a mainframe computer system and software licenses were lease purchased for the Information Technology Services Department. This funding occurred on February 24, 2005, in the principal amount of \$2,606,437.

* Unaudited.

On May 15, 2001, the City became obligated to pay \$14,465,000 in lease revenue bonds issued through the City of San Antonio, Texas Municipal Facilities Corporation (the “Corporation”) to provide funds for the construction of the “One Stop Development Services Center,” a municipal office facility. The City and the Corporation entered into a lease whereby the Corporation agreed to cause such facility to be built and leased by the City, and the City agreed to annually appropriate funds to pay lease payments sufficient to pay principal and interest on the bonds when due. The lease commenced on May 15, 2001 and the City has budgeted \$1.180 million for lease payments during fiscal year 2005. The table below shows the debt service schedule for the aforementioned bonds. In addition to the debt service on these bonds, the lease payments include other expenses related to the operation and maintenance of the facility.

Fiscal Year Ended 09/30	Principal	Interest	Annual Debt Service
2005	\$ 570,000	\$ 610,180.00	\$ 1,180,180.00

AD VALOREM TAXATION

Authority to Levy Ad Valorem Taxes; Tax Rate Limitations

The City is authorized to levy an annual ad valorem tax, within the limits prescribed by law, on all taxable property within the City in an amount sufficient to pay the principal of and interest on debt payable therefrom. The City is also authorized to levy an annual ad valorem tax for operations and maintenance purposes. The maximum rate that may be levied by the City for all City purposes is \$2.50 per \$100 assessed valuation as provided in Article XI, Section 5 of the Texas Constitution and as provided in the City Charter, which adopts this constitutional limitation. No direct funded debt limitation is imposed on the City under current Texas law; however, the Texas Attorney General has adopted an administrative policy that prohibits the issuance of general obligation debt by a municipality, such as the City, if the issuance produces debt service requirements exceeding that which can be paid from \$1.50 of the foregoing \$2.50 maximum tax rate calculated at 90% of collections. In addition, the City Charter provides that the total bonded debt of the City must never exceed 10% of the total assessed valuation of property shown by the last assessment roll, exclusive of (1) any indebtedness secured in whole or in part by special assessments; (2) the bonded debt of any improvement district; and (3) any indebtedness secured by revenues, other than taxes of the City or of any department or agency thereof. The issuance of the 2005 Obligations does not violate these limitations. (See “DEBT AND TAX RATE LIMITATIONS” herein.)

Texas Property Tax Code and County-Wide Appraisal District

The Texas Property Tax Code, located at Title 1, Texas Tax Code, as amended (the “Property Tax Code”), specifies the taxing procedures of all political subdivisions of the State, including the City. The provisions of the Property Tax Code are complex and are not fully summarized here.

The Property Tax Code requires, among other matters, county-wide appraisal and equalization of taxable property values and establishes in each county of the State an appraisal district with the responsibility for recording and appraising property for all taxing units within a county and an appraisal review board with responsibility for reviewing and equalizing the values established by the appraisal district. The Bexar Appraisal District (the "Appraisal District") has the responsibility for appraising property for all taxing units within Bexar County. Approximately 1.23 acres of the City's taxable property is located in Comal County. The Comal Appraisal District has the responsibility for appraising property for all taxing units within Comal County. Such appraisal values are subject to review and change by the Bexar Appraisal Review Board and the Comal Appraisal Review Board.

Once an appraisal roll is prepared and approved by the Bexar Appraisal Review Board, it is used by the City in calculating its tax rates and preparing a tax roll. Assessments under the Property Tax Code are based on 100% of appraised value. The Property Tax Code requires the Appraisal District to implement a plan for periodic reappraisal of property to update appraised values. The plan shall provide for reappraisal of all real property at least once every three years.

The City, by resolution adopted by its governing body, may require the Appraisal District to appraise all property within the City or to identify and appraise newly annexed territory and new improvements in the City as of a date specified in the resolution. The City must pay the Appraisal District for the cost of making such an appraisal. While such a current estimate of appraised value may serve to indicate the growth of taxable values within the City, it may not be used by the City as the basis for the imposition of property taxes.

Under certain circumstances, taxpayers and taxing units (such as the City) may appeal the orders of the Bexar Appraisal Review Board by filing a timely petition for review in State district court. In such event, the value of the property in question will be determined by the court or by a jury if requested by any party. Additionally, taxing units may bring suit against the Appraisal District to compel compliance with the Property Tax Code.

Property Subject to Taxation by the City

Except for certain exemptions provided by Texas law, all real property, tangible personal property held or used for the production of income, mobile homes, and certain categories of intangible property with a tax status in the City is subject to taxation by the City. Principal categories of exempt property include, but are not limited to, property owned by the State or its political subdivisions if the property is used for public purposes; property exempt from ad valorem taxation by federal law; implements of husbandry that are used in the production of ranch and farm products; family supplies for home or farm use; certain goods, wares and merchandise in transit; farm products owned by the producer; certain property of charitable organizations, youth development associations, religious organizations, certain community housing development organizations' property, and qualified schools; designated historical sites; and tangible personal property not held for the production of income (unless the City elects to tax such tangible personal property).

Residential Homestead Exemptions

The Property Tax Code authorizes the governing body of each political subdivision in the State, at its option, to exempt up to 20% of the appraised value of residential homesteads from ad valorem taxation. The City may be required to offer such an exemption if a majority of voters approve it at an election. The City would be required to call such an election upon petition by 20% of the number of qualified voters who voted in the preceding election. Where ad valorem taxes have previously been pledged for the payment of debt, the governing body of a political subdivision may continue to levy and collect taxes against the exempt value of the homesteads until the debt is discharged, if the cessation of the levy would impair the obligations of the contract by which the debt was created. The adoption of this additional residence homestead exemption may be considered each year, but must be adopted by July 1.

The Texas Property Tax Code authorizes the governing body of a taxing unit to adopt a residence homestead exemption for individuals who are disabled or sixty-five (65) years of age or older in a fixed amount of no less than \$3,000 of the appraised value of the homestead. The City currently grants a \$65,000 residential homestead exemption to persons 65 years of age or older, effective as of January 1 of the tax year in which such person attains the age of sixty-five.

In addition, the City Council, through Ordinance No. 100324, adopted a residence homestead property tax exemption in the amount of \$12,500 in assessed valuation for persons who are disabled, commencing with the 2005 tax year. The term “disabled” means under a disability for purposes of receiving disability insurance benefits under the Federal Old Age, Survivors and Disability Insurance Act administered by the Social Security Administration.

Individuals who qualify for both the Over-65 Residence Homestead Exemption and the Disabled Residence Homestead Exemption, may not receive both exemptions, but must choose only one of the exemptions.

At an election held on September 13, 2003, the voters of the State of Texas approved a constitutional amendment authorizing counties, cities, towns or junior college districts to establish an ad valorem “tax freeze” on residence homesteads of the disabled and persons sixty-five years of age or older. This “tax freeze” can be implemented by official action of a governing body, which includes the governing body calling an election on its own motion, or pursuant to an election called by the governing body upon receipt of a petition signed by five percent (5%) of registered voters of the political subdivision.

The City Council, through Ordinance No. 100323, added a proposition to the May 7, 2005 ballot that, if approved, would establish a limitation, or tax freeze, on the ad valorem taxes imposed on the homestead of a person who is disabled or 65 years of age or older.

If the tax limitation is established, the total amount of ad valorem taxes imposed by the City on a homestead that receives the exemption may not be increased while it remains the residence homestead of that person or that person’s spouse who is disabled or sixty-five years of age or older, except to the extent the value of the homestead is increased by improvements other than repairs and other than improvements made to comply with governmental requirements. If a disabled or elderly person dies in a year in which the person received a residence homestead exemption, the total amount of ad valorem taxes imposed on the homestead by the taxing unit may not be increased while it remains the residence homestead of that person’s surviving spouse if the spouse is fifty-five years of age or older at the time of the person’s death. In addition, the Texas Legislature by general law may provide for the transfer of all or a proportionate amount of the tax limitation applicable to a person’s homestead to be transferred to the new homestead of such person if the person moves to a different residence within the taxing unit. Once established, the governing body of the taxing unit may not repeal or rescind the tax limitation.

Disabled/Deceased Veterans’ Exemptions

The Property Tax Code mandates that a disabled veteran or certain surviving dependents are entitled to an exemption from taxation of a portion of the assessed value of a property they own. The amount of this exemption ranges from \$5,000 to \$12,000 and the exemption amount is based on the disability rating of the veteran as certified by the Veterans’ Administration.

Historical Property Exemptions

The City has granted an exemption to historically significant sites in need of tax relief to encourage preservation. Commercial buildings that meet definitions of historical sites and that have been substantially rehabilitated or restored will be exempt from taxation by the City for five tax years, and thereafter, will be taxed by the City at 50% of current assessed value for an additional five years. For the purposes of levying taxes, residential buildings meeting the definition of historical sites and having been substantially rehabilitated or restored will for a period of ten years retain the property value assessed prior to such rehabilitation or restoration.

Historical Preservation Area Exemptions

The City offers a 20% tax exemption for owner-occupied residences located within new local historic districts. The exemption is effective on the first day of historic district designation and extends for a maximum of 15 years (ten years plus a five-year extension). The purpose of the exemption is to offset any potential property tax increases and to limit gentrification in the district, a term which refers to the effect of forcing lower-income residents in a neighborhood to move, which often includes a higher proportion of elderly residents, because of higher property taxes. Property taxes may or may not increase as a result of historic designation. The Bexar County Appraisal

District does not automatically increase the assessed valuations of designated properties. Appraisals are based upon real estate market factors that affect consumer demand in an area, of which historic designation is one.

Freeport Goods Exemptions

“Freeport goods” are goods, wares, merchandise, other tangible personal property and ores, other than oil, natural gas, and other petroleum products, which have been acquired or brought into the State for assembling, storing, manufacturing, repair, maintenance, processing, or fabricating, or used to repair or maintain aircraft of a certified air carrier, and shipped out of the State within 175 days. As a result of a State constitutional amendment passed by Texas voters on November 7, 1989, goods in transit (“freeport goods”) are exempted from taxation. The City has elected to allow the exemption.

Article 8, Section 1-d-1 Special Appraisals

The Property Tax Code also provides special appraisal of open-space land devoted to farm, ranch, or wildlife management purposes on the basis of its productive capacity rather than its market value. If the open space designation is lost by changing the use of the property, the City can impose taxes on the land equal to the difference between the taxes imposed on the land for each of the five years preceding the year in which the change of use occurs and the tax that would have been imposed had the land been taxed on the basis of market value.

Tax Phase-In Agreements

The City may designate areas within the City as a reinvestment zone. Thereafter, the City may enter into a tax phase-in agreement with owners of property within the zone. Before entering into a tax phase-in agreement, each entity must adopt guidelines and criteria for establishing tax phase-ins in the zone, which each entity with taxing authority over the designated property will follow in granting tax phase-ins. The tax phase-in agreement may exempt from ad valorem taxation all or any part of any increase in the assessed valuation of property covered by the agreement over its assessed valuation in the year in which the agreement is executed. The property is exempt on the condition that the property owner makes specified improvements or repairs to the property in conformity with the terms of the tax phase-in agreement. The agreement may include each of the applicable taxing jurisdictions, including the City, for a period of up to 10 years. The City and County tax phase-in agreements are not required to be substantially the same, with the exception of projects located in a State-designated enterprise zone. Since 1989, the City has entered into 56 tax phase-in agreements; 28 are active; and 28 have expired or are inactive. The following table depicts, as of February 15, 2005, 28 active tax phase-in agreements.

Active Tax Phase-In Agreements

<u>Company</u>	<u>Phase-In Period</u>	<u>Phase-In Term (Years)</u>	<u>Percent of Phase-In (Type of Property)</u>

* City Council has approved the terms of a tax phase-in agreement with DPT, provided the expansion of their facilities will be located at Brooks City-Base. DPT has not yet made that decision.

Appraised Value Limitations

All real and personal property of the City within Bexar County must be appraised by the Appraisal District at market value as of January 1 of each year. The City's real and personal property within Comal County (which constitutes approximately 1.23 acres of the City's total taxable assessed valuation and, consequently, is not further reported in this Official Statement) is appraised by the Comal Appraisal District. Such appraisal values are subject to review and change by the Bexar Appraisal Review Board and the Comal Appraisal Review Board, respectively. State law, however, provides for limitations on appraised value of residential homesteads. The appraised value of a residential homestead may not exceed the lesser of:

1. the market value of the property; or
2. the sum of:
 - a. 10% of the appraised value of the property for the last year in which the property was appraised times the number of years since the property was last appraised;
 - b. the appraised value of the property for the last year in which the property was appraised; and the market value of all new improvements to the property.

Absolute Pro-Rated Exemptions

If the federal government, the State, or a political subdivision of the State acquires title to taxable property, the amount of the tax due on the property is calculated by multiplying the amount of taxes imposed on the property for the entire year by a fraction, the denominator of which is 365 and the numerator of which is the number of days that elapsed prior to the date of the conveyance.

Effective Tax Rate and Rollback Tax Rates

The City must annually calculate and publicize its "effective tax rate" and "rollback tax rate." The City Council may not adopt a tax rate that exceeds the lower of the rollback tax rate or 103% of the effective tax rate until it has held a public hearing on the proposed increase following notice to the taxpayers and otherwise complied with the Property Tax Code. If the adopted tax rate exceeds the rollback tax rate, the qualified voters of the City, by submission of a valid petition, may require that an election be held to determine whether or not to reduce the tax rate adopted for the current year to the rollback tax rate.

"Effective tax rate" means the rate that will produce last year's total tax levy (adjusted) from this year's total taxable values (adjusted). "Adjusted" means lost values are not included in the calculation of last year's taxes and new values are not included in this year's taxable values.

“Rollback tax rate” means the rate that will produce last year’s maintenance and operation tax levy (adjusted) from this year’s values (adjusted) multiplied by 1.08 plus a rate that will produce this year’s debt service from this year’s values (adjusted) divided by the anticipated tax collection rate.

Reference is made to the Property Tax Code for definitive requirements for the levy and collection of ad valorem taxes and the calculation of the various defined tax rates.

Taxpayer Remedies

The Property Tax Code sets forth notice and hearing procedures for certain tax rate increases by the City and provides for taxpayer referenda, which could result in the repeal of certain tax increases. The Property Tax Code also establishes a procedure for notice to property owners of reappraisals reflecting increased property value, appraisals which are higher than renditions, and appraisals of property not previously on an appraisal roll.

Levy and Collection of Taxes

By the later of September 30 or 60 days after the certified appraisal roll is delivered to the City, the rate of taxation is adopted by the City based upon the taxable valuation of property within the City as of the preceding January 1. The City has executed an inter-local agreement with the Bexar County Tax Assessor/Collector’s Office to provide property tax billing and collection services at the same level of service to its citizens as previously provided by the City.

Property taxes are due and payable on October 1 and considered delinquent if not paid by the following January 31. A delinquent tax incurs a penalty of 6% for the first calendar month it is delinquent, plus 1% for each of the following four months, and 2% for the sixth month it is delinquent, for a total of 12%. A delinquent tax also incurs interest at the rate of 1% per month until paid in full. If a tax is not paid before July 1 of the year in which it becomes delinquent, the tax incurs an additional fee of up to 20% to offset the costs of collection.

The City does not allow for discounts for early payment, but does allow for split payment of property taxes (one-half before December 1, and the remaining one-half without penalty and interest before July 1 of the following year). The City also allows for installment payments for homeowners who qualify for the residential homestead exemption (one-fourth before January 31, one-fourth before April 1, one-fourth before June 1, and the remaining one-fourth before August 1).

City’s Rights in the Event of Tax Delinquencies

Taxes levied by the City are a personal obligation of the owner of the property as of January 1 of the year for which the tax is imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all State and local taxes, penalties, and interest ultimately imposed for the year on the property. The lien exists in favor of the State and each local taxing unit, including the City, having power to tax the property. The City’s tax lien is on a parity with tax liens of such other taxing units. A tax lien on real property takes priority over the claim of most creditors and other holders of liens on the property encumbered by the tax lien, whether or not the debt or lien existed before the attachment of the tax lien; however, whether a lien of the United States is on a parity with or takes priority over a tax lien of the City is determined by applicable federal law. Personal property, under certain circumstances, is subject to seizure and sale for the payment of delinquent taxes, penalty, and interest.

At any time after taxes on property become delinquent, the City may file suit to foreclose the lien securing payment of the tax, to enforce personal liability for the tax, or both. In filing a suit to foreclose a tax lien on real property, the City must join other taxing units that have claims for delinquent taxes against all or part of the same property. Collection of delinquent taxes may be adversely affected by the amount of taxes owed to other taxing units, by the effects of market conditions on the foreclosure sale price, by taxpayer redemption rights (a taxpayer may redeem a residence homestead property within two years after the purchaser’s deed is filed for record) or by bankruptcy proceedings which restrict the collection of taxpayer debts. Federal bankruptcy law provides that an automatic stay of actions by creditors and other entities, including governmental units, goes into effect with the filing of any petition in bankruptcy. The automatic stay prevents governmental units from foreclosing on property and prevents liens for post-petition taxes from attaching to property and obtaining secured creditor status unless, in either case, an

order lifting the stay is obtained from the bankruptcy court. In many cases, post-petition taxes are paid as an administrative expense of the estate in bankruptcy or by order of the bankruptcy court.

Tax Increment Reinvestment Zone Financing

The City has approved “Guidelines and Criteria” for the utilization of Tax Increment Financing (“TIF”) and the creation of Tax Increment Reinvestment Zone (“TIRZ”) pursuant to Chapter 311 of the Texas Tax Code, as amended. Since 1998, the City has utilized TIF as a vehicle to fund in whole or in part eligible capital costs related to economic development, commercial and residential projects. As of September 30, 2004, thirteen TIRZs have been approved and one TIRZ has been dissolved. The active TIRZs are also referred to as the Rosedale, Highland Heights, New Horizons, Mission Del Lago, Brookside, Houston Street, Stablewood Farms, Inner City, Plaza Fortuna, Lackland Hills, Sky Harbor, and North East Crossing Projects. The TIRZs were established in order to finance the costs of public improvements to be made in each of the TIRZ which were created for various purposes, including the construction of single family and multi-family residential housing and commercial development projects, and included reimbursing developers from TIRZ revenues for the costs of public improvements, as well as, in the Houston Street TIRZ, the issuance of certificates of obligation by the City payable from the Houston Street TIRZ revenues to pay a portion of the costs of public improvements.

DEBT AND TAX RATE LIMITATIONS

No direct debt limitation is imposed on the City under current Texas law; however, the City Charter provides that the total bonded debt of the City must never exceed 10% of the total assessed valuation of property shown by the last assessment roll, exclusive of (1) any indebtedness secured in whole or in part by special assessments; (2) the bonded debt of any improvement district; and (3) any indebtedness secured by revenues, other than taxes of the City or of any department or agency thereof. In addition, Article XI, Section 5 of the State Constitution is applicable to the City, and limits its maximum ad valorem tax rate to \$2.50 per \$100 assessed valuation for all City purposes. The City operates under a City Charter that adopts this constitutional provision. The Texas Attorney General has adopted an administrative policy that prohibits the issuance of debt by a municipality, such as the City, if its issuance produces debt service requirements exceeding that which can be paid from \$1.50 of the foregoing \$2.50 maximum tax rate calculated at 90% collection. The issuance of the 2005 Obligations will not exceed the above described limits or violate the Texas Attorney General’s administrative policy. The following obligations, among others, may be issued by the City:

- Ad valorem tax-supported debt to finance capital improvements and to refund obligations previously issued for such purpose. A majority vote of the qualified voters is ordinarily required to authorize the issuance of ad valorem tax-supported debt, other than refunding bonds, certificates of obligations, tax anticipation notes, and public property finance contractual obligations.
- Certificates of obligation may be issued for the purpose of paying contractual obligations incurred in the construction of public works or the purchase of land, materials, and other supplies or services for the City's needs and for professional services without an election except under certain circumstances. The certificates of obligation may be refunded by ad valorem tax-supported bonds without an election. In addition, the City may issue certificates of obligation with a pledge of both tax and revenues derived from the operation of the facility to be acquired, or from any other lawful source, provided that the City otherwise has the right to pledge the revenues involved. Authority for the issuance of certificates of obligation is subject to notice by publication and right of referendum by the voters.
- Contractual obligations, generally to finance personal property, and tax anticipation notes payable from ad valorem taxes may be issued for capital improvements. The contractual obligations and tax anticipation notes may be refunded by ad valorem tax-supported bonds without an election. The issuance of contractual obligations and tax anticipation notes does not require publication of notice or voter approval. Tax anticipation notes are limited to seven years amortization or less.
- Revenue bonds may be issued for certain purposes which include the financing of the water, municipal drainage and sanitary sewer systems, electric and gas systems, convention centers, airports and parking systems, and other economic development projects. The revenue bond indebtedness is not considered in determining the legal debt margin on ad valorem tax-supported obligations. Revenue bond indebtedness, in certain cases, can be refunded by ad valorem tax-supported bonds without an election.

Direct and Overlapping Debt Data and Information

Table 15

The following table indicates the indebtedness, defined as outstanding obligations payable from ad valorem taxes, of governmental entities overlapping the City, and the estimated percentages and amounts of such indebtedness attributable to property within the City. Expenditures of the various taxing bodies overlapping the territory of the City are paid out of ad valorem taxes levied by these taxing bodies on properties overlapping the City. These political taxing bodies are independent of the City and may incur borrowings to finance their expenditures without any control of the City. The following statements of direct and estimated overlapping ad valorem tax bonds were developed from information obtained from each taxing entity. Except for the amounts relating to the City, the City has not independently verified the accuracy or completeness of such information, and no person should rely upon such information as being accurate or complete. Furthermore, certain of the entities listed below may have authorized or issued additional obligations since the date stated below, and such entities may have programs requiring the authorization and/or issuance of additional obligations, the amount of which cannot be determined.

Taxing Entity ¹	As Of	Amount of Gross Debt Outstanding	Percent (%) Overlapping	Amount of Gross Debt Overlapping

Note: The City's total net debt payable from ad valorem taxes is \$873,298,953 as of September 30, 2004. Calculations on the basis of total net debt payable from ad valorem taxes would change the above figures as follows:				
Total Net Direct and Overlapping Debt				\$ 3,917,992,750
Ratio of Net Direct and Overlapping Debt to Actual Market Value				7.57%
Ratio of Net Direct and Overlapping Debt to Net Taxable Assessed Value				8.39%
Per Capita Net Direct and Overlapping Debt ²				\$ 3,055.20

¹ Certain bonds issued by Texas Independent School Districts are eligible for payment from the State "Instructional Facilities Allotments" and from "Existing Debt Allotments." These bonds, while obligations of each district, are payable in part from direct allocations of State funds. Such funding varies between districts and from year to year depending upon the State's contribution, which is based on a district's property taxable wealth per student in average daily attendance.

² Based on the City of San Antonio Department of Planning estimated population of 1,282,400 for calendar year ending December 31, 2004 (figure includes those individuals residing within areas expected to be annexed by the City by such date).

REVENUE SOURCES AND EXPENDITURES

Sources of Revenues

The City's General Fund revenue sources include ad valorem taxes, sale taxes, franchise taxes, contributions from City-owned utilities, fines, penalties, licenses and permits, various service charges, and miscellaneous sources.

General Fund Comparative Statement of Revenues and Expenditures and Analysis of Changes in Fund Balances

Table 16

The following statements set forth in condensed form reflect the historical operations of the City. The City has prepared such summary for inclusion herein based upon information obtained from the City's Comprehensive Annual Financial Report and financial records. Reference is made to such statements for further and complete information.

* Unaudited.

¹ For fiscal year 2001, the City implemented GASB Statement No. 33, "Accounting and Financial Reporting for Non Exchange Transactions," as amended by GASB Statement No. 36 "Recipient Reporting for Certain Shared Non Exchange Revenues," which resulted in the restatement of certain prior year balances for the City's General Fund. For comparative purposes, the prior year's tax revenues and fund balances have been restated for the impact of GASB Statement No. 33. These amounts have been excerpted from the City's Comprehensive Annual Financial Report as adjusted for the impact of GASB No. 33 and GASB No. 36.

² Expenditures are reported on a budgetary basis with encumbrances added back to arrive at a GAAP fund balance.

SALES TAXATION

Authority to Levy Sales Taxes

The City is governed by the provisions of Chapter 321 of the Texas Tax Code, as amended, which authorizes the City to levy and collect a municipal sales and use tax on the receipts from the sale of taxable items within the City at a rate of 1%. Pursuant to other state law provisions, the City may also adopt an increased sales and tax for particular purposes.

The Texas Tax Code provides that certain cities and counties in the State may submit a proposition to the voters to authorize an additional sales tax on retail sales or taxable items to reduce the property tax levy. If the additional tax is levied, the effective tax rate and the rollback tax rate calculations are required to be offset by the revenue that will be generated by the sales tax in the current year. The City is disqualified from adopting this additional sales and use tax because the City is included within the boundaries of a rapid transit authority created under Chapter 451, Transportation Code.

Legislation

Advanced Transportation District. A proposition was passed at the November 2, 2004 election which allows VIA Metropolitan Transit (“VIA”) to create an Advanced Transportation District (“District”) within the City of San Antonio, Texas and impose an additional one quarter of one percent ($\frac{1}{4}$ of 1%) sales and use tax. The $\frac{1}{4}$ % sales and use tax will be allocated as follows: fifty percent (50%) will be used for advanced transit services, operations, passenger amenities, equipment and other advanced transportation purposes; twenty-five percent (25%) will be used to construct, improve and maintain streets and sidewalks and related infrastructure to improve mobility and other advance transportation purposes in the District; and twenty-five percent (25%) will be used as the local share to obtain state and federal grants for highways, transportation infrastructure designed to improve mobility and other advanced transportation purposes in the District. With the imposition of this additional sales and use tax, the City’s sales tax rate will increase to eight percent (8%), effective April 1, 2005.

Alamo Regional Mobility Authority. The Alamo Regional Mobility Authority (the “Alamo RMA”) was created pursuant to Chapter 370, as amended, Texas Transportation Code, to provide the San Antonio area with the ability to construct, maintain and operate certain transportation projects and to establish a local governmental entity to make mobility decisions for this area.

The Alamo RMA is authorized to develop toll projects, issue revenue bonds to fund transportation projects, and utilize surplus revenues from local toll roads and state and federal assistance for transportation projects.

The Alamo RMA has been established to work in conjunction with the Texas Department of Transportation, the San Antonio-Bexar County Metropolitan Planning Organization, and other agencies to formulate a strategy to implement a toll network that will generate and direct revenue to other infrastructure projects that will improve the overall transportation system for the San Antonio metropolitan area.

Edwards Aquifer Protection Venue Project. The City Council adopted Resolution No. 2004-27-23 designating an Edwards Aquifer Protection Venue Project (“Edwards Venue Project”) under Chapter 334 of the Texas Local Government Code (“Venue Code”). As required by the Venue Code, the City forwarded a copy of the Resolution to the Texas Comptroller for her determination as to whether the implementation of the Edwards Venue Project would have a significant negative impact on State revenue. This determination is required prior to the City Council calling an election on the matter. The Comptroller determined that implementation of this Resolution would not have a significant negative fiscal impact on State revenue.

As such, City Council passed Ordinance No. 99608, which authorized an election to be held on May 7, 2005 to authorize the implementation of the Edwards Venue Project under the Venue Code and the imposition of a one-eighth of one percent ($\frac{1}{8}$ of 1%) sales and use tax. If approved, the Proposition provides for the protection of water quality in the Edwards Aquifer by establishing a watershed protection and preservation project to acquire and

preserve land or interests in land in the Edwards Aquifer recharge and contributing zones both inside and outside Bexar County.

Parks Development and Expansion Venue Project. The City Council adopted Resolution No. 2004-29-25 designating a Parks Development and Expansion Venue Project (“Parks Venue Project”) under Chapter 334 of the Texas Local Government Code (“Venue Code”). As required by the Code, the City forwarded a copy of the Resolution to the Texas Comptroller for her determination as to whether the implementation of the Parks Venue Project would have a significant negative impact on State revenue. This determination is required prior to the City Council calling an election on the matter. The Comptroller determined that implementation of this Resolution would not have a significant negative fiscal impact on State revenue.

As such, City Council passed Ordinance No. 100327, which authorized an election to authorize the implementation of the Parks Venue Project under the Venue Code and the imposition of a one-eighth of one percent (1/8 of 1%) sales and use tax. The Parks Venue Project, if approved, provides for the planning, acquisition, establishment, development, construction or renovation of the Parks Venue Project which includes the acquisition of open space and linear parks along Leon Creek, Salado Creek, Medina River and San Antonio River, and for improvements and additions to the Municipal Parks and Recreation System.

Both the Edwards Venue Project and the Parks Venue Project will be placed on the ballot for approval by the voters, and the two Venue Projects will share in the use of the one-eighth of one percent (1/8 of 1%) sales and use tax. If one or both of these Propositions are approved, the City will have a sales tax rate of 8½% (8.125%), effective October 1, 2005.

Collections and Equivalent Rates

Net sales tax collections and the equivalent ad valorem tax rates on fiscal year basis are as follows:

Municipal Sales Taxes

Table 17

Fiscal Year Ended 9/30	Sales Tax Collected	Ad Valorem Tax Levy ¹	Percent (%) of Ad Valorem Tax Levy	Net Taxable Assessed Valuation	Equivalent Tax Rate
1995	\$ 97,667,344	\$142,934,773	66.33	\$24,309,875,164	\$0.40176
1996	103,032,541	155,347,338	66.32	26,793,724,971	0.38454

THE CITY

Governmental Structure

The City of San Antonio (the “City”) is a Home Rule Municipality that operates pursuant to the City of San Antonio City Charter (the “City Charter”), which was adopted in 1951 and became effective on January 1, 1952. The City Charter provides for a council-manager form of government, whereby subject only to the limitations imposed by the Texas Constitution and the City Charter, all powers of the City are vested in an elective Council (the “City Council”) which enacts legislation, adopts budgets and determines policies. The City Council is comprised of eleven (11) members, with ten members elected from single-member districts, and the Mayor elected at-large. Each member of the City Council serves two (2) year terms, and each member is limited to a maximum of two (2) full terms. The office of Mayor is considered a separate office. The terms of all members of the City Council currently sitting in office expire in May 2005.

The City Council also appoints a City Manager who executes the laws and administers the government of the City, and serves as the City’s chief administrative officer. The City Manager serves at the pleasure of City Council.

Since its adoption, the City Charter has been amended on five separate occasions; November 1974; January 1977; May 1991; May 1997; and November 2001. Significant amendments to the City Charter include the amendment passed in May of 1991, which limited the service by the Mayor and the City Council members to two full terms, each of which is two years in duration. Two separate City Charter review committees sitting in the early and mid-1990’s and charged with conducting a comprehensive review of the City Charter resulted in the passage of five propositions, each containing numerous amendments to the City Charter in May 1997. The most recent amendments to the City Charter occurred in 2001 and included, among others, provisions creating the position of an independent City Internal Auditor and granting the City Manager the power to appoint and remove the City Attorney upon the City Council’s advice and/or confirmation.

General Election

The City of San Antonio will hold its General Municipal Election on May 7, 2005, for the purpose of electing its governing body, which is comprised of a Mayor and ten (10) Council Members. The General Election was ordered through Ordinance No. 100412.

Services

The full range of services provided to its constituents by the City includes ongoing programs to provide health, welfare, art, cultural, and recreational services; maintenance and construction of streets, highways, drainage, and sanitation systems; public safety through police and fire protection; and urban redevelopment and housing. The City also considers the promotion of convention and tourism and participation in economic development programs high priorities. The funding sources from which these services are provided include ad valorem, sales, and hotel/motel tax receipts, grants, user fees, bond proceeds, tax increment financing, and other sources.

In addition to the above described general government services, the City provides services financed by user fees set at levels adequate to provide coverage for operating expenses and the payment of outstanding debt. These services include airport, parking, and environmental services.

Electric and gas services to the San Antonio area are provided by City Public Service (“CPS”), an electric and gas utility owned by the City that maintains and operates certain utilities infrastructure. This infrastructure includes a 16 generating unit electric system and the gas system that serves the San Antonio area. CPS’ operations and debt service requirements for capital improvements are paid from revenues received from charges to its customers. CPS is obligated to transfer a portion of its revenues to the City. CPS revenue transfers to the City for the City’s fiscal year ending September 30, 2004 were \$206,057,000*. (See “CERTAIN SIGNIFICANT ISSUES AFFECTING THE CITY” herein and “SAN ANTONIO ELECTRIC AND GAS SYSTEM” in Appendix A attached hereto.

* Unaudited.

Water, wastewater, recycled water, steam, and chilled water services are provided by the San Antonio Water System (“SAWS”), another City-owned and operated utility. In addition to these services, SAWS contracted with the City to provide certain stormwater services thereto and it manages and develops water resources in the San Antonio region. SAWS is in its 12th year as a separate, consolidated entity that addresses the City’s water-related issues in a coordinated and unified manner. SAWS operations and debt service requirements for capital improvements are paid from revenues received from charges to its customers. SAWS is obligated to transfer a portion of its revenues to the City. SAWS revenue transfers to the City for the City’s fiscal year ending September 30, 2004 were \$6,607,897*. (See “CERTAIN SIGNIFICANT ISSUES AFFECTING THE CITY” herein and “SAN ANTONIO WATER SYSTEM” in Appendix A attached hereto.)

Please refer to Table 18 for historical transfers from CPS and SAWS to the City’s General Fund.

Economic Overview

The City’s economic strength is enhanced by a favorable business climate, which includes a low cost of living, and a friendly and inviting attitude toward commerce and industry. San Antonio is home to a variety of businesses and industries from small companies to large corporations, including public and private sector entities. Among the industries that contribute significantly to San Antonio’s economy are domestic and international trade, convention and tourism, medical and health care, government employment, agribusiness, manufacturing, financial, telecommunications, insurance, and mineral production. The City’s cultural and geographic proximity to Mexico provides favorable conditions for international business relations therewith. In addition to the favorable economic climate, excellent weather conditions year round help to encourage and enhance the operation of many of San Antonio’s most important industries.

The terrorist attacks which occurred on September 11, 2001, and subsequent events, have adversely impacted certain sectors of the United States economy, in particular the airlines industry. Although passenger traffic at San Antonio International Airport declined by 7.7% for the first seven months of 2002, the number of daily domestic flights has increased from 115 prior to September 11, 2001 to 117 currently and passenger traffic has returned to normal levels.

The overall effect of previous or future terrorist attacks may negatively impact statements in this Official Statement regarding receipt of revenues (including ad valorem taxes), employment, insurance coverages on the assets of the City, and other aspects of the City’s economy. At this time, the full extent of such disruption and its effect upon the financing described herein cannot be determined.

Recently SBC, headquartered in San Antonio, announced its \$16 billion purchase of AT&T Corp. It is expected that the merger will allow the combined company to realize cost savings of about \$15 billion. The merger will also result in the elimination of 12,800 jobs (5,100 from sales and business operations, 5,100 from engineering, and 2,600 from administration). According to company officials and analysts, despite the expected layoffs, San Antonio expects to increase the number of people employed at SBC in San Antonio. Much of this gain will result from the location of AT&T executives from their current headquarters in New Jersey to the SBC headquarters.

Employee Pension Plan and Benefits

The City’s employees participate in a variety of defined pension plans. These plans and contributions made to such plans are further described in Note 8 in the City’s Comprehensive Annual Financial Report, attached hereto as Appendix C for the fiscal year ended September 30, 2003. These plans are fully funded in accordance with State law.

* Unaudited

City Manager Selection

On September 10, 2004, through Ordinance No. 99703, City Council accepted the resignation of the City Manager, Terry M. Brechtel. Ms. Brechtel's resignation was effective October 1, 2004. J. Rolando Bono was appointed to serve as City Manager through Ordinance No. 99821; and his terms and conditions of employment were adopted and approved by Ordinance No. 99850. Mr. Bono will continue to serve as Interim City Manager until such time as the City Council appoints a City Manager. The City Council has hired a professional firm to assist in a nationwide search for a new City Manager. The City Council has identified a candidate for City Manager and is in negotiations with her. References herein to the "City Manager" include the "Interim City Manager."

Employees

The following table shows the City's total full-time, part-time, and alternate employee positions authorized and number of positions filled. The number of filled positions shown reflects employees on the payroll for the fiscal years indicated, and the number of employee authorized positions shown reflects positions adopted in the fiscal year budget.

¹ The adopted budget for fiscal year 2005 eliminated 284 civilian positions. The eliminated positions included 229 vacant positions and 55 filled positions. Of the 55 filled positions eliminated, all employees were placed in other authorized positions.

² Fiscal year 2005 filled positions are as of February 8, 2005.

Financial Accounting and Financial Policies

Government-wide Financial Statements

Under the new governmental financial reporting model instituted by GASB Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments," a new government-wide financial statement is presented, taking the place of the general purpose combining statements presented in previous annual reports. The government-wide financial statements present financial information about the reporting government as a whole using the "economic resource" measurement focus and full accrual basis of accounting. Fiduciary activities, whose resources are not available to finance the City's governmental programs, are not included in these statements, including component units that are fiduciary in nature. The government-wide statements include a statement of net assets and a statement of activities.

The statement of net assets reflects both short-term and long-term assets and liabilities. Capital assets, infrastructure assets, and debts that are considered long-term will now be reported in the governmental activity column. Net assets, previously known as fund balances in prior annual reports, are now presented in three separate components: invested in capital assets, net of related debt; restricted; and unrestricted. Governmental activities, or those activities

normally financed through taxes, intergovernmental revenue, and other non-exchange revenues, are presented in one column. Business-type activities, or those which are primarily financed by fees charged to outside parties for goods or services, are presented in the next column. Component units are reported in the aggregate, following the primary government's total column.

The statement of activities is presented in a net cost format. Expenses are presented in the far left column, followed by program revenues. General revenues are presented at the bottom of the statement. This new presentation allows users to determine which functions are self-supporting, and which ones rely on the tax base in order to complete their mission. The Governmental activities are divided by function; the business-type activities are entered as one line (for example, Aviation, Solid Waste, etc. are on separate lines). Component units are presented in the same format as the Business-type activities.

A reconciliation detailing the change in net assets between the government-wide financial statements and the fund financial statements is presented separately for governmental funds. Some reconciling entries will include those numbers needed to report on the full accrual basis in the government-wide financials from a modified accrual basis, as used in the fund statements. Another reconciling entry will be the elimination of internal service fund activity; the net income (loss) is allocated back to user departments in order to achieve a break-even result in the internal service funds. These allocations will only be reflected in the government-wide statements. Any residual amounts of the internal service funds will be reported in the governmental activity column.

The proprietary funds also have a reconciliation presented on the face of the proprietary fund's Statement of Net Assets and Statement of Revenues, Expenses, and Changes in Net Assets. The only reconciling item will be the internal service fund allocation.

Fund Accounting

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets and other debits, liabilities, fund equity and other credits, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The City has three types of Funds: Governmental Funds, Proprietary Funds, and Fiduciary Funds. The Fund Financial Statements provide more detailed information about the City's most significant funds, but not on the City as a whole. Major individual governmental funds and major enterprise funds are reported in separate columns in the Fund Financial Statements. Nonmajor funds are individually presented in the combining statements.

Governmental Funds

General Fund. The General Fund of the City accounts for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds. Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts and major capital projects) that are legally restricted to expenditures for specified purposes.

Debt Service Funds. Debt Service Funds are used to account for the accumulation of resources for and the payment of general long-term debt principal, interest, and related costs.

Capital Projects Funds. Capital Projects Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds and Trust Funds).

Permanent Funds. This fund is a new governmental fund type established by GASB Statement No. 34. Permanent Funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may

be used for purposes that support the reporting government's programs – that is, for the benefit of the government or its citizenry.

Proprietary Funds

Enterprise Funds. The Enterprise Funds are used to account for operations (1) that are financed and operated in a manner similar to private business enterprises when the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis should be financed or recovered primarily through user charges; or (2) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Funds. Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City, or to other governmental units, on a cost-reimbursement basis. The City's self-insurance programs, data processing programs, and other internal service programs are accounted for in this fund type.

Fiduciary Funds

Trust and Agency Funds. Trust and Agency Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. These include Pension Trust, Retiree Health Care Trust, Private Purpose Trust Funds, and Agency Funds. Pension Trust and Retiree Health Care Trust Funds are accounted for in essentially the same manner as proprietary funds since capital maintenance is critical. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Debt Management

The City issues debt for the purpose of financing long-term infrastructure capital improvements. Some of these projects have multiple sources of funding which include debt financing. Infrastructure, as referred to by the City, means economic externalities essentially required to be provided by government to support a community's basic human needs, economic activity, safety, education, and quality of life. Types of debt issued by the City include ad valorem tax-supported bonds and certificates of obligation. Certificates of obligation are typically secured by a pledge of revenues and ad valorem taxes, do not require voter approval, and are issued for smaller programs that support the City's major infrastructure facilities and certain of its revenue-producing facilities. Revenue bonds are utilized to finance long-term capital improvements for proprietary enterprise and self-supporting operations. Currently, revenue bonds have provided the financing required for the City's International Airport facilities, the City's Parking System, the City's Municipal Drainage Utility System (Stormwater System), and the Henry B. Gonzalez Convention Center Expansion.

The long-term infrastructure financing process commences with the identification of major projects throughout the City to be financed with ad valorem tax-supported bonds or certificates of obligation. These City-wide projects typically involve public safety, street improvements, drainage, flood control, construction, and improvements to municipal facilities, as well as quality of life enhancements related to municipal parks. Major projects that are financed with ad valorem tax-supported bonds are presented to the electorate for approval. Upon voter approval, the City is authorized to issue ad valorem tax-supported bonds to finance the approved projects. Bond elections are held as needs of the community are ascertained. Revenue bonds do not require an election and are sold as needed for construction, expansion, and/or renovation of facilities in amounts that are in compliance with revenue bond covenants. The process for any debt issuance begins with the budget process and planned improvements to be made during the ensuing fiscal year.

Utilization of comprehensive financial analysis and computer modeling in the debt management plan incorporates numerous variables such as sensitivity to interest rates, changes in assessed values, annexations, current ad valorem tax collection rates, self-supporting debt, and fund balances. The analytical modeling and effective debt management has enabled the City to maximize efficiencies through refundings and debt structuring. Strict

adherence to conservative financial management has allowed the City to meet its financing needs while at the same time maintaining its “AA+”, “Aa2”, and “AA+” general obligation bond rating by Standard & Poor’s, A Division of the McGraw Hill Companies, Inc. (“S&P”), Moody’s Investors Service, Inc. (“Moody’s”), and Fitch Ratings (“Fitch”), respectively. The positive trend in the City’s credit strength is evidenced by S&P’s rating upgrade from “AA” to its current “AA+” in 1998 and by Fitch’s rating upgrade in 1999 from “AA” to its current “AA+”.

Debt Authorization

General Obligation Bonds. The City is authorized to issue bonds payable from ad valorem taxes pursuant to the City Charter, the general laws of the State, and ordinances adopted by the City Council. Such bonds must be authorized by the voters of the City at elections held within the City. Following the issuance of the 2005 Bonds, the City will have \$48,325,000 ad valorem tax-supported debt previously approved by its voters on November 4, 2003 that remains unissued. Additionally, the City has authority, pursuant to an election held on January 26, 1980, to issue \$16,660,000 in ad valorem tax-supported bonds, but it does not intend to issue these bonds and may not be legally able to do so. For the fiscal year ended September 30, 2004, the City had \$668,386,140 general obligation bonds outstanding.

On December 2, 2004, the City sold \$33,090,000 “City of San Antonio, Texas General Improvement Forward Refunding Bonds, Series 2006” (the “2006 Forward Refunding Bonds”), which are scheduled for delivery on May 9, 2006. The 2006 Forward Refunding Bonds were issued to refund a portion of the City’s General Improvement and Refunding Bonds, Series 1996A. The gross savings are \$1,532,024, with present value savings of \$1,299,012.

On March 18, 2004, the City sold \$33,570,000 City of San Antonio, Texas General Improvement Bonds, Series 2004” (the “2004 Bonds”). The 2004 Bonds were delivered on April 13, 2004. The 2004 Bonds were issued to provide funds to finance the construction of general improvements to the City, including streets and pedestrian improvements; drainage improvements; library improvements; parks and recreation improvements; public health and safety improvements. The 2004 Bonds represent the first installment of the \$115,000,000 bonds approved at an election held in the City on November 4, 2003.

On March 18, 2004, concurrently with the sale of the 2004 Bonds, the City sold \$13,245,000 “City of San Antonio, Texas Taxable General Improvement Refunding Bonds, Series 2004” (the “2004 Refunding Bonds”). The 2004 Refunding Bonds were issued to discharge and refund \$11,746,968 of previously issued tax-exempt general obligation bonds and certificates of obligation whose proceeds had been utilized to fund construction and improvements to the City’s parking facilities. Refunding such obligations with the 2004 Refunding Bonds, which are taxable obligations, was undertaken to provide greater flexibility for the City to contract with private entities for use of space in those parking facilities. The refunding, which resulted in a gross loss of \$1,335,882.75 and net present value loss of \$809,318.29, will produce savings of \$422,492.25 in fiscal year 2004, \$347,357.50 in fiscal year 2005, and \$150,171.25 in fiscal year 2006. The 2004 Refunding Bonds were delivered on April 13, 2004.

Certificates of Obligation. The City is authorized to issue certificates of obligation pursuant to the City Charter, applicable State laws, and ordinances adopted by the City Council. Certificates are issued for various purposes to include financing revenue producing capital improvements and for infrastructure support and development. For the fiscal year to end September 30, 2004, the City will have \$219,050,000 certificates of obligation outstanding, which comprises 24.68% of the total outstanding ad valorem tax-supported debt.

Revenue Bonds. The City is authorized to issue revenue bonds under the provisions of the City Charter, applicable State laws, and ordinances adopted by City Council. At fiscal year ending September 30, 2004, the City’s outstanding revenue bonds (exclusive of revenue bonds issued for CPS and SAWS) were: Airport System Revenue Bonds in the aggregate principal amount of \$182,415,000, Passenger Facility Charge and Subordinate Lien Airport System Revenue Bonds in the aggregate principal amount of \$35,995,000; Parking System Revenue Bonds in the aggregate principal amount of \$24,445,000; Municipal Drainage Utility System (Stormwater System) Bonds in the aggregate principal amount of \$43,115,000; and Henry B. Gonzalez Convention Center Expansion Project Revenue Bonds aggregating to \$208,712,411.50.

The airport, parking, drainage, and convention center revenue bonds are not secured by ad valorem taxes and are limited obligations of the City, payable solely from the gross revenues of the airport system, parking system, municipal drainage utility system, and hotel occupancy tax collections, respectively. The Passenger Facility Bonds are not secured by ad valorem taxes and are payable solely from the revenues generated by the City's collection of a passenger facility charge, which was approved by the Federal Aviation Administration and the City Council, with collection beginning on November 21, 2001.

Refunding Bonds. The City routinely reviews the possibility of refunding certain of its outstanding general obligation bonds and revenue bonds to effectuate interest cost savings and has frequently issued refunding bonds for such purpose.

On June 3, 2004, the City sold \$10,390,000 "City of San Antonio, Texas Hotel Occupancy Tax Subordinate Lien Revenue Refunding Bonds, Series 2004A" (the "Series 2004A Bonds"). On June 22, 2004, the City sold \$111,425,000 "City of San Antonio, Texas Hotel Occupancy Tax Subordinate Lien Revenue and Refunding Bonds, Series 2004B (the "Series 2004B Bonds"). The Series 2004B Bonds included \$25,000,000 in bond proceeds to be used for the construction of permanent improvements relating to the expansion of the Henry B. Gonzalez Convention Center, Alamodome, and site acquisition for the potential future expansion of the convention center. The Series 2004A Bonds and the Series 2004B Bonds were delivered on June 29, 2004.

The Series 2004A Bonds and the Series 2004B Bonds were sold to effectuate a combined refunding of \$87,665,069 of certain outstanding "City of San Antonio, Texas Hotel Occupancy Bonds, Series 1996" (the "Series 1996 Bonds") obligations whose proceeds had been utilized to fund the City's Convention Center Expansion Project. Refunding such Series 1996 Bonds with Series 2004A Bonds and Series 2004B Bonds was undertaken to: (1) improve the credit quality for the outstanding Series 1996 Bonds; (2) maximize credit support for the proposed Convention Center Headquarters Hotel financing; and (3) preserve capacity for future Convention Center expansion financing. The refunding, which resulted in net present value savings of \$9,547,411, will result in annual savings of \$800,000 in fiscal year 2004 and \$1.0 million per year for fiscal years 2005 through 2020.

Debt Limitations. The amount of ad valorem tax-supported debt that the City may incur is limited by City Charter and by the Constitution of the State. The City Charter establishes a limitation on the general obligation debt supported by ad valorem taxes to an amount not to exceed ten percent of the total assessed valuation.

The Constitution of the State of Texas provides that the ad valorem taxes levied by the City for debt service and maintenance and operation purposes shall not exceed \$2.50 for each one hundred dollars of assessed valuation of taxable property. There is no limitation within the \$2.50 rate for interest and sinking fund purposes; however, it is the policy of the Attorney General of the State of Texas to prohibit the issuance of debt by a city if such issuance produces debt service requirements that exceed the amount that can be paid from \$1.50 tax rate calculated at 90% collections.

Long-Term Debt Planning

The City employs a comprehensive multi-year, long-term capital improvement planning program that is updated annually. Debt management is a major component of the financial planning model which incorporates projected financing needs for infrastructure development that is consistent with the City's growth while at the same time measuring and assessing the cost and timing of each debt issuance.

The assumptions utilized in the Debt Plan include: (i) assessed valuation growth at 0.5% per year for existing base values and 1.00% per year for new improvements; (ii) projected annexations are added to the assessed valuations in the year they are scheduled to be on the tax rolls; (iii) tax collections are at 97.5%; (iv) the adopted debt service tax rate will remain constant at 21.15 cents in fiscal years 2005, 2006, and 2007 and increase incrementally 0.40 cents annually from fiscal years 2008 through 2011 to an estimated maximum debt service tax rate of 22.75 cents in fiscal year 2011 (the current debt service tax rate is 21.15 cents); (v) \$115,000,000 General Improvement Bonds authorized by the voters in the November 4, 2003 election, of which \$34,685,000 have been sold, \$31,990,000 (which includes the 2005 Bonds) is expected to be sold in fiscal year 2005, and \$48,325,000 is expected to be sold in fiscal year 2006, and (vi) the issuance of approximately \$52,115,000 Certificates of Obligation (a portion of

which includes the 2005 Certificates), which are scheduled to be sold by fiscal year 2011 for fire station improvements, Metropolitan Planning Organization (“MPO”) streets and other street projects, drainage projects, parks and recreation projects, municipal facility improvements, and San Antonio River improvements. Based on these assumptions and the projected increase in the debt service tax rate to 22.75 cents, the estimated bond capacity in the Fall of 2008 is approximately \$175 million.

Alternatively, holding the debt service tax rate at a constant 21.15 cents and utilizing the other abovementioned assumptions, the estimated bond capacity in the Fall of 2008 is approximately \$150 million.

New Money Issues

Ongoing capital improvement needs have required the City to sell certificates of obligation and general obligation bonds to fund capital improvements for various streets, drainage and flood control projects; acquisition, construction and improvements related to park facilities, public safety, municipal facilities, parking structures, environmental clean-up and land acquisition. The City anticipates issuing approximately \$22,000,000 in additional certificates of obligation in the spring or summer of 2005.

The City addresses certain drainage issues through the issuance of City of San Antonio Municipal Drainage Utility System Revenue Bonds and currently anticipates the issuance of approximately \$60,000,000 in City of San Antonio Municipal Drainage Utility System Revenue Bonds, Series 2005 in April, 2005.

The Airport Master Plan Study, completed in January 1998, determined that certain capital improvements were needed to the Airport’s airfield facilities in order to avoid congestion and reduce aircraft delays in the future; and the study found that the Airport’s terminal gate capacity is insufficient to meet future demand. The Airport Capital Improvement Plan (CIP) includes a comprehensive upgrade and expansion of airport facilities to include several runway and taxiway projects and the construction of two new terminal concourses that will replace Terminal 2. The CIP incorporates approximately \$425,592,600 construction program to be completed over a ten-year period. The anticipated sources of funding for the capital improvement plan include a combination of general airport revenue bonds, bonds to be paid from the receipt of a passenger facility charge, passenger facility charge revenues used on a current basis, grants and funds produced from operations. The City anticipates selling City of San Antonio, Texas Airport System Improvement Revenue Bonds and City of San Antonio, Texas Passenger Facility Charge Airport System Improvement Revenue Bonds in fiscal year 2005.

Debt Service Tax Rate

The combination of successful refundings and low interest rates for bond and certificate of obligation sales has resulted in a decrease in the projected maximum debt service tax rate of \$0.3049 per \$100 valuation prior to 1992, 1993, 1996, 1998, 2001, 2002, 2003, and 2004 refundings to a projected maximum debt service tax rate of \$0.2275 per \$100 in fiscal year 2011.

The Budget Process

Fiscal Year 2005 Budget

The process for developing the fiscal year 2005 proposed budget involved the following overall steps:

Development of Inventory of City Services. A first step in the development of the fiscal year 2005 Budget was the update of the organization Inventory of City Services (the “Inventory”) to facilitate decision-making during the budget process. The Inventory was presented to the Council on April 29, 2004 and on May 13, 2004. Specifically, the Inventory is a complete listing and description of all City services provided by each City department. Over 180 separate and discrete services have been identified and cataloged in the Inventory. Where possible, dollar amounts reflecting the costs and/or revenues associated with each service are also provided.

Bottom Line Strengthening Program. Again, for a second year, the City Manager sought to obtain innovative ideas from City employees through a Bottom Line Strengthening (BLS) Program. Specifically, the goal of the BLS

Program was to identify process improvements that would gain overall efficiencies, revenue generators, or effective changes in service delivery. It was anticipated that these ideas would result in near-term, permanent improvements to the City's fiscal situation through productivity improvements, cost reductions, or new revenues. The program engaged a broad range of employees randomly selected and placed into Action Teams each moderated by a member of the Management Team. Each Action Team was comprised of no more than 30 members and met twice over a six-week period in March and April 2004. From this process, recommendations with savings and new revenues totaling \$518,215 are included and highlighted in the fiscal year 2005 Adopted Budget.

Public Input on Budget Priorities. Budget development also involved the receipt of public input on budget priorities through two "Budget Open House" sessions that were conducted by the City Council on May 6 and May 20, 2004. The Budget Open House sessions resulted in the City Council being aware of issues important to citizens and community groups serving as input to the City Council's final setting of fiscal year 2005 Budget Priorities. The community input from the Budget Open House sessions, along with a list of proposed strategic issues and City programs was reviewed by the City Council at a separate meeting for subsequent use at the "City Council Goals and Objectives Worksession" described below.

Five-Year Financial Forecast. The next step was presentation by staff of the Five-Year Financial Forecast (the "Forecast"). The Forecast is a financial and budgetary planning tool that identifies emerging issues that will be encountered in the next five years and that will have a fiscal impact upon the City's program of services. In addition, the Forecast serves as a foundation for development of the proposed budget by projecting revenues and anticipated expenditures under a defined set of assumptions. The Forecast allows the City Council and staff to identify financial issues in sufficient time to develop a proactive strategy in order to address emerging strategic issues. The Forecast was presented to City Council on May 13, 2004. With respect to the General Fund, a shortfall of \$21.3 million was projected for fiscal year 2005. Higher expenditures compared to revenue projections were the major contributing factors to the extent of the projected shortfall. The fiscal year 2005 expenditure projections were based upon the continuation of existing services at the fiscal year 2004 level with adjustments for inflation, rising employee health insurance costs, and added expenditures for mandates. The Forecast also assumed added wage increase-related costs from the recently approved collective bargaining agreement between the City and the San Antonio Police Officer's Association and the fiscal impact associated with the fourth year of a four-year collective bargaining agreement between the City and the International Association of Fire Fighters, Local 624. The five-year General Fund projection also projected a shortfall for fiscal year 2006 of \$27.84 million.

City Council Goals and Objectives Worksession. This year's budget process was improved in many ways including providing the Mayor and City Council with eight pre-proposed budget development goal-setting worksessions, scheduling an additional week for Mayor and City Council to consider the proposed budget, and restructuring the organizational analysis and City service delivery reviews with all city departments and offices. Integral to this year's budget process was the fifteenth annual City Council Goals and Objectives Worksession. The worksession was held on May 14, 2004 immediately following the presentation of the Five Year Financial Forecast and provided a structured opportunity for the City Council to meet and determine its budget and policy priority issues for the coming budget deliberations. During the worksession, department heads and community stakeholders were available as resources to the City Council to help answer questions. During the worksession, two major themes were developed. One included listing the City Council's Key Success Factors (KSF). KSF are the underlying drivers that result in achieving the major goals set out by the Mayor and the City Council in the fiscal year 2005 budget and beyond. The following is a listing of the Key Success Factors that were developed by the Mayor and City Council:

- Leverage our economic vitality
- Prevent cost drivers (by addressing preventative goals)
- Fully utilize City resources
- Leverage San Antonio's distinctiveness
- Maximize San Antonio's human potential

The second major theme from the Goals and Objectives Worksession was to establish service priority areas that should be addressed with the fiscal year 2005 Proposed Budget. The City Council outlined both their individual and collective priorities for the fiscal year 2005 budget including the following Priority Areas:

- Infrastructure
- Economic Development
- Human Development
- Accountability
- Environment
- Neighborhoods
- Senior Services
- Health
- Public Safety
- Interlocal Cooperation

City staff followed the City Council's guidance from the Goals and Objectives Worksession as the basis for recommending redirections and reductions in the Proposed Budget and for proposing targeted added investments in Key Council priority areas.

Proposed Budget Preparation. The proposed budget document also reflects updated program information, goals and objectives and performance measures for each department. The Office of Management and Budget worked with departments to evaluate existing and proposed performance indicators which would help track the City's progress in the efficient and effective delivery of services to citizens and achieve stated goals and objectives. The performance indicators for each department are arranged in the balanced scorecard format. The performance measures are balanced in that they are grouped to reflect precisely each of the four key organizational aspects of each department: Customer Service, Financial Performance, Internal Processes Efficiency, and Employee Learning & Growth. The performance measures are designed to demonstrate and validate the impact of proposed improvements to service delivery.

Additionally, departments met with the Office of Management and Budget and with members of the Management Team to review target budgets based on current service delivery requirements as well as to review preliminary fund schedules. Following those meetings, each department was specifically asked to prepare proposals for the redirection of resources and/or suggested program reductions from services identified by City Council, the City Auditor's Office and City staff for "finding a better way." Additionally, each department was asked to present proposals addressing applicable recommendations coming from the BLS. Since early June 2004, the City Manager and the Management Team have met with each department director to review the department's estimated commitments for fiscal year 2004, performance measures, funds schedules, capital and grant programs, organization-wide policy issues addressed through fiscal year 2005 base budgets, proposed revenue enhancements, resource redirections, and program reductions.

The City Manager's proposed budget for fiscal year 2005 represents staff's professional recommendation on a program of revenues and expenditures that provide the highest level of service possible within available resources. Overall, proposed expenditures have been closely examined to ensure the most efficient use of resources and to identify opportunities for improving the effectiveness of service delivery. The proposed budget puts forth a balanced budget that eliminates the projected shortfall through reductions designed to provide continued City services with the least adverse impact on the City Council priorities and recommends targeted added investments in priority areas such as economic development, Brooks City-Base, human development, code enforcement, and neighborhood infrastructure and maintenance.

Fiscal Year 2005 Adopted Budget. After receipt of the proposed budget, the City Council held a series of worksessions to review the proposed service program details. The budget worksessions provided a forum for public discourse on significant policy issues as well as an opportunity to review departmental service plans highlighting proposed program enhancements, reductions, and redirections. After considering all the recommendations and receiving input from citizens at two public hearings, City Council amended the budget by balancing program revenues and expenditures to make the proposed service plan more closely track the Council priority objectives.

Annexation Plan

Through annexation, the City has grown from its original size of 36 square miles to its current area, encompassing 448.41 square miles (full purpose annexations only) or 511.78 square miles (both full purpose and limited purpose annexations only) and having a fiscal year 2005 total market valuation of \$51.741 billion¹. The City expects to continue to utilize the practice of annexation as a future growth and development management tool, as well as an opportunity to enhance the City's fiscal position. Planned annexations by the City are currently under consideration.

At its November 20, 2002 meeting, the City Council annexed, effective December 31, 2002, five areas for inclusion within the City for full purposes, adding 18.70 square miles of land to the City's total area. At that same meeting, the City Council also annexed effective January 5, 2003, six areas for limited purposes. Effective August 1, 2004, City Council annexed an additional area for limited purposes south of the Medina River. The areas annexed for limited purposes account for a total of 63.37 square miles of land within the City's corporate limits. Limited purpose annexation areas, although included in the total calculation of the City corporate limits, are excluded in the calculation of property values. (See "Limited Purpose Annexation" below).

Limited Purpose Annexation

The City annexed for limited purposes, effective January 5, 2003, six areas south of San Antonio and an additional area south of the Medina River, effective August 1, 2004. Limited purpose annexation allows the City to extend regulatory authority for the limited purposes of applying its planning, zoning, health, and safety ordinances to specified areas. The City may not impose a property tax in such areas until the property is annexed for full purposes, which generally occurs within three years after limited purpose annexation.

As a requirement of Section 43.123, Texas Local Government Code, as amended, the City published a planning study and regulatory plan regarding the proposed limited purpose annexation areas. The planning study addresses projected levels of development in the next ten years with and without annexation of such areas, issues regarding (and the public benefits of) annexation, economic and environmental impact of annexation, and proposed zoning for the specified areas. The regulatory plan outlines development regulations and the respective dates of future, full purpose annexation.

Annexation Plan

In 1999, the Texas Legislature passed Chapter 1167, Acts of the 76th Legislature, Regular Session, 1999 (the "Annexation Act"), changing the manner in which Texas municipalities can annex land. Under the Annexation Act (such requirement now codified at Section 43.052, Texas Government Code), municipalities must prepare an annexation plan specifically identifying annexations that may occur beginning on the third anniversary of the date such plan was adopted.

The City Council, at its September 19, 2002 meeting, adopted a three-year annexation plan for the City. At its December 12, 2002 meeting, City Council amended the plan identifying 13 areas for full purpose annexation, as required by Section 43.052 of the Texas Local Government Code, seven of these areas are scheduled to be annexed effective December 31, 2005, and the six south side limited purpose annexation areas are scheduled to be annexed for full purposes on January 5, 2006. City Council approved an additional amendment to its annexation plan on July 22, 2004, to include the limited purpose annexation south of the Medina River, which is scheduled for full purpose annexation on July 31, 2007.

Public Improvement District

Pursuant to the Public Improvement District Assessment Act, Chapter 372, Texas Local Government Code, as amended, on April 29, 1999, the City Council created a Public Improvement District ("PID") in the central business district. The purpose of the PID is to provide public improvement services to properties within the boundaries of

¹ Based on Tax Year 2004 actual market value of taxable property certified by Bexar Appraisal District as of July 25, 2004.

the PID to include: (1) sidewalk sweeping and washing; (2) graffiti abatement; (3) landscaping/streetscaping services; (4) a marketing and promotional program; and (5) a public service representative program. On July 1, 1999, the City Council authorized the City to execute a contract with Centro San Antonio Management Corporation, a non-profit Texas corporation, to manage the PID programs. A 15-member Board of Directors of the PID meets at least quarterly to assure performance of Centro San Antonio Management Corporation. The supplemental services and improvements to be provided are detailed in the annual Service and Assessment Plan, which must be approved by the City Council. The fiscal year 2005 plan reflects a total budget of \$1,510,000, based on an assessment rate of \$0.11 per \$100 valuation. In addition to assessment revenues from private property, which are expected to yield approximately \$1,124,059 in fiscal year 2005, estimated additional funds are to be received from annual contributions from the City and City Public Service combined of \$93,668, from VIA Metropolitan Transit of \$30,000, from Bexar County of \$30,000, and from the General Services Administration of \$7,500. The PID will operate on these collected revenues and will not issue bonds. The PID is authorized for a term of five years through the end of fiscal year 2009.

GASB Statement No. 34 Implications for the City

Beginning with fiscal year ending 2002, the City implemented Governmental Accounting Standards Board Statement No. 34, "Basic Financial Statements – Management's Discussion and Analysis – for State and Local Governments," ("GASB Statement No. 34"). GASB Statement No. 34 requires the City to include a management's discussion and analysis that will give readers an objective and easily readable analysis of the government's financial performance for the year. In addition, capital assets, including infrastructure, are recorded and depreciated in the government-wide statement of net assets. GASB Statement No. 34 requires retroactive reporting of all major general infrastructure assets four years after the effective date of implementing GASB Statement No. 34. Although the City was only required, beginning with fiscal year 2002, to report general infrastructure prospectively, the City elected to early-implement the infrastructure reporting requirements. See "Appendix C – Selected portions of the City's Comprehensive Annual Financial Report" for the year ended September 30, 2003 herein.

Investments

Available investable funds of the City are invested as authorized and required by the Texas Public Funds Investment Act, Chapter 2256, Texas Government Code, as amended (the "Act"), and in accordance with an Investment Policy approved by the City Council. The Act requires that the City establish an investment policy to ensure that City funds are invested only in accordance with State law. The City established a written investment policy adopted September 30, 2004. The City's investments are managed by its Finance Director, who, in accordance with the Investment Policy, reports investment activity to the City Council.

Legal Investments

Under Texas law, the City is authorized to invest in (1) obligations of the United States or its agencies and instrumentalities; (2) direct obligations of the State or its agencies and instrumentalities; (3) collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States; (4) other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of, the State or the United States or their respective agencies and instrumentalities; (5) obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than "A" or its equivalent; (6) certificates of deposit issued by a state or national bank, savings bank, or a state or federal credit union, which is domiciled in the State, that are guaranteed or insured by the Federal Deposit Insurance Corporation, guaranteed or insured by the Federal Deposit Insurance Corporation or the National Credit Union Share Insurance Fund, or are secured as to principal by obligations described in the clauses (1) through (5) and (13) or in any other manner and amount provided by law for City deposits; (7) fully collateralized repurchase agreements that have a defined termination date, are fully secured by obligations described in clause (1), requires the securities being purchased by the City to be pledged to the City, held in the City's name, and deposited at the time the investment is made with the City or with a third party selected and approved by the City, and are placed through a primary government securities dealer or a financial institution doing business in the State; (8) bankers' acceptances with the remaining term of 270 days or less, which will be liquidated in full at

maturity, is eligible for collateral for borrowing from a Federal Reserve Bank, if the short-term obligations of the accepting bank or its parent are rated at least “A-1” or “P-1” or the equivalent by at least one nationally recognized credit rating agency; (9) commercial paper with a stated maturity of 270 days or less and is rated at least “A-1” or “P-1” or the equivalent by either (i) two nationally recognized credit rating agencies or (ii) one nationally recognized credit rating agency if the paper is fully secured by an irrevocable letter of credit issued by a U.S. or state bank; (10) no-load money market mutual funds registered with and regulated by the Securities and Exchange Commission that have a dollar weighted average portfolio maturity of 90 days or less and include in their investment objectives the maintenance of a stable net asset value of \$1 for each share, and provide the City with a prospectus and other information required by the Securities and Exchange Act of 1934 or the Investment Act of 1940; (11) no-load mutual funds registered with the Securities and Exchange Commission that have an average weighted maturity of less than two years; invests exclusively in obligations described in the preceding clauses; are continuously rated as to investment quality by at least one nationally recognized investment rating firm of not less than “AAA” or its equivalent; and conforms to the requirements for eligible investment pools; (12) public funds investment pools that have an advisory board which includes participants in the pool and are continuously rated as to investment quality by at least one nationally recognized investment rating firm of not less than “AAA” or “AAA-m” or its equivalent or no lower than investment grade with a weighted average maturity no greater than 90 days; (13) bonds issued, assumed, or guaranteed by the State of Israel; and (14) guaranteed investment contracts secured by obligations of the United States of America or its agencies and instrumentalities, other than prohibited obligations described in the next succeeding paragraph, with a defined termination date, and pledged to the City and deposited with the City or a third party selected and approved by the City.

Effective September 1, 2003, entities such as the City may enter into securities lending programs if (i) the securities loaned under the program are 100% collateralized, a loan made under the program allows for termination at any time and a loan made under the program is either secured by (a) obligations that are described in clauses (1) through (5) and clause (13) above, (b) irrevocable letters of credit issued by a state or national bank that is continuously rated by a nationally recognized investment rating firm at not less than A or its equivalent or (c) cash invested in obligations described in clauses (1) through (5) and clause (13) above, clause (9) above and clauses (10) and (11) above, or an authorized investment pool; (ii) securities held as collateral under a loan are pledged to such investing entity or a third party designated such investing entity; (iii) a loan made under the program is placed through either a primary government securities dealer or a financial institution doing business in the State of Texas; and (iv) the agreement to lend securities has a term of one year or less.

The City may invest in such obligations directly or through government investment pools that invest solely in such obligations provided that the pool are rated no lower than “AAA” or “AAA-m” or an equivalent by at least one nationally recognized rating service. The City may also contract with an investment management firm registered under the Investment Advisors Act of 1940 (15 U.S.C. Section 80b-1 et seq.) or with the State Securities Board to provide for the investment and management of its public funds or other funds under its control for a term up to two years, but the City retains ultimate responsibility as fiduciary of its assets. In order to renew or extend such a contract, the City must do so by order, ordinance, or resolution. The City is specifically prohibited from investing in (1) obligations whose payment represents the coupon payments on the outstanding principal balance of the underlying mortgage-backed security collateral and pays no principal; (2) obligations whose payment represents the principal stream of cash flow from the underlying mortgage-backed security and bears no interest; (3) collateralized mortgage obligations that have a stated final maturity of greater than 10 years; and (4) collateralized mortgage obligations the interest rate of which is determined by an index that adjusts opposite to the changes in a market index.

Investment Policies

Under Texas law, the City is required to invest its funds in accordance with written investment policies that primarily emphasize safety of principal and liquidity; that address investment diversification, yield, maturity, and the quality and capability of investment management; that includes a list of authorized investments for City funds, maximum allowable stated maturity of any individual investment, the maximum average dollar-weighted maturity allowed for pool fund groups, and the methods to monitor the market price of investments acquired with public funds and the requirement for settlement of all transactions, except investment pool funds and mutual funds, on a delivery versus payment basis. All City funds must be invested consistent with a formally adopted “Investment

Strategy Statement” that specifically addresses each funds’ investment. Each Investment Strategy Statement will describe its objectives concerning: (1) suitability of investment type; (2) preservation and safety of principal; (3) liquidity; (4) marketability of each investment; (5) diversification of the portfolio; and (6) yield.

Under Texas law, City investments must be made “with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person’s own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived.” At least quarterly the investment officers of the City must submit to the City Council an investment report detailing (1) the investment position of the City; (2) that all investment officers jointly prepared and signed the report; (3) the beginning market value, any additions and changes to market value, the fully accrued interest, and the ending value of each pooled fund group; (4) the book value and market value of each separately listed asset at the beginning and end of the reporting period; (5) the maturity date of each separately invested asset; (6) the account or fund or pooled fund group for which each individual investment was acquired; and (7) the compliance of the investment portfolio as it relates to (a) adopted investment strategy statements and (b) State law. No person may invest City funds without express written authority from the City Council.

Additional Provisions. Under Texas law the City is additionally required to: (1) annually review its adopted policies and strategies, (2) adopt an ordinance or resolution stating that it has reviewed its investment policy and investment strategies and records any changes made to either its investment policy or investment strategy in said ordinance or resolution, (3) require any investment officers with personal business relationships or relatives with firms seeking to sell securities to the entity to disclose the relationship and file a statement with the Texas Ethics Commission and the City Council; (4) require the qualified representative of firms offering to engage in an investment transaction with the City to: (a) receive and review the City’s investment policy, (b) acknowledge that reasonable controls and procedures have been implemented to preclude investment transactions conducted between the City and the business organization that are not authorized by the City’s investment policy (except to the extent that this authorization is dependent on an analysis of the makeup of the City’s entire portfolio or requires an interpretation of subjective investment standards), and (c) deliver a written statement in a form acceptable to the City and the business organization attesting to these requirements; (5) perform an annual audit of the management controls on investments and adherence to the City’s investment policy; (6) provide specific investment training for the Treasurer, Chief Financial Officer, or other investment officers; (7) restrict reverse repurchase agreements to not more than 90 days and restrict the investment of reverse repurchase agreement funds to no greater than the term of the reverse repurchase agreement; (8) restrict the investment in mutual funds in the aggregate to no more than 80% of the City’s monthly average fund balance, excluding bond proceeds and reserves and other funds held for debt service and further restrict the investment in non-money market mutual funds of any portion of bond proceeds, reserves and funds held for debt service and to no more than 15% of the entity’s monthly average fund balance, excluding bond proceeds and reserves and other funds held for debt service; (9) require local government investment pools to conform to the new disclosure, rating, net asset value, yield calculation, and advisory board requirements, and (10) at least annually review, revise, and adopt a list of qualified brokers that are authorized to engage in investment transactions with the City.

Current Investments

At September 30, 2004, investable City funds in the approximate amount of \$701,643,098 currently are 87.41% invested in obligations of the United States, or its agencies and instrumentalities, and 11.38% invested in a money market mutual fund, with the weighted average maturity of the portfolio being less than one year. The remaining 1.21% of the City’s portfolio includes a portion of the convention center debt service reserve fund of \$8,499,915, which is invested in a fully collateralized repurchase agreement that is fully secured by obligations of the United States or its agencies and instrumentalities. The investments and maturity terms are consistent with State law, and the City’s investment policy objectives, which are to preserve principal, limit risk, maintain diversification and liquidity, and to maximize interest earnings.

The market value of such investments (as determined by the City by reference to published quotations, dealer bids, and comparable information) was approximately 99.99% of their book value. No funds of the City are invested in derivative securities; i.e., securities whose rate of return is determined by reference to some other instrument, index, or commodity.

Certain Significant Issues Affecting the City

Water Supply

As previously mentioned, the primary source of water for the City is the Edwards Aquifer. Usage of water from the Edwards Aquifer, including usage by the City of San Antonio, has steadily decreased since the Edwards Aquifer Authority was established in 1993. The Edwards Aquifer is also the primary source of water for the agricultural economy in the two counties west of San Antonio and is the source of water for Comal and San Marcos Springs in New Braunfels and San Marcos, respectively, which depend upon springflow for their tourist-based economy. Edwards Aquifer water from these springs provides the habitat for species listed as endangered by the U.S. Fish & Wildlife Service under the federal Endangered Species Act and provides base flow for the Guadalupe River. Water levels in the Edwards Aquifer are affected by rainfall or lack thereof, water usage region-wide, and discharge from the aforementioned springs. One unique aspect of the Edwards Aquifer is its prolific rechargeability and the historical balance between recharge and discharge in the form of well withdrawals and spring discharges.

During the 1980s, increasing demand on the Edwards Aquifer threatened to exceed average historical recharge, generating concerns by the areas dependent upon springflow for water and the local economy. Also, the fluctuations in Edwards Aquifer levels threatened to jeopardize flow from Comal and San Marcos Springs. Since groundwater, including the Edwards Aquifer, is subject to the rule of capture in Texas, meaningful management could not be accomplished in the absence of new State legislation.

Regional planning efforts to address these issues were undertaken in the mid-1980s, resulting in recommendations for new State legislation for management of the Edwards Aquifer. Failure to adopt this legislation in the 1989 Texas Legislative Session resulted in the initiation of various lawsuits and regulatory efforts by regional interests dependent upon springflow to force limitations on overall usage from the Edwards Aquifer. In addition to the litigation discussed below, litigation was initiated in State District Court to have the Edwards Aquifer declared an underground river under State law, and therefore, owned by the State. This litigation was unsuccessful. In addition, efforts were undertaken to have the Texas Water Commission (now the Texas Commission on Environmental Quality) regulate the Edwards Aquifer. In April 1992, the Texas Water Commission adopted emergency rules declaring the Edwards Aquifer to be an underground stream, and therefore, State water subject to regulation by the State. After final adoption of permanent rules, litigation was initiated in State court challenging the Texas Water Commission's determination. The Texas Water Commission's permanent rules and the Commission's determination that the Edwards Aquifer was an underground stream, and, therefore, subject to regulation by the State, were declared invalid by the State courts.

The various litigations and regulatory efforts to manage withdrawals from the Edwards Aquifer resulted in passage of the Edwards Aquifer Authority Act in 1993 and its amendment in 1995 to allow its implementation. The Edwards Aquifer Authority began operation on July 1, 1996, and implementation of the State legislation will ultimately result in elimination of uncertainties concerning access to and use of Edwards Aquifer water by the City and all other Aquifer users.

The board of the Edwards Aquifer Authority has adopted rules for governing (1) critical period and demand management measures and (2) requirements for the issuance of permits for withdrawal of water from the Edwards Aquifer. Critical period management rules mandate staged reduction in water usage by limiting discretionary use with successive measures based upon Aquifer levels. The City currently has a similar critical period management ordinance, limiting discretionary water usage through primarily restricting outdoor water use and lawn watering. SAWS does not expect these rules to materially adversely affect revenues or operation or SAWS ability to supply water to its customers for primary needs. Further, as indicated elsewhere in this statement, SAWS has acquired through purchase or lease additional groundwater to ensure that its demands during critical period restrictions are met.

The Edwards Aquifer Authority has entered the final stages of completing the permitting process. Currently, the EAA has issued 868 permits, which composes 98% of the total permits issued. The permitting process should be completed by May 2005. The Edwards Aquifer Authority staff proposed permit(s) for 196,425 acre-feet for the Systems' permanent Edwards water right holdings. All final board action has been taken regarding these permits.

In addition to the 196,425 acre-feet, SAWS holds an additional 28,500 acre-feet of Edwards leases, five to ten year terms, bringing SAWS total inventory to 224,925 acre-feet. The System pumped 159,051 acre-feet of Edwards water during 2004.

Implementation of the legislation and management of the Edwards Aquifer will benefit the City. The legislation should provide a basis for resolving disputes concerning the application of the Endangered Species Act to the Edwards Aquifer and will prevent further diminution of usage by existing users, such as the City, caused by new users and additional demand. The legislation creates permitted rights and hence, a market in the limited resource and an incentive to implement conservation measures region-wide. The City believes that implementation of the legislation will also ultimately result in the elimination of litigation threats to existing water usage from the Edwards Aquifer.

The City Council appointed a citizen's committee to develop a water policy to address the SAWS' and City's long-range water needs. The committee made its report of the Citizens' Committee on water policy in January 1997. Citizens' Committee conclusions include increasing the yield of the Edwards aquifer through additional recharge and other means, transporting water to San Antonio from other river basins and other groundwater sources, water reuse, and conservation.

Water Reuse Program

SAWS supplies reuse water to City Public Service (CPS), San Antonio's municipally owned electrical utility. The revenues derived from such agreement have been restricted in use to only reuse activities and are excluded from the calculation of Gross Revenues, and are not included in any transfers to the City's General Fund. Revenues derived from this agreement are approximately \$2 million each year.

SAWS has constructed a direct reuse, or recycled water, system that provides non-potable water to various customers now using Edwards Aquifer water. The Reuse Program serves golf courses, grass farms, a university, a military base, a city landfill, a city baseball stadium, and others. Revenue from recycled water sales will be recorded as normal revenue of SAWS and will not have the restrictions of the reuse agreement with CPS.

Please refer to Table 18 herein for historical transfers from SAWS to the City's General Fund.

Electric and Gas Supply

The CPS electric system serves a territory consisting of substantially all of Bexar County and small portions of the adjacent counties of Comal, Guadalupe, Atascosa, Medina, Bandera, Wilson, and Kendall. Certification of this service area has been approved by the Public Utility Commission of Texas ("PUCT"). Effective January 1, 1997, the transmission grid in Texas was opened to wholesale competition by virtue of PUCT regulations implementing 1995 Texas legislation. Wholesale customers include cities and towns buying power for resale and as a result of the new regulations, the transmission grid is available on an open access basis to any power provider to supply these loads. CPS sells electricity at wholesale prices to the Floresville Electric Light & Power System, the City of Hondo, and the City of Castroville. Renewal contracts have been entered into with these long-term wholesale customers in recent years. CPS became the wholesale electric provider of the City of Brady under a multi-year contract commencing December 2002. CPS believes that it will have additional opportunities to enter into long-term wholesale electric power agreements. The requirements under the existing and any new wholesale agreements would be firm energy obligations of CPS.

The City Council exercises original electric and gas rate regulatory jurisdiction over the CPS retail service areas, with appellate jurisdiction in the PUCT and Texas Railroad Commission for electric and gas rates, respectively, for areas outside the City. Pursuant to amendments made by the Texas Legislature in 1995 to the Texas Public Utility Regulatory Act ("PURA"), municipally-owned utilities, including CPS, became subject to the regulatory and rate jurisdiction of the PUCT relating to transmission of wholesale energy. The PURA amendments require the PUCT to establish open access transmission on the interconnected Texas grid for all utilities, co-generators, power marketers, independent power producers, and other transmission customers. (For further information, see "SAN ANTONIO ELECTRIC AND GAS SYSTEMS - Service Area and Rates" in Appendix A.)

The CPS electric system, like other municipal electric systems in the State, is adapting to changes in electric regulation brought about by the enactment of Senate Bill 7 ("SB 7") by the Texas Legislature in 1999. SB 7 provides for open competition in the provision of retail electric service in the State, which commenced on January 1, 2002. Municipal utilities, such as CPS, are not required to participate in the competitive retail market, although they may "opt-in" to retail electric competition. On April 26, 2001, the City Council passed a resolution stating that the City did not intend to opt-in to the deregulated electric market beginning January 1, 2002. SB 7 provides that "opt-in" decisions are to be made by the governing body or body vested with the power to manage and operate a municipal utility such as CPS. Given the relationship of the City Public Service Board of San Antonio, Texas ("CPS Board") and the City Council, any decision to opt-in to competition would be based upon the adoption of resolutions of both the CPS Board and the City Council. If the City and CPS choose to opt-in, other retail electric energy suppliers would be authorized to offer retail electric energy in the CPS service area and CPS would be authorized to offer retail electric energy in any other areas open to retail competition in the Electric Reliability Council of Texas ("ERCOT"). ERCOT is a synchronous interconnected electric system that operates wholly within Texas. (For further information, see "SAN ANTONIO ELECTRIC AND GAS SYSTEMS - Electric Utility Restructuring in Texas; Senate Bill 7" in Appendix A.)

Congress may also continue to consider legislation that would affect retail competition in the furnishing of electric energy. The ultimate effects of these and other developments in the restructuring of the electric industry, including possible state or national legislation, cannot be predicted. CPS, however, continues to implement organizational and systems changes to prepare for the possibility of participating in retail electric competition in Texas and will periodically advise the City regarding developments in the competitive market and the advisability of CPS' participation.

Please refer to Table 18 herein for historical transfers from CPS to the City's General Fund.

LITIGATION

General Litigation and Claims

The City is a defendant in various lawsuits and is aware of pending claims arising in the ordinary course of its municipal and enterprise activities, certain of which seek substantial damages. This litigation includes lawsuits claiming damages that allege that the City caused personal injuries and wrongful deaths; class actions and promotional practices; various claims from contractors for additional amounts under construction contracts; and property tax assessments and various other liability claims. The amount of damages in most of the pending lawsuits are capped under the Texas Tort Claims Act; therefore, the potential liability is approximated at \$8.9 million which is included in the reserve recorded in the City's Insurance Reserve Fund. The status of such litigation ranges from early discovery stage to various levels of appeal of judgments both for and against the City. The City intends to defend vigorously against the lawsuits; including the pursuit of any and all appeals; however, no prediction can be made, as of the date hereof, with respect to the liability of the City for such claims or the final outcome of such lawsuits.

In the opinion of the City Attorney, it is improbable that the lawsuits now outstanding against the City could become final in a timely manner so as to have a material adverse financial impact upon the City.

Information regarding various lawsuits against the City is included at Footnote 11, entitled "Commitments and Contingencies: in Appendix C attached hereto, entitled "Selected portions of the City's Comprehensive Annual Financial Report" for the year ended September 30, 2003. In addition, the City provides the following information regarding cases not contained in this Appendix C:

Charles and Tracy Pollock, individually and as next friend of Sarah Jane Pollock, a minor child v. City of San Antonio. This is a nuisance case alleging that benzene gas emitted from the City's West Avenue Landfill caused chromosomal damage to a fetus during the period of gestation, resulting in Plaintiff's contraction of acute lymphoblastic leukemia. Although the jury at trial entered a judgment of more than \$23 million against the City, the trial court immediately reduced this by \$6 million. On appeal, the Fourth Court of Appeals subsequently agreed with the City and reduced the judgment further by eliminating \$10 million in exemplary damages. The remaining

issue is whether personal injuries are recoverable under the Plaintiff's theory of nuisance. The City believes they are not and that even if they are recoverable, damages are capped at \$250,000 under the Texas Tort Claims Act. The City has appealed the matter to the Texas Supreme Court.

Matthew Jackson et. al. v. City of San Antonio. This is a Fair Labor Standards Act ("FLSA") lawsuit. It was brought as an opt-in class action, and 335 plaintiffs have opted in to the litigation. In general, plaintiffs claim they were required to report for duty 15 minutes prior to their shift, that they had to work beyond the end of their shifts, and that they were not compensated for the time at the overtime rate, in violation of the FLSA. Plaintiffs claim that they were (and are) entitled to be paid at 1.5 times their regular hourly rate for off-duty assignments on City property, and they make several lesser allegations based on the FLSA as well. Plaintiffs made, and the City rejected, a settlement demand in excess of \$15 million. Damages are not yet measurable, but if the City is unsuccessful, damages will most likely be well in excess of \$1 million, plus reasonable and necessary attorney's fees.

Brooks Hardee, et al v. City of San Antonio; Brooks Hardee et al v. City of San Antonio; Reed Lehman Grain, Ltd. v. City of San Antonio. These are similar lawsuits brought by the same developer/landowner under different entities. These particular lawsuits challenge the City's vested rights determinations for the landowner's projects and seek a declaration that the property is free from many of the City's development regulations and ordinances. The same Plaintiff/developer has multiple pending lawsuits against the City of San Antonio and the San Antonio Water System ("SAWS"), most of these filed within the last year. There are approximately 13 related lawsuits brought by the same landowner/developer. These lawsuits all raise complex issues of fact and law and, collectively, challenge the City's authority to regulate land development. However, the City's legal team is confident that many of the allegations are without merit. Nevertheless, it is proceeding carefully and deliberately to defend its regulations and its power to protect the public. The City has coordinated its defense with SAWS and hired a team of experienced litigators to challenge the allegations.

TAX MATTERS

The delivery of the 2005 Obligations is subject to the opinions of Fulbright & Jaworski L.L.P. and Law Offices of William T. Avila, P.C., Co-Bond Counsel to the City ("Co-Bond Counsel"), to the effect that interest on the 2005 Obligations for federal income tax purposes under existing statutes, regulations, published rulings, and court decisions (1) will be excludable from the gross income, as defined in section 61 of the Internal Revenue Code of 1986, as amended (the "Code"), to the date of initial delivery of the 2005 Obligations of the owners thereof pursuant to section 103 of the Code and (2) will not be included in computing the alternative minimum taxable income of the owners thereof who are individuals or, except as hereinafter described, corporations. Forms of Co-Bond Counsel's anticipated opinions are included as Appendix B. The statutes, regulations, rulings, and court decisions on which such opinions will be based are subject to change.

Interest on all tax-exempt obligations, including the 2005 Obligations, owned by a corporation will be included in such corporation's adjusted current earnings for purposes of calculating the alternative minimum taxable income of such corporation, other than an S corporation, a qualified mutual fund, a financial asset securitization investment trust, a real estate investment trust (REIT), or a real estate mortgage investment conduit (REMIC). A corporation's alternative minimum taxable income is the basis on which the alternative minimum tax imposed by section 55 of the Code.

In rendering the foregoing opinions, Co-Bond Counsel will rely upon the verification report of Grant Thornton L.L.P., Minneapolis, Minnesota (see "VERIFICATION OF ARITHMETICAL AND MATHEMATICAL CALCULATIONS") and upon the representations and certifications of the City made in a certificate of even date with the initial delivery of the 2005 Obligations pertaining to the use, expenditure, and investment of the proceeds of the 2005 Obligations and will assume continuing compliance with the provisions of the 2005 Ordinances by the City subsequent to the issuance of the 2005 Obligations. The 2005 Ordinances contain covenants by the City with respect to, among other matters, the use of the proceeds of the 2005 Obligations and the facilities and equipment financed or refinanced therewith by persons other than state or local governmental units, the manner in which the proceeds of the 2005 Obligations are to be invested, if required, the calculation and payment to the United States Treasury of any "arbitrage profits" and the reporting of certain information to the United States Treasury. Failure to

comply with any of these covenants may cause interest on the 2005 Obligations to be includable in the gross income of the owners thereof from the date of the issuance of the 2005 Obligations.

Except as described above, Co-Bond Counsel will express no other opinion with respect to any other federal, State or local tax consequences under present law, or proposed legislation, resulting from the receipt or accrual of interest on, or the acquisition or disposition of, the 2005 Obligations. Prospective purchasers of the 2005 Obligations should be aware that the ownership of tax-exempt obligations such as the 2005 Obligations may result in collateral federal tax consequences to, among others, financial institutions, life insurance companies, property and casualty insurance companies, certain S corporations with subchapter C earnings and profits, certain foreign corporations doing business in the United States, individual recipients of Social Security or Railroad Retirement benefits, individuals otherwise qualifying for the earned income tax credit, owners of an interest in and a financial asset securitization investment trust, and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry, or who have paid or incurred certain expenses allocable to, tax-exempt obligations. Prospective purchasers should consult their own tax advisors as to the applicability of these consequences to their particular circumstances.

Co-Bond Counsel's opinions are not a guarantee of a result, but represent their legal judgment based upon their review of existing statutes, regulations, published rulings and court decisions and the representations and covenants of the City described above. No ruling has been sought from the Internal Revenue Service (the "Service") with respect to the matters addressed in the opinions of Co-Bond Counsel, and Co-Bond Counsel's opinions are not binding on the Service. The Service has an ongoing program of auditing the tax-exempt status of the interest on municipal obligations. If an audit of the 2005 Obligations is commenced, under current procedures the Service is likely to treat the City as the "taxpayer," and such owners of the 2005 Obligations would have no right to participate in the audit process. In responding to or defending an audit of the tax-exempt status of the interest on the 2005 Obligations, the City may have different or conflicting interests from the owners. Public awareness of any future audit of the 2005 Obligations could adversely affect the value and liquidity of the 2005 Obligations during the pendency of the audit, regardless of its ultimate outcome.

Tax Accounting Treatment of Discount or Premium on Certain 2005 Obligations

The initial public offering price of certain 2005 Obligations (the "Discount 2005 Obligations") may be less than the stated redemption price at maturity (as defined in section 1272 of the Code and Treasury Regulations thereunder) of the Discount 2005 Obligations. An amount equal to the difference between the initial public offering price of each Discount 2005 Obligation (assuming that at least ten percent of the Discount 2005 Obligations of that maturity are sold to the public at such price) and its stated redemption price at maturity constitutes original issue discount to the initial purchaser of such Discount 2005 Obligation. A portion of such original issue discount, allocable to the holding period of such Discount 2005 Obligation by the initial purchaser, will, upon the disposition of such Discount 2005 Obligation (including by reason of its payment at maturity), be treated as interest excludable from gross income, rather than as taxable gain, for federal income tax purposes. Such interest is considered to be accrued actuarially in accordance with the constant interest method over the life of a Discount 2005 Obligation, taking into account the semi-annual compounding of accrued interest, at the yield to maturity on such Discount 2005 Obligation. The allocation of such original issue discount will generally result in an amount being treated as interest that is different than the amount of the payment denominated as interest actually received by the initial purchaser during his taxable year.

Such interest may be required to be taken into account in determining the alternative minimum taxable income of a corporation, for purposes of calculating a corporation's alternative minimum tax imposed by section 55 of the Code and the amount of the branch profits tax applicable to certain foreign corporations doing business in the United States, even though there will not be a corresponding cash payment. In addition, the accrual of such interest may result in certain other collateral federal income tax consequences to, among others, financial institutions, life insurance companies, property and casualty insurance companies, certain S corporations with subchapter C earnings and profits, individual recipients of Social Security or Railroad Retirement Benefits, individuals otherwise qualifying for the earned income tax credit, owners of an interest in and a financial asset securitization trust, and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry, or who have paid or incurred certain expenses allocable to, tax-exempt obligations. Moreover, in the event of the sale or other taxable

disposition of a Discount 2005 Obligation prior to stated maturity, the amount realized by such owner in excess of the basis of such Discount 2005 Obligation in the hands of such owner (adjusted upward by the portion of the original issue discount allocable to the period for which such Discount 2005 Obligation was held) is includable in gross income.

Owners of Discount 2005 Obligations should consult with their own tax advisors with respect to the determination for federal income tax purposes of accrued interest upon disposition of Discount 2005 Obligations and with respect to the state and local tax consequences of owning and disposing of Discount 2005 Obligations. It is possible that, under applicable provisions governing determination of state and local income taxes, accrued interest on Discount 2005 Obligations may be deemed to be received in the year of accrual even though there will not be a corresponding cash payment.

The initial offering price (as furnished by the Underwriters) of certain 2005 Obligations (the "Premium 2005 Obligations"), may be greater than the amount payable on such 2005 Obligations at maturity. An amount equal to the difference between the initial public offering price of a Premium 2005 Obligation (assuming that at least ten percent of the Premium 2005 Obligations of that maturity are sold to the public at such price) and the amount payable at maturity constitutes premium to the initial purchaser of such Premium 2005 Obligation. The basis for federal income tax purposes of a Premium 2005 Obligation in the hands of such initial purchaser must be reduced each year by the amortizable bond premium, although no federal income tax deduction is allowed as a result of such reduction in basis for amortizable bond premium. Such reduction in basis will increase the amount of any gain (or decrease the amount of any loss) to be recognized for federal income tax purposes upon a sale or other taxable disposition of a Premium 2005 Obligation. The amount of premium that is amortizable each year by an initial purchaser is determined by using such purchaser's yield to maturity. Purchasers of the Premium 2005 Obligations should consult with their own tax advisors with respect to the determination of amortizable bond premium with respect to the Premium 2005 Obligations for federal income purposes and with respect to the state and local tax consequences of owning and disposing of Premium 2005 Obligations.

REGISTRATION AND QUALIFICATION OF 2005 OBLIGATIONS FOR SALE

The sale of the 2005 Obligations has not been registered under the Federal Securities Act of 1933, as amended, in reliance upon the exemption provided thereunder by Section 3(a)(2); and the 2005 Obligations have not been qualified under the Securities Act of Texas in reliance upon various exemptions contained therein; nor have the 2005 Obligations been qualified under the securities acts of any other jurisdiction. The City assumes no responsibility for qualification of the 2005 Obligations under the securities laws of any jurisdiction in which the 2005 Obligations may be sold, assigned, pledged, hypothecated, or otherwise transferred. This disclaimer of responsibility for qualification for sale or other disposition of the 2005 Obligations must not be construed as an interpretation of any kind with regard to the availability of any exemption from securities registration provisions.

LEGAL INVESTMENTS AND ELIGIBILITY TO SECURE PUBLIC FUNDS IN TEXAS

Section 1201.041 of the Public Security Procedures Act (Chapter 1201, Texas Government Code, as amended), provides that the 2005 Obligations are negotiable instruments governed by Chapter 8, Texas Business and Commerce Code, and are legal and authorized investments for insurance companies, fiduciaries, and trustees, and for the sinking funds of municipalities or other political subdivisions or public agencies of the State. With respect to investment in the 2005 Obligations by municipalities or other political subdivisions or public agencies of the State, the Public Funds Investment Act, (Chapter 2256, Texas Government Code, as amended,) requires that the 2005 Obligations be assigned a rating of "A" or its equivalent as to investment quality by a national rating agency. (See "RATINGS" herein.) In addition, various provisions of the Texas Finance Code provide that, subject to a prudent investor standard, the 2005 Obligations are legal investments for state banks, savings banks, trust companies with at least \$1 million of capital, and savings and loan associations. The 2005 Obligations are eligible to secure deposits of any public funds of the State, its agencies, and its political subdivisions, and are legal security for those deposits to the extent of their market value.

Section 271.051, as amended, of the Certificate of Obligation Act provides that the 2005 Certificates are legal and authorized investments for banks, savings banks, trust companies, savings and loan associations, insurance

companies, fiduciaries, and trustees, and for the sinking funds of cities, school districts, and other political subdivisions or public agencies of the State. Texas law further provides that obligations such as the 2005 Certificates are eligible to secure deposits of the state, its agencies, and political subdivisions, and are legal security for those deposits to the extent of their face value. For political subdivisions in Texas which have adopted investment policies and guidelines in accordance with the Public Funds Investment Act, (Chapter 2256, Texas Government Code, as amended), the 2005 Certificates may have to be assigned a rating of "A" or its equivalent as to investment quality by a national rating agency before such obligations are eligible investments for sinking funds and other public funds. (See "RATINGS" herein.)

The City has made no investigation of other laws, rules, regulations, or investment criteria which might apply to such institutions or entities or which might limit the suitability of the 2005 Obligations for any of the foregoing purposes or limit the authority of such institutions or entities to purchase or invest in the 2005 Obligations for such purposes. The City has made no review of laws in other states to determine whether the 2005 Obligations are legal investments for various institutions in those states.

LEGAL MATTERS

The City will furnish the Underwriters with a complete transcript of proceedings incident to the authorization and issuance of the 2005 Obligations, including the unqualified approving legal opinions of the Attorney General of the State to the effect that the 2005 Obligations are valid and legally binding obligations of the City, and based upon examination of such transcript of proceedings, the legal opinions of Co-Bond Counsel to the effect that the 2005 Obligations are valid and legally binding obligations of the City and, subject to the qualifications set forth herein under "TAX MATTERS," the interest on the 2005 Obligations is excludable from the gross income of the owners thereof for federal income tax purposes under existing statutes, published rulings, regulations, and court decisions. Co-Bond Counsel have been retained by and only represent the City. The customary closing papers, including a certificate to the effect that no litigation of any nature has been filed or is then pending to restrain the issuance and delivery of the 2005 Obligations, or which would affect the provision made for their payment or security, or in any manner questioning the validity of the 2005 Obligations will also be furnished. In their capacity as Co-Bond Counsel, Fulbright & Jaworski L.L.P., San Antonio, Texas, and the Law Offices of William T. Avila, P.C., San Antonio, Texas have reviewed the information appearing in this Official Statement under the captions "THE 2005 OBLIGATIONS," (except for the information under the caption "Defaults and Remedies," "Payment Record," and "Book-Entry-Only System" as to which no opinion is expressed) "TAX MATTERS," "REGISTRATION AND QUALIFICATION OF 2005 OBLIGATIONS FOR SALE," "LEGAL INVESTMENTS AND ELIGIBILITY TO SECURE PUBLIC FUNDS IN TEXAS," "LEGAL MATTERS," and "CONTINUING DISCLOSURE OF INFORMATION" (except under the caption "Compliance with Prior Undertakings" as to which no opinion is expressed) to determine whether such information fairly summarizes the material and documents referred to therein and is correct as to matters of law. Co-Bond Counsel have not, however, independently verified any of the factual information contained in this Official Statement nor have they conducted an investigation of the affairs of the City for the purpose of passing upon the accuracy or completeness of this Official Statement. No person is entitled to rely upon Co-Bond Counsel's limited participation as an assumption of responsibility for, or an expression of opinions of any kind with regard to the accuracy or completeness of any of the information contained herein. The legal fees to be paid Co-Bond Counsel for services rendered in connection with the issuance of the 2005 Obligations are contingent on issuance and delivery of the 2005 Obligations. The legal opinions of Co-Bond Counsel will accompany the obligations deposited with DTC or will be printed on the definitive obligations in the event of the discontinuance of the Book-Entry-Only System. Certain legal matters will be passed upon for the Underwriters by their counsel, McCall, Parkhurst & Horton L.L.P., San Antonio, Texas, and for the City by the City Attorney.

The various legal opinions to be delivered concurrently with the delivery of the 2005 Obligations express the professional judgment of the attorneys rendering the opinions as to the legal issues explicitly addressed therein. In rendering a legal opinion, the attorney does not become an insurer or guarantor of that expression of professional judgment, of the transaction opined upon, or of the future performance of the parties to the transaction. Nor does the rendering of an opinion guarantee the outcome of any legal dispute that may arise out of the transaction.

RATINGS

The City's unenhanced general obligation debt is rated "Aa2," "AA+," and "AA+" by Moody's, S & P, and Fitch. An explanation of the significance of such ratings may be obtained from Moody's, S&P, or Fitch. The rating of the 2005 Obligations by Moody's, S&P, and Fitch reflects only the views of said companies at the time the ratings are given, and the City makes no representations as to the appropriateness of the ratings. There is no assurance that the ratings will continue for any given period of time, or that the ratings will not be revised downward or withdrawn entirely by Moody's, S&P, and Fitch if, in the judgment of said companies, circumstances so warrant. Any such downward revision or withdrawal of the ratings may have an adverse effect on the market price of the 2005 Obligations.

CONTINUING DISCLOSURE OF INFORMATION

In the 2005 Ordinances, the City has made the following agreement for the benefit of the holders and Beneficial Owners of the 2005 Obligations. The City is required to observe the agreement for so long as it remains obligated to advance funds to pay the 2005 Obligations. Under the agreement, the City will be obligated to provide certain updated financial information and operating data annually, and timely notice of specified material events, to certain information vendors. This information will be available to securities brokers and others who subscribe to receive the information from the vendors.

Annual Reports

Under Texas law, including, but not limited to, Chapter 103, Texas Local Government Code, as amended, the City must keep its fiscal records in accordance with generally accepted accounting principles, must have its financial accounts and records audited by a certified public accountant and must file each audit report with the City Clerk. The City's fiscal records and audit reports are available for public inspection during the regular business hours of the City Clerk. Additionally, upon the filing of these financial statements and the annual audit, these documents are subject to the Texas Open Records Act, Texas Government Code, Chapter 552, as amended. Thereafter, any person may obtain copies of these documents upon submission of a written request to the City Clerk, City of San Antonio, Texas, 100 Military Plaza, San Antonio, Texas 78205, and upon paying the reasonable copying, handling, and delivery charges for providing this information.

The City will provide certain updated financial information and operating data to certain information vendors annually. The information to be updated includes all quantitative financial information and operating data with respect to the City of the general type included in this Official Statement indicated as Tables 1-14 and 16-19, and in the City's Comprehensive Annual Financial Report ("CAFR"), substantially in the manner set forth in Appendix C to this Official Statement. The City will update and provide this information within six months after the end of each fiscal year. The City will provide the updated information to each nationally recognized municipal securities information repository ("NRMSIR") and to any State Information Depository ("SID").

The City may provide updated information in full text or may incorporate by reference certain other publicly available documents, as permitted by the Rule. The updated information will include audited financial statements, if the City commissions an audit and it is completed by the required time. If audited financial statements are not available by the required time, the City will provide unaudited information within the required time and audited financial statements when and if the audit report becomes available. Any such financial statements will be prepared in accordance with the accounting principles described in the CAFR, substantially in the manner set forth in Appendix C to this Official Statement, or such other accounting principles as the City may be required to employ from time to time pursuant to State law or regulation.

The City's fiscal year ends September 30. Accordingly, it must provide updated information by March 31 in each year, unless the City changes its fiscal year. If the City changes its fiscal year, it will notify each NRMSIR and any SID of the change.

Material Event Notices

The City will also provide timely notices of certain events to certain information vendors. The City will provide notice of any of the following events with respect to the 2005 Obligations, if such event is material to a decision to purchase or sell 2005 Obligations: (1) principal and interest payment delinquencies; (2) non-payment related defaults; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions or events affecting the status of the 2005 Obligations; (7) modification to rights of holders of the 2005 Obligations; (8) 2005 Obligation calls; (9) defeasances; (10) release, substitution, or sale of property securing repayment of the 2005 Obligations; and (11) rating changes. (Neither the 2005 Obligations nor the 2005 Ordinances make any provision for debt service reserves, credit enhancement, or liquidity enhancement.) In addition, the City will provide timely notice of any failure by the City to provide information, data, or financial statements in accordance with its agreement described above under “Annual Reports.” The City will provide each notice described in this paragraph to any SID and to either each NRMSIR or the Municipal Securities Rulemaking Board (“MSRB”).

Availability of Information from NRMSIRs and SID

The City has agreed to provide the foregoing information only to NRMSIRs and any SID. The information will be available to holders of the 2005 Obligations only if the holders comply with the procedures and pay the charges established by such information vendors or obtain the information through securities brokers who do so.

The Municipal Advisory Council of Texas (the “MAC”) has been designated by the State of Texas and approved by the SEC staff as a qualified SID. The address of the MAC is 600 West 8th Street, Post Office Box 2177, Austin, Texas 78768-2177, and its telephone number is (512) 476-6947. The MAC has also received SEC approval to operate, and has begun to operate, a “central post office” for information filings made by municipal issuers, such as the City. A municipal issuer may submit its information filings with the central post office, which then transmits such information to the NRMSIRs and the appropriate SID for filing. This central post office can be accessed and utilized at www.DisclosureUSA.org (“DisclosureUSA”). The City may utilize DisclosureUSA for the filing of information relating to the 2005 Obligations.

Limitations and Amendments

The City has agreed to update information and to provide notices of material events only as described above. The City has not agreed to provide other information that may be relevant or material to a complete presentation of its financial results of operations, condition, or prospects or agreed to update any information that is provided, except as described above. The City makes no representation or warranty concerning such information or concerning its usefulness to a decision to invest in or sell 2005 Obligations at any future date. The City disclaims any contractual or tort liability for damages resulting in whole or in part from any breach of its continuing disclosure agreement or from any statement made pursuant to its agreement, although holders of the 2005 Obligations may seek a writ of mandamus to compel the City to comply with its agreement.

This continuing disclosure agreement may be amended by the City from time to time to adapt to changed circumstances that arise from a change in legal requirements, a change in law, or a change in the identity, nature, status, or type of operations of the City, but only if (1) the provisions, as so amended, would have permitted an underwriter to purchase or sell the 2005 Obligations in the primary offering described herein in compliance with the Rule, taking into account any amendments or interpretations of the Rule since such offering, as well as such changed circumstances; and (2) either (i) the registered owners of a majority in aggregate principal amount (or any greater amount required by any other provision of the 2005 Ordinances that authorize such an amendment) of the outstanding 2005 Obligations consent to such amendment or (ii) a person that is unaffiliated with the City (such as nationally recognized bond counsel) determined that such amendment will not materially impair the interest of the registered owners and Beneficial Owners of the 2005 Obligations. The City may also repeal or amend the provisions of this continuing disclosure agreement if the SEC amends or repeals the applicable provision of the Rule or a court of final jurisdiction enters judgment that such provisions of the Rule are invalid, but only if and to the extent that the provisions of this sentence would not prevent an underwriter from lawfully purchasing or selling 2005 Obligations in the primary offering of the 2005 Obligations.

Compliance with Prior Undertakings

During the past five years, the City has complied in all material respects with all of its previous continuing disclosure agreements in accordance with the Rule.

FORWARD-LOOKING STATEMENTS

The statements contained in this Official Statement, and in any other information provided by the City, that are not purely historical, are forward-looking statements, including statements regarding the City's expectations, hopes, intentions, or strategies regarding the future. Readers should not place undue reliance on forward-looking statements. All forward-looking statements included in this Official Statement are based on information available to the City on the date hereof, and the City assumes no obligation to update any such forward-looking statements. The City's actual results could differ materially from those discussed in such forward-looking statements.

The forward-looking statements included herein are necessarily based on various assumptions and estimates and are inherent subject to various risks and uncertainties, including risks and uncertainties relating to the possible invalidity of the underlying assumptions and estimates and possible changes or developments in social, economic, business, industry, market, legal, regulatory circumstances and conditions and actions taken or omitted to be taken by third parties, including customers, suppliers, business partners and competitors, and legislative, judicial, and other governmental authorities and officials. Assumptions related to the foregoing involve judgments with respect to, among other things, future economic, competitive, and market conditions of future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the City. Any of such assumptions could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this Official Statement will prove to be accurate.

UNDERWRITING

The Underwriters have agreed, subject to certain conditions, to purchase the 2005 Bonds from the City at a purchase price of \$124,503,448.09, (representing the principal amount of the Bonds, plus net original issue premium on the Bonds of \$9,030,985.45, and less Underwriters' discount on the Bonds of \$697,537.36), plus accrued interest. The Underwriters' obligations are subject to certain conditions precedent, and they will be obligated to purchase all of the 2005 Bonds if any 2005 Bonds are purchased. The 2005 Bonds may be offered and sold to certain dealers and others at prices lower than such public offering prices, and such public prices may be changed from time to time by the Underwriters.

The Underwriters have agreed, subject to certain conditions, to purchase the 2005 Certificates from the City at a purchase price of \$10,542,676.78, (representing the principal amount of the Certificates, plus net original issue premium on the Certificates in the amount of \$71,570.45, and less Underwriters' discount on the Certificates of \$63,893.67), plus accrued interest. The Underwriters' obligations are subject to certain conditions precedent, and they will be obligated to purchase all of the 2005 Certificates if any 2005 Certificates are purchased. The 2005 Certificates may be offered and sold to certain dealers and others at prices lower than such public offering prices, and such public prices may be changed from time to time by the Underwriters.

The Underwriters have reviewed the information in the Official Statement in accordance with their responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriters do not guarantee the accuracy or completeness of such information.

CO-FINANCIAL ADVISORS

Coastal Securities and Estrada Hinojosa & Company, Inc. (the "Co-Financial Advisors") are employed by the City in connection with the issuance of the 2005 Obligations and, in such capacity, have assisted the City in the preparation of certain documents related thereto. The Co-Financial Advisors fee for service rendered with respect to the sale of the 2005 Obligations is contingent upon the issuance and delivery of the 2005 Obligations.

The Co-Financial Advisors have not independently verified any of the information set forth herein. The information contained in this Official Statement has been obtained primarily from the City's records and from other sources which are believed to be reliable, including financial records of the City and other entities which may be subject to interpretation. No guarantee is made as to the accuracy or completeness of any such information. No person, therefore, is entitled to rely upon the participation of the Co-Financial Advisors as an implicit or explicit expression of opinions as to the completeness and accuracy of the information contained in this Official Statement.

The Co-Financial Advisors have reviewed the information in the Official Statement in accordance with their responsibilities to the City and, as applicable, to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Co-Financial Advisors do not guarantee the accuracy or completeness of such information.

VERIFICATION OF ARITHMETICAL AND MATHEMATICAL CALCULATIONS

The issuance of the 2005 Obligations will be subject to delivery by Grant Thornton LLP, Minneapolis, Minnesota, certified public accounts (the "Accountants"), of a report of the mathematical accuracy of certain computations. The Accountants will verify from the information provided to them the mathematical accuracy as of the date of the closing on the 2005 Obligations of (i) the computations contained in the provided schedules to determine that the anticipated receipts from the Federal Securities and cash deposits listed in the schedules provided by Coastal Securities, to be held in the Escrow Fund, will be sufficient to pay, when due, the principal and interest requirements of the Refunded Obligations, and (ii) the computations of yield on both the Federal Securities and the 2005 Obligations contained in the provided schedules used by Co-Bond Counsel in their determination that the interest on the 2005 Obligations is excludable from the gross income of the holders thereof. The Accountants will express no opinion on the assumptions provided to them, nor as to the exemption from taxation of the interest on the 2005 Obligations. Such verification of accuracy of such mathematical computation will be based upon information and assumptions supplied by the City and Coastal Securities, and such verification, information and assumptions will be relied on by Co-Bond Counsel in rendering their opinion described herein.

CERTIFICATION OF THE OFFICIAL STATEMENT

At the time of payment for and delivery of the 2005 Obligations, the Underwriters will be furnished a certificate, executed by proper officers of the City, acting in their official capacity, to the effect that to the best of their knowledge and belief (1) the descriptions and statements of or pertaining to the City contained in this Official Statement, and any addenda, supplement, or amendment thereto, for the 2005 Obligations, on the date of sale of the 2005 Obligations and on the date of the initial delivery of the 2005 Obligations, were and are true and correct in all material respects; (2) insofar as the City and its affairs, including its financial affairs, are concerned, such Official Statement did not and does not contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading; (3) insofar as the descriptions and statements including financial data, of or pertaining to entities, other than the City, and their activities contained in such Official Statement are concerned, such statements and data have been obtained from sources which the City believes to be reliable and the City has no reason to believe that they are untrue in any material respect; and (4) there has been no material adverse change in the financial condition of the City, since the date of the last financial statements of the City disclosed in Appendix C hereto.

AUTHORIZATION OF THE OFFICIAL STATEMENT

This Official Statement has been approved as to form and content and the use thereof in the offering of the 2005 Obligations was authorized, ratified, and approved by the City Council on the date of sale, and the Underwriters will be furnished, upon request, at the time of payment for and the delivery of the 2005 Obligations, a certified copy of such approval, duly executed by the proper officials of the City.

* * *

This Official Statement has been approved by the City Council for distribution in accordance with the provisions of the Rule.

APPENDIX A

City of San Antonio General Demographic and Economic Information

(THIS PAGE IS INTENTIONALLY LEFT BLANK)

APPENDIX A

CITY OF SAN ANTONIO GENERAL DEMOGRAPHIC AND ECONOMIC INFORMATION

This Appendix contains a brief discussion of certain economic and demographic characteristics of the City of San Antonio, Texas (the “City” or “San Antonio”) and of the metropolitan area in which the City is located. Although the information in this Appendix has been provided by sources believed to be reliable, no investigation has been made by the City to verify the accuracy or completeness of such information.

Population and Location

The Census 2000, prepared by the U.S. Census Bureau, found a City population of 1,144,646. The City’s Department of Planning estimated the City’s population at 1,282,800 for the calendar year ending December 31, 2004. The U.S. Census Bureau ranks the City as the second largest in the State of Texas and the eighth largest in the United States.

The City is the county seat of Bexar County, which has a population of 1,392,931 according to the Census 2000. The City’s Department of Planning estimated Bexar County’s population at 1,560,500 for the calendar year ending December 31, 2004. The City is located in south central Texas approximately 75 miles south of the state capital in Austin, 140 miles northwest of the Gulf of Mexico, and approximately 150 miles from the U.S./Mexico border cities of Del Rio, Eagle Pass, and Laredo, respectively.

The following table provides, as of April 1 for the years shown, the population of the City, Bexar County, and the San Antonio Metropolitan Statistical Area (“MSA”), which includes Bexar County and Comal, Wilson, and Guadalupe Counties:

Year	City of San Antonio	Bexar County	San Antonio MSA
1920	161,399	202,096	238,639
1930	231,542	292,533	333,442
1940	253,854	338,176	376,093
1950	408,442	500,460	542,209
1960	587,718	687,151	736,066
1970	654,153	860,460	888,179
1980	786,023	988,971	1,088,881
1990	935,933	1,185,394	1,324,749
2000	1,144,646	1,392,931	1,592,383

Sources: U.S. Census Bureau; City of San Antonio, Department of Planning.

Area and Topography

The area of the City has increased through numerous annexations, and now contains approximately 511.78 square miles. The topography of San Antonio is generally hilly with heavy black to thin limestone soils. There are numerous streams fed with underground spring water. The average elevation is 788 feet above mean sea level.

Annexation

Through annexation, the City has grown from its original size of 36 square miles to its current area, encompassing 448.41 square miles (full purpose annexations only) or 511.78 square miles (both full purpose and limited purpose annexations), and having a fiscal year 2005 total market valuation of \$51.741 billion¹. The City expects to continue to utilize the practice of annexation as a future growth and development management tool, as

¹ Based on Tax Year 2004 Actual Market Value of Taxable Property certified by Bexar Appraisal District as of July 25, 2004.

well as an opportunity to enhance the City's fiscal position. Planned annexations by the City are currently under consideration.

At its November 20, 2002 meeting, the City Council annexed, effective December 31, 2002, five areas for inclusion within the City for full purposes, adding 18.70 square miles of land to the City's total area. At that same meeting, the City Council also annexed, effective January 5, 2003 six areas for limited purposes. Effective August 1, 2004, City Council annexed an additional area for limited purposes south of the Medina River. The areas annexed for limited purposes account for a total of 63.37 square miles of land within the City's corporate limits. Limited purpose annexation areas, although included in the total calculation of the City corporate limits, are excluded in the calculation of property values. (See "Limited Purpose Annexation" below).

Limited Purpose Annexation

The City annexed for limited purposes, effective January 5, 2003, six areas south of San Antonio and an additional area south of the Medina River, effective August 1, 2004. Limited purpose annexation allows the City to extend regulatory authority for the limited purposes of applying its planning, zoning, health, and safety ordinances to specified areas. The City may not impose a property tax in such areas until the property is annexed for full purposes, which generally occurs within three years after limited purpose annexation.

As a requirement of Section 43.123, Texas Local Government Code, as amended, the City published a planning study and regulatory plan regarding the proposed limited purpose annexation areas. The planning study addresses projected levels of development in the next ten years with and without annexation of such areas, issues regarding (and the public benefits of) annexation, economic and environmental impact of annexation, and proposed zoning for the specified areas. The regulatory plan outlines development regulations and the respective dates of future, full purpose annexation.

Annexation Plan

In 1999, the Texas Legislature passed Chapter 1167, Acts of the 76th Legislature, Regular Session, 1999 (the "Annexation Act"), changing the manner in which Texas municipalities can annex land. Under the Annexation Act (such requirement now codified at Section 43.052, Texas Local Government Code), municipalities must prepare an annexation plan specifically identifying annexations that may occur beginning on the third anniversary of the date such plan was adopted.

The City Council, at its September 19, 2002 meeting, adopted a three-year annexation plan for the City. At its December 12, 2002 meeting, City Council amended the plan identifying 13 areas for full purpose annexation, as required by Section 43.052 of the Texas Local Government Code, seven of these areas are scheduled to be annexed effective December 31, 2005, and the six south side limited purpose annexation areas are scheduled to be annexed for full purposes on January 5, 2006. City Council approved an additional amendment to its annexation plan on July 22, 2004, to include the limited purpose annexation south of the Medina River, which is scheduled for full purpose annexation on July 31, 2007.

Form of Government and Administration

The City is a Home Rule Municipality that operates pursuant to the City of San Antonio City Charter (the "City Charter"), which was adopted in 1951 and became effective on January 1, 1952. The City Charter provides for a council-manager form of government, whereby subject only to the limitations imposed by the Texas Constitution and the City Charter, all powers of the City are vested in an elective Council (the "City Council") which enacts legislation, adopts budgets, and determines policies. The City Council is comprised of eleven (11) members, with ten members elected from single-member districts, and the Mayor elected at-large. Each member of the City Council serves two (2) year terms, and each member is limited to a maximum of two (2) full terms. The office of the Mayor is considered a separate office. The terms of all members of the City Council currently sitting in office expire on May 31, 2005.

The City Council also appoints a City Manager who executes the laws and administers the government of the City, and serves as the City's chief administrative officer. The City Manager serves at the pleasure of City Council.

Since its adoption, the City Charter has been amended on five separate occasions, November 1974, January 1977, May 1991, May 1997, and November 2001. Significant amendments to the City Charter include the amendment passed in May 1991, which limited the service by the Mayor and members of the City Council members to two full terms, each of which is two years in duration. Two separate City Charter review committees sitting in the early and mid-1990's and charged with conducting a comprehensive review of the City Charter resulted in the May 1997 passage of five propositions, each containing numerous amendments to the City Charter in May 1997. The most recent amendments to the City Charter occurred in 2001 and included, among others, provisions creating the position of an independent City Internal Auditor and granting the City Manager the power to appoint and remove the City Attorney upon the City Council's advice and/or confirmation.

City Manager Selection

On September 10, 2004, through Ordinance No. 99703, City Council accepted the resignation of the City Manager, Terry M. Brechtel. Ms. Brechtel's resignation was effective October 1, 2004. J. Rolando Bono was appointed to serve as Interim City Manager through Ordinance No. 99821; and his terms and conditions of employment were adopted and approved by Ordinance No. 99850. Mr. Bono will continue to serve as Interim City Manager until such time as the City Council appoints a City Manager. The City Council has hired a professional firm to assist in a nationwide search for a new City Manager.

Services

The full range of services the City provides to its constituents includes ongoing programs to provide health, welfare, art, cultural, and recreational services; maintenance and construction of streets, highways, drainage, and sanitation systems; public safety through police and fire protection; and urban redevelopment and housing. The City also considers the promotion of convention and tourism and participation in economic development programs high priorities. The funding sources from which these services are provided include ad valorem, sales, and hotel/motel tax receipts, federal and state grants, user fees, bond proceeds, tax increment financing, and other sources.

In addition to the above described general government services, the City provides services financed by user fees set at levels adequate to provide coverage for operating expenses and the payment of outstanding debt. These services include airport, parking, storm water, and environmental services.

Electric and gas services to the San Antonio area are provided by City Public Service ("CPS"), an electric and gas utility owned by the City that maintains and operates certain utilities infrastructure. This infrastructure includes a 16 generating unit electric system and the gas system that serves the San Antonio area. CPS operations and debt service requirements for capital improvements are paid from revenues received from charges to its customers. CPS is obligated to transfer a portion of its revenues to the City. CPS revenue transfers to the City for the City's fiscal year ending September 30, 2004 were \$206,057,000*.

Water, wastewater, recycled water, steam, and chilled water services are provided by the San Antonio Water System ("SAWS"), another City-owned and operated utility. In addition to these services, SAWS contracted with the City to provide certain storm water services thereto and it manages and develops water resources in and around the San Antonio region. SAWS is in its 13th year as a separate, consolidated entity that addresses the City's water-related issues in a coordinated and unified manner. SAWS operations and debt service requirements for capital improvements are paid from revenues received from charges to its customers. SAWS is obligated to transfer a portion of its revenues to the City. SAWS revenue transfers to the City for the City's fiscal year ended September 30, 2004 were \$6,607,897*.

Economic Factors

The City supports a favorable business environment and economic diversification which is represented by various industries, including domestic and international trade, convention and tourism, medicine and health care, government employment, agribusiness, manufacturing, financial business, telecommunications, telemarketing, insurance, and mineral production. Support for these economic activities is demonstrated by the City's commitment to its on-going infrastructure improvements and development and its dedicated work force. Total nonagricultural employment in the San Antonio MSA for November 2004 was 738,600, which is 11,200 or 1.54% more jobs than

* Unaudited.

the November 2003 total of 727,400. Service, trade, and government represent the largest employment sectors in the San Antonio MSA. Medical and bio-medical, tourism, and the military represent the largest industries in San Antonio. The City serves as a major insurance center in the southwest United States and is the headquarters location for several insurance companies. According to the San Antonio Business Journal Book of Lists 2005, San Antonio's five largest private-sector employers ranked by number of employees are: USAA (United Service Automobile Association), Methodist Healthcare System, SBC Communications, Inc., Baptist Health System, and Six Flags Fiesta Texas; and San Antonio's five largest publicly traded companies, ranked by revenues, are SBC Communications, Inc., Valero Energy Corp., Clear Channel Communications, Inc., Tesoro Petroleum Corp., and Harte-Hanks Inc.

Healthcare & Bioscience Industry

The healthcare and bioscience industry remains the largest industry sector in the San Antonio economy. The industry is diversified, with related industries such as research, pharmaceuticals, and manufacturing contributing approximately the same economic impact as health services. According to the *San Antonio's Healthcare and Bioscience Industry Economic Impact Study* commissioned by the Greater San Antonio Chamber of Commerce, the total economic impact from this industry sector totaled approximately \$12.9 billion in 2003. The industry provided 103,156 jobs, or approximately 14% of the City's total employment. The healthcare and bioscience industry's annual payroll in 2003 approached \$3.9 billion. The 2003 average annual wage of San Antonio workers was \$32,564, compared to \$37,747 for healthcare and bioscience employees. These 2003 economic impact figures represent growth of 8% over the previous year, or approximately \$1 billion. In addition, employment in the industry grew by 34% from 1993 through 2003.

Health Care. The 900-acre South Texas Medical Center (the "Medical Center") has ten major hospitals and nearly 80 clinics, professional buildings, and health agencies with combined budgets of over \$2.5 billion as of January 2004. As of January 2004, approximately 26,757 Medical Center employees provided care for over 3.64 million outpatients and approximately 101,871 inpatients. A survey based on 2002 data of 371,000 patients treated in the Medical Center with estimated billings of \$573 million, indicated that 30% or 111,000 came from surrounding counties. Physical plant values, not adjusted for inflation, representing the original investments in physical facilities and equipment (less depreciation) represent approximately \$1.7 billion, which is a \$42 million increase in 2003 over the previous year. The Medical Center has about 300 acres of undeveloped land still available for expansion. Capital projects already in progress total \$141 million, which represent a 26% increase in 2003 over the previous year. Capital projects planned for the years 2005 through 2009 will add an additional estimated \$169 million to present physical plant and equipment values.

Central to the Medical Center is The University of Texas Health Science Center at San Antonio (the "UT Health Science Center") with its five professional schools awarding more than 50 degrees and certificates, including Doctor of Medicine, Doctor of Dental Surgery, and Doctor of Philosophy in nursing, allied sciences, and other fields. The UT Health Science Center oversees the new, federally-funded Regional Academic Health Center in the Rio Grande Valley with facilities in Harlingen, McAllen, Brownsville, and Edinburg. An extension campus is under construction in Laredo, Texas. The UT Health Science Center received the largest amount of research funding of any South Texas university or institution in fiscal year 2003, garnering \$189 million.

There are numerous other medical facilities outside the boundaries of the Medical Center, including 25 short-term general hospitals, two children's psychiatric hospitals, and two state hospitals. There are three Department of Defense hospitals, one of which is located in the Medical Center (as hereinafter described).

Military Health Care. San Antonio has three major military hospitals, each of which has positively impacted the City for decades. Brooke Army Medical Center ("BAMC") conducts treatment and research in a new, 1.5 million square foot facility at Fort Sam Houston U.S. Army Base, providing health care to nearly 600,000 military personnel and their families. BAMC is a level one trauma center (the only one in the U.S. Army medical care system) and contains the world-renowned Institute of Surgical Research Burn Center. BAMC also conducts bone marrow transplants in addition to more than 600 ongoing research studies.

Wilford Hall Medical Center ("Wilford Hall") is the largest medical facility of the U.S. Air Force. In addition to providing health care to military personnel and their families, Wilford Hall is also a level one trauma center (the only one in the U.S. Air Force medical care system) that handles emergency medical care for approximately one-fourth of the City's emergency patients. Wilford Hall provides medical education for the

majority of its physician and dental specialists and other health professionals, conducts clinical investigations, and offers bone marrow and organ transplantation.

Audie L. Murphy Memorial Veterans Hospital, located in the Medical Center, is an acute care facility and supports a nursing home, the Spinal Cord Injury Center, an ambulatory care program, the Audie L. Murphy Research Services (which is dedicated to medical investigations), and the new Frank Tejada VA Outpatient Clinic (which serves veterans located throughout South Texas).

The two military medical care facilities and the Veterans Hospital partner in a variety of ways, including clinical research and the provision of medical care to military veterans. This partnership is unique and represents a valuable resource to San Antonio and the nation.

Bio-Medical Research and Development. Research and development are important areas that strengthen San Antonio's position as an innovator in the bio-medical field, with total research economic impact exceeding \$1.005 billion annually.

The Texas Research Park (the "Park") is the site for the University of Texas Institute of Biotechnology/Department of Molecular Medicine, the Cancer Therapy, and Research Center's Institute for Drug Development, The Southwest Oncology Group, and dozens of new biotechnology-related companies, whose work involves various stages of the very complicated drug development process. The Park has over \$100 million invested in its facilities and equipment and generates more than \$200 million in economic activity for the City each year. The Park is owned and operated by the Texas Research Park Foundation, whose mission includes building a world-class center for life-science research and medical education and promoting economic development through job creation. SBC Communications, Inc. donated \$1.8 million to the Park for a 7,000 square foot, state-of-the-art teleconferencing building that links all facilities at the Park to the UT Health Science Center and the University of Texas San Antonio ("UTSA").

The Southwest Foundation for Biomedical Research, which conducts fundamental and applied research in the medical sciences, is one of the largest independent, non-profit, biomedical research institutions in the United States, and is internationally renowned. The Southwest Foundation for Biomedical Research has a full time staff of 72 doctoral level employees, a technical staff of 115, and an administrative and supporting staff of 201 persons. Research departments include Departments of Genetics, Physiology and Medicine, Virology and Immunology, and Organic and Biological Chemistry. The Department of Laboratory Animal Medicine maintains the animal care facilities. The Foundation is also home to one of the few BSL-4 labs in the country, and its Genomics Computing is the world's largest computer cluster devoted to statistical genetic analysis.

The UT Health Science Center has been a major bioscience research engine since its inception, with strong research groups in cancer, cancer prevention, diabetes, drug development, geriatrics, growth factor and molecular genetics, heart disease, stroke prevention, and many other fields. One of its latest achievements is the establishment of the Children's Cancer Research Center, endowed with \$200 million from the State of Texas's tobacco settlement. The UT Health Science Center, along with the Cancer Therapy and Research Center, forms the San Antonio Cancer Institute, a National Cancer Institute-designated Comprehensive Cancer Center.

UTSA houses the Cajal Neuroscience Research Center, which is funded by \$11 million in ongoing grants and is tasked with training students in research skills while they perform basic neuroscience research on subjects such as aging and Alzheimer's disease. UTSA is also the recipient of more than \$35 million for its new School of Bioengineering.

A number of highly successful private corporations, such as Mission Pharmacal, DPT Laboratories, Ltd., and ILEX Oncology, Inc., operate their own research and development groups and act as guideposts for numerous biotech startups, bringing new dollars into the area's economy. A notable example of the results of these firms' research and development is ILEX Oncology, Inc., which has developed eight of the last 11 cancer drugs approved for general use by the Federal Drug Administration.

Hospitality Industry

The City's diversified economy includes a significant sector relating to the hospitality industry, which ranks second in its local economic impact. A recent study by the Greater San Antonio Chamber of Commerce found

that in 2002 the hospitality industry had an economic impact of nearly \$7.2 billion. The estimated annual payroll for the industry in 2002 was \$1.2 billion, and the industry employed over 80,000. In 2003, the City's overall performance for hotel occupancy increased by 0.3% and total room nights sold in the destination increased by 2.8%.

Tourism. During 2002, San Antonio attracted nearly 20 million visitors with direct spending across all industries in the City of \$4.8 billion. The list of attractions in the San Antonio area includes, among many others, the Alamo, and other sites of historic significance, the River Walk, two major theme parks (SeaWorld of Texas and Six Flags Fiesta Texas), and the professional basketball team, the San Antonio Spurs. In 2002, San Antonio ranked ninth among U.S. destinations for overnight leisure travel, according to research commissioned by the San Antonio Convention and Visitors Bureau. Visitor information is updated on a biennial basis with the next release scheduled for June 2005.

Conventions. San Antonio is one of the top convention cities in the country, and the recent expansion of the Henry B. Gonzalez Convention Center has enabled the area to compete for more and bigger conventions. The City is proactive in attracting convention business through its management practices and marketing efforts. The following table shows both overall city performance as well as convention activity booked by the San Antonio Convention & Visitors Bureau for the years indicated:

Calendar Year	Hotel Occupancy (%) ¹	Room Nights Sold ¹	Convention Attendance ²	Convention Room Nights ²	Convention Delegate Expenditures (\$ Millions) ^{2,3}
1995	68.2	5,255,310	400,751	744,954	328.1
1996	66.3	5,569,917	486,383	725,395	398.3
1997	64.5	5,747,771	417,492	670,039	341.9
1998	66.1	6,093,945	445,151	724,882	401.0
1999	65.2	6,219,742	406,539	678,014	366.2
2000	65.5	6,495,654	389,448	696,215	350.8
2001	63.1	6,361,879	419,970	712,189	378.3
2002	64.1	6,581,841	521,278	826,566	469.6
2003	64.7	6,871,139	424,951	709,081	382.8
2004	65.6	7,034,431	504,704	711,568	524.5

¹ Source: Smith Travel Research, based on hotels in San Antonio.

² Reflects only those conventions booked by the Convention and Visitors Bureau.

³ For the years of 1995 through 1997, the estimated dollar value is calculated in accordance with a 1993 Deloitte & Touche LLP study for the International Association of Convention and Visitor Bureaus ("IACVB") which reflected the average expenditure of \$818.82 per convention and trade show delegate. Beginning in 1998, the estimated dollar value is calculated in accordance with the 1998 IACVB Foundation Convention Income Survey Report conducted by Deloitte & Touche LLP, which reflected the average expenditure of \$900.89 per convention and trade show delegate. Calendar year 2004 is based on an average expenditure of \$1,030.20 per convention and trade show delegate, according to a Veris Consulting, LLC study for the IACVB.

Military Installations

The military represents a principal component of the City's economy providing an impact of over \$5 billion annually. Three major military installations are currently located in Bexar County, including Lackland Air Force Base ("Lackland AFB"), Fort Sam Houston U.S. Army Base ("Fort Sam"), and Randolph Air Force Base ("Randolph AFB"). In addition, the property of Brooks Air Force Base ("Brooks AFB"), a fourth major military installation, was transferred from the United States Air Force (the "Air Force") to the City-created Brooks Development Authority on July 22, 2002, as part of the Brooks City-Base Project ("Brooks City-Base"). As of September 2003, the total Department of Defense military employment associated with the three active military installations and Brooks City-Base approximates 80,500 military, civilian, and guard/reserve personnel with an annual aggregate payroll of over \$3 billion.

Military Base Redevelopment. On July 13, 2001, Kelly Air Force Base ("Kelly AFB") officially closed and the land and facilities were transferred to the Greater Kelly Development Authority ("GKDA"), a City Council-

created organization responsible for overseeing the redevelopment of the base into a business and industrial park. The new business park, known as KellyUSA, is focused on becoming the Port of San Antonio by: (1) establishing international air cargo operations; (2) developing a Kelly rail port for direct international rail operations including inland port distribution with the Port of Corpus Christi; (3) expanding aviation maintenance, repair, and overhaul (“MRO”) operations into a renowned international center of excellence for MRO. KellyUSA has facility assets of approximately \$1 billion and includes multi-modal infrastructure, including an 11,400-foot runway for commercial air operations valued at \$1.8 billion. To further the redevelopment goals, GKDA has completed over \$105 million in new construction and facility upgrades at KellyUSA, including a new 123,000 square foot hangar for Boeing in 2001 and a new office building in 2000. As of September 2004, redevelopment efforts have resulted in the retention of 7,221 military jobs and the creation of about 5,140 new commercial jobs. GKDA has also executed leases totaling approximately 8.2 million square feet of the space with 63 tenants such as Boeing, Lockheed-Martin, Chromalloy, Standard Aero, General Dynamics, General Electric, and Pratt & Whitney. An additional 2.4 million square feet of space has been leased back to the Air Force for their continued use. In 2004, GKDA began “Phase II New Facility Development” at KellyUSA that encompasses \$364 million in capital projects financed by City, State, federal and private sector funds. GKDA projects that Phase II will generate another 6,400 jobs and increase KellyUSA’s economic impact on the community to \$4.3 billion annually.

Brooks City-Base is a collaborative effort between the Air Force and the City designed to retain the Air Force missions and jobs at Brooks AFB, improve Air Force mission effectiveness, assist the Air Force in reducing its support operating costs, and promote and enhance economic development on Brooks AFB and in the surrounding community. Both the City and the Air Force are partnering to utilize City incentives and existing Brooks AFB resources to create the Brooks Technology & Business Park (the “Park”), a facility that will foster the development of key targeted industry sectors, such as health services and biotechnology. Brooks Technology & Business Park was officially established on July 22, 2002, with the transfer of the 1,310 acres of land and improvements comprising Brooks AFB to the City Council-established organization, Brooks Development Authority (“BDA”), with the Air Force becoming Brooks Technology & Business Park’s anchor tenant and leasing back additional facilities, as necessary, to perform its missions. The City is now providing municipal services to Brooks Technology & Business Park and has been providing fire and police services thereto since October 2001. Base electric, gas, and water utilities have been transferred by the BDA to the City-owned utilities, CPS and SAWS, respectively. As of December 2004, the BDA is saving the Air Force over \$5 million a year in support costs while the Air Force is occupying 95 percent of available space at Brooks City-Base. The BDA has also leased out another 82,000 square feet to commercial tenants. Development projects underway or planned at Brooks City-Base include a \$24.5 million City/County Emergency Operations Center, \$10 million in storm drainage improvements, the construction of two new facilities for lease to a local pharmaceutical manufacturer, and the potential construction of facilities for a School of Pharmacy. In addition, in November 2004, the BDA completed the sale of 62 acres at the northeast corner of the Park to a local developer and Wal-Mart for the construction of a 570,000 square foot commercial retail development. This sale resulted in net revenue to the BDA of about \$10 million for reinvestment in the Park and will create approximately 500 new jobs in South San Antonio.

Fort Sam has also initiated leasing activities to reduce infrastructure costs and pursue asset management opportunities using military facilities. In April 2000, the United States Army (the “Army”) entered into a partnership with the private organization, Fort Sam Houston Redevelopment Partners, Ltd. (“FSHRP”), for the redevelopment of the former Brooke Army Medical Center (“BAMC”) and two other buildings at Fort Sam. These three buildings, totaling about 500,000 square feet in space and located in a designated historic district, had been vacant for some time and were in a deteriorating condition. On June 21, 2001, FSHRP signed a 50-year lease with the Army to redevelop and lease these three properties to commercial tenants. In September 2003, the Army relocated Army South Headquarters from Puerto Rico to Fort Sam, bringing approximately 500 new jobs to San Antonio with an annual economic impact of approximately \$200 million. The Army negotiated a lease with the FSHRP to locate U.S. Army South and the Southwest Region Installation Management Agency in the old BAMC, for renovation on these historic facilities which was completed summer 2004. The continued success of this unique public-private partnership at Fort Sam is critical to assisting the Army in reducing infrastructure support costs, preserving historical assets, promoting economic development opportunities, and generating net cash flow for both the Army and FSHRP. This project supports the City’s economic development strategy to promote development in targeted areas of the City, leverage military installation economic assets to create jobs, and assist our military installations in reducing base support operating costs. The Army intends to extend the public-private partnership initiative to include other properties at Fort Sam currently available for redevelopment.

The City, in partnership with the Greater San Antonio Chamber of Commerce, community volunteers, Bexar County, and community stakeholders, has also formed a Military Missions Task Force (the “Task Force”) to continue working with local military installations to improve their military value, strengthen partnerships with local institutions, and to help attract new missions and jobs to San Antonio. With another round of base closure and realignment scheduled for 2005, the community has been proactive in strengthening the value of its military installations through unique initiatives like the Brooks City-Base project and the Fort Sam leasing project discussed above. The Task Force will continue to facilitate the success of these projects and to develop new partnership initiatives with the San Antonio military bases.

Other Major Industries

Aerospace Industry. The aerospace industry’s annual economic impact to the City is about \$2.9 billion. This industry provides some 8,283 jobs, with employees earning total annual wages totaling over \$320 million. The aerospace industry continues to expand as the City leverages its key aerospace assets, which include San Antonio International Airport, Stinson Municipal Airport, KellyUSA, Randolph AFB and Lackland AFB, and training institutions. Many of the major aerospace industry participants have significant operations in San Antonio, such as Boeing, Lockheed Martin, General Electric, Pratt & Whitney, Raytheon, Cessna, San Antonio Aerospace – a division of Singapore Technologies, Southwest Airlines, American Airlines, Delta and Continental, FedEx, UPS, and others. The industry in San Antonio is very diversified with continued growth in air passenger service, air cargo, MRO, and general aviation.

San Antonio International Airport (“SAT”) has added three new non-stop passenger routes in the past 12 months and currently has flights to 28 non-stop destinations, with seasonal charter service to Mexico available during the spring and summer. SAT is currently developing construction plans for a new Terminal B and Parking Garage, with groundbreaking expected respectively in the spring and summer 2005. SAT is also in the process of an Environmental Impact Statement for implementation of proposed airfield capacity enhancement projects recommended in the Airport Master Plan. Stinson is at 100% occupancy rate and has a tenant waiting list for facilities. A Stinson Master Plan was approved by the City Council in October 2002, implementation of the Master Plan recommendations is currently in process pending the successful completion of an Environmental Assessment for certain airfield improvements.

At KellyUSA, the MRO business is strong as tenants such as Boeing and Lockheed continue to secure long-term government contracts. KellyUSA is also working to add air cargo activity, having completed an Air Cargo Study and Strategic Plan in June 2002. This study also provided SAT with an Air Cargo Strategic Plan that includes recommendations on expanding the existing integrator service primarily provided by UPS, FedEx, and Airborne Express. In fall 2001, the community established the innovative Alamo Area Aerospace Academy (“AAAA”), a two-year training and internship program for high school juniors and seniors to prepare these students for a career in the aerospace industry and to help fill a critical workforce requirement. After three years, AAAA has graduated 117 seniors from the program with 87 finding jobs with a local aerospace company.

Aerospace Research and Development. Brooks Air Force Base 311th Human Systems Wing’s School of Aerospace Medicine, long active in research and development related to aviation and human systems, conducts research related to human effectiveness in aviation and is opening a new aircraft sustainability laboratory that will conduct research and development applicable to commercial aviation.

The Southwest Research Institute is one of the original and largest independent, nonprofit, applied engineering and physical sciences research and development organizations in the United States, serving industries and governments around the world in the engineering and physical sciences. Southwest Research Institute has contracts with the Federal Aviation Administration, General Electric, Pratt & Whitney, and other organizations to conduct research on many aspects of aviation, including testing synthetic jet fuel, developing software to assist with jet engine design, and testing turbine safety and materials stability. Southwest Research Institute occupies 1,200 acres and provides nearly two million square feet of laboratories, test facilities, workshops, and offices for more than 2,700 scientists, engineers, and support personnel.

Information Technology Industry. The Information Technology (“IT”) industry is one of the fastest-growing sectors of the local economy. With an overall economic impact of approximately \$3.4 billion, the IT industry represents about 7% of the San Antonio economy. Its economic impact has tripled since 1990 and doubled since 1995. The IT industry includes two major types of activity: (i) the production and sale of various types of

computer products and (ii) computer/data processing services. Due to the presence of many industry-leading information security companies and organizations, San Antonio is especially strong in this segment of the IT industry. The annual payroll among the IT industry's estimated 11,500 employees totals approximately \$500 million. Not captured in this employment number is an additional 4,600 employees of the Air Intelligence Agency located in San Antonio, which is the premier IT agency for the Air Force and the Department of Defense. The success of the AAAA prompted the community to establish a similar academy for IT, which began in August 2002 with an enrollment of 81 high school juniors and increasing to 104 juniors and seniors in the 2003/2004 class. The City is focused on leveraging its IT industry assets to serve the nation in developing and implementing the initiatives of the federal Homeland Security Act.

Manufacturing Industry. Toyota Motor Manufacturing broke ground on their sixth North American manufacturing facility on October 17, 2003. Toyota will invest over \$500 million in this facility, located on 2,000 acres in South San Antonio. Production is scheduled to begin in 2006, and at full production, the facility will produce 150,000 full-size Tundra trucks. With this project, Toyota will create 2,100 construction jobs, 2,000 direct jobs, and 5,300 spin-off jobs. At full operations, the payroll for the 2,000 workers at the facility will total between \$90 and \$100 million. It is estimated that the rate of return on the City of San Antonio's investment is 18.3%. In addition, on December 16, 2004, Toyota announced the creation of a Supplier Park at the Toyota manufacturing site. This Supplier Park will attract 18 supplier companies and create 1,500 manufacturing and assembly jobs with a capital investment of about \$150 million.

Education

There are 15 independent school districts within Bexar County with a combined enrollment of 269,304 for the fall 2004, encompassing in the aggregate 41 high schools, 72 middle/junior high schools, and 247 elementary schools; and there are an additional 24 open enrollment charter school districts with a total of 48 schools at all grade levels. Generally, students attend school in the districts in which they reside. There is currently no busing between school districts in effect. In addition, Bexar County has 93 accredited private and parochial schools at all education levels.

In San Antonio, the six largest universities, which include a medical school, a dental school, and a law school, and four public community colleges, had a combined enrollment of 93,721 for the fall 2004.

San Antonio Electric and Gas Systems

History and Management

The City acquired its electric and gas utilities in 1942 from the American Light and Traction Company, which had been ordered by the federal government to sell properties under provisions of the Holding Company Act of 1935. The bond ordinances authorizing the issuance of the currently outstanding Senior Lien Obligations, Junior Lien Obligations and Commercial Paper Notes establish management requirements and provide that the complete management and control of the City's electric and gas systems (the "EG Systems") is vested in a Board of Trustees consisting of five citizens of the United States of America permanently residing in Bexar County, Texas, known as the "City Public Service Board of Trustees, San Antonio, Texas" (referred to herein as the "CPS Board" or "CPS"). The Mayor of the City is a voting member of the Board, represents the City Council, and is charged with the duty and responsibility of keeping the City Council fully advised and informed at all times of any actions, deliberations, and decisions of the CPS Board and its conduct of the management of the EG Systems.

Vacancies in membership on the CPS Board are filled by majority vote of the remaining members. New CPS Board appointees must be approved by a majority vote of the City Council. A vacancy, in certain cases, may be filled by the City Council. The members of the CPS Board are eligible for re-election at the expiration of their first five-year term of office to one additional term only. In 1997, the City Council ordained that CPS Board membership should be representative of four geographic quadrants established by the City Council. New CPS Board members considered for approval by the City Council will be those whose residence is in a quadrant that provides such geographic representation.

The CPS Board is vested with all of the powers of the City with respect to the management and operation of the EG Systems and the expenditure and application of the revenues therefrom, including all powers necessary or appropriate for the performance of all covenants, undertakings, and agreements of the City contained in the bond ordinances, except regarding rates, condemnation proceedings, and issuances of bonds, notes, or commercial paper. The CPS Board has full power and authority to make rules and regulations governing the furnishing of electric and gas service and full authority with reference to making extensions, improvements, and additions to the EG Systems, and to adopt rules for the orderly handling of CPS' affairs. It is empowered to appoint and employ all officers and employees and must obtain and keep in force a "blanket" type employees' fidelity and indemnity bond covering losses in the amount of not less than \$100,000.

The management provisions of the bond ordinances also grant the City Council authority to review CPS Board action with respect to research, development, and planning.

In 1997, CPS established a 15 member Citizens Advisory Committee ("CAC") to enhance its relationship with the community and to address the City Council's goals regarding broader community involvement. The CAC meets monthly and the primary goal of the CAC is to provide recommendations from the community on the operations of CPS for use by the CPS Board and CPS staff. Representing the various sectors of the CPS service area, the CAC encompasses a broad range of customer groups in order to identify their concerns and articulate their issues.

Service Area

The CPS electric system serves a territory consisting of substantially all of Bexar County and small portions of the adjacent counties of Comal, Guadalupe, Atascosa, Medina, Bandera, Wilson, and Kendall. Certification of this CPS electric service area has been approved by the Public Utility Commission of Texas (the "PUCT").

CPS is currently the exclusive provider of electric service within the service area, including the provision of electric service to some Federal military installations located within the service area that own their own distribution facilities. As discussed below under "Electric Utility Restructuring in Texas; Senate Bill 7", until and unless the City Council and the CPS Board exercise the option to opt-in to retail electric competition (called "Texas Electric Choice" by the PUCT), CPS has the sole right to serve as the retail electric energy provider in its service area. On April 26, 2001, the City Council passed a resolution stating that the City did not intend at that time to opt-in to the

deregulated electric market. The City Council has taken no additional action relating to this decision. Senate Bill 7 (“SB 7”), adopted by the Texas Legislature in 1999, provides that “opt-in” decisions are to be made by the governing body or body vested with the power to manage and operate a municipal utility such as CPS. Given the relationship of the CPS Board and the City Council, any decision to opt-in to competition would be based upon the adoption of resolutions of both the CPS Board and the City Council. If the City and CPS choose to opt-in, other retail electric energy suppliers would be authorized to offer retail electric energy in the CPS service area and CPS would be authorized to offer retail electric energy in any other areas open to retail competition in the Electric Reliability Council of Texas (“ERCOT”). ERCOT is a synchronous interconnected electric system that operates wholly within Texas. (See “Electric Utility Restructuring In Texas; Senate Bill 7.”)

In addition to the area served at retail rates, CPS sells electricity at wholesale prices to the Floresville Electric Light & Power System, the City of Hondo, the City of Castroville, and the City of Brady. Renewal contracts have been entered into with the first three long-term wholesale customers in recent years. CPS became the wholesale electric provider of the City of Brady under a three-year contract commencing December 2002. CPS believes that it will have additional opportunities to enter into long-term wholesale electric power agreements. The requirements under the existing and any new wholesale agreements would be firm energy obligations of CPS.

The CPS gas system serves the City and its environs, although there is no certificated CPS gas service area. In Texas, no legislative provision or regulatory procedure exists for certification of gas service areas and CPS competes against other entities on the periphery of its service area.

Retail Service Rates

Under the Texas Public Utility Regulatory Act (“PURA”), significant original jurisdiction over the rates, services, and operations of electric “public utilities” is vested in the PUCT. Since the deregulation aspects of SB 7 became effective on January 1, 2002, the PUCT’s jurisdiction over the investor-owned utility companies primarily encompasses only the transmission and distribution function. PURA generally excludes from its coverage municipally-owned utilities (“Municipal Utilities”), such as CPS, but the PUCT has jurisdiction over electric wholesale transmission rates. Under the PURA, a municipal governing body or the body vested with the power to manage and operate a Municipal Utility like the EG Systems has exclusive jurisdiction to set rates applicable to all services provided by the municipally-owned electric utility, with the exception of wholesale transmission rates. Unless and until the City Council and CPS Board choose to opt-in to retail competition, CPS retail service electric rates are subject to appellate but not original rate regulatory jurisdiction by the PUCT in areas that CPS serves outside the City limits. To date, no appeal of CPS electric rates has ever been filed. CPS is not subject to the annual gross receipts fee payable by public utilities. (See “Electric Utility Restructuring in Texas; Senate Bill 7” herein.)

The Texas Railroad Commission (“TRC”) has significant original jurisdiction over the rates, services, and operations of all gas utilities. Municipal Utilities such as CPS are generally excluded from regulation by the TRC. CPS retail gas service rates are subject to appellate but not original rate regulatory jurisdiction by the TRC in areas that CPS serves outside the City limits. To date, no appeal of CPS retail gas rates has ever been filed. In the absence of a contract for service, the TRC also has jurisdiction to establish gas transportation rates for service to State agencies by a Municipal Utility as well as rates for gas sale and for transport of State gas for school districts.

The City has covenanted and is obligated under the bond ordinances, as provided under the rate covenant, to establish and maintain rates and collect charges in an amount sufficient to pay all Maintenance and Operating Expenses of the EG Systems and to pay the debt service requirements on all revenue debt of the EG Systems. Rate changes over the past 14 years have consisted of a 4.0% combined electric and gas base rate increase effective January 31, 1991; a new Large Volume Gas rate effective July 31, 1992, which was offered to Large Gas Customers whose monthly gas usage exceeded 550 MCF per month and enabled them to reduce bills by approximately 8.8%; a Super Large Power (“SLP”) electric rate effective January 4, 1994, which reduced the cost of electricity to customers having loads greater than 5,000 KW per month and annual load factors greater than 41% by approximately \$0.0049 per kWh, a 10.2% reduction on the basic rate; and a 3.5% electric base rate adjustment approved by City Council on September 30, 2004, and made effective on the first day of the billing period in which the closing for CPS’ purchase of an additional interest in the South Texas Project nuclear power plant occurs. The latter rate adjustment is intended to offset the additional costs associated with the purchase, which is expected to be completed during the first half of 2005. CPS projects that the net effect of the rate adjustment and fuel savings from

additional nuclear-fueled generation will be lower bills for CPS electric customers (See “Electric System – Generating System” herein). CPS also offers a monthly contract for renewable energy service (currently this is wind generated electricity) under Rider E15, which became effective September 30, 2002. A rider to the SLP rate, the Economic Incentive Rider E16, became effective March 10, 2003, and offers discounts off the SLP demand charge for a period up to four years for new or added load of at least 10 MW. Under certain conditions, the discount may be extended up to an additional three years. Customers must also meet City employment targets and targets for purchases of goods or services from local businesses in order to qualify for the Economic Incentive Rider.

Each of CPS’ retail and wholesale rates contains a fuel adjustment clause, which provides for current recovery of fuel costs. The adjustment is set at the beginning of each month.

Transmission Access and Rate Regulation

Pursuant to amendments made by the Texas Legislature in 1995 to the PURA (“PURA95”), Municipal Utilities, including CPS, became subject to the regulatory jurisdiction of the PUCT for transmission of wholesale energy. PURA95 requires the PUCT to establish open access transmission on the interconnected Texas grid for all utilities, co-generators, power marketers, independent power producers, and other transmission customers.

The 1999 Texas Legislature amended the PURA95 to expressly authorize rate authority over Municipal Utilities for wholesale transmission and to require that the postage stamp method be used exclusively for pricing wholesale transmission transactions. The PUCT in late 1999 amended its transmission rule to incorporate fully the postage stamp pricing method. In general, the postage stamp method results in transmission payments to other transmission owners by a compact urban utility like CPS that exceed its receipts from other utilities for their use of its own transmission facilities. CPS’ wholesale open access transmission charges are set out in tariffs filed at the PUCT, and are based on its transmission cost of service approved by the PUCT, representing CPS’ input to the calculation of the statewide postage stamp pricing method. The PUCT’s rule also provides that the PUCT may require construction or enlargement of transmission facilities in order to facilitate wholesale transmission service. In 2003, the Texas Legislature passed HB 2548, which amended Section 39.203(e) of the PURA. This new law authorizes the PUCT to require transmission owners such as CPS to construct and/or enlarge transmission facilities in order to ensure reliability or to mitigate transmission system constraints within ERCOT.

Electric Utility Restructuring in Texas; Senate Bill 7. During the 1999 legislative session, the Texas Legislature enacted SB 7, providing for retail electric open competition that began in 2002. SB 7 continues electric transmission wholesale open access and fundamentally redefines and restructures the Texas electric industry. The following discussion applies primarily to ERCOT, the interconnected portion of the Texas electric grid in which CPS is located.

SB 7 includes provisions that apply directly to Municipal Utilities, such as the CPS electric system, as well as other provisions that govern investor owned utilities (“IOUs”) and electric co-operatives (“Electric Co-ops”). As of January 1, 2002, SB 7 allows retail customers of IOUs to choose their electric energy supplier, as well as the retail customers of those Municipal Utilities and Electric Co-ops that elect, on or after that date, to participate in retail electric competition. Provisions of SB 7 that apply to the CPS electric system, as well as provisions that apply only to IOUs and Electric Co-ops are described below, the latter for the purpose of providing information concerning the overall restructured electric utility market in which the electric system could choose to directly participate in the future.

SB 7 required IOUs to separate their retail energy service activities from regulated utility activities by September 1, 2000 and to unbundle their generation, transmission/distribution, and retail electric sales functions into separate units by January 1, 2002. An IOU may choose to sell one or more of its lines of business to independent entities, or it may create separate but affiliated companies, and possibly operating divisions, that may be owned by a common holding company, but which must operate largely independent of each other. The services offered by such separate entities must be available to other parties on a non-discriminatory basis. Municipal Utilities and Electric Co-ops which opt-in to competition are not required to unbundle their electric system components.

Generation assets of IOUs are owned by “Power Generation Companies”, which must register with the PUCT and must comply with certain rules that are intended to protect consumers, but they otherwise are unregulated

and may sell electricity at market prices. IOU owners of transmission and/or distribution facilities are “Transmission and Distribution Utilities” and are fully regulated by the PUCT. Retail sales activities are performed by “Retail Electric Providers” (“REPs”) which are the only entities authorized to sell electricity to retail customers (other than Municipal Utilities and Electric Co-ops within their service areas or, if they have adopted retail competition, also outside their service areas). REPs must register with the PUCT, demonstrate financial capabilities, and comply with certain consumer protection requirements. REPs buy electricity from Power Generation Companies, power marketers, or other parties and may resell that electricity to retail customers at any location in Texas (other than within service areas of Municipal Utilities and Electric Co-ops that have not opened their service areas to retail competition). Transmission and Distribution Utilities and Municipal Utilities and Electric Co-ops that have chosen to participate in competition are obligated to deliver the electricity to retail customers, and all of these entities are required to transport power to wholesale buyers. The PUCT is required to approve the construction of new Transmission and Distribution Utilities’ transmission facilities, and may order the construction of new facilities to relieve transmission congestion. Transmission and Distribution Utilities are required to provide access to both their transmission and distribution systems on a non-discriminatory basis to all eligible customers. Rates for the use of distribution systems of Municipal Utilities and Electric Co-ops are exclusively within the jurisdiction of these entities’ governing bodies rather than the PUCT. Each type of unbundled company of the formerly bundled IOUs is prohibited from providing services that are provided by the other types of unbundled companies.

Environmental Restrictions of Senate Bill 7. SB 7 contains specified emissions reduction requirements for certain older electric generating units which would otherwise be exempt from the Texas Commission on Environmental Quality (“TCEQ”, formerly the Texas Natural Resource Conservation Commission) permitting program by virtue of “grandfathered” status. Under SB 7, annual emissions of nitrogen oxides (“NO_x”) from such units are to be reduced by 50% from 1997 levels, beginning May 1, 2003 and reported on a yearly basis. The requirements may be met through an emission allowances trading program that has been established by the TCEQ on a regional basis. CPS applied for State permits from the TCEQ, as required for five CPS generating stations, comprising 12 gas-fired units, and the permits are now final. The NO_x reductions required for SB 7 have been met for the first compliance year and NO_x emissions have been reduced by over 50% system-wide from baseline levels. CPS may require future additional expenditures for emission control technology.

Although SB 7 instituted many of the changes to environmental emission controls which affect grandfathered electric generating plants, another TCEQ regulation called Chapter 117 regulations is directed at all units, including CPS’ coal plants. These regulations require a 50% reduction in NO_x emissions beginning May 1, 2005, and annual reporting. In addition, as a result of JK Spruce Plant Unit 2 (“JKS 2”) air permitting process, CPS has committed to tighter NO_x emission limitations than what is required under Chapter 117 at the Calaveras Lake Site once the JKS 2 unit comes on line. It is possible that over the upcoming years the EPA, the State of Texas, and local air quality districts may issue even more stringent regulations governing emissions from many types of power plants. Changes to environmental emission controls may have the greatest effect on coal plants. For example, mercury emission limits have been proposed by EPA which may require new controls at the coal plants in the near future. In addition, new rules were published by EPA affecting CPS’ newer simple cycle combustion turbines, with regard to formaldehyde, and those turbines were tested for that pollutant as part of the compliance testing. Further statutory changes and additional regulations may change existing cost assumptions for electric utilities. While it is too early to determine the extent of any such changes, such changes could have a material impact on the cost of power generated at affected electric generating units.

Response to Competition

Strategic Planning Initiatives. CPS has a comprehensive corporate strategic plan that is designed to make CPS more efficient and competitive, while delivering value to customers and the City. Major parts of the plan include restructuring of rates, formulating a wholesale and retail marketing plan, reorganizing CPS along functional lines, and maintaining a debt and asset management program, as further discussed below. These efforts will also have the ongoing support of the CPS Governmental Affairs office, located in Austin, Texas, whose primary role is to review proposed Federal and State legislative actions affecting the electric industry and to represent CPS’ interests in these areas.

Debt and Asset Management Program. CPS has developed a debt and asset management program (the “Debt Management Program”) for the purposes of lowering the debt component of energy costs, maximizing the

effective use of cash and cash equivalent assets, and enhancing financial flexibility in the present and future. An important part of the Debt Management Program is debt restructuring through the increased use of variable rate debt and interest rate swaps where feasible. It is anticipated, however, that the net variable rate exposure of CPS will not exceed approximately 20% of its total outstanding debt. The program also focuses on the use of unencumbered cash and available cash flow to redeem debt ahead of scheduled maturities as a means of reducing outstanding debt. The Debt Management Program is designed to lower interest costs, fund strategic initiatives, and increase net cash flow.

Acquisition of Military Base Facilities. On January 14, 2000, CPS purchased the electric and gas systems of the former Kelly Air Force Base ("Kelly"). These facilities include both the area privatized and the portion of Kelly that remains under Air Force control, which is now a part of Lackland Air Force Base ("Lackland"). CPS is the full service electric and gas provider for the Kelly USA Business Park. CPS provides a variety of electric and gas services for Lackland under a General Services Administration contract.

On July 22, 2002, the Brooks City Base Property was conveyed to the City. On October 1, 2002, CPS took ownership of the electric and gas infrastructures. Installation of all electric and gas metering was completed as of November 15, 2002. CPS is working on addressing all health and safety code issues, and this process is approximately 99% completed. CPS is the full service provider for both the electric and gas systems.

On September 30, 2003, CPS acquired the electric utility system at the Camp Bullis ("CB") security training force installation. The CB electric system is primarily an overhead system, which consists of approximately 10 miles of three-phase equivalent distribution lines with a mixture of wood and concrete poles. CPS crews have completed the new electric meter installation and have begun the process of evaluating the overhead distribution system to establish a long-term plan to bring the system to CPS' standards. As part of the transfer, CB became a full-service CPS customer for the next 50 years.

On December 1, 2003, CPS acquired the electric utility infrastructure at Fort Sam Houston, a U.S. Army base ("FSH") and became owner for the electric system at this installation. The FSH electric distribution system is primarily an overhead system and consists of approximately 70 miles of three-phase equivalent distribution lines with a mixture of wood and concrete poles. Over the next several months, CPS crews will have completed 99% of the installation of new electric meters and have begun the process of evaluating the overhead distribution to establish a long-term plan to bring the system to CPS' standards. As part of the transfer, FSH became a full-service CPS customer for the next 50 years. CPS is already the owner and full service provider for the gas system at FSH.

CPS provides a variety of electric and gas services for Lackland under a General Services Administration contract. In June 2003, Lackland personnel met with CPS for a preliminary discussion regarding a sole source acquisition for gas and electric utility systems. The Air Force ("AF") and CPS had several more privatization discussion meetings between July and December 2003. In January 2005, CPS submitted an unsolicited proposal for the electric utility infrastructure at the Lackland Annex at Camp Bullis. The proposal is currently under review by AF personnel. The AF has a target date of September 30, 2005 to review the feasibility of privatizing the utilities.

After CPS received unsuccessful bidder notification on February 24, 2003, from the Defense Energy Support Center regarding the Texas Regional Demonstration Project ("TRD"), Randolph Air Force Base ("Randolph") has not contacted CPS regarding any privatization efforts. CPS remains open to any future requests by Randolph to privatize their utility systems.

Electric System

Generating System. CPS operates 19 electric generating units, three of which are coal-fired and 16 of which are gas-fired. Some of the gas-fired generating units may also burn fuel oil, which provides greater fuel flexibility and reliability. CPS also has a 28.0% interest in the two-unit nuclear power plant called the South Texas Project (the "STP"). When both units of STP operate as planned, they supply approximately one-third of CPS' annual electric load. The nuclear units supplied 24.7% of the electric system load during fiscal year 2003-2004 and 28.6% of the load for the twelve months ended October 31, 2004. The purchase by CPS of an additional 12% interest in STP is pending.

STP is located on a 12,220-acre site in Matagorda County, Texas, near the Texas Gulf Coast, approximately 200 miles from San Antonio. AEP Texas Central Company ("AEP") has sold its generation facilities in ERCOT, including its interest in STP. CPS and Texas Genco, L.P. ("Texas Genco") exercised rights of first refusal and have committed to purchase AEP's interest. Texas Genco will purchase an additional 13.2% interest in STP from AEP, bringing its ownership to 44%. CPS will use proceeds from its \$160 million bond issue that closed on November 18, 2004 (the "Bonds") to purchase an additional 12% from AEP, bringing its ownership to 40%. (See "Recent Financial Transactions"). If either the Texas Genco or CPS purchase fails to close, the other has agreed to purchase the remaining AEP share of STP. Close of the purchase of CPS' portion of AEP's interest in STP is contingent upon receipt of two additional regulatory approvals, one from the U.S. Nuclear Regulatory Commission ("NRC"), for transfer of AEP's NRC licenses for STP, and another from the U.S. Internal Revenue Service ("IRS"), for an IRS Private Letter Ruling that the transfer of AEP's Decommissioning Funds is permitted without conditions or limitations thereon that are not reasonably acceptable to CPS. At this time, there appear to be no impediments in obtaining these regulatory approvals and CPS expects receipt of both of these regulatory approvals approximately four to six months following submittal of the respective applications to the NRC and IRS. Closing of the sale transactions is expected in the first half of 2005.

On September 30, 2004, CPS received approval for a change in the amount it charges for retail and certain wholesale rates. This \$41 million base rate adjustment was designed to support the issuance of the Bonds and the increase in CPS' share of operation and maintenance expenses at STP. (See "Retail Service Rates").

STP Participant Ownership - Participants in the STP and their shares therein are as follows (MW capacity are approximations):

<u>Participants</u>	<u>Following Proposed</u>			
	<u>Current Ownership</u>		<u>Sale of AEP's Ownership</u>	
	<u>%</u>	<u>MW</u>	<u>%</u>	<u>MW</u>
Texas Genco, L.P.	30.8	770	44.0	1,100
City Public Service	28.0	700	40.0	1,000
AEP Texas Central Company	25.2	630	0.0	0
City of Austin - Austin Energy	<u>16.0</u>	<u>400</u>	<u>16.0</u>	<u>400</u>
	<u>100.0</u>	<u>2,500</u>	<u>100.0</u>	<u>2,500</u>

STP is maintained and operated by a non-profit Texas corporation ("STP Nuclear Operating Company") financed and controlled by the owners pursuant to an operating agreement among the owners and STP Nuclear Operating Company. Currently, a five-member board of directors governs the STP Nuclear Operating Company, with each owner appointing one member to serve with the STP Nuclear Operating Company's chief executive officer. All costs and output continue to be shared in proportion to ownership interests.

Joint Operating Agreement. CPS and Texas Genco entered into the Joint Operating Agreement ("JOA") effective July 1, 1996. The agreement provides that the two entities will jointly dispatch their generating plants (other than STP) in order to take advantage of the most efficient plants and favorable fuel prices to serve the combined loads of both entities. CPS and Texas Genco now share equally the benefits achieved through joint dispatch of their combined portfolio of power plants, and this arrangement is expected to continue through the term of the agreement that ends in 2009.

Transmission System. CPS maintains a transmission network for the movement of large amounts of electric power from the generating stations to various parts of the service area and to or from neighboring utilities as required. This network is composed of 138 and 345 kV lines with autotransformers to provide the necessary flexibility in the movement of bulk power.

Distribution System. The distribution system is supplied by 83 substations strategically located on the high voltage 138/345 kV transmission system. Approximately 7,426 circuit miles (three-phase equivalent) of overhead distribution lines are included in the distribution system. These overhead lines also carry secondary circuits and street lighting circuits. The underground distribution system consists of approximately 304 miles of three-phase distribution lines, 82 miles of three-phase Downtown Network distribution lines, and 2,685 miles of single-phase underground residential distribution lines. Many of the residential subdivisions added in recent years are served by

underground distribution systems. Presently, 70,697 street light units are in service. The vast majority of the lights are high-pressure, sodium vapor units.

Gas System

Supply Pressure System. The supply pressure system consists of a network of approximately 200 miles of steel mains that range in size from 4 to 30 inches. The entire system is coated and cathodically protected to mitigate corrosion. The supply pressure system operates at pressures between 50 psig and 274 psig, and supplies gas to approximately 267 pressure regulating stations throughout the gas distribution system which reduce the pressure to between 9 psig and 59 psig for the distribution system. A Supervisory Control and Data Acquisition computer system ("SCADA") monitors the gas pressure and flow rates at many strategic locations within the supply pressure system, and most of the critical pressure regulating stations and isolation valves are remotely controlled by SCADA.

Distribution System. The gas distribution system consists of approximately 4,372 miles of 2 to 16-inch steel mains and 1-1/4 to 6-inch high-density polyethylene (plastic) mains. The distribution system operates at pressures between 9 psig and 59 psig. All steel mains are coated and cathodically protected to mitigate corrosion. The vast majority of the gas services are connected to the distribution system, and the gas normally undergoes a final pressure reduction at the gas meter to achieve the required customer service pressure. Critical areas of the distribution system are remotely monitored by SCADA.

Implementation of New Accounting Policies

During the month of November 2002, CPS began recording unbilled revenue to correctly match monthly revenues (billed and unbilled) with the recorded monthly expenses.

Recent Financial Transactions

In both June and August of 2004, CPS restructured its New Series 2003A Bond Escrow to take advantage of favorable interest rates. CPS saved a combined \$1.1 million in debt service costs.

On November 18, 2004, CPS issued the Bonds with approval from the CPS Board and City Council. These Bonds are variable rate demand obligations. CPS will use the proceeds to partially fund the purchase from AEP of an additional 300 megawatts of STP nuclear power generation and for other EG Systems improvements.

In March 2005, CPS intends to issue approximately \$241 million in new money revenue bonds. CPS will use the funds to reimburse itself for \$8.3 million in cash previously spent for Electric Transmission construction costs, to fund future Electric Transmission construction projects, and to fund projects related to Electric Distribution, Information, Technology & Communications and General Property. CPS will also be issuing approximately \$295 million in advance refunding revenue bonds. The advance refunding will refund select New Series 1997 bonds and New Series 2002 bonds. The net present value saving in debt service from the refunding is approximately \$19.5 million.

San Antonio Water System

History and Management

In 1992, the City Council consolidated all of the City's water related functions, agencies, and activities into one agency. This action was taken due to the myriad of issues confronting the City related to the development and protection of its water resources. The consolidation provided the City with a singular, unified voice of representation when promoting or defending the City's goals and objectives for water resource protection, planning, and development with local, regional, state, and federal water authorities and officials.

Final City Council approval for the consolidation was given on April 30, 1992 with the approval of Ordinance No. 75686 (the "System Ordinance"), which created the City's water system ("SAWS"), a single, unified system consisting of the former City departments comprising the waterworks, wastewater, and water reuse systems, together with all future improvements and additions thereto, and all replacements thereof. In addition, the System Ordinance authorizes the City to incorporate into SAWS a stormwater system and any other water related system to the extent permitted by law. To date, the City's stormwater utility system has not been incorporated into SAWS.

The City believes that establishing SAWS has helped to reduce the costs of operating, maintaining, and expanding the water systems and has allowed the City greater flexibility in meeting future financing requirements. More importantly, it has allowed the City to develop, implement, and plan for its water needs through one agency.

The complete management and control of SAWS is vested in a board of trustees (the "SAWS Board") currently consisting of seven members, including the City's Mayor and six persons who are residents of the City or reside within the SAWS service area. With the exception of the Mayor, all SAWS Board members are appointed by the City Council for four-year staggered terms and are eligible for reappointment for one additional four-year term. Four SAWS Board members must be appointed from four different quadrants in the City, and two SAWS Board

members are appointed from the City's north and south sides, respectively. SAWS Board membership specifications are subject to future change on the City Council.

Except as specified otherwise in various ordinances authorizing SAWS' issuance of debt, the SAWS Board has absolute and complete authority to control, manage, and operate SAWS, including the expenditure and application of its gross revenues. With the exception of fixing rates and charges for services rendered by SAWS, condemnation proceedings, and the issuance of debt, the SAWS Board has full power and authority to make rules and regulations governing furnishing to customers, and their subsequent payment for, SAWS' services, along with the discontinuance of such services upon the customer's failure to pay for the same. The SAWS Board, to the extent authorized by law and subject to certain various exceptions, also has authority to make extensions, improvements, and additions to SAWS and to acquire by purchase or otherwise properties of every kind in connection therewith.

Service Area

SAWS provides water and wastewater service to the majority of the population within the corporate limits of the City and Bexar County, which totals approximately 1.4 million residents. SAWS employs approximately 1,600 personnel and provides maintenance of over 9,300 miles of water and sewer mains.

SAWS System

SAWS includes all water resources, properties, facilities, and plants owned, operated, and maintained by the City relating to supply, storage, treatment, transmission, and distribution of treated potable water, chilled water, and steam (collectively, the “waterworks system”), collection and treatment of wastewater (the “wastewater system”), and treatment and recycle of wastewater (the “recycle water system”) (the waterworks system, the wastewater system, and the recycle water system, collectively, the “system”). The system does not include any “Special Projects,” which are declared by the City, upon the recommendation of the SAWS Board, not to be part of the system and are financed with obligations payable from sources other than ad valorem taxes, certain specified revenues, or any water or water-related properties and facilities owned by the City as part of its electric and gas system.

In addition to the water related utilities that the SAWS Board has under its control, on May 13, 1993, the City Council approved an ordinance establishing initial responsibilities over the stormwater quality program with the SAWS Board and adopted a schedule of rates to be charged for stormwater drainage services and programs. As of the date hereof, the stormwater program is not deemed to be a part of the system.

Waterworks System. The City originally acquired its waterworks system in 1925 through the acquisition of the San Antonio Water Supply Company, a privately owned company. Since such time and until the creation of SAWS in 1992, management and operation of the waterworks system was under the control of the City Water Board. The SAWS’ service area currently extends over approximately 561 square miles, making it the largest water purveyor in Bexar County. SAWS served more than 80% of the water utility customers in Bexar County and provides potable water service to approximately 306,300 customers, which includes residential, commercial, apartment, industrial, and wholesale accounts. To service its customers, the waterworks system utilizes 14 elevated storage tanks and 38 ground storage reservoirs with combined storage capacities of 144.7 million gallons. By the end of calendar year 2003, the waterworks system had in place 4,251 miles of distribution mains, ranging in size from 6 to 61 inches in diameter (the majority being between six and 12 inches), and 22,117 fire hydrants distributed evenly throughout the SAWS service area.

Wastewater System. The San Antonio City Council created the City Wastewater System in 1894. A major sewer system expansion program began in 1960 with bond proceeds that provided for new treatment facilities and an enlargement of the wastewater system. In 1970, the City became the Regional Agent of the Texas Commission on Environmental Quality (“TCEQ”) (formerly known as the Texas Water Commission and the Texas Water Quality Board). The Regional Agent Boundary encompasses approximately 360 square miles within Bexar County. In 1992, the wastewater system was consolidated with the City’s waterworks and recycle water system to form the System.

SAWS serves the residents of the City, 18 governmental entities, and other customers outside the corporate limits of the City. As Regional Agent, SAWS has certain prescribed boundaries that currently cover an area of approximately 403 square miles. SAWS also coordinates with the City of San Antonio for wastewater planning for the City’s total planning area, Extra-territorial Jurisdiction (“ETJ”), of approximately 956 square miles. The population for this planning area is approximately 1.2 million people.

In addition to the treatment facilities owned by SAWS, there are six privately owned and operated sewage and treatment plants within the San Antonio ETJ. There are approximately 321,000 wastewater sewer connections within Bexar County. Of these, SAWS serves approximately just over 330,000 customers.

The wastewater system is composed of approximately 5,000 miles of mains; three major treatment plants (Dos Rios, Leon Creek and Salado Creek); and a smaller treatment plant (Medio Creek). The three major plants are activated sludge facilities and the small plant is an extended aeration plant. SAWS holds Texas Pollutant Discharge Elimination System wastewater discharge permits, issued by the TCEQ for each of these four plants which have a combined treatment capacity of 225.7 million gallons per day. In addition, SAWS operates and maintains several small satellite facilities that vary in number and are temporary, pending completion of interceptor sewers that will connect the flow treated at such facilities to the wastewater system. The permitted flows from the wastewater system’s four regional treatment plants represent approximately 98% of the municipal discharges within the ETJ.

Recycling Water System. SAWS is permitted to sell Type I (higher quality) recycled water from its wastewater treatment plants, and has been doing so since 2000. The recycle system is comprised of two north/south transmission lines and an interconnecting line that is one-third complete. Current capacity is 35,000 acre-feet.

Chilled Water and Steam System. SAWS owns and operates eight thermal energy facilities providing chilled water and steam services to governmental and private entities. Two of the facilities, located in the City's downtown area, provide chilled water and/or steam service to 23 customers. Numerous City of San Antonio facilities that include the Convention Center and Alamodome constitutes approximately 75% of the downtown system's chilled water and steam annual production requirements. The remaining six thermal energy facilities, owned and operated by SAWS, provide chilled water and steam services to large industrial customers located in the Kelly USA industrial area on the City's west side. Additionally, under a Memorandum of Agreement with the Brooks Development Authority, SAWS provides operational and maintenance services for the Brooks City Base central thermal energy facility and two small satellite sites. Together, chilled water and steam services produced \$12,823,938 in revenues in fiscal year 2004.

Stormwater System. In September 1997, the City created its Municipal Drainage Utility and established its Municipal Drainage Utility Fund to capture revenues and expenditures for services related to the management of the municipal drainage activity in response to EPA-mandated stormwater runoff and treatment requirements. The City, along with SAWS, has the responsibility, pursuant to the "Authorization to Discharge under the National Pollutant Discharge Elimination System" (the "Permit"), for water quality monitoring and maintenance. The City and SAWS have entered into an interlocal agreement to set forth the specific responsibilities of each regarding the implementation of the requirements under the Permit. The approved annual budget for the SAWS share of program responsibilities for fiscal year 2004 is \$3,206,210, for which SAWS is reimbursed \$2,746,327 from the storm water utility fee imposed by the City.

Water Supply

Until recently, the City obtained all of its water through wells drilled into a geologic formation known as the Edwards Limestone Formation. The portion of the formation supplying water in the City's area has been the "Edwards Underground Water Reservoir" (the "Edwards Aquifer") and since 1978 has been designated by the Environmental Protection Agency as a sole-source aquifer under the Safe Drinking Water Act. The Edwards Aquifer lies beneath an area approximately 3,600 square miles in size, and including its recharge zone, it underlies all or part of 13 counties, varying from five to 30 miles in width, and stretching over 175 miles in length, beginning in Bracketville, Kinney County, Texas, in the west and stretching to Kyle, Hays County, Texas, in the east. The Edwards Aquifer receives most of its water from rainfall runoff, rivers, and streams flowing across the 4,400 square miles of drainage basins located above it.

Much of the Edwards Aquifer region consists of agricultural land, but it also includes areas of population ranging from communities with only a few hundred residents to the City and other urban areas with well over one million residents. The Edwards Aquifer supplies nearly all the water for the municipal, domestic, industrial, commercial, and agricultural needs in its region. Naturally occurring artesian springs, such as the Comal Springs and the San Marcos Springs, are fed by Edwards Aquifer water and are utilized for commercial, municipal, agricultural, and recreational purposes, while at the same time supporting ecological systems containing rare and unique aquatic life.

The water level of the Edwards Aquifer has never fallen below the uppermost part of the Edwards Aquifer, even during the extreme and lengthy drought conditions lasting from 1947 to 1956. The maximum fluctuation of water levels at the City's index well has been about 91 feet, with the recorded low of 612 feet above sea level in August 1956 and a recorded high of 703 feet above sea level in June 1992. The historical (1934 to 2001) average water level at the index well in San Antonio is approximately 664 feet above sea level. SAWS sets all pumps at 575 feet to ensure continuous access to Edwards Aquifer water in any anticipated condition.

The Edwards Aquifer is recharged by seepage from streams and by precipitation infiltrating directly into the cavernous, honeycombed, limestone outcroppings in its north and northwestern area. Practically continuous recharge is furnished by spring-fed streams, with storm water runoff adding additional recharge, as well. The historical annual recharge to the reservoir is approximately 684,700 acre-feet. The average annual recharge over the

last four decades is approximately 797,900 acre-feet. The lowest recorded recharge was 43,000 acre-feet in 1956, while the highest was 2,485,000 acre-feet in 1992. Recharge has been increased by the construction of recharge dams over an area of the Edwards Aquifer exposed to the surface known as the recharge zone. The recharge dams, or flood-retarding structures, slows floodwaters and allows much of the water that would have otherwise bypassed the recharge zone to infiltrate the Edwards Aquifer.

Enhancing the City's Water Supply

The City has relied on the Edwards Aquifer as its sole source of water since the 1800s. Beginning in the 1980s and continuing today, however, the management of the water in the Edwards Aquifer has been the subject of intense scrutiny that has led to both extensive litigation and federal and state agency initiation of regulatory action. In 1993, the Texas Legislature adopted the Edwards Aquifer Authority Act, which created a new regulatory agency to manage withdrawals from the Edwards Aquifer and to protect springflows. This agency, known as the Edwards Aquifer Authority ("EAA"), is charged with preserving and protecting the Edwards Aquifer in an eight-county region including all of Uvalde, Medina, and Bexar counties, plus portions of Atascosa, Caldwell, Guadalupe, Comal, and Hays counties.

Based upon population and water demand projections, along with various regulatory and environmental issues, the City recognizes that additional water sources will be required to supplement withdrawals from the Edwards Aquifer to enable the City to meet the its long-term water needs.

SAWS' Water Resources Department is charged with the responsibility of identifying additional water resources for the City and its surrounding areas. New water resource projects range from optimizing the City's current source through conservation measures, to identification and procurement of completely new and independent water sources. These efforts are guided by the 1998 Water Resource Plan, the first comprehensive, and widely supported water resource plan for the City, which established programs for formulating and implementing both immediate and long-term water plans to enhance the City's water supply. In October 2000, the City Council created a permanent funding mechanism (the "Water Supply Fee") to be used for water supply development and water quality protection. The Water Supply Fee is based upon a uniform rate per 100 gallons of water used and is applied to all customers. The Water Supply Fee is projected to generate sufficient revenue to support approximately \$519 million in capital expenditures, as well as sufficient operational funds to conduct the planning, operation, and maintenance of such water resource facilities through 2005. The multi-year financial plan will be updated every three years to ensure sufficient revenues are available to meet the water resource requirements.

A listing of scheduled water supply fees for years 2001-2005 is provided in the following table:

Year	Incremental Charge Per 100 Gallons	Total Charge Per 100 Gallons	Actual Assessment
2001	\$ 0.0358	\$ 0.0358	\$ 0.0358
2002	0.0350	0.0708	0.0708
2003	0.0230	0.0938	0.0844
2004	0.0190	0.1128	0.1100
2005	0.0250	0.1378	0.1378

Source: SAWS, approved by City Council.

SAWS has determined that the City's water needs can be met through the implementation of an array of programs and projects, including a critical period management plan, conservation, agricultural irrigation efficiencies, reuse, surface water, non-Edwards Aquifer groundwater, enhanced recharge capabilities, and aquifer storage and recovery. SAWS has already initiated and/or implemented many such programs in an effort to increase the supply of water available to the City. Development of additional non-Edwards Aquifer supplies as described below should result in predictable and certain water supply necessary to meet anticipated peak demands.

Conservation Program. SAWS has implemented an aggressive water conservation program, which has reduced pumping to 140 gallons per person per day in 2003 and will reach 132 gallons per person per day over the next five to ten years. This will be accomplished through a diverse set of programming including consumer

education, rebates for water-efficient technologies, system improvements to prevent water loss, and other measures. SAWS has a unique commercial conservation program as well as a strong residential program. The Community Conservation Committee is a group of stakeholders appointed by the Board of Trustees to advise SAWS on water conservation issues. The Conservation Program is based on partnerships with stakeholders.

SAWS has also developed partnerships with local authorities, groundwater districts, and purveyors to ensure the conservation messages and programs are available throughout the region. The Water Advisory Group, consisting of cities throughout Bexar County and the Edwards Aquifer region meets regularly to coordinate conservation, drought management, and other water resource policies.

Short-Term Supply

Edwards Aquifer Acquisitions. The Edwards Aquifer will always be the cornerstone of San Antonio's water supply and SAWS has spent approximately \$30.9 million to buy Edwards water since the inception of the Water Supply Fee in 2001. Under drought conditions, SAWS' pumping permit from the EAA is expected to provide approximately 135,000 acre-feet per year through 2007, and 120,000 acre-feet per year thereafter if further reductions are required. SAWS has also been proactive in acquiring permanent Edwards Aquifer water rights. To this date SAWS has purchased 38,000 acre-feet, under average conditions, (32,000 under drought conditions) of additional rights above the base permit amount and will continue to purchase available water rights.

Leases. SAWS will acquire approximately 50,000 acre-feet of additional Edwards Aquifer pumping rights (42,500 acre-feet under drought conditions) by purchase or lease of water rights from irrigators west of San Antonio and have spent about \$6.2 million in leases since the inception of the Water Supply Fee in 2001. SAWS is committed pursuant to SAWS Board policy not to acquire so much water from this source that it would undermine the agricultural economy of the region.

Brush Management/Agriculture Conservation. SAWS is committed to the conservation of irrigation water within the region as well as all irrigation water that is associated with various SAWS water resource development projects. Edwards Aquifer water conserved by agriculture is mutually beneficial to all users. The Agricultural Conservation Program is categorized into three components: direct conservation, research & education, and regional partnership projects.

Direct Conservation. The most significant quantity of water to be conserved can be derived from improving the efficiency of agricultural irrigation systems.

Research and Education. SAWS, in partnership with regional interests, supports research and implementation of watershed activities (i.e., brush management) that increases watershed yield.

Regional Partnership Projects. Development of the Irrigation Technology Center ("ITC") is moving forward. The ITC will be a unique world-class facility with four primary missions: 1) Develop design and performance standards for agricultural and landscape irrigation systems; 2) Establish an equipment testing and certification program; 3) Provide training and educational services for irrigators, agency, and industry personnel; and 4) Develop new and improved irrigation technologies, methods, and management practices. This new facility is now planned to be located at or near the newly planned Texas A&M campus to be located in Bexar County. SAWS support of the facility and the research will provide a direct benefit to all irrigation water use, both agricultural and urban.

Edwards Aquifer Optimization. The Aquifer Optimization Program conducts sound scientific research to evaluate whether the pumping limits defined in Senate Bill 1477 can be increased without compromising the management goals of Senate Bill 1477. Key objectives include maintaining the endangered species and their habitats at Comal and San Marcos springs and providing flow from the springs for downstream users. Technical options must be identified and evaluated to increase available water in the Edwards Aquifer and to use the aquifer's storage capacity more efficiently. This program is primarily the responsibility of the EAA, however, SAWS provides staff support to manage the Technical Advisory Group, as well as direct financial support. The Edwards Aquifer Optimization program consists of 14 long-range studies that are designed to increase our knowledge of how

the aquifer works and determine the effects on ecosystems dependent on water from the Edwards Aquifer. SAWS is working with the EAA to study the feasibility of “Recharge and Recirculation”.

Water Recycling Program. SAWS owns the treated effluent from its wastewater treatment plants and has the authority to contract to acquire and to sell non-potable water inside and outside SAWS’ water and wastewater service area. SAWS anticipates a delivery of reuse water at or near capacity within two years. Construction efforts have been concentrated on completion of two major branches of the water reuse system serving the eastern and western portions of the City. SAWS anticipates operation of this program at full capacity within two years, culminating in the conversion to non-potable water uses for those currently using Edwards Aquifer water. Upon completion, SAWS will deliver up to 35,000 acre feet per year of reuse water for non-potable water uses including golf courses and industrial uses that are currently being supplied from the Edwards Aquifer. This represents approximately 20% of SAWS’ current usage. This infrastructure project will have transmission mains throughout the City, as well as storage and treatment components. Reuse water will be delivered for industrial processes, cooling towers, and irrigation, which would otherwise rely on potable quality water. Combined with the 40,000 acre-feet per year used by CPS, this is the largest reuse water project in the Bexar County. SAWS has a contract with CPS through 2030 for provision of such reused water. The revenues derived from the CPS contract have been excluded from the calculation of SAWS gross revenues, and are not included in any transfers to the City.

Aquifer Storage and Recovery (ASR). In October 2002, TCEQ authorized SAWS to construct and operate a 60 million-gallon per day water injection and recovery facility in South Bexar County. The Edwards Aquifer has been identified as the source of supply to the South Bexar County ASR project. This storage technology has been successfully proven as an economical and environmentally sensitive alternative to surface water reservoirs in many instances across the nation. The ASR administration building, well field pipeline and treatment plant facilities were completed and operational in mid-2004. The second phase of the project will be completed in 2005. Phase II builds the infrastructure necessary to double the storage capacity to 22,500 acre-feet. In addition to the storage capacity which will reduce drought impacts, SAWS will also be able to produce 6,400 acre-feet of non-Edwards groundwater.

Trinity Aquifer. SAWS introduced the first non-Edwards supply into its potable water system in February of 2002. This groundwater project is produced from the Lower Glen Rose/Cow Creek formation of the Trinity Aquifer in Northern Bexar County. Sustainability studies show that approximately 5,000 acre-feet per year can be sustained from this source. SAWS will continue to monitor and develop a sustainable yield on this source of supply. Production of Trinity water from both the Oliver Ranch and BSR properties is fully operational.

Western Canyon Project (Canyon Reservoir). SAWS has contracted with the Guadalupe-Blanco River Authority (“GBRA”) for 8,500 acre-feet of water from Canyon Lake to serve customers in the northern and northwestern portion of its service area. The annual volume from this project will decrease over time to a minimum annual supply of 3,900 acre-feet. This will be the first regional project to be delivered in the Comal, Kendall, and Northern Bexar County area. This project has endured numerous legal challenges in which GBRA has prevailed. The water treatment plant and intake structure construction contracts have been awarded. Final design of the raw water pipeline is approximately 90% complete and construction contracts have been awarded. The project is scheduled to be completed and ready for delivery in late 2005.

Regional Carrizo. The Carrizo-Wilcox is one of the state’s major aquifers and an important groundwater resource in South Central Texas. SAWS completed an initial feasibility study on the Carrizo-Wilcox Aquifer, which is located between the Frio and San Marcos Rivers covering all or parts of Atascosa, Bexar, Frio, Gonzales, Guadalupe, Karnes, La Salle, Live Oak, McMullen, Medina, and Wilson Counties. The results of the study indicate that a potential groundwater supply project could be developed in Gonzales and Wilson Counties to provide the San Antonio region with approximately 55,000 acre-feet per year. The project will be developed in phases as approved by the SAWS Board. Western Gonzales County (approximately 22,000 af/yr) will be brought into San Antonio in approximately 2008. Phase II of the project (water from Wilson County) will provide approximately 11,000 af/yr in 2009. Phase III of the project is expected to bring in water (22,000 af/yr) from northeastern Gonzales County in approximately 2011.

Edwards Recharge Initiatives. SAWS, as well as the South Central Texas Regional Planning Group, have recently evaluated the most favorable structures for this region. The Nueces, San Antonio, and Guadalupe River

Basins are favorable for development of recharge projects. Structures in the Nueces Basin are the most prolific in terms of recharge effectiveness. Once these structures are built, the sustained yield from this project will be over 13,000 acre-feet per year. SAWS is currently involved in two studies with the U.S. Army Corps of Engineers and other local sponsors. The studies involve the Cibolo Creek and the Nueces River watersheds, which include researching the feasibility of placing recharge structures within the watersheds. The studies are scheduled to be completed within five years. This project is programmed to come online in the 2013 timeframe.

Long-Term Supply

Simsboro Project. SAWS signed a contract with ALCOA for the purchase of water from their Rockdale property located in Lee and Milam Counties in December 1998. A second contract with CPS to purchase water rights from CPS-owned lands in Bastrop County was also approved at that time. Combined water production from these two properties is expected to provide 55,000 acre-feet of water per year from the Simsboro Aquifer for 80 years or more starting in 2015.

Lower Guadalupe Water Supply Project (LGWSP). SAWS, the San Antonio River Authority (“SARA”), and GBRA have entered into an agreement to divert presently under-utilized surface water rights and unappropriated streamflow from the Guadalupe River together with groundwater from the Gulf Coast aquifer. Approximately 94,500 (SAWS-85,050 and SARA-9,450) acre-feet/yr of water will be provided initially under this contract. Water will be diverted at a point below the confluence of the Guadalupe River and San Antonio River, located approximately 133 miles southeast of San Antonio. A companion agreement between SAWS and SARA divided the rights and responsibilities of the purchasers in the above-mentioned Water Supply and Delivery Agreement with GBRA. The SAWS/SARA agreement provides that all water users within SARA’s district and other water providers within Bexar County will have an opportunity to participate at their cost in the water supply made available from the Lower Guadalupe Water Supply Project.

This project is scheduled to come online in the 2015 timeframe. The Concept Development Study was completed in October 2004 and work continues on the Groundwater Availability Report, environmental studies, and surface water permits.

LCRA-SAWS Water Project. The State's SB-1 regional planning groups have determined that additional water supplies are available in the Lower Colorado River Basin. Approximately 150,000 acre-feet may be available within the basin by the Lower Colorado River Authority. SAWS and LCRA signed the definitive agreement on February 27, 2002. The contract starts with a seven-year study period that began in 2002. Dollars will be programmed in the short term to fund the necessary studies. If the project is determined to be feasible, an implementation plan will be developed. If both the LCRA and SAWS Board approve the implementation plan, the contract will provide for an initial 50-year water supply transfer and a 30-year extension provision for the development and delivery of this supply. All six of the environmental/ groundwater/conservation feasibility studies were initiated in July 2004. This project is scheduled to come online within the 2035-2040 timeframe.

Capital Improvement Plan

The following is a proposed five-year Capital Improvement Program for SAWS. It is the intention of SAWS to fund the program with tax-exempt commercial paper, impact fees, system revenues, and future bond issues. SAWS budgeted the following capital improvement projects during calendar year 2005:

- \$36.8 million for the wastewater treatment program to repair, replace, upgrade, or expand treatment facilities;
- \$5.1 million for the wastewater collection program to repair, replace, upgrade, or expand the collection system;
- \$15.9 million to replace sewer and water mains;
- \$33.6 million for the governmental replacement and relocation program;
- \$10.4 million for the water distribution program to upgrade and expand the distribution system; and
- \$12.8 million for water supply development, water treatment, and water transmission projects for new sources of water.

SAWS anticipates the following capital improvement projects for the five fiscal years listed:

	Fiscal Year Ended December 31,					Total
	2005	2006	2007	2008	2009	
Heating and Cooling	\$ 1,206,150	\$ 436,839	\$ 327,341	\$ 1,667,414	\$ 1,136,539	\$ 4,774,283
Water Delivery	36,258,469	48,195,851	42,325,094	46,567,466	40,559,398	213,906,278
Wastewater	73,741,531	65,107,689	75,978,348	75,214,525	85,506,567	375,548,660
Water Supply	128,752,800	96,268,370	178,641,014	39,849,700	80,609,100	524,120,984
Total Annual Requirements	<u>\$ 239,958,950</u>	<u>\$ 210,008,749</u>	<u>\$ 297,271,797</u>	<u>\$ 163,299,105</u>	<u>\$ 207,811,604</u>	<u>\$ 1,118,350,205</u>

Source: SAWS.

Project Funding Approach

The following table was prepared by SAWS staff based upon information and assumptions it deems reasonable, and shows the projected financing sources to meet the projected capital needs.

	Fiscal Year Ended December 31,				
	2005	2006	2007	2008	2009
Revenues	\$ 17,988,111	\$ 26,988,100	\$ 31,792,641	\$ 40,799,573	\$ 46,486,891
Impact Fees	25,609,331	9,753,471	9,899,773	10,048,270	10,198,994
Debt Proceeds	196,361,508	173,267,178	255,579,383	112,451,262	151,125,719
Total	<u>\$ 239,958,950</u>	<u>\$ 210,008,749</u>	<u>\$ 297,271,797</u>	<u>\$ 163,299,105</u>	<u>\$ 207,811,604</u>

Source: SAWS.

Recent Financial Transactions

In June 2004, SAWS issued \$84,700,000 City of San Antonio, Texas Water System Revenue and Refunding Bonds, Series 2004 for construction of additions to the system and to refund certain outstanding commercial paper notes. SAWS also issued \$10,635,000 City of San Antonio, Texas Water System Junior Lien Revenue and Refunding Bonds, Series 2004, and \$26,365,000 City of San Antonio, Texas Water System Junior Lien Revenue and Refunding Bonds, Series 2004-A through the Texas Water Development Board in July 2004 for construction of additions to the system and to refund certain outstanding commercial paper notes.

² On April 3, 2001, the SAWS Board approved the changing of the fiscal year from a year-end of May 31 to December 31. Report is for the seven (7) months ending December 31, 2001.

³ Beginning in 2001, capital contributions, including items such as impact fees, were recognized as non-operating income in accordance with GASB 34. The non-operating revenues have been re-stated to remove the capital contributions to conform to the Ordinance.

⁴ As of the end of the fiscal year shown, excludes TECP, see “City of San Antonio, Texas Water System Revenue and Refunding Bonds, Series 2004, Debt Information – Table 11 – Coverage and Fund Balances” for coverage ratio after issuance of the Bonds.

The Airport System

General

The City's airport system consists of the San Antonio International Airport (the "International Airport" or the "Airport") and Stinson Municipal Airport ("Stinson") (the International Airport and Stinson, collectively, the "Airport System"), both of which are owned by the City and operated by its Department of Aviation (the "Department").

The International Airport, located on a 2,600-acre site that is adjacent to Loop 410 and U.S. Highway 281, is eight miles north of the City's downtown business district. The International Airport consists of three runways with the main runway measuring 8,502 feet and able to accommodate the largest commercial passenger aircraft. Its two terminal buildings contain 24 second-level gates. Presently, domestic air carriers providing scheduled service to San Antonio are America West, American, Atlantic Southeast, Comair, Continental, Continental Express, Delta, Midwest, Northwest, Skywest, Southwest, United, and United Express. Mexicana, Aerolitoral, and Aeromar are Mexican airlines that provide passenger service to Mexico. The City is currently implementing portions of its Airport Master Plan, including designs allowing for an increase from 24 to 55 gates. It is estimated that current gate facilities are being used at 82% of capacity. A variety of services are available to the traveling public from approximately 245 commercial businesses, including nine rental car companies, which lease facilities at the International Airport and Stinson.

Stinson, located on 300 acres, is located approximately 5.2 miles southeast of the City's downtown business district. Established in 1915, and named for the Stinson family, aviation pioneers, Stinson is one of the country's first municipally owned airports. It is today the second oldest continuously operating airport in the U.S. and is the FAA's designated general aviation reliever airport to the International Airport. During 2001, a process was initiated to develop a new Stinson Master Plan which was completed in 2002. The Master Plan provides recommendations for airfield and facility improvements needed to meet growing operation demands. The planning effort will facilitate the development of Stinson to expand its role as a general aviation reliever to the International Airport. The Texas Department of Transportation accepted the Stinson Master Plan in 2002 and has recommended \$16.0 million in grant funding for capital improvements over the next ten to fifteen years. The expansion of Stinson's facilities is also needed to take advantage of new, complementary business opportunities evolving with the synergy between Brooks City-Base, KellyUSA, and Stinson. A Targeted Industries Study was completed in 2003 as part of the master planning process. The study will help facilitate development of Stinson properties through the identification of industries and businesses considered to be compatible for locating at Stinson.

Capital Improvement Plan

General. In fiscal year 2002, the City commenced implementation of a ten-year Capital Improvement Plan (the "CIP") pursuant to the Master Plan for the International Airport. The CIP is scheduled to conclude in fiscal year 2011. However, due to the terrorist attacks which occurred on September 11, 2001, the timing of some projects has been adjusted and the ultimate completion of the plan may extend beyond that date. The CIP addresses both terminal and airfield improvements. The CIP includes the removal of the existing Terminal 2, which is over 40 years old, and the addition of two concourses with corresponding terminal space, public parking facilities, roadway improvements, and extension and improvement to two runways along with supporting taxiways and aircraft apron. The capital program over the next five years addresses primarily terminal-related improvements, parking, roadway improvements, and airfield improvements.

(The remainder of this page is intentionally left blank.)

The anticipated sources of funding are as follows:

Funding Sources	Anticipated Funding
Federal Grants	
Entitlements	\$ 27,054,000
General Discretionary	45,105,000
Noise Discretionary	20,867,000
Passenger Facility Charges (“PFCs”)	
Pay-As-You-Go	39,831,000
PFCs Secured Bonds	102,548,000
Other Funding	
Airport Funds	34,596,000
Airport Revenue Bonds	<u>70,604,000</u>
Total – All Sources	<u>\$340,605,000</u>

The CIP includes capital improvements, which are generally described as follows:

Improvement	Amount
International Airport	
Terminal/Gate Expansion	\$121,389,000
Airfield Improvements	87,173,000
Cargo Facilities	11,368,000
Roadway Improvements	21,376,000
Parking Improvements	46,865,000
Aircraft Apron	22,504,000
Other (Building Imp., Drainage, etc.)	20,819,000
Stinson Airport	<u>9,111,000</u>
Total	<u>\$340,605,000</u>

Proposed PFC Projects. Public agencies wishing to impose PFCs are required to apply to the Federal Aviation Administration (the “FAA”) for such authority and must meet certain requirements specified in the PFC Act and the implementing regulations issued by the FAA.

The FAA issued a Record of Decision on August 29, 2001 approving the City’s initial PFC application. The City, as the owner and operator of the Airport, has received authority to “impose and use” PFCs at the \$3.00 level on five projects and to “impose only” PFCs on six other projects. On July 24, 2003, the City received approval from the FAA on its second application for “impose and use” authority on two projects which were previously “impose only.”

The City began on November 21, 2001, collecting a \$3.00 PFC (less the \$0.08 air carrier collection charge) per paying passenger enplaned. A total of approximately \$102.5 million in PFC revenues will be required to provide funding for these projects at the Airport included in the CIP and are listed below.

The following projects have been approved as “impose and use” projects:

- Construct 30L Holding Apron
- Modify Wash Rack Apron
- Replace RON (remain overnight) Apron
- Implement Terminal Modifications
- Reconstruct Perimeter Road
- Construct New Concourse B
- Construct Concourse B Access Road
- Implement Acoustical Treatment Program

The following projects have been approved as “impose only” projects:

Construct Three High-Speed Taxiways
Extend Runway 21 and Associated Development
Construct Aircraft Rescue and Firefighting Training Facility

Terminal Renovations. A comprehensive terminal renovation project was completed in 2003 to improve the quality of services provided to passengers at the San Antonio International Airport. The project, which cost approximately \$28 million, included a completely new appearance to the building interiors and provided state-of-art terminal amenities. Included in the terminal renovations was complete redevelopment of the concessions program that provided high-quality retail and food establishments offering a mix of regional and national brands at street prices. Concession space was expanded from 30,000 square feet to over 40,000 square feet. Through the expansion and reconfiguration of concession space, 85% of retail shops and food outlets are now at airside locations. In total, 42 concession contracts were awarded. The new concessions program is also projected to increase revenues in the Airport from \$3.2 million in fiscal year 2002 to \$4.8 million in fiscal year 2004. On a per-boarding passenger basis, concession revenue is expected to go from \$0.99 in fiscal year 2002 to \$1.31 for fiscal year 2004. Following the Airport’s implementation of its new concessions program, it was recognized by the *Airport Revenue News’* 2004 “Best Concessions Poll.” The Airport’s concession program was voted for by a panel of judges in the Airport category with less than 4 million enplanements. San Antonio won two first place awards. The Airport was honored for having the Terminal with the “Most Unique Services” and the Best Overall Concessions Program. The publication noted the Airport’s high-tech business services, such as high-speed fax and internet, wireless capabilities and conference rooms. The Best Overall Concessions Program award is given to airports with a convenient customer-friendly layout, good visibility, attractive storefronts, and interesting themes. Also in 2004, *J. D. Power and Associates* announced through its Global Airport Satisfaction Index Study, San Antonio International Airport tied for the highest ranking in customer satisfaction among airports with less than 10 million passengers per year.

Parking Improvements. San Antonio International Airport operates and maintains approximately 5,810 parking spaces and 1,230 employee parking spaces for a total of 7,040 parking spaces. A parking study was developed in 2001 for the International Airport by AGA Consulting, Inc. The study indicated that projected peak period demand for airport parking will exceed the available supply by the end of 2006. It is estimated that 2,400 additional parking spaces will be required to satisfy projected demand over the next ten years. Future requirements for vehicle parking are currently being addressed with the design of a new long-term/short term garage. The design work is underway with groundbreaking for a new five-story garage, with approximately 2,260 long-term spaces and 660 short-term spaces, planned for the summer of 2005. The associated costs are included in the CIP.

Cargo Improvements. San Antonio International Airport has two designated cargo areas: The West Cargo Area, which was constructed in 1974 and refurbished in 1990, and the East Cargo Area, which was completed in 1992 and expanded in 2003. The East Cargo Area is specifically designed for use by all-cargo, overnight-express carriers. Custom-built cargo facilities in the East Cargo Area are leased to Airborne Express and Federal Express, while Eagle Global Logistics constructed a processing facility in the year 2000. UPS is in the process of expanding its facilities by reloading from the West Cargo area to the East Cargo Area in early 2005. A new belly freight facility is currently under design. Additional land has been allocated to accommodate future growth and an expansion of facilities are currently planned. Foreign trade zones exist at both cargo areas. Enplaned and deplaned cargo for 2004 totaled 133,383 tons.

Airport Operations

General. The City is responsible for the issuance of revenue bonds for the Airport System and preparation of long-term financial feasibility studies for Airport System development. Direct supervision of airport operations is exercised by the Department. The Department is responsible for (i) managing, operating, and developing the International Airport, Stinson, and any other airfields which the City may control in the future; (ii) negotiating leases, agreements, and contracts; (iii) computing and supervising the collection of revenues generated by the Airport System under its management; and (iv) coordinating aviation activities under the FAA.

The International Airport has its own police and fire departments on premises. The firefighters are assigned to duty at the Airport from the City Fire Department, but their salaries are paid by the Department as an operation and maintenance expense of the Airport System.

The FAA has regulatory authority over navigational aid equipment, air traffic control, and operating standards at both the International Airport and Stinson.

The passage of the Aviation and Transportation Security Act ("ATSA") in November of 2001, created the Transportation Security Administration ("TSA"). The City's Aviation Department has worked closely with the TSA to forge a new higher level of security for the traveling public. TSA employs about 300 individuals at San Antonio International Airport to meet the new federal security requirements.

International Airport's explosive detection screening equipment is currently located in the ticket lobby areas of the two terminals. However, the Aviation Department is working with the TSA to relocate all baggage screening equipment behind the terminals in new baggage handling systems planned as part of the upcoming Terminal Expansion Project. The City entered into an agreement with the TSA for reimbursements up to \$425,800 for the costs associated with the use of Airport police officers at the Airport security screening checkpoints in each terminal. The Aviation Department also utilizes four Explosive Detection Canine teams. The police officers, assigned with their dogs, provide additional coverage for detection of explosive materials at the Airport in the baggage pickup areas, concourses, parking, cargo, and aircraft. This program is supported by the TSA with reimbursement to the Airport System at \$160,500. International Airport's coverage is provided in addition to canine support received from San Antonio Police Department and Bexar County Sheriff's Office.

The Aviation Department has continued to work to improve its security measures. The FAA approved a grant application (80% AIP funding) in 2004 to conduct a security assessment of the International Airport's security program. This project includes an inventory of the existing security measures and an evaluation based on current and anticipated provisions of the ATSA. Recommendations for security enhancements and upgrades could include items such as perimeter fencing, air operations area access points, cargo/belly freight facilities, terminals, fueling areas, concession deliveries, and air traffic control tower.

Financings. On March 20, 2003, the City issued the following two series of refunding bonds payable from its collection of gross revenues of the airport system: \$8,175,000 "City of San Antonio, Texas Airport System Revenue Refunding Bonds, Series 2003-A" and \$3,255,000 "City of San Antonio, Texas Airport System Revenue Refunding Bonds, Series 2003-B." The proceeds from the respective issuances of such bonds were used to refund certain of the City's outstanding debt obligations payable from the collection of gross revenues of the airport system.

On April 8, 2003, the City delivered \$50,230,000 "City of San Antonio, Texas Airport System Forward Refunding Revenue Bonds, Series 2003" to refund a portion of the "City of San Antonio, Texas Airport System Improvement Bonds, Series 1993" and to effectuate an interest savings equal to \$3,460,075. Such bonds were sold on April 19, 2001.

APPENDIX B

Form of Opinions of Co-Bond Counsel

(THIS PAGE IS INTENTIONALLY LEFT BLANK)

Fulbright & Jaworski L.L.P.
300 Convent Street, Suite 2200
San Antonio, Texas 78205

Law Offices of William T. Avila, P.C.
309 El Paso Street, Suite 2400
San Antonio, Texas 78207

FINAL

IN REGARD to the authorization and issuance of the “City of San Antonio, Texas General Improvement and Refunding Bonds, Series 2005” (the *Bonds*), dated March 15, 2005, in the aggregate principal amount of \$116,170,000, we have reviewed the legality and validity of the issuance thereof by the City of San Antonio, Texas (the *City*). The Bonds are issuable in fully registered form only, in denominations of \$5,000 or any integral multiple thereof, and have stated maturities of February 1 in each of the years 2010 through 2025, unless redeemed prior to stated maturity in accordance with the terms stated on the face of the Bonds. Interest on the Bonds accrues from the dates, at the rates, in the manner, and is payable on the dates, all as provided in the ordinance authorizing the issuance of the Bonds (the *Ordinance*).

WE HAVE SERVED AS CO-BOND COUNSEL for the City solely to pass upon the legality and validity of the issuance of the Bonds under the laws of the State of Texas, the defeasance and discharge of the City’s obligations being refunded by certain proceeds of the Bonds, and with respect to the exemption of the interest on the Bonds from federal income taxes and for no other purpose. We have not been requested to investigate or verify, and have not independently investigated or verified, any records, data, or other material relating to the financial condition or capabilities of the City. We express no opinion and make no comment with respect to the sufficiency of the security for or the marketability of the Bonds. Our role in connection with the City’s Official Statement prepared for use in connection with the sale of the Bonds has been limited as described therein.

WE HAVE EXAMINED, and in rendering the opinions herein we rely upon, original or certified copies of the proceedings of the City Council of the City in connection with the issuance of the Bonds, including the Ordinance and the Escrow and Trust Agreement (the *Escrow Agreement*) between the City and JPMorgan Chase Bank, National Association, Dallas, Texas (the *Escrow Agent*); the special report of Grant Thornton LLP, Minneapolis, Minnesota, Certified Public Accountants (the *Accountants*); customary certifications and opinions of officials of the City; certificates executed by officers of the City relating to the expected use and investment of proceeds of the Bonds and certain other funds of the City, and to certain other facts within the knowledge and control of the City; and such other documentation, including an examination of the Bond executed and delivered initially by the City, which we found to be in due form and properly executed, and such matters of law as we deem relevant to the matters discussed below. In such examination, we have assumed the authenticity of all documents submitted to us as originals, the conformity to original copies of all documents submitted to us as certified copies, and the accuracy of the statements contained in such certificates. We express no opinion concerning any effect on the following opinions which may result from changes in law effected after the date hereof.

BASED ON OUR EXAMINATION, IT IS OUR OPINION that the Bonds have been duly authorized and issued in conformity with the laws of the State of Texas now in force and that the Bonds are valid and legally binding obligations of the City enforceable in accordance with the terms and conditions described therein, except to the extent that the enforceability thereof may be affected by bankruptcy, insolvency, reorganization, moratorium, or other similar

Legal Opinion of Fulbright & Jaworski L.L.P. and Law Offices of William T. Avila, P.C. in connection with the authorization and issuance of "CITY OF SAN ANTONIO, TEXAS GENERAL IMPROVEMENT AND REFUNDING BONDS, SERIES 2005"

laws affecting creditors' rights or the exercise of judicial discretion in accordance with general principles of equity. The Bonds are payable from the levy of an ad valorem tax, within the limitations prescribed by law, upon all taxable property in the City.

BASED ON OUR EXAMINATION, IT IS FURTHER OUR OPINION that the Escrow Agreement has been duly authorized, executed, and delivered by the City and, assuming due authorization, execution, and delivery thereof by the Escrow Agent, is a valid and binding obligation, enforceable in accordance with its terms (except to the extent that the enforceability thereof may be affected by bankruptcy, insolvency, reorganization, moratorium, or other similar laws affecting creditors' rights or the exercise of judicial discretion in accordance with general principles of equity), and that the outstanding obligations refunded, discharged, paid, and retired with certain proceeds of the Bonds have been defeased and are regarded as being outstanding only for the purpose of receiving payment from the funds held in trust with the Escrow Agent, pursuant to the Escrow Agreement and the ordinances authorizing their issuance, and in accordance with the provisions of Chapter 1207, as amended, Texas Government Code. In rendering this opinion, we have relied upon the verification by the Accountants of the sufficiency of cash and investments deposited with the Escrow Agent pursuant to the Escrow Agreement for the purposes of paying the outstanding obligations refunded and to be retired with the proceeds of the Bonds and the interest thereon.

IT IS FURTHER OUR OPINION THAT, assuming continuing compliance after the date hereof by the City with the provisions of the Ordinance and in reliance upon the representations and certifications of the City made in a certificate of even date herewith pertaining to the use, expenditure, and investment of the proceeds of the Bonds and the report of the Accountants, under existing statutes, regulations, published rulings, and court decisions (1) interest on the Bonds will be excludable from the gross income, as defined in section 61 of the Internal Revenue Code of 1986, as amended to the date hereof (the *Code*), of the owners thereof for federal income tax purposes, pursuant to section 103 of the Code, and (2) interest on the Bonds will not be included in computing the alternative minimum taxable income of the owners thereof who are individuals or, except as hereinafter described, corporations.

WE CALL YOUR ATTENTION TO THE FACT THAT, with respect to our opinion in clause (2) above, interest on all tax-exempt obligations, such as the Bonds, owned by a corporation will be included in such corporation's adjusted current earnings for purposes of calculating the alternative minimum taxable income of such corporation, other than an S corporation, a mutual fund, a financial asset securitization investment trust, a real estate mortgage investment conduit or a real estate investment trust. A corporation's alternative minimum taxable income is the basis on which the alternative minimum tax imposed by section 55 of the Code will be computed.

WE EXPRESS NO OPINION with respect to any other federal, state, or local tax consequences under present law or any proposed legislation resulting from the receipt or accrual of interest on, or the acquisition or disposition of, the Bonds. Ownership of tax-exempt obligations such as the Bonds may result in collateral federal tax consequences to, among others, financial institutions, life insurance companies, property and casualty insurance companies, certain foreign corporations doing business in the United States, S corporations with

Legal Opinion of Fulbright & Jaworski L.L.P. and Law Offices of William T. Avila, P.C. in connection with the authorization and issuance of “CITY OF SAN ANTONIO, TEXAS GENERAL IMPROVEMENT AND REFUNDING BONDS, SERIES 2005”

subchapter C earnings and profits, owners of an interest in a financial asset securitization investment trust, individual recipients of Social Security or Railroad Retirement Benefits, individuals otherwise qualifying for the earned income credit, and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry, or who have paid or incurred certain expenses allocable to, tax-exempt obligations.

OUR OPINIONS ARE BASED on existing law, which is subject to change. Such opinions are further based on our knowledge of facts as of the date hereof. We assume no duty to update or supplement our opinions to reflect any facts or circumstances that may thereafter come to our attention or to reflect any changes in any law that may thereafter occur or become effective. Moreover, our opinions are not a guarantee of result and are not binding on the Internal Revenue Service; rather, such opinions represent our legal judgment based upon our review of existing law that we deem relevant to such opinions and in reliance upon the representations and covenants referenced above.

FINAL

IN REGARD to the authorization and issuance of the “City of San Antonio, Texas Combination Tax and Revenue Certificates of Obligation, Series 2005” (the *Certificates*), dated March 15, 2005 in the aggregate principal amount of \$10,535,000, we have reviewed the legality and validity of the issuance thereof by the City of San Antonio, Texas (the *City*). The Certificates are issuable in fully registered form only, in denominations of \$5,000 or any integral multiple thereof, and have stated maturities of February 1 in each of the years 2012 through 2025, unless redeemed prior to stated maturity in accordance with the terms stated on the face of the Certificates. Interest on the Certificates accrues from the dates, at the rates, in the manner, and is payable on the dates as provided in the ordinance authorizing the issuance of the Certificates (the *Ordinance*).

WE HAVE SERVED AS CO-BOND COUNSEL for the City solely to pass upon the legality and validity of the issuance of the Certificates under the laws of the State of Texas and with respect to the exemption of the interest on the Certificates from federal income taxes and for no other purpose. We have not been requested to investigate or verify, and have not independently investigated or verified, any records, data, or other material relating to the financial condition or capabilities of the City. We express no opinion and make no comment with respect to the sufficiency of the security for or the marketability of the Certificates. Our role in connection with the City’s Official Statement prepared for use in connection with the sale of the Certificates has been limited as described therein.

WE HAVE EXAMINED, and in rendering the opinions herein we rely upon, original or certified copies of the proceedings of the City Council of the City in connection with the issuance of the Certificates, including the Ordinance; customary certifications and opinions of officials of the City; certificates executed by officers of the City relating to the expected use of proceeds of the Certificates and certain other funds of the City and to certain other facts within the knowledge and control of the City; and such other material, including an examination of the Certificate executed and delivered initially by the City, which we found to be in due form and properly executed, and such matters of law as we deem relevant to the matters discussed below. In such examination, we have assumed the authenticity of all documents submitted to us as originals, the conformity to original copies of all documents submitted to us as certified copies, and the accuracy of the statements contained in such certificates. We express no opinion concerning any effect on the following opinions which may result from changes in law effected after the date hereof.

BASED ON OUR EXAMINATION, IT IS OUR OPINION that the Certificates have been duly authorized and issued in conformity with the laws of the State of Texas now in force and that the Certificates are valid and legally binding obligations of the City enforceable in accordance with the terms and conditions described therein, except to the extent that the

**Legal Opinion of Fulbright & Jaworski L.L.P. and Law Offices of William T. Avila, P.C.
in connection with the authorization and issuance of “CITY OF SAN ANTONIO, TEXAS
COMBINATION TAX AND REVENUE CERTIFICATES OF OBLIGATION, SERIES
2005”**

enforceability thereof may be affected by bankruptcy, insolvency, reorganization, moratorium, or other similar laws affecting creditors' rights or the exercise of judicial discretion in accordance with general principles of equity. The Certificates are payable from the levy of an ad valorem tax, within the limitations prescribed by law, upon all taxable property in the City and are additionally payable from and secured by a lien on and pledge of the Pledged Revenues (as defined in the Ordinance), being a limited amount of the Net Revenues (as defined in the Ordinance) derived from the operation of the City's municipally owned parks, such lien on and pledge of the limited amount of Net Revenues being subordinate and inferior to the lien on and pledge thereof providing for the payment and security of any Revenue Obligations hereafter issued by the City, but prior and superior to the lien on and pledge of the Surplus Revenues (as defined in the ordinances authorizing the issuance of currently outstanding Inferior Lien Obligations) securing the payment of the currently outstanding Inferior Lien Obligations (as defined in the Ordinance) and any Additional Inferior Lien Obligations hereafter issued by the City. The City has previously authorized the issuance of the Limited Pledge Revenue Obligations (as defined in the Ordinance) that are payable from a lien on and pledge of a limited amount of Net Revenues of the System as described in the ordinances authorizing the issuance of the currently outstanding Limited Pledge Revenue Obligations. In the Ordinance, the City retains the right to issue Revenue Obligations, Additional Limited Pledge Revenue Obligations, and Additional Inferior Lien Obligations (each as defined in the Ordinance) without limitation as to principal amount but subject to any terms, conditions, or restrictions as may be applicable thereto under law or otherwise.

IT IS FURTHER OUR OPINION THAT, assuming continuing compliance after the date hereof by the City with the provisions of the Ordinance and in reliance upon the representations and certifications of the City made in a certificate of even date herewith pertaining to the use, expenditure, and investment of the proceeds of the Certificates, under existing statutes, regulations, published rulings, and court decisions (1) interest on the Certificates will be excludable from the gross income, as defined in section 61 of the Internal Revenue Code of 1986, as amended to the date hereof (the *Code*), of the owners thereof for federal income tax purposes, pursuant to section 103 of the Code, and (2) interest on the Certificates will not be included in computing the alternative minimum taxable income of the owners thereof who are individuals or, except as hereinafter described, corporations.

WE CALL YOUR ATTENTION TO THE FACT THAT, with respect to our opinion in clause (2) above, interest on all tax-exempt obligations, such as the Certificates, owned by a corporation will be included in such corporation's adjusted current earnings for purposes of calculating the alternative minimum taxable income of such corporation, other than an S corporation, a mutual fund, a financial asset securitization investment trust, a real estate mortgage investment conduit, or a real estate investment trust. A corporation's alternative minimum taxable income is the basis on which the alternative minimum tax imposed by section 55 of the Code will be computed.

**Legal Opinion of Fulbright & Jaworski L.L.P. and Law Offices of William T. Avila, P.C.
in connection with the authorization and issuance of “CITY OF SAN ANTONIO, TEXAS
COMBINATION TAX AND REVENUE CERTIFICATES OF OBLIGATION, SERIES
2005”**

WE EXPRESS NO OPINION with respect to any other federal, state, or local tax consequences under present law or any proposed legislation resulting from the receipt or accrual of interest on, or the acquisition or disposition of, the Certificates. Ownership of tax-exempt obligations such as the Certificates may result in collateral federal tax consequences to, among others, financial institutions, life insurance companies, property and casualty insurance companies, certain foreign corporations doing business in the United States, S corporations with subchapter C earnings and profits, owners of an interest in a financial asset securitization investment trust, individual recipients of Social Security or Railroad Retirement Benefits, individuals otherwise qualifying for the earned income credit, and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry, or who have paid or incurred certain expenses allocable to, tax-exempt obligations.

OUR OPINIONS ARE BASED on existing law, which is subject to change. Such opinions are further based on our knowledge of facts as of the date hereof. We assume no duty to update or supplement our opinions to reflect any facts or circumstances that may thereafter come to our attention or to reflect any changes in any law that may thereafter occur or become effective. Moreover, our opinions are not a guarantee of result and are not binding on the Internal Revenue Service; rather, such opinions represent our legal judgment based upon our review of existing law that we deem relevant to such opinions and in reliance upon the representations and covenants referenced above.

APPENDIX C

The information contained in Appendix C consists of selected portions of the City's Comprehensive Annual Financial Report for the fiscal year ended September 30, 2003, selected by the City of San Antonio for inclusion herein, and is not intended to be a complete statement of the City's financial condition. Reference is made to the Comprehensive Annual Financial Report for further information.

(THIS PAGE IS INTENTIONALLY LEFT BLANK)

CITY OF SAN ANTONIO

P.O. BOX 83986
SAN ANTONIO, TEXAS 78283-3966

March 1, 2004

To the Honorable Mayor and City Council:

It is my pleasure to present the City of San Antonio's (City) Comprehensive Annual Financial Report (CAFR) for the fiscal year ended September 30, 2003. Through our dedication and commitment to excellence, the City maintained its bond ratings with the nationally recognized rating agencies: Fitch, Inc. at AA+, Standard & Poor's Public Finance Ratings Services, a division of McGraw-Hill Companies, Inc., at AA+, and Moody's Investors Service, Inc. at Aa2. The ratings reflect strong financial management and position with continued tax base growth for the foreseeable future.

This report is prepared and presented by the City's Finance Department. Accordingly, the responsibility for the accuracy, completeness and fairness of the data and presentation, including all disclosures, rests with the management of the City. The public accounting firms KPMG LLP, Leal & Carter PC, and Robert J. Williams, CPA, have audited the financial statements contained herein. As reflected in the independent auditors' report, the City's financial statements are presented fairly in all material respects.

The CAFR is presented in three sections: introductory, financial, and statistical.

- The introductory section contains the transmittal letter, a copy of the Government Finance Officers Association Certificate of Achievement for Excellence in Financial Reporting, the City's organizational chart, and a list of principal officials.
- The financial section includes the independent auditors' report, Management's Discussion and Analysis (MD&A), the basic financial statements, which consist of government-wide and fund financial statements and notes to the financial statements, other required supplementary information other than MD&A, and other supplementary information.
- The statistical section consists of selected financial and demographic information presented on a multi-year basis.

In addition to meeting the requirements set forth in State statutes, the audit was also designed to meet the requirements of the Single Audit Act Amendments of 1996 and Office of Management and Budget (OMB) Circular A-133, and the State of Texas Single Audit Circular. The independent auditors' report on the basic financial statements, MD&A (required supplementary information), required disclosures and schedules are included in the financial section of this CAFR. Required reports and schedules mandated by the Single Audit Act Amendments of 1996, OMB Circular A-133, and the State of Texas Single Audit Circular are in separate documents. As in the past, the City will prepare and submit recommendations on any single audit findings of noncompliance with applicable regulations for corrective action in order to achieve compliance in the future.

As noted above, included in the financial section of the CAFR is MD&A, which presents a narrative introduction, overview, and analysis of the basic financial statements. This transmittal letter complements the MD&A and should be read in conjunction with it. The City of San Antonio's MD&A can be found immediately following the report of the independent auditors.

AN EQUAL OPPORTUNITY EMPLOYER

ii

THE REPORTING ENTITY AND CITY SERVICES

Reporting Entity

The City of San Antonio is a home rule city that was incorporated in 1837 and chartered in 1951. It is structured as a Council-Manager form of government with a Mayor and ten Council Members each serving two-year terms, limited to two consecutive terms. San Antonio is located in South Central Texas, approximately seventy-five miles south of the state capital of Austin and serves as the county seat for Bexar County. As of September 30, 2003, the City's geographic area was approximately 505.86 square miles. The United States Census Bureau cites the City as the third largest city in the state of Texas and ninth largest city in the country. The estimated population grew from 1,241,100 in fiscal year 2002 to 1,262,800 in fiscal year 2003, an increase of 1.75%.

Pursuant to the reporting standards contained in Governmental Accounting Standards Board (GASB) Statement No. 14, "The Reporting Entity", other related entities are included in the CAFR as blended or discretely presented component units. Blended component units are those entities that are considered as part of the City's operations but are legally separate entities. Those entities are the City of San Antonio Health Facilities Development Corporation, the City of San Antonio Industrial Development Authority, the San Antonio Fire and Police Pension Fund, the San Antonio Fire and Police Retiree Health Care Fund, the City of San Antonio Texas Municipal Facilities Corporation, and the City of San Antonio Texas Starbright Industrial Development Corporation.

Entities that require discrete presentation are the San Antonio Development Agency (SADA), the City of San Antonio Education Facilities Corporation (SAEFC), the Greater Kelly Development Authority (GKDA), the San Antonio Housing Trust Foundation, Inc. (SAHTF), the San Antonio Local Development Company, Inc. (SALDC), Brooks Development Authority (BDA), the San Antonio Water System (SAWS) and City Public Service (CPS). SAWS and CPS are independently managed, municipally owned utility systems that operate under quasi-independent boards of trustees.

For additional details on each of these entities and the basis for their respective presentation in our financial report, please refer to the Financial Section, Footnote No. 1, entitled "Reporting Entity".

Services

The City provides a vast array of municipal services. These services include but are not limited to fire and police protection, street and sidewalk maintenance, libraries, parks, and solid waste disposal. In addition, the City maintains preventive health services, and facilitates economic and neighborhood development. These services are funded from various sources, which include ad valorem taxes, hotel/motel taxes, sales taxes, grants, user fees, revenues from municipally owned utilities, and bond proceeds.

City Public Service (CPS) is one of the largest municipally owned utilities in the country. It provides electric and gas services to the greater San Antonio area. CPS operations and debt service requirements for capital improvements are funded by revenue derived from charges to its customers. The City Charter requires that the rates for user charges, board appointments, sale of assets, and bond issuances be approved by the City Council. In this report, CPS is included as a major discretely presented component unit. CPS is governed by a Board of Trustees, which is comprised of four members appointed by City Council and the Mayor of the City as an ex-officio member. Additional information on CPS is discussed in the section "Infrastructure Development".

San Antonio Water System (SAWS) provides water, wastewater, chilled water, and steam and reuse water services to the San Antonio area. SAWS is a City owned, separate consolidated entity that addresses water related issues in a coordinated and unified manner. Revenues from its customers fund SAWS' operations, capital improvements, and related debt service requirements. The City Charter requires that the rates for user charges, board appointments, sale of assets, and bond issuances be approved by the City Council. SAWS is governed by a Board of Trustees that includes the City's Mayor as an ex-officio member along with six members appointed by the City Council for four year staggered terms. Additional information on SAWS is discussed in the section "Infrastructure Development".

THE REPORTING ENTITY AND CITY SERVICES (Continued)

Services (Continued)

The San Antonio Development Agency's (SADA) mission is to focus on housing with emphasis on activities inside Loop 410 while continuing the implementation of the City's Urban Renewal Program. It may designate for urban renewal such areas as it deems advisable, subject to approval by the City Council and the federal agency that administers the overall program. A majority of SADA's funding is provided by the City as pass-through grants. The board of SADA is composed of seven members appointed by the City Council.

The City of San Antonio Education Facilities Corporation (SAFEC), formerly the San Antonio Higher Education Authority, was established in accordance with State law for the purpose of aiding non-profit institutions of higher education in providing educational and dormitory facilities. This corporation is authorized to issue revenue bonds for the purposes previously mentioned, but said bonds are not obligations of the City. An eleven member Board of Directors appointed by the City Council governs the SAFEC for two-year terms.

The Greater Kelly Development Authority (GKDA) is charged with the task of all issues related to the closure, conversion, redevelopment, and future use of Kelly Air Force Base. The GKDA is also responsible for reviewing all options related to the most appropriate uses of the property on the base and surrounding areas. An eleven member Board of Directors appointed by the City Council governs the GKDA.

The San Antonio Housing Trust Foundation, Inc. (SAHTF) was organized for the purposes of supporting charitable, educational and scientific undertakings, and to provide housing for low and moderate-income families. The SAHTF is also responsible for the administration and operations of the City's Housing Trust Fund, established for the same purpose noted above. An eleven member Board of Directors appointed by the City Council governs the SAHTF.

The San Antonio Local Development Company, Inc. (SALDC) was established in 1978 to help small businesses in South Central Texas realize business growth and job creation by facilitating access to a diverse package of intermediate and long-term loans. The SALDC administers the following loan programs: Small Business Administration (SBA) 504 Loan Program, SBA Microloan Program, Economic Development Administration (EDA) Revolving Loan Fund (RLF), Inner City Loan Program and the Housing and Urban Development (HUD) Enterprise Community Loan Program. The City Council appoints thirty-three Trustees to oversee SALDC, from which eleven members serve as the Board of Directors and govern the activities of the corporation.

Brooks Development Authority (BDA) was designed to improve mission effectiveness, reduce the cost of providing quality installation support, and promote economic development on Brooks Air Force Base and in the surrounding community. Dedicated funds provide basic municipal services at the base while continuing to develop BDA as a technology and business park. An eleven member Board of Directors appointed by the City Council governs the BDA for two-year terms.

ECONOMIC OVERVIEW

As a community, San Antonio has positioned itself for long-term growth and prosperity by successfully following a strategy to diversify its economy and improve quality-of-life for all citizens. City government has played an integral part by implementing "A Strategic Plan for Enhanced Economic Development" through the collaborative efforts of San Antonio, Inc., a group of economic development organizations within San Antonio. Furthermore, the City is undertaking on-going infrastructure improvements, neighborhood revitalization, and workforce development initiatives, as well as providing incentive, assistance and attraction programs that are geared to businesses of all sizes. Both government and citizens are working toward increasing the caliber of educational and economic opportunities, expanding arts and leisure choices, revitalizing older neighborhoods, and planning for overall growth in San Antonio. As a result of the North American Free Trade Agreement (NAFTA), San Antonio has been able to capitalize on international trade opportunities by becoming a distribution point and center for companies doing business in Mexico. San Antonio is the closest major U.S. city to Mexico's biggest markets and enjoys close cultural and business ties to that nation. San Antonio's leading industries include

iv ECONOMIC OVERVIEW (Continued)

biomedical research and health services, international trade and distribution, information technology and security, telecommunications, tourism, financial services, and the military.

Employment Sectors

The nonagricultural employment sectors distribution for the San Antonio metropolitan area as of September 2003, according to statistics provided by the Texas Workforce Commission, is as follows:

Industry Sector	Jobs		% Change (9/02 to 9/03)
	Percentage of Total Employment	Gained/Lost (9/02 to 9/03)	
Mining	0.3%	(200)	(9.1%)
Construction	5.6%	600	1.4%
Manufacturing	6.1%	(1,200)	(2.7%)
Trade, Transportation, Utilities	18.1%	1,900	1.4%
Information/Telecommunications	3.1%	(700)	(3.1%)
Finance, Insurance, & Real Estate	8.1%	1,200	2.0%
Prof./Business Services	11.8%	1,000	1.1%
Education and Health Care Services	13.4%	3,300	3.3%
Leisure and Hospitality	11.3%	2,300	2.8%
Other Services	3.8%	300	1.0%
Government	18.4%	1,500	1.1%
Total	100.0%	10,000	

The San Antonio Metropolitan Statistical Area included over 803,000 jobs, with 694,000 jobs occurring in Bexar County. The area's largest employment sectors are Government, Retail and Wholesale Trade, and Health Care, which together comprise about 52% of the area employment. The largest growth in employment came in the Education and Health Care sector with a gain of 3,300 jobs (or 3.3% annual growth).

The City's health care sector provides services through its medical, research, education, and development facilities. The City's biomedical industry continues to dominate as the largest industry segment in the San Antonio economy. According to a study distributed by The Greater San Antonio Chamber of Commerce, this industry had a total economic impact of \$11.5 billion in 2001. This industry employs more than 98,000 with an annual payroll of \$3.4 billion. Between 1990 and 1999, the economic impact of the health care industry nearly doubled (97.2% increase). Additionally, employees in the health care sector earn more than the San Antonio average wage.

San Antonio is unique because its research institutions have a strong array of expertise in basic and applied instrumentation, pharmacology, diabetes, cancer therapy, virology, sports medicine, transplant medicine, geriatric medicine, dental medicine, specialized medical instruments, and information security technologies. These strengths provide San Antonio with a rich collection of world-class research facilities.

Some of the biomedical assets that the City possesses are: the Air Force Center for Environmental Excellence (AFCEE), BioMedical Enterprises, Biomedical Development Corporation, BioNumerik, Brooke Army Medical Center (BAMC), Brooks City-Base, the Cancer Therapy and Research Center (CTRC), Conceptual Mindworks, Inc., DPT Laboratories, ILEX Oncology, Inc., Incell Corporation, KARTA Technologies, Lipitek International, Mission Pharmacol, Probetex, OsteoBiologics, Research Dynamics, Inc., Southwest Foundation for Biomedical Research (SFBK), Southwest Oncology Group, Southwest Research Institute (SwRI), TEKSA Innovations, Texas Blood and Tissue Center, Texas Research Park Foundation, the University of Texas at San Antonio (UTSA).

ECONOMIC OVERVIEW (Continued)

Employment Sectors (Continued)

University Hospital, University of Texas Health Science Center (UTHSC), USAF School of Aerospace Medicine, U.S. Army Institute of Surgical Research, U.S. Army Medical Department Center and School, and USAF Wilford Hall Medical Center.

The University of Texas at San Antonio (UTSA) is adding two new significant assets to this impressive list of biomedical assets. UTSA is now operating a bioprocessing facility at Brooks City-Base that will house labs containing two or three fermenters ranging from about 40 liters to possibly 350 liters, a purification/downstream processing area, a cell culture area, a 2,400 square foot common lab with smaller fermenters for training and research, and an analytical lab.

UTSA is constructing a new \$83 million Biotechnology, Science and Engineering building. The facility will consist of 227,000 square feet for lecture halls, research and teaching laboratories, and seminar, conference, and classrooms to accommodate students in the College of Sciences and Engineering. The facility will also be home to the new doctoral degree programs in cell and molecular biology, computational biosciences, and bioengineering. The completion and eventual operation of the facilities will be vital to the continued development of the health and biotechnology industries in San Antonio.

Additionally, San Antonio has three major military hospitals, which have positively impacted the City for decades. The United States Air Force's largest medical facility, Wilford Hall Medical Center (WHMC), is an acute care facility. WHMC provides complete medical care to military healthcare beneficiaries in the south central United States and specialized care to patients from all over the world. WHMC contains the only Eye Bank within the Department of Defense and operates the only military programs for liver transplantation and allogeneic bone marrow transplantation. The Brooke Army Medical Center (BAMC) is an ultra modern and state-of-the-art acute care facility that provides trauma care and graduate medical education. It includes the world-renowned Institute of Surgical Research Burn Center. Both WHMC and BAMC support the surrounding local communities by participating fully in the trauma and emergency medical care of the San Antonio and South Texas civilian communities. The Audie L. Murphy Memorial Veterans Hospital is an acute care facility and supports a nursing home, the Spinal Cord Injury Center, an ambulatory care program, and The Audie L. Murphy Research Services, which is dedicated to medical investigations. It serves forty-one counties and a veteran population of 300,000 throughout South Texas.

Yet another significant industry within San Antonio is the information technology and security industry. According to a recent study of the economic impact on San Antonio that was commissioned by the Greater San Antonio Chamber of Commerce, this industry employs 11,475 people with an annual payroll of \$500 million and has an economic impact of \$3.4 billion. With organizations such as the Air Intelligence Agency and the Center for Infrastructure Assurance and Security at the University of Texas at San Antonio, the city has a reputation for excellence in information security.

Past terrorist events resulted in unforeseen national defense strategies. The nation is faced with having to protect its citizens from the direct effects of biological warfare. In addition, a more concentrated effort to mitigate or prevent biological terrorism has been generated in the information security industries. As a result of San Antonio's rich biosciences and information technology industries, the City has positioned itself to surface as the world's foremost Homeland Security Solutions City. To achieve this goal, the Southwest Enterprise for Regional Preparedness (SERP) has been formed and is leading the collaborative efforts among the numerous organizations within San Antonio with skills and expertise in homeland security. The SERP has initiated several innovative projects that will surely achieve the goal of making San Antonio the Homeland Security Solutions City. More importantly, these efforts will make substantial contributions to the security of the nation's homeland and play a pivotal role in building upon the City's designation as one of the top two most prepared cities in the country.

The hospitality industry represents another major component of the Services sector. San Antonio's natural, historic, cultural and recreational attractions have long made it one of the top vacation and convention destinations in the country. This has resulted in an increase in tourism activity, economic impact and employment

ECONOMIC OVERVIEW (Continued)

Employment Sectors (Continued)

opportunities related to the hospitality industry. The City's proactive management practices and marketing efforts resulted in the Convention & Visitors Bureau booking approximately 679 conventions in fiscal year 2003, with 711,216 associated room nights and an estimated economic impact of \$383.8 million. The San Antonio Convention & Visitors Bureau (SACVB) has booked approximately 2.74 million room nights from November 2002 through 2022.

The military continues to represent a principal component of the San Antonio economy. As of September 30, 2002, the military employed approximately 73,189 military, civilian and part-time guard and reserve personnel with an estimated direct economic impact of about \$4.8 billion. Three major active installations comprise the military sector: Lackland Air Force Base, Randolph Air Force Base, and U.S. Fort Sam Houston. In addition, Brooks Air Force Base property was conveyed to the Brooks Development Authority (appointed by City Council) on July 22, 2002, with the resident military missions remaining as tenants in the newly established Brooks City-Base Technology and Business Center.

The military presence within San Antonio was further enhanced with the relocation of US Army South to Ft. Sam Houston in September 2003. The relocation of this prestigious corporate headquarters organization to the City has added approximately 500 jobs with an estimated annual payroll exceeding \$42 million and an annual economic impact of \$200 million.

San Antonio's stature as a superb location for corporate relocations is growing. The City has attracted some major business enterprises to locate their operations in the City. Toyota Motor Manufacturing North America, Inc., has entered into an agreement with the City to invest \$400 million in an automotive manufacturing plant that will produce 150,000 Tundra trucks per year and employ 1,800 employees. Construction commenced in 2003 with production occurring in 2006.

Additionally, Maxim Integrated Products decided to expand its operations to San Antonio through its purchase of the Philips facility in Westover Hills. The City has also entered into an agreement with a large developer to develop a major area in San Antonio to include a Professional Golf Association (PGA) Resort with two golf courses, the construction of a major hotel, and construction of residential homes. The development area is in the Northeast part of the San Antonio outside of the city limits but within the Extrajurisdictional Area. This operation covers approximately 2,597.6 acres of land.

United Services Automobile Association (USA), a leading insurance agency, continues to be the City's largest private sector employer. Clear Channel Communications, Inc., also headquartered in San Antonio, is a global leader in the out-of-home advertising industry with radio and television stations, and other entertainment venues in forty countries around the world. New headquarters have also been built for San Antonio's energy company, the Valero Energy Corporation. Clarke American Checks, the third largest producer of checks and financial forms in the country with headquarters in San Antonio, expanded its local presence in 1999 with the addition of a major customer service center.

Business Climate and Outlook

San Antonio's healthy economy and positive business climate are enhanced by elements key to continued economic growth, such as an advanced telecommunications system, significant recent accomplishments in the area of higher education, and strong workforce development programs. Also enhancing San Antonio's business appeal is the high quality-of-life the City offers and a cost-of-living that is well below the national average. San Antonians enjoy first-rate medical services, a convenient and efficient airport, an excellent highway system, mild weather, and superb recreation choices, including championship golf courses, theme parks, historical attractions, museums, professional sporting attractions and a lively performing arts environment.

The City's Economic Development Department (EDD), in coordination with the private non-profit San Antonio Economic Development Foundation, continues to attract major corporations to the area and help local businesses

ECONOMIC OVERVIEW (Continued)

Business Climate and Outlook (Continued)

expand. Although the nation's economy experienced a downturn in 2003, job growth continued in San Antonio with approximately 3,575 new jobs created through economic development programs.

The Heavy Industry Development Division of the City's Economic Development Department continues to focus on working with the Greater Kelly Development Authority in the successful redevelopment of KellyUSA, formerly Kelly Air Force Base, which officially closed on July 13, 2001. EDD is also working with the Brooks Development Authority to make Brooks City-Base an economic success. In addition, EDD is working with Fort Sam Houston to explore ways that the City can help this local installation become more cost efficient, reduce infrastructure support costs, preserve jobs, and enhance economic development opportunities.

KellyUSA

On July 13, 2001, Kelly Air Force Base ("Kelly AFB") officially closed and the land and facilities were transferred to GKDA. The new business park, known as KellyUSA, is focused on becoming the Port of San Antonio by: (1) establishing international air cargo operations; (2) developing a Kelly rail port for direct international rail operations including inland port distribution with the Port of Corpus Christi; (3) expanding aviation maintenance, repair and overhaul (MRO) operations into a renowned international center of excellence for MRO. KellyUSA assets include multi-modal infrastructure, including an 11,400-foot runway for commercial air operations valued at \$1.8 billion.

To further the redevelopment goals, GKDA has completed over \$191 million in new construction and facility upgrades over the past two years including a new 123,000 square foot hangar for Boeing and a new office building, which is currently leased at 94% of capacity. In addition, GKDA has planned a \$108.6 million capital improvement program for the next five years, including the demolishing of 5 million square feet in unusable facilities.

As of January 2004, redevelopment efforts have resulted in the retention of 7,400 military jobs and the creation of about 5,200 new commercial jobs. GKDA has also executed leases totaling approximately 8 million square feet of the space with 74 tenants such as Boeing, Lockheed-Martin, Chromalloy, Standard Aero, General Dynamics, General Electric, and Pratt & Whitney. An additional 2.4 million square feet of space has been leased back to the Air Force for their continued use. In 2004, GKDA is beginning Phase II New Facility Development at KellyUSA that encompasses \$364 million in capital projects financed by City, State, Federal, and private sector funds. GKDA projects that Phase II will generate another 6,400 jobs and increase KellyUSA's economic impact on the community to \$4.3 billion annually.

Brooks City-Base

Brooks City-Base is a collaborative effort between the Air Force and the City designed to retain the Air Force missions and jobs at Brooks AFB, improve Air Force mission effectiveness, assist the Air Force in reducing its support operating costs, and promote and enhance economic development on Brooks AFB and in the surrounding community. Both the City and the Air Force are partnering to utilize City incentives and existing Brooks AFB resources to create the Brooks Technology & Business Park, a facility that will foster the development of key targeted industry sectors, such as health services and biotechnology. Brooks Technology & Business Park was officially established on July 22, 2002, with the transfer of the 1,310 acres of land and improvements comprising Brooks AFB to the City Council-established organization, Brooks Development Authority ("BDA"), with the Air Force becoming Brooks Technology & Business Park's anchor tenant and leasing back additional facilities, as necessary, to perform its missions. The City is now providing municipal services to Brooks Technology & Business Park and has been providing fire and police services thereto since October 2001.

Base electric, gas, and water utilities have been transferred by the BDA to the City-owned utilities, CPS and SAWS. The BDA is also contracting with Grubb & Ellis, a national real estate developer and property management firm, to manage Brooks Technology & Business Park facilities.

ECONOMIC OVERVIEW (Continued)

Business Climate and Outlook (Continued)

Fort Sam Houston

Fort Sam Houston has also initiated leasing activities to reduce infrastructure costs and pursue asset management opportunities using military facilities. In April 2000, the United States Army (the "Army") entered into a partnership with the private organization, Fort Sam Houston Redevelopment Partners, Ltd. (FSHRP), for the redevelopment of the former Brooke Army Medical Center (BAMC) and two other buildings at Fort Sam Houston. These three buildings, totaling about 500,000 square feet in space and located in a designated historic district, have been vacant for some time and are presently in a deteriorating condition. On June 21, 2001, FSHRP signed a 50-year lease with the Army to redevelop and lease these three properties to commercial tenants. In September 2003, the Army relocated U.S. Army South from Puerto Rico to Fort Sam Houston, bringing approximately 500 new jobs to San Antonio with an annual economic impact of approximately \$200 million. To facilitate this relocation, the Army negotiated a lease with the FSHRP to locate U.S. Army South and the Southwest Region Installation Management Agency in the old BAMC by summer 2004.

The continued success of this unique public-private partnership at Fort Sam Houston is critical to assisting the Army in reducing infrastructure support costs, preserving historical assets, promoting economic development opportunities, and generating net cash flow for both the Army and FSHRP. This project supports the City's economic development strategy to promote development in targeted areas of the City, leverage military installation economic assets to create jobs, and assist our military installations in reducing base support operating costs. The Army intends to extend the public-private partnership initiative to include other properties at Fort Sam Houston currently available for redevelopment.

Base Realignment and Closure (BRAC 2005)

In 2005, another round of military base realignment and closures (BRAC) is scheduled. The community has been proactive in strengthening the value of its military installations through unique initiatives like the Brooks City-Base project and the Fort Sam leasing project. To prepare for BRAC 2005, the City of San Antonio in partnership with the Greater San Antonio Chamber of Commerce and Bexar County, has established the San Antonio Military Missions (SAMM) Task Force. In November 2003, the SAMM Task Force hired an Executive Director and staff to begin developing and implementing a strategy for BRAC 2005 focused on promoting the military value of the community's military assets.

San Antonio Technology Accelerator Initiative (SATAI)

SATAI is a targeted economic development initiative focused on developing an advanced technology economy in the San Antonio region. SATAI's mission is to accelerate the regional technological economy through providing hands-on development of advanced technology start-up companies and assisting established companies in accessing tech-based solutions through Enterprise Services. One of the largest SATAI projects is the coordination of several homeland security initiatives through its leadership of the Southwest Enterprise for Regional Preparedness. SATAI's efforts in this area will lead to several state of the art technologies that will be commercialized through new start-up technology companies.

SATAI has been very successful in becoming a key component in the development of San Antonio's advanced technology economy. For example, SATAI helps companies pursuing venture capital funding prepare for venture capitalists presentation. Statistics indicate that companies completing this preparation program have a 50% chance of receiving funding. Conversely, companies that do not complete this program have a 1-5% chance of receiving funding from venture capitalists. In 2003, SATAI played an integral role in San Antonio companies receiving over \$13 million in venture capital and angel funding. SATAI has also been very successful in attracting the interest of venture capital firms throughout the country to participate in the San Antonio investment market. This has filled a huge void in the community's efforts to develop the advanced technology economy.

Aerospace Industry Development

This industry provides over 8,200 jobs, with employees earning annual wages totaling over \$320 million. The aerospace industry continues to expand as the City leverages its key aerospace assets, which include San Antonio International Airport, Stinson Municipal Airport, KellyUSA, Randolph AFB and Lackland AFB, and training

ECONOMIC OVERVIEW (Continued)

Business Climate and Outlook (Continued)

Aerospace Industry Development (Continued)

institutions. Many of the major aerospace industry participants have significant operations in San Antonio, such as Boeing, Lockheed Martin, General Electric, Pratt & Whitney, Raytheon, Cessna, Southwest Airlines, FEDEX, UPS, and others. The industry in San Antonio is very diversified with continued growth in air passenger service, air cargo, maintenance repair and overhaul (MRO) and general aviation. San Antonio International Airport has added two new non-stop passenger routes to Cleveland and Guadalajara in 2003 with seasonal nonstop flights to Cancun, Mexico scheduled to begin in March 2004. Sunson is at 100% occupancy rate and has a tenant waiting list for facilities. A Sunson Master Plan was approved by the City Council in October 2002 and is being implemented. At KellyUSA, the MRO business continues growing as tenants such as Boeing, Lockheed Martin and Standard Aero continue to secure long-term government contracts. KellyUSA is also working to add air cargo activity as recommended by an Air Cargo Study and Strategic Plan completed in June 2002.

To support the workforce requirements for growing and sustaining a viable aerospace industry, the community partnered to establish the Alamo Area Aerospace Academy (AAAA), which opened in August 2001. The City has funded the AAAA with \$150,000 in fiscal year 2003. The inaugural class enrolled 121 high school students of which 94 graduated in May 2002. Of the 25 seniors in this class, 15 are now employed within the aerospace industry in San Antonio. There were 127 students in the fiscal year 2003 AAAA class and in September 2003 the FY 2004 class began with 130 students.

Complementing this workforce initiative is the Advanced Technology Center that opened at KellyUSA in April 2002 and provides an avionics curriculum. The City, in partnership with the Alamo Community College District, funded the \$3 million facility renovation project housing the Academy.

New Business Prospects

As of the fourth quarter of 2003, the San Antonio Economic Development Foundation, Inc., reported the City had 90 active business prospects. The new businesses are categorized as business services, transportation equipment, miscellaneous manufacturing, fabricated metal products, food products, and others.

Downtown Development Projects

During 2003, the new 100-room Watermark Hotel was completed, and construction commenced on the 350-room La Quinta Inn & Suites hotel project, which will reshape the downtown skyline. The City will continue its efforts to facilitate the development of a convention headquarters hotel adjacent to the recently enlarged Henry B. Gonzalez Convention Center. The Convention Center Hotel Advisory Board (CCHAB) was formed to study and recommend financing and development options for this 1,000-room hotel.

International Trade

The Directory of San Antonio Exporters and Support Organizations (available on the City's International Affairs Department website) has identified over 700 local companies that export to other nations or provide export assistance.

During 2003, the International Affairs Department worked with 77 international delegations, which included 1,526 delegates that visited San Antonio. Delegations visited from Albania, Azerbaijan, Botswana, Brazil, Canada, Canary Islands, Chad, China, Colombia, Czech Republic, France, India, Korea, Malaysia, Morocco, Netherlands Antilles, Nigeria, Oman, Pakistan, Qatar, Romania, Slovenia, Spain, Switzerland, and Taiwan. The department also assisted more than 500 business clients generate over \$21 million in a bilateral trade between San Antonio and Mexico.

As of December 31, 2003, the North American Development Bank (NADB) had authorized loans and grants totaling approximately \$631.8 million for the development and financing of 70 infrastructure projects throughout the 10 states that comprise the U.S.-Mexico border region. These projects represent a total investment of

ECONOMIC OVERVIEW (Continued)

Business Climate and Outlook (Continued)

International Trade (Continued)

approximately \$2.18 billion and are benefiting an estimated 7 million border residents in the United States and Mexico.

The NADB has been the catalyst to significant and unprecedented levels of investment in environmental infrastructure along the U.S.-Mexico border. NADB participation in these projects represents about 29 percent of the total investment in these projects. Of these, 18 have been completed, 33 are currently under construction or in various states of completion and 19 are in the design or bidding stage and are expected to start construction this year. In the area of local capacity building, the NADB to date has authorized technical assistance under its Institutional Development Program (IDP) for 151 projects in 77 communities on both sides of the border.

Infrastructure Development

The City recognizes its obligation to address infrastructure needs and to provide the services required to maintain and continuously improve the living standards of its citizens. Infrastructure, the basic framework or underlying foundation provided by government to support a community's basic needs, including its various components that ensure economic activity, safety, education, and quality of life, are discussed below.

Basic Infrastructure ComponentsPublic Safety

In fiscal year 2003, the Police Department continued to enhance crime prevention strategies by strengthening relationships between police and the community's neighborhoods in order to proactively address property and violent crime rates. During the year, violent crimes per 100,000 population reflected a modest increase while property crimes declined slightly. The Patrol Availability Factor (PAF) goal for the year was 39.56%. The actual PAF for the year was 40.83%. The better than anticipated PAF resulted from fewer police officer vacancies during the year, the return of 30 officers called to active military duty, and a 2% reduction in calls for police service. As part of a Joint City-County project funded by the Local Law Enforcement Block Grants, the Police Department established a gang detail that works with various County agencies to proactively address gang issues.

The improved Dispatch Facility, constructed in 2000 and funded with 1998 Certificates of Obligation, will accommodate the requirements for a new public radio system. Currently in the final stage of field-testing, the new radio system is scheduled to become operational in the first quarter of 2004.

The 1999 Bond Program earmarked \$17.4 million for three Vision 2001 technology systems: Field Entry Reporting, Optical Disk Storage and Retrieval, and Supplementary Report Management System. This "Public Safety Integrated Technology System" will provide a comprehensive information management system to increase police officer and detective effectiveness while enhancing customer service. The system will enable officers to enter reports from the field as well as improve the filing, preparation and storage of important case information.

The Police Department currently has a contract with Open Systems Group for the development of a software base for this system. In fiscal year 2003, \$3,610,127 was budgeted for this project. This fiscal year, servers were purchased to run the system and the Automated Mugsshot System was upgraded. The entire system is estimated to be complete in August 2004.

1999 General Obligation Bonds totaling \$3,009,000 were allocated to Police Substation Expansion Projects for North, Northwest, South, East, and West Substations. In fiscal year 2003, \$1,140,000 was budgeted for the East and Northwest Substation expansion projects, which continue as scheduled. Construction of the North, South and West Substations was scheduled to be completed in December 2003. The East and Northwest Substations will be complete in March 2004.

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Public Safety (Continued)

In fiscal year 2003, the Police Department continued to provide and improve citizens' convenient access to information and investigative services at Police Substations through enhanced data availability on the Department's Website. Police reports are available to the public at the Police Headquarters Records Office and at the four City of San Antonio Community Link Centers.

The City continues to promote and provide for its Public Safety infrastructure by allocating funding through the budget process for police, fire and Emergency Medical Service (EMS). As of September 30, 2003, Public Safety Infrastructure included 6 police stations as well as 48 fire stations which house 48 engine companies, 19 truck companies, 8 brush trucks, 8 fire command units, 5 EMS command units, 26 full-time EMS units and up to 9 peak period units per day. In addition to the aforementioned deployment of personnel, the Fire Department staffs a Fire Station located at the San Antonio International Airport, which responds to all incidents that occur within the airport boundaries.

With regard to Fire and EMS services, fiscal year 2003 included the continued implementation of the Fire Department Master Plan, a five-year rolling plan of comprehensive improvements targeted to enhance services provided such as Emergency Management, Fire Suppression, Fire Prevention, and Emergency Medical Services. Improvements implemented include an addition of nine staff positions, the continued construction and renovation of various fire stations and the training academy, and the continuation of the fire department's First Responder program. The First Responder program is part of a Fire Department initiative to increase the useful life of the more expensive firefighting apparatus and to provide initial patient care before EMS units arrive. The department also continued to improve technology and equipment enhancement upgrades related to Laptop Mobile Data Terminals (LMDTs).

Parks and Recreation Department

As of September 30, 2003, the City's Parks and Recreation infrastructure included 192 neighborhood, community and large urban parks, numerous sports complexes, 26 recreation centers, 23 swimming pools, and other special facilities, such as the River Walk, Botanical Gardens, Tower of the Americas, Spanish Governor's Palace, Market Square, and La Villita. The total park area covers 14,509 acres. During fiscal year 2003, approximately 36 Parks and Recreation capital improvement projects were completed at a construction cost of over \$7.9 million, and an additional 78 Parks and Recreation capital improvement projects were under construction, bid, or design at the end of the fiscal year.

On May 6, 2000, San Antonio voters approved the collection of an additional 1/8 cent sales and use tax aggregating up to \$65 million to purchase and develop as appropriate; (a) large tracts of parkland containing sensitive natural areas over the Edwards Aquifer (\$5 million), (b) linear tracts of land for greenway development along Leon Creek and Salado Creek (\$20 million), and (c) a 10% operations and maintenance endowment for the Edwards Aquifer Parkland. The parks proposal was the only one of four ballot issues presented to voters on May 6, 2000 that was approved, and will be funded through a temporary 1/8 cent increase in San Antonio's sales and use tax. It is anticipated that the \$65 million will be remitted to the City by July 2004.

Planning Department

Planning Department staff began the Southside Balanced Growth Initiative during the 2002 fiscal year. The focus of this initiative was an 83.6 square mile area located 7.5 miles south of downtown. An area of approximately 57 square miles was annexed for limited purposes to extend land use and health and safety regulations to the area. The primary goal of this initiative is to reverse the trend of disinvestments in the southern sector and encourage the balanced growth of San Antonio. This initiative will establish a growth policy for South San Antonio that seeks to develop the area into an integral part of the City and create an overall scenario of sustainable development. To that affect, new and progressive zoning districts were introduced and adopted by City Council.

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Planning Department (Continued)

Additionally, this effort seeks to achieve the goals and objectives of the 1997 Master Plan, the 2001 San Antonio Housing Master Plan, and the Community Revitalization Action Group (2000) by utilizing Smart Growth Principles. Through this initiative, the City of San Antonio will:

- Encourage the development of attractive, sustainable neighborhoods that are pedestrian-oriented and support a mix of uses
- Provide a range of quality housing options
- Protect natural resources and open space
- Support walking, cycling, and bus/rail transit alternatives to driving
- Revitalize and support existing communities
- Generate job opportunities
- Promote quality schools
- Build on existing and planned assets and employment anchors
- Attract investors and encourage development by making investing easier and profitable
- Reduce infrastructure costs by developing closer to the urban area and coordinating development infrastructure

With the advent of a Toyota Manufacturing plant in the area, the prospect for attracting and increasing the number of industrial and commercial uses will improve. Coupled with the City's initiative, attractive and progressive zoning districts provide direction and create certainty for future investors and developers in the area.

The City added two new Historic Districts, bringing the total of Historic Districts in San Antonio to twenty-one, and expanded the boundaries of two of our existing Historic Districts. A recent study of the Economic Impact of Historic Designation in San Antonio by Rutgers University showed that Historic District designation increased property values 18% over the normal inflation rate compared to neighborhoods of similar character. Currently, one additional neighborhood is in the process of designation. We have also designated thirteen new Local Landmarks.

During the past year, the Alamo Viewshed was adopted by the City Council. The Viewshed limits the height of new buildings behind the Alamo. This height limitation will forever preserve the view of clear sky behind the Alamo.

The Planning Department is also working on an architectural survey of the original thirty-six square mile city limits, which includes 62,000 buildings. The survey utilizes volunteers from neighborhoods, advocacy groups, and local schools. To date, over 6,000 properties have been surveyed and a number of potential new Local Landmarks and Historic Districts have been identified.

In accordance with the Community Building and Neighborhood Planning Program, staff undertook comprehensive planning for neighborhoods and communities. Plans, in addition to the Southside Initiative Community Plan, which was adopted in fiscal year 2003 by City Council, included the Huebner-Leon Creek Community Plan and the Westfort Neighborhood Plan Update. The Arena District/Eastside Community Plan was approved by the Planning Commission in September, and was considered by City Council in November 2003.

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Planning Department (Continued)

The Neighborhood Improvement Challenge Program (NICP) provides neighborhood-based organizations the opportunity to implement small, public improvement projects in partnership with private groups. In fiscal year 2002, the NICP awarded a total of \$161,696 to 107 projects ranging from landscaping, murals, park enhancements, and special topics series that include newsletter design, advertising, promotion and distribution. In fiscal year 2003, staff coordinated with neighborhood groups to finalize and implement these projects. To date, 40 Learning Fund participants attended membership drive classes and sponsored a membership recruitment event, 672 trees were planted, and 9 Project Fund projects were initiated that will be matched privately with \$34,790. Although the Neighborhood Improvement Challenge Program was not funded for fiscal year 2003, carry forward funds will enable the scheduling of additional special topic series workshops.

As part of the implementation of the Community Building and Neighborhood Planning Program (CBNP), three neighborhood plan projects were initiated in 2002 and implementation efforts continued in 2003. These include the Hays Street Bridge Rehabilitation project, the Austin Highway Hazard Elimination Safety Program (HESP) and the Olmos Creek Greenway project.

The Hays Street Bridge Project was awarded \$2,879,293 through the TEA 21 enhancement program in 2002. In an effort to raise funds for the City's match, the Planning Department will continue its involvement to coordinate with the citizen committees and to assist with public involvement for the project.

Through a Hazard Elimination Safety application submission for TEA 21 funds, \$475,000 was awarded to the San Antonio Texas Department of Transportation (TXDOT) district for the construction of medians on Austin Highway from Eisenhower to Rittman. In fiscal year 2003, the Planning Department, Neighborhood Action Department and the Public Works Department coordinated the preliminary design and public involvement process with TXDOT. TXDOT has initiated the design and development of the project.

In conjunction with the adoption of the North Central Neighborhoods Community Plan, a resolution was adopted by City Council to authorize the San Antonio River Authority to work with the U.S. Army Corps of Engineers (USACE) to initiate a feasibility study of the southernmost three (3) mile section of Olmos Creek to determine if the project qualifies for Section 206 "Aquatic Ecosystem Restoration" funds. If it qualifies, this could result in additional federal funding for environmental restoration and passive hiking trails. A 35% match (cash or in-kind) would be required should the city decide to participate. A preliminary estimate by the USACE for the city's match as of October 2002 is \$537,585 (\$71,000 in-kind and \$466,585 cash) for a total project cost of \$1,535,960. In 2003, the Planning Department coordinated with the USACE, the Parks and Recreation Department and the San Antonio River Authority to develop final estimates. Voters in the 2003 Bond election approved the local match for the project.

In December 2002, the Corridor Overlay District enabling ordinance was adopted by City Council. In May 2003, the first gateway corridor, the Hill Country Corridor on IH10 West, was also adopted by City Council. Subsequently, staff initiated work on the development of the IH35 North gateway corridor. Additionally, two Neighborhood Conservation Districts (NCD) were adopted: the S. St. Mary's/South Presa NCD and the Alta Vista NCD. Staff also initiated work on the development of NCDs for the Ingram Hills and Whispering Oaks neighborhoods. Both the corridor overlay district and the neighborhood conservation district provide additional development standards to promote community character.

Library Facilities

The San Antonio Public Library System consists of a Central Library facility, 18 branches, 1 joint-use facility at the Ronald Reagan High School (a unique partnership between the City and North East Independent School District), and 1 bookmobile. The Central Library offers services seven days a week and four evenings a week.

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Library Facilities (Continued)

Nine branch libraries are open seven days a week and three evenings, and nine branch libraries are open six days a week and four evenings. The public library at Ronald Reagan High School is open after school hours and evenings four days a week and on Saturday and Sunday during the day. The Library's operating schedule is designed to ensure that branch libraries throughout the city provide satisfactory library access and usage for families, students, and neighborhood residents.

Over 3.6 million people utilized the Library's collection of print and non-print resources in fiscal year 2003. Citizens borrowed 4% more materials and asked 9% more reference questions than in the prior year. Usage of the Library's website, including access to full-text electronic information databases increased 69% over the previous year. Over 149,000 citizens attended library programs designed for a variety of audiences including children, families, and adults.

In support of the City's initiative to create an educated workforce and promote a healthy business climate, the San Antonio Public Library offers information resources for small businesses in branches located throughout the City's empowerment zones. These resources were developed with the assistance of the Institute of Economic Development at the University of Texas at San Antonio, the City Economic Development Department and the Economic Development Foundation.

Airport System

The City's airport system consists of the San Antonio International Airport and the Stinson Municipal Airports, both of which are owned by the City and operated by its Department of Aviation.

San Antonio International Airport is located on approximately 2,600 acres of land that is adjacent to Loop 410 freeway and U.S. Highway 281 and eight miles north of the City's downtown business district. The International Airport consists of three runways with the main runway measuring 8,502 feet and is able to accommodate the largest commercial passenger aircraft. Its two terminal buildings contain 24-second level gates. Presently, domestic air carriers providing service to San Antonio include America West, American, Atlantic Southeast, Comair, Continental, Continental Express, Delta, Midwest, Northwest, Southwest, and United. Mexican, Aerolitoral and Aeromar are Mexican airlines that provide passenger service to Mexico. The Airport Master Plan design allows for an increase from 24 to 55 gates. It is estimated that current gate facilities are being used at 80% of capacity. A variety of services are available to the traveling public furnished by approximately 245 commercial businesses, including nine rental car companies, which lease facilities at the San Antonio International Airport and Stinson Municipal Airport.

San Antonio International Airport has two designated cargo areas: the West Cargo Area, which was constructed in 1974 and refurbished in 1990, and the East Cargo Area, which was completed in 1992 and expanded in 2003. The East Cargo Area is specially designed for use by all-cargo, overnight-express carriers. Custom-built cargo facilities in the East Cargo Area are leased to Airborne Express and Federal Express, while Eagle Global Logistics (EGL) constructed a processing facility in the year 2000 and UPS is in the process of expanding its facilities. Additional land has been allocated to accommodate future growth and an expansion of facilities is currently planned. Foreign trade zones exist at both cargo areas. Enplaned and deplaned cargo for 2002 totaled 133,463 tons.

San Antonio International Airport operates and maintains approximately 6,100 parking spaces and 1,000 employee parking spaces for a total of 7,100 parking spaces. A parking study was developed in 2001 for the International Airport by AGA Consulting, Inc. The study indicated that projected peak period demand for airport

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Airport System (Continued)

parking will exceed the available supply by the end of 2006. It is estimated that 2,400 additional parking spaces will be required to satisfy projected demand over the next ten years. The City is in the process of coordinating the facility layout for the new parking improvements with the additional terminal facilities. The design contract for the parking improvements is expected to be awarded in early 2004, while construction of the new parking facilities is anticipated to start by 2005.

A comprehensive terminal renovation project was completed in 2003 to improve the quality of services provided to passengers at the San Antonio International Airport. The project, which was estimated to cost \$28 million, included a completely new appearance to the building interiors and provided state of the art terminal amenities. Included in the terminal renovations was a complete redevelopment of the concessions program that provided high-quality retail and food establishments, offering a mix of regional and national brands at street prices. Concession space was expanded from 30,000 square feet to over 40,000 square feet. Through the expansion and reconfiguration of concession space, 85% of retail shops and food outlets are now at airside locations. In total, 42 new concession contracts were awarded. The new concessions program is also projected to increase revenues to the Airport from \$3.2 million in fiscal year 2002 to \$4.8 million in fiscal year 2004. On a per-boarding-passenger basis, concession revenue is expected to increase from \$.99 in fiscal year 2003 to \$1.31 for fiscal year 2004.

The Airport Revenue News' 2003 Best Concessions Poll recognized the City's Aviation Department for its new concessions program. The Airport's concession program was voted for by a panel of judges in the airport category with less than 4 million entrants. San Antonio International tied with Norfolk International Airport for 1st place for the "Airport with the Most Innovative Services" and received 2nd place for the airport with the "Best Concessions Program Design." This award is given to airports that have the most accessible and visible concessions program to a majority of passengers, a layout that promotes a retail-friendly environment, reflects a distinctive theme, and has an overall attractive appearance.

The passage of the Aviation Security Improvement Act in November of 2001, created the Transportation Security Administration (TSA). The City's Aviation Department has worked closely with the TSA to forge a new higher level of security for the traveling public. Aviation Department staff and the airlines assisted the TSA in transitioning to fully federalized security checkpoints. The process began in September 2002 and was completed on December 31, 2002. Implementation of the new regulations included the installation of explosive detection baggage screening equipment to meet the mandated 100 percent baggage screening process on December 31, 2002. TSA employs about 500 individuals at San Antonio International Airport to meet the new federal security requirements.

The Airport's explosive detection screening equipment is currently located in the ticket lobby areas of the terminals. This was necessary in order to meet the required December 31, 2002 deadline. However, the Aviation Department is working with the TSA to relocate all baggage screening equipment behind the terminals in new baggage handling systems planned as part of the upcoming Terminal Expansion Project. The Aviation Department also utilizes three Explosive Detection Canine teams. The officers, assigned with their dogs, provide additional coverage for detection of explosive materials at the Airport in baggage pickup areas, concourses, parking, cargo and aircraft. This program is supported by the TSA with reimbursement to the Airport at \$120,500. SAT's coverage is provided in addition to canine support received from San Antonio Police Department and Bexar County Sheriff's Office.

The City is planning the implementation of a ten year Capital Improvement Program (CIP) pursuant to the Master Plan for San Antonio International Airport. The CIP addresses both terminal and airfield improvements. The capital program includes the removal of the existing Terminal 2, which is over 40 years old, and the addition of two concourses with corresponding terminal space, public parking facilities, roadway improvements, and the

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Airport System (Continued)

extension and improvement of two runways, along with supporting taxiways and aircraft apron. The Airport System's overall CIP for fiscal years 2002 through 2011, which may change as circumstances require, is estimated to be \$425.6 million. The CIP includes capital improvements as follows: \$124.2 million for terminal related improvements, \$51.8 million for parking improvements, \$19 million for roadway improvements, \$177.1 million for airfield improvements, \$8.2 million for cargo facilities, \$6.7 million for aircraft apron, \$5.9 million for Stinson Airport improvements, and \$32.7 million for other improvements.

The City plans to pursue a phased approach in the construction of the improvements, whereby capacity is increased to coincide with demand. The City also desires to limit, to the extent possible, the impact on airline rates and charges. The City, as the owner and operator of the Airport, has received authority to "impose and use" Passenger Facility Charges (PFC) at the \$3.00 level, which became effective November 1, 2001. The Federal Aviation Administration (FAA) issued a Record of Decision approving the City's PFC application on August 29, 2001. The CIP also anticipates the approval of a Letter of Intent with the FAA for the commitment of future grants as possible funding sources for some of the planned capital improvements.

During 2003, the first steps were taken to bring the City's \$426 million Capital Improvement Program to fruition. The City's consultant, Marmion Mok/Gensler, validated the 1998 Airport Master Plan and completed a programming study. This process included development of a layout of proposed additional terminal and roadway facilities needed to meet the projected passenger growth through 2015. The study also included a review and mapping of the ultimate terminal and airline gate expansion for future development as growth occurs at the Airport. Schematic designs were completed, along with the programming study, which will be used by the architectural team of 3D International/Corgan Associates, Inc., to layer in the exterior and interior structural design features in the ticketing, concourse, and bag process areas. Other architects were also selected to start the process of designing and constructing a new 3,000-space parking garage and a freight facility. The first phase of construction, which includes a new concourse to replace Terminal 2 and roadway improvements, as well as an expansion to the parking facilities, is expected to start late in 2004.

Stinson Municipal Airport, established in 1915 and named for the Stinson family, aviation pioneers, is one of the country's first municipally owned airports. During 2001, a process was initiated to develop a new Airport Master Plan for this Airport, which was completed 2002. The Master Plan provides recommendations for airfield and facility improvements needed to meet growing operation demands. The planning effort will facilitate the development of the Airport to expand its role as a general aviation reliever to the San Antonio International Airport. TxDOT accepted the Master Plan in 2002 and has recommended \$16.0 million in grant funding for capital improvements over the next ten to fifteen years. The expansion of Stinson's facilities is also needed to take advantage of new, complementary business opportunities evolving with the synergy between Brooks City-Base, KellyUSA, and the Airport. A Target Industries Analysis was completed in 2003 as part of the master planning process. The study will help facilitate development of Stinson properties through the identification of industries and businesses considered to be good prospects for locating at the Stinson Municipal Airport.

Since 1998, flight operations at Stinson have increased by 143%, while Stinson has also experienced over a 100% increase in the number of based aircraft at the airport. Because of its growth, the Texas Department of Transportation Aviation Division has approved grant funds for various projects at Stinson. With Aviation Department funds, Stinson has planned to build a new facility that will give the Airport additional administrative offices, classrooms, and conference rooms to accommodate and attract new businesses. The Texas Department of Transportation Aviation Division has named Stinson Municipal Airport "2003 Reliever Airport of the Year".

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

City Public Service

City Public Service (CPS), owned by the City, provides electric and gas services to San Antonio and surrounding areas. As of December 2003, CPS owned and operated 16 electric generating units capable of producing 4,356 megawatts (MW) of power from natural gas, oil, and coal. CPS also owns 700 MW of nuclear generating capacity in the South Texas Project plus the rights to another 160 MW of wind generation, which brings the total CPS capacity to 5,216 MW. During fiscal year 2003, CPS's generation was obtained from the following sources: coal, 46%; nuclear, 27%; and natural gas, 15%. Wind energy and purchased power accounted for 12%. As the second largest municipally owned utility in the nation, CPS serves more than 604,108 electric customers throughout its 1,566 square-mile service area, and about 310,316 natural gas customers in the urban San Antonio area.

To the citizens' benefit, CPS rates are lower than any major Texas city and among the lowest in the nation. The average CPS residential gas and electric bill ranked second lowest among the 20 largest cities in the United States for the twelve months ending January 2003. CPS remitted over \$204 million to the City in fiscal year 2003. Representing a steady and increasing source of revenue for the City, this return helps keep property taxes low and enhances the funding of many city services offered to residents. As of December 2003, CPS maintains a AA+ rating by Standard & Poor's, which makes CPS one of the highest rated publicly owned utilities in the nation.

San Antonio Water System

The City's waterworks system, initially acquired in 1925, was included in a consolidation in 1992 of all City owned water related utilities including water, wastewater, and water reuse systems. This consolidation created the San Antonio Water System (SAWS), which now provides water and wastewater service to San Antonio and certain surrounding areas. SAWS provides water and wastewater service to the majority of the population within the corporate limits of the City of San Antonio and Bexar County, which totals approximately 1.4 million residents. Currently, SAWS provides water and wastewater service to 305,050 and 338,783 customers respectively, including residential, commercial, industrial and irrigation customers. SAWS has 4,229 miles of water mains in place and 5,047 miles of wastewater mains in place.

Housing and Neighborhood Development

The City's administration of housing and neighborhood development initiatives are being accomplished through programs such as the Housing Master Plan, Neighborhood Sweeps, Neighborhood Commercial Revitalization, Down Payment Assistance, Owner Occupied Rehabilitation and Reconstruction, Single-Family/Multi-Family Rental Rehabilitation, Affordable Showcase of Homes, Tax Increment Financing, and the Housing Asset Recovery Program. These Programs are managed through the Neighborhood Action Department.

In support of the Mayor and City Council's community revitalization efforts, the Neighborhood Action Department has defined a strategy for data gathering efforts to aid in the development of a comprehensive investment plan for the Community Revitalization Action Group (CRAG) target area, which encompasses the original 1940 city limit boundaries. The City Council continues to prioritize inner city revitalization efforts by targeting programs and neighborhood services provided in the CRAG target area.

Housing Asset Recovery Program

In an innovative approach to revitalization, the Neighborhood Action Department partnered with Fannie Mae in utilizing a line of credit to rehabilitate valuable housing stock and thus create affordable housing opportunities for low to moderate-income families in San Antonio. Since 2001, the Housing Asset Recovery Program (HARP) takes a non-productive, residential structure and creates a useful asset for the community. Individuals, non-profit organizations, corporations, or any owner of a single-family home, residential lot, or tract of land can donate or sell the asset to the City. Beyond the flood recovery program, in most instances, the home can remain on the existing lot and be rehabilitated on site. In other cases, such as in school expansion projects, a home may need to

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Housing Asset Recovery Program (Continued)

be relocated to another city-owned parcel of land. To finalize the HARP transaction, the City refers the "project" to Fannie Mae for rehabilitation and sale. Once the home has been renovated, a licensed real estate broker lists and sells the property on behalf of the City. Net proceeds from the sale of the home are returned to the City for reinvestment in affordable housing and to replenish the line of credit in order to acquire additional projects.

Housing Master Plan

In June 2001, the City was presented with a Housing Master Plan completed by J-QUAD & Associates, LTD, SA Research Corporation, and McConnell, Jones, Lanier and Murphy, LLP. The Master Plan is a result of recommendations found in the Community Revitalization Action Group Report and the Housing Performance Review. Both documents indicated a need for an overall plan to guide housing development in the City.

The Master Plan identifies and provides a series of recommendations for housing initiatives, processes, and comprehensive development for the City. The Master Plan also provides a baseline and understanding of current conditions found in San Antonio's housing market, as well as presents a definition of continuum of care and affordable housing. The Master Plan identifies a series of recommendations concerning the retooling of programs and processes to enable implementation of the recommendations defined in the plan. These recommendations are currently under review by the City Council Urban Affairs Committee.

Neighborhood Sweep Program

The Neighborhood Action Department coordinated and delivered 24 neighborhood sweeps during fiscal year 2002. Over the last five years, more than 100 communities have been recipients of this comprehensive service delivery program. The neighborhood sweeps represent an inclusive package of city services, such as code investigations, brush collection, street/pothole repair, graffiti removal and vacant lot abatement, that are delivered to a 55-60 block area over a period of two weeks. The program is designed to accomplish both short-term "clean-up" goals and long-term community development goals including accessing safe, decent housing, and assisting special needs populations.

Neighborhood Commercial Revitalization

The Neighborhood Commercial Revitalization (NCR) Program was created to bring renewed interest and investment to San Antonio's older commercial corridors. The NCR Program is currently working in eight target areas throughout the City. The NCR Program provides financial and technical assistance to community based non-profit organizations that undertake a full-time revitalization effort. The NCR Program is based on the MainStreet model of identifying and marketing the competitive advantages of these business districts in the hope of attracting private investment in new and existing businesses, thus creating job opportunities and enhancing the quality of life in the surrounding neighborhoods. Collectively, NCR target areas have realized more than \$39.6 million in private investment and created/retained more than 1,018 jobs. During fiscal year 2003, an assessment of the NCR Program was performed to pursue alternatives for greater program success and productivity, as the participants continue to implement strategies that will support inner city revitalization. This assessment will be presented to the City Council in early Spring 2004.

Down Payment Assistance Program/Homebuyers Club Program

In fiscal year 2003, the Neighborhood Action Department provided 89 families with down payment and closing cost assistance toward their purchase of a home. The Department will continue to provide up to \$8,000 for families wishing to purchase single family homes in the San Antonio area. In addition, in partnership with the San Antonio Housing Trust Foundation, the City received a \$25,000 grant to provide homebuyer counseling activities and support the City's Homebuyers Club Program, which prepares families for homeownership.

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Owner-Occupied Rehabilitation & Reconstruction Programs

The Neighborhood Action Department administers the Owner-Occupied Rehabilitation and Reconstruction Program that provides loans and grants for rehabilitation or reconstruction of housing units for qualifying families. The program is funded through the US Department of Housing and Urban Development, which provides Community Development Block Grant (CDBG) and HOME funds. The Department works closely with the families to determine rehabilitation and/or reconstruction needs based on assessments of the housing structure. The Department is responsible for providing oversight and monitoring of construction activities for the projects. All applicants must meet eligibility and income qualifications.

Rental Rehabilitation Program

The Neighborhood Action Department's Rental Rehabilitation Program provides funds for both single-family and multi-family rental units. It has been noted that much of the rental housing stock within the inner city is substandard and in need of rejuvenation; however, there are numerous challenges associated with ensuring revitalization such as historic integrity, environmental hazard, deferred maintenance, and elderly property owners. Funds for this program are made available through the US Department of Housing and Urban Development providing CDBG and HOME funds.

The Rental Rehabilitation Program provides loans and requires that units be made available to families earning at or below 80% of the area median income. The Housing Policy Guide amended the guidelines for this Program, maximizing the assistance provided to be no greater than 50% of the total rehabilitation costs for a project.

Tax Increment Financing

The City Council adopted new guidelines and criteria in October 2002 for the City's Tax Increment Financing (TIF) program. The public purposes of TIF projects include the redevelopment of blighted areas, construction of low and moderate-income housing, provision of employment opportunities, and improvement of the tax base. This program provides a means of presenting incentives that carry real costs by paying public improvement costs from the increased tax revenues generated by the project itself. The new guidelines were approved and provided the ability to facilitate higher standards of development for TIF projects. In May 2003, there was a City Council request to review the guidelines recently approved. The staff held numerous community and stakeholder meetings to address issues identified in the City Council request and new guidelines were adopted by the City Council in January 2004.

Neighborhood Development/Partnerships

Neighborhood Development/Partnerships are an innovative strategy being utilized to tackle inner city revitalization through private development. CDBG and HOME funds have been allocated as seed money to stimulate development in urban neighborhoods. The City released a Request for Proposals to solicit qualified developers to assist with revitalization efforts in a targeted neighborhood in Council District 4 through rehabilitation and construction of new infill housing. The groundbreaking for this project was held in 2003. This pilot program will stimulate increased activity in neighborhoods that have not seen new development in years.

Department of Community Initiatives

The Department of Community Initiatives (DCI) serves as the primary human development agency for the City. In this role, DCI coordinates community-based human investment strategies designed to strengthen families, develop human capital, and provide a community safety net. Additionally, DCI acts as a vehicle for collaboration between public and private organizations. This focused facilitation strives to leverage and maximize resources toward significantly improving the community's human development outcomes. In fiscal year 2004, DCI will

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Department of Community Initiatives (Continued)

invest almost \$130 million in human development. The DCI budget supports the City's strong commitment to strengthening long-term economic viability in San Antonio through the development of human capital.

DCI supports human development efforts at all stages of life, beginning with early childhood development and continuing through adult education. DCI carries out these human development strategies primarily through early childhood education, kindergarten readiness, youth development, character skills development, college scholarships, preparation for transitional employment, long-term job training and adult literacy services, and asset building and asset protection strategies.

DCI's early childhood education goal is to provide high quality and affordable childcare in order to improve workforce participation and prepare children to enter school ready to succeed. Through Head Start, the Child Care Delivery System and local initiatives, the Department will provide childcare to over 16,000 children of low-income parents participating in workforce activities or participating in workforce development activities.

The City provides \$11 million in In-Kind contributions to the Head Start program to support this early care and education goal. Additionally, the City certified almost \$4.3 million in local expenditures that attracted \$6.4 million in federal matching dollars to further underwrite the City's aggressive early care and education initiative.

Over the past four years, the City has drawn down proportionately more federal matching early childhood funds than any other Texas community. The Kindergarten Readiness Project, operating in 19 elementary school neighborhoods, strengthens families by empowering parents to serve as their child's first teacher. DCI continues to provide "Early On", a multi-media campaign to disseminate the Kinder Readiness guidelines. Last year, the Kinder Readiness Project trained more than 150 pre-school educators and 80% of children assessed displayed mastery of the Kinder Readiness guidelines.

The Youth Services Division addresses youth development through juvenile justice and delinquency prevention programs. By using model programs, such as the Neighborhood Conferencing Committees and Teen Court, the Division has significantly reduced the recidivism rate for those youth appearing before the Municipal Court Judge. Youth in the CASASTART Program, for example, have shown improved grades, improved attendance, and reduced contact with authorities. The school district administration has attested to an improved school environment as a result of the Division's presence on campus. More than 5,200 youth received prevention and early intervention services this year.

The Department is committed to raising the education and skill level of residents and offers coordinated and comprehensive education and training to assist youth and adults in achieving self-sufficiency. Next fiscal year we estimate that nearly 2,000 individuals who participate in DCI's education or training programs will become employed and more than 60% will be paid at or above a living wage. More than 3,600 DCI participants will enroll in higher education, skill training or long-term job training.

The San Antonio Education Partnership (SAEP) encourages students to stay in school and advance to higher education by providing advising services, college preparation activities and scholarships to students who graduate with a 95% attendance rate and 80% grade point average. Annually, SAEP serves more than 25,000 students in grades 9 - 12 at fifteen (15) participating high schools. Since the program's inception, nearly 1,500 scholarship recipients have received their Associates or Bachelor's degrees from local colleges and universities.

The Youth Opportunity (YO) Program is designed to assist inner city youth with developing the necessary skills to become contributing self-sufficient members of the community. The goal of YO is to increase the long-term employment and education of youth who reside in the City's Federally Designated Empowerment Zone. This goal

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Department of Community Initiatives (Continued)

is achieved through education and job training programs while providing an array of supportive services. The YO program provides follow-up support to youth for a two-year period following placement in long-term employment and/or education.

DCI's Literacy Services Division offers adult education services including GED preparation, adult basic education, English as a Second Language (ESL), and computer literacy. In addition, the Department has implemented a transitional jobs component in partnership with local employers to provide comprehensive career readiness and life skills training. It is estimated that more than 500 individuals attending literacy classes this fiscal year will obtain employment. Moreover, the Division's Better Career program will expand to all seven city-operated learning centers and into the community as well.

During the past two years, the Division has implemented an English Literacy - Civics Education program at two of the Learning and Leadership Development Centers. Funded with a grant from the Texas Education Agency, more than 300 participants have completed the program, which familiarizes participants with local, state and federal governmental structures to become more involved in their community.

Funded primarily through the City, Project QUEST is a workforce development initiative that provides comprehensive training opportunities primarily to adults who lack the educational, occupational, and life skills necessary to secure well-paying employment. QUEST provides support for short-term training, customized, and long-term job training in the City's targeted demand occupations. Since the program's inception in 1992, QUEST has provided training opportunities to approximately 2,500 participants.

DCI continues to strengthen the Family Economic Success Program to assist low-income working families transition out of poverty into economic self-sufficiency. This program offers asset-building strategies including Volunteer Income Tax Assistance (VITA) and Individual Development Accounts (IDA). Last year, DCI operated 12 tax assistance sites and prepared more than 9,500 returns for low-income working families, which returned more than \$13 million to residents of the community. DCI also serves more than 300 families through IDA. Through financial literacy instruction and matched savings accounts, working families will save for the purpose of education, homeownership, and transportation. DCI expects to enroll an additional 250 families in IDAs in fiscal year 2004.

The Community Action Division (CAD) is the designated public community action agency for City of San Antonio and Bexar County that addresses the needs of the low-income residents by improving the conditions of poverty. Services include rental, transportation, utility, food, case management, counseling, information, and referral through a variety of funding sources.

CAD programs also provide emergency housing, transitional housing, and supportive services to homeless families and individuals. Additionally, the Success and Independence Program provides long-term supportive services to low-income participants. The Fair Housing Program is responsible for enforcing City and Federal fair housing laws and other services such as comprehensive housing counseling, reverse mortgage counseling, and mortgage assistance.

DCI's Elderly and Disabled Services Division (EDSD) provides essential, safety net services to the community's most vulnerable populations. EDSD offers senior nutritional services, senior transportation services, in-home personal assistance services, and resource access to elderly programs and services. In fiscal year 2004, the nutrition program plans to expand from 56 to 65 congregate nutrition sites and will serve approximately 990,000 meals. In conjunction with Project HOPE, EDSD anticipates providing a minimum of 3,500 needy seniors more than 1,800,000 pounds of food during the 2004 fiscal year. To address an increasing need for services, EDSD

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Department of Community Initiatives (Continued)

now staffs an Elderly Resource & Referral "one-stop" center that operates in direct coordination with the newly created Office of Elderly Affairs.

The Community Centers Division operates three Community Centers located in the west, east and southwest sectors of the city. Services provided by tenant programs in the three centers include Head Start, youth counseling, youth and senior recreational activities, emergency assistance, parenting program, seniors nutrition program, Code Compliance offices, and a Metro Health clinic. One of the centers is also used as an emergency shelter during city or regional disasters.

Strategic partnerships can demonstrate a high level of impact and improvement in our community. Some of the Department's strategic partners include but are not limited to Bexar County school districts, childcare centers, UTSA, and community based organizations including Family Services Association, KLRN, AVANCE, YMCA, the United Way, Annie E. Casey Foundation, Alamo Workforce Development, Inc. (AWDI), Smart Start, employers, and other community and faith based organizations. DCI also staffs numerous boards, commissions and task forces to include: Community Action Advisory Board, Commission for Children and Families, Literacy Commission, Youth Commission, Joint City/County Commission for the Elderly, Mayor's Task Force on Homelessness and Hunger, and the Day Labor Task Force. DCI's continued strategic partnerships and public accountability will continue to be the key to successfully raising the community's education and skill levels and improving quality of life.

Information Technology Services Department

The Information Technology Services Department (ITSD) provides information technology (IT) services, 24 hours a day, 7 days a week, to all City departments and other agencies through information and technology sharing agreements. The Information Technology Vision of the City is to provide business solutions that will enhance the City's effectiveness in serving its employees, citizens, businesses and visitors through the successful use of IT. The focus of ITSD's mission includes: Information Management, Business Applications, Geographic Information Systems, Computing Platforms, Technology Management, and Enterprise Resource Management (ERM). The City is constantly striving to take advantage of advancements in technology to provide the tools needed to respond effectively and efficiently to the increasing demands for service from its citizens. Demands for the ability to conduct business electronically, allow for faster response time, increase participation and involvement in government, along with economic pressures to do more with less, are major factors that affect the use of technology in the City.

As the City continues its Security Initiative to institute new security policies, guidelines and operating procedures for all City systems, its goal is to protect the City's infrastructure by reducing risks, complying with laws and regulations, and ensuring business continuity, information integrity and confidentiality. This involves supporting the implementation of HIPAA compliant guidelines and solutions for end-users. The City is involved with Homeland Defense and Emergency Management Technology Support Systems and with the Dark Screen Project initiated by Representative Ciro Rodriguez. Dark Screen is a consortium of local, county, state and federal entities involved in preventing cyber terrorism and has tested the response capabilities of the City and the surrounding regions to a cyber-terrorist attack. Dark Screen operations will recommend and develop methods for industry, law enforcement, government, and academia to cooperatively protect critical infrastructures, and will serve as a model for other cities in preparing for a cyber-terrorist attack or similar event. ITSD continues to update its business continuity plans and to monitor, maintain, revise, and disseminate current security policies, procedures, and administrative directives to ensure they are current.

The San Antonio Community Portal provides Internet access to enhance the City's effectiveness and efficiency in serving its employees, citizens, businesses and visitors. The City's website, www.sanantonio.gov, strives to

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)Information Technology Services Department (Continued)

seamlessly extend services and improve communications between the City and the Community-at-large. During 2003, the following online services were added to the San Antonio Community Portal to provide San Antonio stakeholders one-stop access to government information and services: online permitting, scheduling of building inspections, bond election information, dynamic job announcements, dynamic RFP system, Online Grant Application System, Escrow Balance Look-up System, as well as the Incentive Scorecard System.

The City's Personal Computer (PC) Lease Program, known as Seat Management, provides for a full range of computer services at each employee's desk or "seat". Seat Management is an effort to stabilize the desktop computing environment and to improve technology performance, reliability, and service across departments. This program will integrate with current ITSD best practices to establish a standard desktop program for City PCs that will provide a uniform operating platform, consistent support and functionality for end-users.

ITSD Customer Service is implementing Customer First practices by improving communication with customers. An e-mail notification of new tickets along with a satisfaction survey is being implemented and reports of Service Level Agreement performance are being published on a website. Trouble tickets can be entered on the same website. New training classes for professional growth of ITSD and City staff continue to be developed.

The GIS Division serves as the coordinating body for mapping and data development for departments within the City of San Antonio. The GIS Division is committed to the development of accurate and timely data about the City of San Antonio and the surrounding region. Each department utilizes GIS data as applicable in order to provide a continuing level of service to the citizens of San Antonio.

Electronic Document Management and Automated Records Management expand and enhance the management of documents for the City. These systems include Enterprise-wide scanning and imaging solutions, contract management and imaging, and the integration of automated workflow. To facilitate Texas State Retention Schedule requirements, all disposition instructions and over 30,000 physical entries have been integrated into a single record management architecture.

Knowledge and Information Management continue to support the collection, analysis, organization, sharing and employment of information critical to the attainment of City goals. Implementation of the SAP Business Warehouse and Crystal Reports will provide convenient access to City data and statistics.

The joint effort between the City and the County to implement a new 800 MHz trunk radio system is nearing completion. New MA/COMM portable radios are being distributed and mobiles are being installed in vehicles for various City departments, including Police, Fire and EMS, and the County Sheriff's Office. The target date for completion of this project is the first quarter of 2004. The new radio system will serve the City of San Antonio Police Department, the San Antonio Fire/EMS Department, the Bexar County Sheriff's Office and other County law enforcement agencies, and both City and County non-public safety agencies.

The Core Data Network Infrastructure will continue to be improved by the implementation of new technologies with enhanced reliabilities at City locations to provide better ways to access City information. Network enhancement with 100-Mb hubs and switches and full gigabit services will occur at key locations. SONET-based technology will expand through virtual routing. Shared network environments will be replaced with switched services to improve bandwidth. Wireless technology will be used in remote City offices where line of site is available. Currently, fiber projects include expansion to the Southeast Service Center and to the San Antonio International Airport. Negotiations are currently underway to utilize the Time Warner and Grande

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)Information Technology Services Department (Continued)

Communications franchise agreements for Road Runner and expanded bandwidth services. All of these improvements to the core data network infrastructure will serve to support the Enterprise Resource Management initiative.

Enterprise Resource Management Project

With its expected completion in Summer 2005, the Enterprise Resource Management Project (ERM) will make San Antonio's municipal government one of the most technologically advanced. ERM is an enterprise architecture project, being rolled out in eight phases, that will improve the delivery of services to citizens and other customers through a Customer Relationship Management (CRM) component, along with reengineered business functions through an Enterprise Resource Planning (ERP) component and a Land & Development Services component that will more effectively meet the needs and timelines of developers, builders and others. ERM will also enable E-government services. The implementation of the first ERM phase, last year, has already put certain development services on-line, including some permitting and the scheduling of inspections. The business community is responding favorably to the first phase. Because ERM is a fully integrated system with a shared database, it will enhance the quality of data available across the organization for resource planning, decision-making and collaboration.

Code Compliance Department

The Code Compliance Department seeks to enhance neighborhoods and their citizens' health, safety, and general welfare through efficient and effective City code enforcement. This department also strives to promote a higher quality of life by promoting awareness and compliance with City Codes in order to stabilize and reverse deterioration of neighborhoods.

The department's fiscal year 2003 staff for code enforcement includes 68 Code Enforcement Officers, 10 Dangerous Premises Officers, and 10 Abatement Officers. Each Code Officer patrols the city in marked vehicles equipped with a computer laptop providing effective and efficient code enforcement activities. Monitoring vacant lots is an example of one activity that falls under this Department's jurisdiction of enforcement for improving the quality of life for the citizens of San Antonio.

Public safety is one of the City's major concerns in its enforcement of overgrown vacant lots. Abandoned properties, whether vacant lots or structures, present adverse conditions impacting the quality of life in the community. The Department recognizes these issues and is attempting to increase community awareness and voluntary compliance by encouraging and developing partnerships with neighborhood organizations, community groups, and local businesses to ensure a safer, cleaner, and more beautiful San Antonio.

If private property lots are not cleaned by their owners, the City hires a private contractor. Contracting with a small business to perform the cleanups helps stimulate the local economy, while accomplishing the department's objectives. The majority of these private contractors are small business operators and/or Historically Underutilized Businesses (HUBs). This business activity is an opportunity that allows small business owners to compete with larger businesses. In fiscal year 2003, \$341,177 was expended on vacant lot clean up through these contracts.

Medicine and Healthcare

The City is cognizant of the importance of, and continues to support, its medical infrastructure. The City is actively involved in promoting the industry, recognizing its significance to San Antonio and its citizens. Major biomedical research, manufacturing, training, and health care facilities located in San Antonio include the Southwest Biomedical Research Institute (high technology biomedical manufacturing), the University of Texas Health Science Center at San Antonio (medical school, dental school, nursing school, allied health sciences school), the

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Medicine and Healthcare (Continued)

University Health System, Wilford Hall Medical Center (United States Air Force), Brooke Army Medical Center (a world renowned burn treatment and research center), and the South Texas Medical Center. The Medical Center contains numerous hospitals, a specialized treatment center, and the renowned Cancer Therapy and Research Center which attracts patients nationally and internationally. In addition, Brooks City-Base is a major medical and environmental research facility of which the U.S. Air Force Medical Service is a major tenant.

The San Antonio Metropolitan Health District is the local public health agency for the City. It provides preventive health services, health code enforcement, clinical services, environmental monitoring, animal control, disease surveillance and control, emergency preparedness, health education, dental services, and is the local registrar of vital statistics.

Developmental Services

On April 14, 2003, the Development and Business Services Center (DBS Center) opened for business. More than 200 City staff members moved to the two-story, 75,000 square foot center located just minutes from City Hall with free on-site parking. City customers can access services offered by Development Services, Planning, Economic Development Small Business Services, Fire Marshal's office, Health Inspectors, and Public Works.

Right-of-Way Management

A variety of other agencies also conduct business at the DBS Center including: City Public Service, San Antonio Water System, and BexarMet Water District. The co-location of these development-related services helped streamline the development process and provided a convenient location for the development community to conduct business.

In addition to moving to the DBS Center, Development Services Department designed and implemented new land development software to manage vital functions, including the issuance of building permits, trade permits and trade licenses, building plan review, and building inspection. The consolidation of data into one system allows Development Services Department to use the new software to better manage the flow of development services such as plan intake, plan review, permitting, and inspections. City staff, developers, builders, and other customers who require land development services are experiencing an enhancement in the delivery of these services. For example, a key enhancement is the City's new on-line permitting and inspection system. Within four months of implementing the system, 24 percent of all building permits were issued on-line and 14 percent of all inspections are scheduled using the Internet.

The Development Services Department also made investments in human capital by cross-training its staff to provide a variety of services for a true "one stop" experience when conducting business at the DBS Center. The department has separate staff for residential and commercial plan review and intake, and provides expedited reviews for smaller projects. Approximately 50 percent of all commercial plans are reviewed at the One Stop Counter in less than 10 days.

Contracting Initiatives

With the opening of the DBS, space in the Municipal Plaza Building was vacated. The Department of Asset Management, in conjunction with the City Architect's Office and the assistance of various other departments, developed a plan for the backfill of the vacated space. The focus of the plan has been to provide additional space for overcrowded departments, as well as the co-location of certain functions for efficiency and effectiveness. The following departments have moved into Municipal Plaza: Parks & Recreation administrative offices, Office of Management & Budget, Contract Services Division of the Department of Asset Management, and the Real Estate Division, Traffic Engineering, and Project Management Divisions of the Public Works Department.

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Contracting Initiatives (Continued)

In July 2001, the City Council approved the creation of the Contract Services Unit, a division of the Department of Asset Management. This division has focused on creating and promoting City-wide standards and systems for improving the management of contracts through the development and implementation of: 1) standards for contract management, planning, and solicitation; 2) strategies to streamline contract negotiation and approvals; 3) rigorous monitoring practices, and 4) training programs for contract officers. During fiscal year 2003 the Contracting Policy & Process Manual was created. This Manual is a comprehensive guide outlining, step-by-step, contracting procedures from contract inception to completion. In addition, the Contract Services Unit provided contract training and certification to over 200 Certified Contracting Officers.

The Department of Asset Management, in conjunction with the Department of Economic Development and with the assistance of various other departments, developed the Incentive Toolkit. The Toolkit includes an inventory of available development incentives and outlines the criteria for fee reductions and waivers, which are administered by the Department of Economic Development through an online application.

Environmental Services Department

The Environmental Services Fund receives most of its revenues from the Residential Solid Waste Fee, Brush Fee, and the Environmental Fee as collected by City Public Service. Additional revenues to this fund are generated from Licensing and Permitting Fees, Mulch and Brush Disposal Fees, and Out of Cycle Collections. The fund supports both Environmental Management and the Solid Waste Divisions of the Environmental Services Department.

The Solid Waste Division is responsible for the collection of municipal solid waste generated by over 310,000 homes and businesses within the City of San Antonio. The primary services provided by the Solid Waste Division include: bi-weekly collection of residential garbage, weekly curbside collection of residential recyclables, dead animal collection, downtown night garbage collection, and the bi-annual collection of residential brush and bulky items. Other services include Out-Of-Cycle collection requests for brush and bulky items, neighborhood associations and civic groups support through the weekend Dial-A-Trailer program, and the Keep San Antonio Beautiful Association sponsorship. The Solid Waste Division also provides cleanups for special events, weather related emergencies, and high priority needs of the City.

The Environmental Management Division is responsible for ensuring City property and construction projects are in compliance with all federal, state and local environmental rules and regulations. This Division assesses and investigates the environmental conditions of land, air, and groundwater for the City. Other major responsibilities of the Division involve administering the City's Air Quality and Household Hazardous Waste (HHW) Programs, monitoring and maintaining the City's closed landfills, and overseeing or performing asbestos assessments and environmental remediation. This division also provides technical support for the City's efforts related to energy conservation and compliance with Senate Bill 5-State legislation requiring 25% reduction in energy consumption by City facilities over the next 5 years.

Public Works

The Public Works Department provides public services and infrastructure in a quality manner through the use of modern engineering and management practices. The department provides design, construction, and renovation of City buildings, streets and drainage facilities, and operates the traffic network.

The Capital Programs Division completed 46 street and drainage projects at a cost of \$65,088,444. Having completed almost 54 miles of reconstructed streets, these projects will minimize flooding, reduce the number of potholes, reduce traffic delays, and allow greater mobility. Additionally, voters approved \$48.3 million in street and drainage improvements as part of a larger bond program in November 2003.

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Public Works (Continued)

The Northeast Service Center, located along Wurzbach Parkway was completed in 2003. The facility consists of vehicle maintenance operations for Purchasing, Street Maintenance Operations under Public Works, and garbage collection services by Environmental Services Department. This facility also includes a 3,000 square foot multi-use space for meetings and public use.

The Street Maintenance Division expanded its Pavement Reclamation program in its second year of implementation. The Pavement Reclamation program is specifically designed for full-depth street reclamation. The reclaimer also recycles existing asphalt "in-place" instead of having to purchase new asphalt for street maintenance projects. This process reduces the amount of time it takes to reconstruct a street by 50%. Customer Service is improved by minimizing inconvenience to the citizens while working in their neighborhoods. Recycling of the existing asphalt diverts waste from the landfill. Two additional asphalt pavers and milling machines purchased in 2003 are used to assist City crews in meeting increased customer demand for paved asphalt projects with smooth riding surfaces and skid resistance to improve safety.

Neighborhood Accessibility & Mobility Program (NAMP) funding has been increased to \$400,000 for each council district and the scope of work under this program has been expanded from sidewalks and speed humps to other transportation improvements such as street maintenance, small street repair, traffic signals, school flashers, pedestrian walkways and medians. The additional funding and expansion of projects under NAMP will be positive for neighborhoods needing specific improvements.

A thirty-percent across the board rate increase for the Storm Water Utility fee provided improvements in the delivery of services as well as providing for the capacity to issue Storm Water Revenue Bonds for the first time. In cooperation with Bexar County and the San Antonio River Authority, regional drainage projects were evaluated and prioritized for execution using the nearly \$45 million generated through the sale of these revenue bonds. All twenty-two projects are underway. Projects include infrastructure recapitalization from the July 2002 flood, floodplain property buy-out, design and construction of major outfalls, and elimination of low water crossings.

The cooperation and collaboration within the Regional Flood Control, Drainage, and Storm Water Management Program made great strides. A Regional Watershed Modeling System was completed. This will form the basis for generating design and operational standards throughout Bexar County. Work has begun to create watershed models for both public and private sector users to mitigate impact of new development and significant redevelopment on both storm water quantity and quality issues. A strategic financial model is near completion that will assist in making future strategic funding decisions.

For the first time, the citywide street cleaning program has been coordinated with the City's brush pick up services to increase the efficiency and effectiveness of both of these vital services. Using Natural Resource Conservation Service and Bexar County funding, City crews are near completion of major flood debris clean up efforts in the major natural waterways within the City. With this coordinated effort, standardized methodology for debris cleanup within natural waterways has been developed for annual implementation. A major de-silting effort was completed at Davis Lake on the San Antonio River in the vicinity of Espada Dam. Nearly 170,000 cubic yards of naturally deposited silt has been removed. This effort will provide for increased capacity in the channel as well as a significant enhancement to the surface water quality of the river.

The Right of Way Division has directed/oversen the rehabilitation of \$250,000 worth of improvements from right-of-way users and is currently working to negotiate approximately \$250,000 more. The Division is working to resurrect the on-line permitting site and will soon be interfacing with the Pavement Management System.

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Convention Facilities

During the last year, the Henry B. Gonzalez Convention Center hosted 350 events with over 600,000 attendees. Events at the Center include conventions, trade shows, corporate meetings, public shows, and private events. The San Antonio Automobile Dealers Association had record numbers with 110,000 attendees, the Veterans of Foreign Wars of the US Annual National Convention brought over 16,000 attendees to the City, and Armstrong McCall's World's Fair of Cosmetics Arts record attendance resulted in their booking three future shows. In the arena of professional accomplishments, we have the distinction of having 16 Certified Meeting Professionals, which is more than any other convention center. This program is ongoing and there will be 6 more candidates eligible for this designation in the coming year.

Alamodome

In 2003, the Alamodome celebrated its tenth year anniversary. Over the last year, the facility hosted close to a million visitors for 150 events.

In its inaugural year of marketing its own advertising, the Alamodome secured a multi-million dollar sponsorship with the Pepsi Bottling Group. Pepsi and its products will be the official non-alcoholic beverages of the facility for the next five years. The Alamodome continues to focus on its advertising program while forging new corporate partnerships.

A true success story in 2003 was the funding approval for much needed interior improvements to the Alamodome. As part of this package, the facility will receive a fresh, modern look in the early part of 2004. New architectural features, updated restrooms, remodeled dining facilities, as well as several other features will add to the facility's appeal.

The 2003 NCAA Men's South Regional tournament was a huge success, with the Alamodome hosting one of the best-attended NCAA tournaments of the year. Approximately 60,000 fans converged on San Antonio for the two-day event. The Alamodome looks forward to being the site of the 2004 NCAA Men's Final Four.

The ESPN X-Games Global Championships debuted in May at the Alamodome. This event was the first of its kind produced by ESPN with simultaneous broadcasting between the summer games in San Antonio and the winter games in Whistler, B.C. The X Games Global Championship was viewed by more than 110 million households and aired in 140 countries. Due to the tremendous success of the event, ESPN plans to bring the event back to the Alamodome in 2005.

Spurs fever returned to the Alamodome once again! Though the team has moved to the SBC Center, the new venue was too small to accommodate their many fans for the city wide NBA Championship Celebration. The Alamodome hosted more than 57,000 well wishers at the largest championship party the team had ever had.

Nelson W. Wolff Municipal Stadium

The Nelson W. Wolff Baseball Stadium opened in April 1994 and has a seating capacity of 6,500. It has a multi-purpose design, which allows for events such as professional baseball, concerts, boxing, and high school, college, and amateur sports. The stadium is home to the San Antonio Missions, a double-A minor league baseball team. In 2000, the Missions became a farm club of the Seattle Mariners. The Missions won the Texas League Championship in 2003 for a second time since moving to the stadium.

Other Amenities

The City supports and promotes various other tourism and quality-of-life amenities, including performing arts and cultural entertainment facilities, museums, the San Antonio Zoo, and the preservation of the Alamo, as well as

ECONOMIC OVERVIEW (Continued)

Infrastructure Development (Continued)

Basic Infrastructure Components (Continued)

Other Amenities (Continued)

enterprises such as Sea World of Texas, and Six Flags Fiesta Texas. The City also provides support and funding for cultural organizations, from dance performance companies to the Symphony Society of San Antonio, and facilities including the Witte Museum, the San Antonio Museum of Art, the Southwest Craft Center, the Carver Community Cultural Center, and the Guadalupe Cultural Arts Center.

In addition, San Antonio is home to various professional sports teams including the San Antonio Spurs, the San Antonio Rampage Ice Hockey team, and the San Antonio Missions. San Antonio also hosts two PGA tour events, the Valero Texas Open and Senior PGA SBC Championship.

International Outlook

In its fifth year, the City's International Affairs Department continues to develop an Export Leaders Program that focuses on small to medium size San Antonio companies with a high potential and strong commitment to develop and expand international markets. The San Antonio Export Leaders Program is a competitive eight-month program that offers the tools, training, consultation and coaching necessary for about fifteen companies to be successful in exporting and offers the participants a new export experience. In four years, the program has graduated 48 companies.

San Antonio continues to develop itself as an INLAND PORT for imports and exports to/from Mexico, Latin America, and other regions of the world. This encompasses transportation, manufacturing, and logistics facilities as well as professional and value-added services involved in producing, marketing, and moving freight within, into and out of the San Antonio area. Over the past eleven years, the City has operated three commercial trade offices in Mexico's three largest cities: Mexico City, Guadalajara and Monterrey.

The City's commitment to international trade is evidenced in the City's International Center which houses the North American Development Bank, International Conference Center, the Trade Commission of Mexico, Mexican State Trade Offices, the Free Trade Alliance San Antonio, the U.S. Department of Commerce, the City's International Affairs Department and the Convention & Visitors Bureau.

Budgetary Controls

Budgetary compliance is a significant tool for managing and controlling governmental activities, as well as ensuring conformance with the City's budgetary limits and specifications. The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by City Council. Levels of budgetary control, that is the levels at which expenditures cannot legally exceed appropriated amounts, are established by function and activity within individual funds. The City utilizes an encumbrance system of accounting as one mechanism to accomplish effective budgetary control. Encumbered amounts lapse at year-end, however, encumbrances generally are appropriated as part of the following year's budget. For the fiscal year beginning October 1, 2001, the Government Finance Officers Association of the United States and Canada ("GFOA") presented an award of Distinguished Budget Presentation to the City.

As demonstrated by the statements and schedules in the Financial Section of this report, the City continues to meet its responsibility for sound financial management. As in the Financial Section, all monetary amounts presented in the remainder of this letter are expressed in thousands, except where noted.

FINANCIAL INFORMATION

Fiscal Management and Administrative Topics

Pension and Postemployment Retirement Benefits

The City provides pension retirement benefits for its eligible employees through two plans. For uniformed Fire and Police employees, retirement benefits are provided through the Fire and Police Pension Fund, a single-employer defined benefit retirement plan. Contribution and benefit levels are established under State statute. For fiscal year 2003, active members contributed 12.32% of covered payroll, or \$22,504 and the City contributed 24.64%, or \$45,008.

The City provides all other eligible employees, exclusive of fire and police employees, retirement benefits through the Texas Municipal Retirement System (TMRS), a nontraditional, joint contributory, hybrid defined benefit plan. TMRS is a statewide agent multiple-employer public employee retirement system. Contributions to the system are actuarially determined. The required contribution from City employees is 6%, while the City matches at a rate of approximately 11.42%. Both the City and its covered employees made the required contributions of \$22,684 and \$11,864 respectively. For additional information on the City's pension plans, see Note 8 in the notes to the financial statements.

With respect to post-employment health benefits, the City provides benefits for all non-uniformed City retirees and for all pre-October 1, 1989 uniformed fire and police retirees. The cost of the program is reviewed annually and actuarially determined costs of medical claims are funded jointly on a pay-as-you-go basis with the City contributing 2/3 and the retirees contributing 1/3 of the cost. As of September 30, 2003, 1,495 retirees were participating in the program and currently there are 6,530 active civilian employees who may become eligible for this program in the future.

The second post-employment health benefit program provides retirement health care benefits for eligible fire and police retirees under the Fire and Police Retiree Healthcare Fund ("Fund"). Contribution and benefits levels are established under the City's collective bargaining agreements with the Fire and Police Unions, respectively. The benefits of this plan are financed on a prefunded basis. For fiscal year 2003, the City contributed \$15,466 to the Fund and active employees and retirees contributed \$1,678. Recent actuarial studies have resulted in different results and indicate that the current contribution levels are not sufficient to amortize the unfunded liability of the Fund. The City continues to review the Fund in order to develop a comprehensive framework for a long-term solution. For additional information on City's post-employment health benefits, please see Note 9, of the notes to the financial statements.

Employee Benefits Program

The City's Self-Insurance Fund continues to experience increased expenses due to rising health care costs, increased prescription drug costs, increased claims volume and changing employee demographics. The City continues to focus on cost containment programs such as: hospital audits, hospital pre-certification, utilization review, large case management, prescription benefit management, and a preferred provider organization to assist in managing the rising cost of medical care. Such strategies have been effective for the City in managing medical costs in a changing health care industry. The City is in the process of hiring an additional Utilization Review Specialist to support the cost containment programs and aid in identifying cost savings. In fiscal year 2004, the City will have an opportunity to further enhance the cost containment program by evaluating additional options for plan modifications when the HMO, PPO, and health benefits third party administrator's contracts expire. The total cost savings for fiscal year 2004, as a result of plan changes, premium increases, and enhanced cost containment is estimated at \$1,999. In fiscal year 2003, the Employee Benefits Fund had cash reserve of \$192 and a deficit net assets balance of \$19,919. For additional information on the City's risk and employee benefits programs, please see Note 12, of the notes to the financial statements.

FINANCIAL INFORMATION (Continued)

Fiscal Management and Administrative Topics (Continued)

Risk Management Programs

For the sixth time in twelve years, the Insurance Reserve Fund maintained a positive net assets balance of \$3,889 for the fiscal year 2003. Whereas, the Workers' Compensation Fund reflected a negative net assets balance of \$4,659. The Insurance Reserve and Workers' Compensation Funds carried cash reserves at September 30, 2003 in the amount of \$15,558 and \$11,779, respectively.

The Risk Management Division Safety Office has continued aggressive efforts this year to promote Accident Prevention/Loss Control projects. This year 3,370 employees received formal classroom training on a number of subjects, totaling 43,810 classroom hours collectively. Training classes include Defensive Driving, First Aid and CPR, Drug and Alcohol Awareness training for commercial drivers and supervisors, New Employee Safety Orientations, Professional Truck Driving, Supervisor's Accident Investigation training, Hazardous Chemicals training, Ergonomics Awareness, and other specialized training courses. The Safety Office has spent in excess of 1,175 hours in delivering the aforementioned formal training.

In addition, the Safety Office continues to improve the quality of safety and health education to serve the needs of all City employees by developing customized training programs and updating training materials and/or training methods. The Safety Office has also provided Departments 1,795 hours of technical assistance and one-on-one informal training on a variety of safety and health topics in fiscal year 2003. It has initiated the use of a more comprehensive format during consultative visits with Departments this year to assist in identifying and evaluating both safety, health and liability risk exposure. Loss Control abatement measures are recommended wherever possible. Preventing cumulative trauma and repetitive motion injuries have continued to receive major focus by the inspection and evaluation of employee work environments with recommendations for adjustments or changes when needed. Facility inspections and accident investigations are also conducted by the Safety Specialists. Review of accident statistics continues to represent a significant area of responsibility for the Section in order to assist departments in identifying and correcting negative trends in frequency and loss severity. This year 3,924 employee driver evaluations were processed with records being updated.

Cash and Investment Management

The City's investment policies are governed by state statute and the City's own written investment policies. Under Texas law, the City is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity; investment diversification, yield, maturity, and the quality and capability of investment management; and include a list of authorized investments for City funds, maximum allowable stated maturity of any individual investment, and the maximum average dollar-weighted maturity allowed for pooled fund groups. All City funds must be invested consistent with a formally adopted "investment strategy statement" that specifically addresses each fund's investment. Each investment strategy statement will describe strategy objectives concerning: (1) suitability of investment type, (2) preservation and safety of principal, (3) liquidity, (4) marketability of each investment, (5) diversification of the portfolio, and (6) yield.

The City is authorized to use demand accounts, time accounts, certificates of deposit, and other permissible investments including Obligations of the U.S. Treasury and U.S. Agencies, Obligations of States and Cities, Commercial Paper, Repurchase Agreements, Money Market Funds, and Investment Pools. The City's investment portfolio does not include callable obligations or any derivative products. It is not the City's policy to use derivative products in its portfolio, nor does the City leverage its investments.

At September 30, 2003, City investment funds were 91.49% invested in obligations of the United States, or its agencies and instrumentalities, and 5.79% invested in a money market mutual fund, with the weighted average maturity of the portfolio being less than one year. The remaining 2.31% of the City's portfolio includes the Convention Center Debt Service Reserve Fund of \$16,999, which was invested in a fully collateralized repurchase agreement that is fully secured by obligations of the United States or its agencies and instrumentalities. The investments and maturity terms are consistent with State law, and the City's investment policy objectives, which are to preserve principal, limit risk, maintain diversification and liquidity, and to maximize interest earnings. For additional information on Cash and Investments, please see Note 3 of the notes to the financial statements.

FINANCIAL INFORMATION (Continued)

Fiscal Management and Administrative Topics (Continued)

Debt Administration

The City utilizes a comprehensive debt management financial planning program (The Debt Management Plan), which is updated annually. The Debt Management Plan is a major component of the City's financial planning. The model projects financing needs while measuring and assessing the cost and timing of each debt issuance. It involves comprehensive financial analysis which utilizes computer modeling, and incorporates variables such as interest rate sensitivity, assessed values changes, annexations, and current ad valorem tax collection rates. Use of this financial management tool has assisted the City in meeting its financing needs by facilitating timely and thorough planning which has allowed the City to capitalize on market opportunities.

Strict adherence to conservative financial management has allowed the City to meet its financing needs while at the same time maintaining its "Aa2", "AA+", and "AA+" bond rating by Moody's Investors Service, Inc. ("Moody's"), Standard & Poor's Public Ratings Services, a division of McGraw-Hill Companies, Inc. ("S&P"), and Fitch Ratings ("Fitch") respectively. The positive trend in the City's credit strength is evidenced by S&P's rating upgrade in December 1998 from "AA" to its current "AA+" and Fitch's rating upgrade in October 1999 from "AA" to "AA+". For additional information on the City's long-term debt, please see Note 6 of the notes to the financial statements.

OTHER INFORMATION

INDEPENDENT AUDIT

State statutes require that an annual audit by an independent certified public accountant be conducted. The City's Audit Committee selected the accounting firms KPMG LLP, Leal & Carter PC, and Robert J. Williams, CPA in 2002. In addition to meeting the requirements set forth in State statutes, the audit was also designed to meet the requirements of the Single Audit Act Amendments of 1996 and related OMB Circular A-133. The Independent Auditors' Report on the basic financial statements, management's discussion and analysis (required supplementary information), required disclosures and schedules are included in the Financial Section of this CAFR. The Independent Auditors' Report along with other required reports and schedules mandated by the Single Audit Act Amendments of 1996 and OMB Circular A-133 are in a separate document.

AWARDS

San Antonio's appeal to its citizens, potential businesses and visitor's stems from its historical beauty, high quality of life and low cost of living. The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its CAFR for the fiscal year ended September 30, 2002. This was the 27th consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized CAFR. The report must satisfy both Generally Accepted Accounting Principles and applicable legal requirements. The Certificate of Achievement is valid for a period of one year and we believe the current CAFR continues to meet the Certificate of Achievement Program's requirements.

The City of San Antonio Planning Department was recognized by the Texas Chapter of the American Planning Association (APA) with two (2) 2003 Texas APA Planning Awards. The Department received the 2003 Project Planning Award for the Southside Initiative Community Plan. In addition, the Neighborhood Conservation District program was honored with the 2003 Current Planning Award.

OTHER INFORMATION (Continued)

The preparation of the City of San Antonio, Texas Comprehensive Annual Financial Report for the fiscal year ended September 30, 2003, was made possible by the dedication and hard work of the Finance Department, particularly the staff of the Accounting Division. Each member of the Department has my sincere appreciation for their contributions to the preparation of this document. In closing, please accept my sincere gratitude to the Mayor and City Council, City Manager, Deputy City Manager, Assistant City Managers, Assistants to the City Manager, and their staff, for their continued support.

Respectfully Submitted,

Milo D. Nitschke
Director
Finance Department

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of San Antonio,
Texas

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
September 30, 2002

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

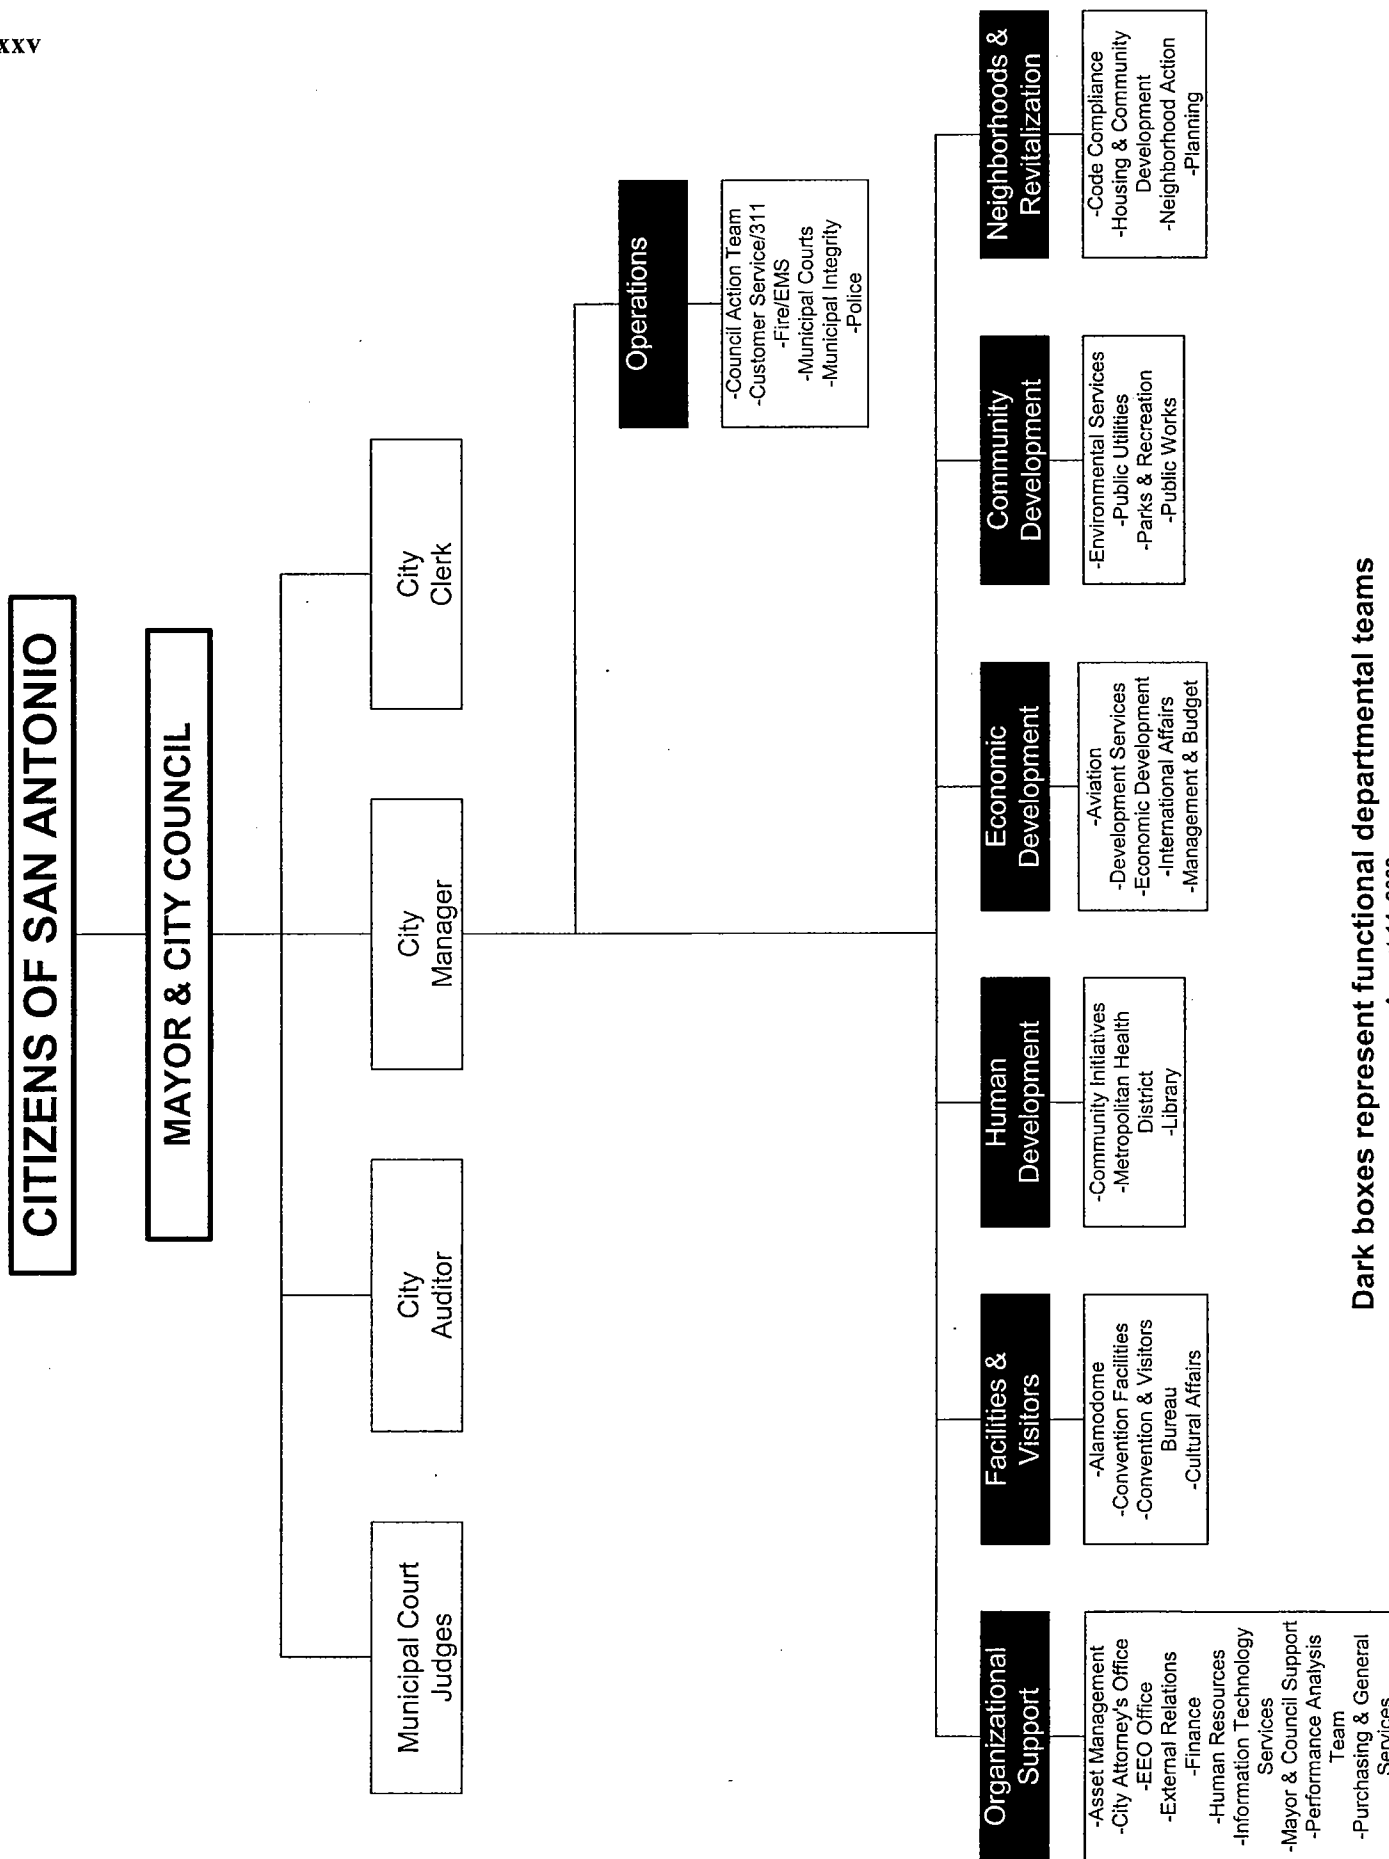

President

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of San Antonio for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended September 30, 2002. This was the 27th consecutive year that the City has achieved this prestigious award.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

Independent Auditors' Report

The Honorable Mayor
and Members of City Council
City of San Antonio, Texas:

We have jointly audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of San Antonio, Texas, as of and for the year ended September 30, 2003, which collectively comprise the City of San Antonio, Texas' basic financial statements as listed in the accompanying table of contents under "Basic Financial Statements." These financial statements are the responsibility of the City of San Antonio, Texas' management. Our responsibility is to express opinions on these financial statements based on our audit. We did not jointly audit the financial statements of certain discretely presented component units and blended component units included in the governmental and fiduciary funds of the City of San Antonio, Texas, which represent the indicated percent of total assets and total revenues as presented in the table below. Those financial statements were audited by other auditors, including KPMG LLP and Leal & Carter, P.C., acting separately, whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for those component units, are based solely on the reports of the other auditors.

	<u>Percent not jointly audited</u>	
	<u>Total assets</u>	<u>Total revenue</u>
Government-wide		
Governmental activities	0%	0%
Business-type activities	0%	0%
Discretely presented component units	27%	21%
Fund statements		
Major funds	0%	0%
Aggregate remaining fund information	73%	34%

	<u>Percent audited by KPMG separately</u>		<u>Percent audited by Leal & Carter separately</u>		<u>Percent audited by Robert J. Williams separately</u>	
	<u>Total assets</u>	<u>Total revenue</u>	<u>Total assets</u>	<u>Total revenue</u>	<u>Total assets</u>	<u>Total revenue</u>

KPMG LLP, KPMG LLP, a U.S. limited liability partnership, is a member of KPMG International, a Swiss cooperative.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of San Antonio, Texas, as of September 30, 2003, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis on pages 1 through 12, the Budgetary Comparison schedule on page 113, and Schedules of Funding Progress on page 114 are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We, and the other auditors, have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we, and the other auditors, did not audit this information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of San Antonio, Texas' basic financial statements. The introductory section, the combining financial statements, schedules and other supplementary information, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining financial statements and schedules and other supplementary information have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

KPMG LLP Robert Williams CPA Seal & Carter, P.C.

(Unaudited)***

[This page intentionally left blank.]

MANAGEMENT'S DISCUSSION AND ANALYSIS

The City of San Antonio (City) presents the following discussion and analysis of the City's financial performance during the fiscal year ended September 30, 2003. This discussion and analysis is intended to assist readers in focusing on significant financial issues, changes in the City's financial position, and identifying any significant variances from the adopted budget. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal and the financial statements provided in this report. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

Financial Highlights

- The assets of the City exceeded its liabilities by \$2,518,782 (net assets). Of this amount, \$133,483 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$526,230, an increase of \$70,494 compared to the fiscal year 2002 fund balance. The total unreserved fund balance of \$271,821 is available for spending at the government's discretion. Of this amount, \$44,988 designated and \$226,833 is undesignated fund balance.
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$74,410, or 14.3% of the total General Fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as the introduction of the City of San Antonio's basic financial statements which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to private-sector business financial presentation.

The *statement of net assets* is a presentation of the City's assets and liabilities, including capital and infrastructure assets, and long-term liabilities. This statement reports the difference between assets and liabilities as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information regarding increases and decreases to the government's net assets for the fiscal year. Changes in net assets are recorded when the underlying event giving rise to the change occurs regardless of the timing of the cash flows. Therefore, revenues and expenses reported in this statement for some items will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). Both government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees or charges (business-type activities). Governmental activities include general government, public safety, public works, sanitation, health services, environmental protection and control, culture and recreation, convention and tourism, conservation, urban redevelopment and housing, welfare and economic development opportunity. The business-type activities of the City include the airport system, parking system, and environmental services.

In addition, the basic financial statements provide information regarding the City's legally separate discretely presented component units. Component unit financial information is reported separately from the primary government in the government-wide financial statements.

Fund Financial Statements

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements are used to present financial information detailing resources that have been identified for specific activities. The focus of the fund financial statements is on the City's major funds, although non-major funds are also presented in aggregate and further detailed in the supplementary statements. The City uses fund accounting to ensure and demonstrate compliance with requirements placed on resources. Funds are divided into three types: governmental, proprietary, and fiduciary. Fund financial statements allow the City to present information regarding fiduciary funds, since they are not reported in the government-wide financial statements.

Governmental funds. Governmental funds are used for essentially the same functions reported in the governmental activities in the government-wide financial statements. However, unlike the government-wide statement, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

As the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented in the governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental fund and governmental activities.

The City of San Antonio maintains five individual governmental funds for financial reporting purposes. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the debt service fund, both of which are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each nonmajor governmental fund is provided in the form of combining statements elsewhere in this report.

Proprietary funds. The City maintains two types of proprietary funds. *Enterprise funds* are used to report the functions presented in business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its airport, parking and environmental services funds. *Internal service funds* are used to accumulate and allocate costs internally among the City's various functions, including self-insurance programs, other internal services and information technology services. The services provided by these funds predominantly support the governmental rather than the business-type functions. They have been included within the governmental activities in the government-wide financial statements that are reported alongside the business activities.

Proprietary fund financial statements provide separate and more detailed information for the airport, parking, and environmental services funds. The airport and parking funds are considered major funds of the City while internal service funds are combined into a single aggregated presentation in the proprietary fund financial statements.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the primary government. Fiduciary funds are not reflected in the government-wide financial statements as the resources of those funds are not available to support the City's programs and operations. The accounting for fiduciary funds is much like that used for the proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and the accompanying notes, this report also presents certain required supplementary information on the City's General Fund budget, which is adopted on an annual basis. A budgetary comparison statement has been provided for this fund in order to demonstrate budgetary compliance with this budget.

Government-wide Financial Analysis

GASB Statement No. 34, *Basic Financial Statements- and Management's Discussion and Analysis-for State and Local Governments*, requires that the City provide a comparative analysis of government-wide data. Below is a comparative summary of the governmental activities and business-type activities as required by GASB Statement No. 34:

City of San Antonio, Texas Statement of Net Assets For the Year Ended September 30, 2003 (With Comparative Totals for September 30, 2002)						
	Governmental Activities		Business-type Activities		Total	
	2003	2002	2003	2002	2003	2002
Current and other assets	\$ 731,143	\$ 632,243	\$ 206,703	\$ 222,870	\$ 937,846	\$ 855,113
Capital Assets	3,001,042	2,938,157	294,308	276,008	3,295,350	3,214,165
Total Assets	3,732,185	3,570,400	501,011	498,878	4,233,196	4,069,278
Current and other assets	146,728	129,128	13,440	14,633	160,168	143,761
Long-term liabilities	1,287,466	1,184,719	266,780	273,886	1,554,246	1,458,605
Total Liabilities	1,434,194	1,313,847	280,220	288,519	1,714,414	1,602,366
Net Assets						
Investment in capital assets,	2,079,719	2,036,269	156,567	152,261	2,236,286	2,188,530
net of related debt						
Restricted	92,524	109,693	56,489	52,077	149,013	161,770
Unrestricted	125,748	110,591	7,735	6,021	133,483	116,612
Total Net Assets	\$2,297,991	\$2,256,553	\$ 220,791	\$ 210,359	\$2,518,782	\$2,466,912

For the year ended September 30, 2003, total assets exceeded liabilities by \$2,518,782. The largest portion of the City's net assets, 2,236,286 (88.8%) represents its investment in capital assets less any related debt used to acquire those assets that is still outstanding, and includes assets such as land, infrastructure, improvements, buildings, machinery and equipment.

Capital assets are used to provide services to the citizens of San Antonio and are not available for further spending. Although the City's investment in capital assets is reported net of related debt, the resources needed to repay the debt must be provided from other sources, as capital assets cannot be used to liquidate these liabilities.

Of the total net assets, \$149,013 (5.9%) represents resources that are subject to external restrictions on how they may be used. The remaining \$133,483 (5.3%) represents unrestricted net assets, which can be used to meet the government's ongoing obligations to citizens and creditors.

Ending Net Assets						

Governmental Activities

The City's total revenues were \$1,183,276 for fiscal year ended September 30, 2003. Revenues from governmental activities totaled \$1,066,417 and revenues from business-type activities totaled \$116,859. General revenues represented 59.2% of the City's total revenue, while program revenues provided 40.8% of revenue received in fiscal year 2003.

Expenses for the City totaled \$1,131,406. Governmental activity expenses totaled \$1,030,467, or 91.1% of total expenses.

Revenues exceeded expenses by \$41,438. General revenues increased over fiscal year 2002 by \$30,134, which was partially attributed to an increase in Revenues from Utilities.

Expenses decreased slightly over prior year amounts, of which, 4% was a result of lower Public Safety spending.

Business-type Activities

Program revenues for the City's business-type activities totaled \$104,863, which is \$5,009 higher than the previous fiscal year. Expenses for business-type activities were \$100,939 compared to prior years expenses of \$98,857. The current year's increase in expenses is attributed to increased expenses incurred in the Airport fund over the prior year. The remaining revenue was a result of interest and other miscellaneous items.

Financial Analysis of Governmental Funds

Activities of the Primary Government's General Fund, Special Revenue Funds, and Debt Service Funds are considered general government functions. The General Fund is the City's general operating fund. Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted as to expenditure. The Debt Service Funds are used to account for financial activity related to the City's general bonded indebtedness, as well as other long-term obligations.

Revenues from taxes increased by \$10,528 which was primarily attributable to: (1) a \$10,120 or 7.5% increase in property tax revenue for the General Fund, (2) an \$888 or 0.6% decrease in sales tax revenue in the General Fund, and (3) a \$1,422 or 1.2% increase in property tax revenue for the Debt Service Fund as a result of increased property valuation, new construction, and annexation. Revenues for the utilities category, which is represented in the City's General Fund increased by \$39,222 or 22.9% which is primarily attributed to an increase of \$38,899 in the City's payment from CPS which is based on CPS' gross revenues. CPS revenues are impacted by variables such as fuel costs, weather, types of electric generation used as well as other factors.

The total fund balance of the General Fund at year-end was \$81,642, an increase of \$19,190 from the total fund balance of \$62,452 for the close of fiscal year 2002. The total unreserved general fund balance for fiscal year 2003 is \$74,410, which represents \$32,926 in designated and \$41,484 in undesignated fund balance. The undesignated fund balance, which represents amounts available for additional appropriations, in the General Fund at the close of the fiscal year increased by \$21,687 from the previous year.

The total fund balance of the Debt Service Fund at year-end was \$87,888; a decrease of \$1,460 from the total fund balance for the close of fiscal year 2002. The entire fund balance is reserved for payment of debt service.

General Fund Budgetary Highlights

Significant Variances in Budget Appropriations General Fund			
	Original Budget	Final Budget	Actual Results
General Government	\$ 67,170	\$ 71,932	\$ 53,416
Public Safety	357,542	363,628	361,835
Public Works	10,567	12,943	11,921
Health Services	13,459	13,603	13,815
Sanitation	2,522	2,511	2,515
Welfare	16,314	17,049	16,317
Culture and Recreation	60,787	61,806	59,120
Economic Development and Opportunity	5,414	6,905	5,538
Transfers to other funds	67,612	71,237	70,378
Total	\$ 601,387	\$ 621,614	\$ 594,855

Changes in original budget appropriations to the final amended budget appropriations were a \$20,227 increase in appropriations. This increase can be summarized by the following discussion.

General Government had a \$4,762 increase composed of \$9,967 of budget carry forwards and a \$5,205 budget decrease. Of the \$6,086 increase in Public Safety, \$3,691 was due to budget carry forwards and a \$2,395 budget increase. Public Works had a \$2,376 increase composed of an increase of \$2,408 in budget carry forwards and a \$32 budget decrease. The \$144 budget increase in Health Services was due to a \$142 increase in budget carry forwards and a \$2 budget decrease. Sanitation had a decrease of \$11 due to a \$10 budget carry forward and a \$21 budget decrease. Of the \$735 increase in Welfare, \$1,489 was due to budget carry forwards and a \$754 budget decrease. The Culture and Recreation \$1,019 increase was due to \$1,024 for budget carry forwards and \$5 as a decrease in budget. The \$1,491 increase in Economic Development and Opportunity was due to a \$1,501 increase in budget carry forwards and a \$10 budget decrease. The \$3,625 increase in transfers was due to \$2,403 in budget carry forwards and \$1,222 was funded from various government functions.

Final budgeted appropriations for the General Fund were \$621,614, while actual expenditures were \$594,855, creating a positive variance of \$26,759. Significant variances are as follows:

- General Government had a \$18,516 positive variance composed of \$6,932 of budgeted salaries, \$1,224 of anticipated payments to Bexar County Detention Center, \$3,291 of appropriations for various one-time projects yet to be completed, \$5,845 in contractual services, and \$408 in unrealized commodities such as supplies and repair and maintenance, and \$816 in unrealized capital expenditures.
- Public Works had a positive variance of \$1,022, which was due to an unrealized budgeted increase in street lighting and energy charges.
- Economic Development and Opportunity had a \$1,367 positive variance is attributable to \$119 in savings in salaries, \$713 in contractual services, \$530 in unrealized budgeted increase in other expenditures, and \$5 in unrealized commodities such as supplies and repairs and maintenance.

The following charts provide a comparison of the City's budget appropriations.

Capital Assets

The City of San Antonio's investment in capital assets for its governmental and business-type activities as of September 30, 2003, amounts to \$3,295,350 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, infrastructure, and machinery and equipment. The total increase in the City's investment in capital assets for the current fiscal year was 2.5%, which is comprised of a 2.1% increase for governmental activities and a 6.6% increase for business-type activities.

	Governmental Activities		Business-type Activities		Total	
	2003	2002	2003	2002	2003	2002
Land	\$ 1,238,908	\$ 1,215,391	\$ 11,988	\$ 11,988	\$ 1,250,896	\$ 1,227,379
Buildings	238,019	233,466	75,380	74,973	314,399	308,439
Improvements	34,974	26,747	92,682	86,545	127,656	113,292
Infrastructure	805,327	838,756			805,327	838,756
Machinery and Equipment	96,856	78,899	4,690	4,436	101,546	83,335
Construction in Progress	585,938	524,898	109,568	98,066	695,526	622,964
Totals	\$ 3,001,042	\$ 2,938,157	\$ 294,308	\$ 276,008	\$ 3,295,350	\$ 3,214,165

The following schedule provides a summary of the City's capital assets:

**Change in Capital Assets
September 30, 2003**

	Governmental Activities	Business-Type Activities	Total
Beginning Balance	\$ 2,938,157	\$ 276,008	\$ 3,214,165
Additions	160,345	40,534	200,879
Deletions	(11,194)	(14,922)	(26,116)
Accumulated Depreciation	(86,266)	(7,312)	(93,578)
Total	\$ 3,001,042	\$ 294,308	\$ 3,295,350

The following charts provide a summary of the changes in capital assets:

Additional information on the City's capital assets can be found in Note 4 of the notes to the financial statements.

(The remainder of this page left blank intentionally)

Standard & Poor's, Moody's and Fitch's underlying rating for City obligations are as follows:

	Std&Poor's	Moody's	Fitch
General Obligation/ Certificate of Obligation	AA+	Aa2	AA+
Airport	A+	A1	A+
Airport PFC	A-	A2	A+
Convention Center	A+	A	A
Parking	A+	A2	A+

The Constitution of the State of Texas and the City Charter limit the amount of debt the City may incur. The City Charter establishes a limitation on the general obligation debt supported by ad valorem taxes to an amount not to exceed 10% of the total assessed valuation. The total assessed valuation for the fiscal year ending 2003 was \$46,320,796, which provides a debt ceiling of \$4,632,079.

Requests for Information

This financial report is designed to provide a general overview of the City's position for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department, P.O. Box 839966, San Antonio, TX 78283-3966.

Debt Administration

Long-term Debt

At the end of the current fiscal year, the City of San Antonio had a total of \$1,376,721 in bonds, certificates, revenue bonds and commercial paper outstanding, an increase of 6% over last year. Additional information on the City of San Antonio's long-term debt, including descriptions of the new issues, can be found in Note 6 in the Notes to the Financial Statements.

City of San Antonio's Outstanding Debt September 30, 2003 and 2002

Governmental Activities	
2003	2002
Bonds Payable:	
General Obligation Bonds	\$ 666,983 \$ 669,473
Tax-Exempt Commercial Paper	10,500 20,800
Tax-Exempt Certificate of Obligation	196,280 145,405
Taxable Certificate of Obligation	5,165 9,780
Revenue Bonds	234,918 179,393
Total	\$ 1,113,846 \$ 1,024,851
Business-type Activities	
2003	2002
Bonds Payable:	
General Obligation Bonds	\$ 12,475 \$ 12,855
Tax-Exempt Certificate of Obligation	135 915
Revenue Bonds	250,265 255,180
Total	\$ 262,875 \$ 268,950

On September 30, 2002, outstanding general obligation and revenue bonds, certificates, and commercial paper debt totaled \$1,294 billion. In December 2002, the City issued additional debt in the amount of \$126 million. The \$126 million was comprised of \$52,850 in general obligation bonds and \$69,930 in tax-exempt certificates of obligation. The general obligation bonds and certificates of obligation are to be utilized to fund capital improvement projects to include streets and pedestrian improvements, parks and recreation facilities improvements, library system improvements and public safety. Also, a portion of the general obligation bonds was used to refund \$24 million of the City's outstanding tax supported debt. Additionally, in May 2003, the City issued \$41 million in general obligation refunding bonds, together with a cash contribution from the City, which were used to refund \$43 million of the City's outstanding tax supported debt. Municipal Drainage System Revenue Bonds were issued in May 2003 for the amount of \$44 million, which were issued to provide funds to finance the costs of making drainage improvements, including the acquisition, construction, and repair of structures, equipment, and facilities for the City's Municipal Drainage Utility System. In addition, \$56 million in general improvement refunding bonds were issued in July 2003 which were used, together with a cash contribution from the City, to refund \$58 million of the City's outstanding tax supported debt.

CITY OF SAN ANTONIO, TEXAS

**RECONCILIATION OF THE BALANCE SHEET
TO THE STATEMENT OF NET ASSETS
GOVERNMENTAL ACTIVITIES
AS OF SEPTEMBER 30, 2003**
(In Thousands)

Fund Balances - Total Governmental Funds	\$ 526,250
Amounts reported for governmental activities in the Statement of Net Assets are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.	
Governmental capital assets	1,238,908
Land and Land Improvements	585,958
Construction In Progress	384,956
Buildings	69,720
Improvements	1,949,975
Infrastructure Assets	70,482
Machinery and Equipment	
Less: Accumulated Depreciation	(1,342,017)
Total Capital Assets	2,957,982
Some of the City's revenues will be collected after year-end but are not available soon enough to pay for the current period's expenditures and therefore are not reported in the governmental funds.	
Internal service funds are used by management to charge the cost of certain activities to individual funds. The assets and liabilities of the internal service funds are reported with governmental activities in the Statement of Net Assets.	42,936
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the governmental funds.	
Governmental bonds payable	(1,134,577)
Premium on bonds	(33,836)
Deferred Amount on Refunding	7,913
Leases Payable	(9,354)
Unamortized Debt Expense	2,448
Accrued Interest	(8,668)
Arbitrage Rebate	(1,344)
Compensated Absences	(108,133)
Net assets of governmental activities	(1,285,751)
	\$ 2,297,991

The accompanying notes are an integral part of these financial statements.

CITY OF SAN ANTONIO, TEXAS

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2003
(in Thousands)

Net change in Fund Balances - Total Governmental Funds	\$ 70,494
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is depreciated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceed depreciation in the current period.	
Donated capital assets	53
Expenditures for capital assets	146,200
Less current year deletions	(1,339)
Less current year depreciation	(82,774)
	62,140
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.	10,409
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. This is the amount by which proceeds exceeded repayments.	
Bond and loan amounts	(283,821)
Bond costs	(12,299)
Payments to Escrow Agent	131,528
Amortization of Bond Premium and Deferred Charges (net)	95
Accrued interest	(2,951)
Principal payments	66,650
	(98,798)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	1,154
Internal service funds are used by management to charge the cost of certain activities to individual funds. The net (expense) of the internal service funds is reported with governmental activities.	(3,961)
Change in net assets of governmental activities	\$ 41,438

The accompanying notes are an integral part of these financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of San Antonio (City) have been prepared in conformance with generally accepted accounting principles (GAAP) for local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted body for establishing governmental accounting and financial reporting standards. The following is a summary of significant accounting policies of the City.

A. Reporting Entity

In the evaluation of how to define the City for financial reporting purposes, management considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB Statement No. 14, "The Reporting Entity." The underlying concept of the financial reporting entity is that elected officials are "accountable" to their constituents for their actions. One of the objectives of this concept is to provide users of governmental financial statements with a basis for assessing the accountability of those elected officials, and accordingly, the definition of the financial reporting entity is based on accountability.

The financial reporting entity consists of: (a) the primary government (in these financial statements the primary government is the City), (b) component units, which are legally separate organizations for which the City is financially accountable (blended), and (c) component units, which the nature and significance of their relationship with the City is such that exclusion from the reporting entity's financial statements would be misleading or incomplete (discretely presented).

Using the criteria of GASB Statement No. 14 outlined below, potential component units were evaluated for inclusion or exclusion in the reporting entity, and further evaluated for financial statement presentation. Based on their individual relationships with the City, some component unit financial statements were blended as though they are part of the City and others only discretely presented.

The following criteria (as set forth in GASB Statement No. 14) were used in the evaluation of potential component units of the City:

- 1) Legally separate
- 2) Financial accountability
 - a) Appointment of a voting majority
 - b) Imposition of will
 - c) Financial benefit to or burden on the City
 - d) Fiscal dependency
- 3) The relationship with the City is such that exclusion would cause these financial statements to be misleading or incomplete.
- 4) Service rendered by the potential component unit is provided entirely or almost entirely to the City.

The criteria outlined above were excerpted from GASB Statement No. 14. For a more detailed explanation of the criteria established by this Statement, we refer the reader to the Codification of Governmental Accounting and Financial Reporting Standards, as of June 30, 2003, published by GASB, Section 2600. Based upon the application of the criteria outlined above, the following is a brief overview of component units included in the reporting entity:

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Reporting Entity (Continued)

Blended with the Primary Government (the relationship among the following component units and the City meet the criteria, as set forth in GASB Statement No. 14, for inclusion in the Reporting Entity and is such that the financial statements are blended in with those of the City):

As set forth in GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, the City excludes fiduciary funds and component units that are fiduciary in nature from the government-wide financial statements. The City's component units that are fiduciary in nature are the San Antonio Fire and Police Pension Fund and the San Antonio Fire and Police Retiree Health Care Fund. These component units are presented in the Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets.

City of San Antonio Health Facilities Development Corporation

The City of San Antonio Health Facilities Development Corporation (HFDC) was established by Ordinance No. 55400, dated June 3, 1982, in accordance with state laws for the purposes of, and to act on behalf of, the City as a health facilities development corporation under the Texas Health Facilities Development Act of 1981. The HFDC is authorized to issue tax-exempt health facility revenue bonds, for which the City is not obligated in any manner, to finance health related projects in support of the promotion, expansion, and improvement of health facilities. The HFDC is governed by a Board of Directors which is comprised of the City Council of the City of San Antonio.

City of San Antonio Industrial Development Authority

The City of San Antonio Industrial Development Authority (IDA) was established by Resolution No. 79-48-100 dated October 11, 1979, in accordance with state laws for the purposes of benefiting and accomplishing public purposes of, and to act on behalf of, the City as an industrial development corporation under the Development Corporation Act of 1979. The IDA is authorized to issue tax-exempt industrial revenue bonds, for which the City is not obligated in any manner, to finance qualified projects which may further the promotion and development of commercial, industrial, and manufacturing enterprises to promote and encourage employment and the public welfare. The IDA is governed by a Board of Directors which is comprised of the City Council of the City of San Antonio.

San Antonio Fire and Police Pension Fund

The San Antonio Fire and Police Pension Fund (Pension Fund) is a Single Employer Defined Benefit Plan established in accordance with state law. The Pension Fund is administered by a nine member Board of Trustees, including three City Council members. The City and Pension Fund participants are obligated to make all contributions to the Pension Fund in accordance with rates established by state law. Benefit levels are also set by state law. Services rendered by the Pension Fund are exclusively for the benefit of eligible firefighters and police officers upon retirement.

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Reporting Entity (Continued)

San Antonio Fire and Police Retiree Health Care Fund

The City of San Antonio Firefighters' and Police Officers' Retiree Prefunded Group Health Plan was created in October 1989, in accordance with the provisions of the City's contracts with the local fire and police unions, respectively, to provide post employment healthcare benefits to uniformed employees who retired on or after October 1, 1989. Pursuant to the passage of Senate Bill 1568 in 1997, a separate and distinct statutory trust, the Fire and Police Retiree Health Care Fund (Health Fund), was created to provide these post employment healthcare benefits for eligible uniformed employees of the City. The Health Fund is administered by a nine-member board of trustees, including three City Council Members, and is funded primarily by contributions from the City and contributions made by retirees on behalf of their dependents. City and retiree contribution rates are established pursuant to Fire and Police collective bargaining agreements.

City of San Antonio Texas Municipal Facilities Corporation

The City of San Antonio Texas Municipal Facilities Corporation (TMFC) was established in fiscal year 2001 in accordance with state law for the purposes of and to act on behalf of the City in acquisition, construction, equipping, financing, operation and maintenance of land and other municipal facilities for the City. The TMFC is governed by a Board of Directors, which is comprised of the City Council of the City of San Antonio.

City of San Antonio Texas Starbright Industrial Development Corporation

The City of San Antonio Texas Starbright Industrial Development Corporation (TSIDC) was established in fiscal year 2003 in accordance with state law for the purposes of and to act on behalf of the City in the promotion and development of commercial, industrial and manufacturing enterprises to promote and encourage employment and the public welfare, including but not limited to the acquisition of land. The TSIDC is governed by a Board of Directors, which is comprised of the City Council of the City of San Antonio.

Discretely Presented With the Primary Government (the relationship among the following component units and the City is such that they meet the criteria, as set forth in GASB Statement No. 14, for inclusion in the reporting entity, and accordingly are included, however are such that the financial statements are discretely presented alongside, but not blended with those of the City):

San Antonio Water System

On February 13, 1992, the City Council determined it was in the best interest of the citizens of San Antonio and the customers served by the water and wastewater utilities to consolidate all water utilities, agencies, and activities into one institution. It was determined that the best mechanism for effecting the consolidation of all water systems, agencies, and activities into a single institution was through a refunding of all the then outstanding water and sewer bonds. The consolidation was consummated on May 19, 1992 with the creation of the San Antonio Water System (SAWS) which included the former City Water Board, Alamo Water Conservation and Re-use District, and the City's Sewer and Stormwater system.

Additionally, it was further determined by the City Council that the interests of the citizens and customers could best be served by placing authority for management and control of SAWS, as consolidated, in a Board of Trustees. This Board of Trustees includes the City's Mayor as an ex-officio member along with six members appointed by the City Council for four year staggered terms. The rates for user charges and bond issuance authorizations are approved by the City Council.

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Reporting Entity (Continued)

City Public Service

City Public Service (CPS), a municipally owned utility, provides electricity and natural gas to San Antonio and the surrounding areas. CPS is governed by a Board of Trustees which is comprised of four members appointed by City Council and the Mayor of the City as an ex-officio member. The rates for user charges and bond issuance authorizations are approved by the City Council.

San Antonio Development Agency

The San Antonio Development Agency (SADA) was created under the provisions of the Urban Renewal Law of the State of Texas. SADA is responsible for implementing the City's Urban Renewal Program and may designate, for urban renewal, such areas, as it deems advisable, subject to approval by the City Council and the Federal Agency, which administers the overall program. SADA receives a majority of its operating funds from the City as pass-through grant funds and is governed by a seven member Board of Commissioners appointed by the City Council.

San Antonio Education Facilities Corporation

The City of San Antonio Higher Education Authority (SAHEA) was established in 1984, in accordance with state laws for the purpose of aiding nonprofit institutions of higher education in providing educational, housing, and other related facilities in accordance with and subject to the provisions of Section 53.35 (b) Texas Education Code, all to be done on behalf of the City and as its duly constituted authority and instrumentality. In 2001, the SAHEA changed its name to the San Antonio Education Facilities Corporation (SAEFC). The Act authorizes the SAEFC to issue revenue bonds for these purposes on behalf of the City but the bonds are not obligations of the City. SAEFC is governed by an eleven member Board of Directors appointed by the City Council for two-year terms. Board members are subject to removal by the City Council for cause or at will and the City reserves the right to terminate and dissolve the SAEFC at any time.

Greater Kelly Development Authority

The Greater Kelly Development Corporation (GKDC) was established in 1996 as the local development authority on an interim basis under the Development Corporation Act of 1979 for the development and redevelopment of Kelly Air Force Base (Kelly). In November 1999, the City established the Greater Kelly Development Authority (GKDA) as the successor-in-interest to the GKDC pursuant to the newly enacted Senate Bill 655. In accordance with the Act, the GKDA will have the powers previously enjoyed by the GKDC while at the same time clarifying such powers and preserving the property tax exempt status of prior commercial tenants at Kelly. The GKDA is a special district and political subdivision of the State of Texas and was established for the purpose of monitoring the proposed closing of Kelly; conducting comprehensive studies of all issues related to the closure, conversion, redevelopment, and future use of Kelly; reviewing all options relative to the most appropriate uses of Kelly and the surrounding area; formulating and adopting a comprehensive plan for the conversion and redevelopment of Kelly and submitting such plan to the appropriate agency or agencies of the federal government; and implementing such plan as it relates to Kelly and the surrounding area. The GKDA is governed by an eleven member Board of Directors, appointed by the City Council. The City Council also has the ability to remove appointed members of the organization's governing board at will. The GKDA is authorized to issue bonds to finance any project as permitted by Texas Law, but said bonds are not obligations of the City.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Reporting Entity (Continued)

San Antonio Housing Trust Foundation, Inc.

The San Antonio Housing Trust Foundation, Inc. (SAHTF) is a non-profit corporation incorporated in 1990 under the laws of the State of Texas. SAHTF was organized for the purposes of supporting charitable, educational, and scientific undertakings, specifically for providing housing for low and middle income families and to provide administrative and other support for the operations of the City of San Antonio Housing Trust Fund, a Permanent Fund of the City. The Housing Trust Fund was established by the City for the purposes of providing additional and continuing housing opportunities for low and moderate-income families; promoting public health, safety, convenience, and welfare; and revitalizing neighborhoods and the downtown area through appropriate housing activities. SAHTF is governed by an eleven member Board of Directors appointed by the City Council. SAHTF administers The San Antonio Housing Trust Finance Corporation. The City has the ability to appoint, hire, reassign, or dismiss those persons responsible for the day-to-day operations of the SAHTF as it authorizes an annual contract for the administration and management of the operations on an annual basis.

San Antonio Local Development Company, Inc.

The San Antonio Local Development Company, Inc. (SALDC) is a non-profit corporation organized in 1978 under the laws of the State of Texas and the auspices of the City. SALDC was formed to participate in the Neighborhood Business Revitalization Program (NBRP), which is co-sponsored by the Small Business Administration (SBA), the Economic Development Administration, and the U.S. Department of Housing and Urban Development (HUD). SALDC is governed by a thirty-three member Board of Trustees, appointed by the City Council, and an eleven member Board of Directors appointed from the Board of Trustees. SALDC, under agreement with the City, administers and operates a revolving loan fund, NBRP that provides qualifying local businesses with loans under economic development programs administered by the SBA. SALDC also administers, by agreement with the City, a U.S. Department of Commerce Title IX Revolving Loan Fund, SBA MicroLoan Program and a HUD 108 Fund. Currently, SALDC has an outstanding note payable to HUD, which is guaranteed by the City.

Brooks Development Authority

The Brooks Development Authority (BDA) is a special district and political subdivision of the State of Texas. It was established on September 27, 2001, as a defense base development authority in accordance with state law for the purposes of and to act on behalf of the City in improving mission effectiveness, reduce the cost of providing quality installation support through improved capital asset management and promote economic development on Brooks Air Force Base and in the surrounding community. An eleven member Board of Directors appointed by the City Council governs the BDA for two-year terms and will oversee the Brooks Technology and Business Park in support of the Brooks City-Base Project. The City has the ability to impose its will on this organization as the City Council has the power to remove board members by adopting a resolution.

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Reporting Entity (Continued)

It is management's belief that to exclude essential disclosures from the City's financial statements as they pertain to CPS and SAWS would be misleading. CPS and SAWS have been identified as major discretely presented component units both as they relate to total component units and to the primary government. Therefore, relevant disclosures have been included in the City's financial statements. Discretely presented component units with different fiscal year ends from the City are the San Antonio Water System with a fiscal year end of December 31, and City Public Service with a fiscal year end of January 31.

Related Organizations

The City Council appoints the members to the Board of Directors for the San Antonio Housing Authority. However, the City's accountability for this entity does not extend beyond making appointments to the Board of Directors and the coordination and approval of strategic plans.

B. Basic Financial Statements - GASB Statement No. 34

Effective October 1, 2001, the City implemented the provisions of GASB Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments". In fiscal year 2003, the City implemented the portion of GASB Statement No. 38, "Certain Financial Statement Note Disclosures" relating to the disaggregation of receivable and payable balances. These statements comply with the requirements of the new reporting model.

Government-wide and Fund Financial Statements

Under the new governmental financial reporting model, the basic financial statements include three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The government-wide financial statements report information on all non-fiduciary activities of the primary government and its component units. Management's discussion and analysis introduces the basic financial statements and provides an analytical overview of the City's financial activities. As part of the implementation of GASB Statement No. 34, the City has opted to early implement infrastructure reporting. The implementation requires the historical cost of infrastructure assets, retroactive to 1980, to be included as part of the capital assets, as well as the related depreciation, to be reported in the government-wide financial statements. In addition, for the most part, the effect of interfund activity has been removed from the statements.

The Statement of Net Assets reflects both short-term and long-term assets and liabilities. In the Government-wide Statement of Net Assets governmental activities are reported separately from business type activities. Governmental activities are supported by taxes and intergovernmental revenues whereas business type activities are normally supported by fees and charges for services. Long-term assets, such as capital assets, infrastructure assets and long-term obligations are now reported with the assets of governmental activity. The components of net assets, previously shown as fund balances, are presented in three separate components; 1) Invested in Capital Assets, net of related debt, 2) Restricted, and 3) Unrestricted. Interfund receivables and payables between governmental and business type activities have been eliminated in the government-wide Statement of Net assets, which minimize the duplicating of assets and liabilities within the governmental and business type activities. Major component units are reported in the statement of net assets as well.

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basic Financial Statements - GASB Statement No. 34 (Continued)

Government-wide and Fund Financial Statements (Continued)

The Statement of Activities reflects both the gross and net cost format. The net cost (by function or business-type activity) is usually covered by general revenues (property tax, sales tax, intergovernmental revenues, etc.). Direct (gross) expenses of a given function or segment are offset by program revenues, and operating and capital grants. Program revenues must be directly associated with the function of business-type activity. The presentation allows users to determine which functions are self-supporting, and which rely on the tax base in order to complete their mission. Internal service fund balances, whether positive or negative have been eliminated against the expenses and program revenues shown in the governmental activities of the Statement of Activities.

A reconciliation detailing the change in net assets between the government-wide financial statements and the fund financial statements is presented separately for governmental funds. In order to achieve a break-even result in the internal service fund activity, differences in the basis of accounting and reclassifications are allocated back to user departments. These allocations are reflected in the government-wide statements. Any residual amounts of the internal service funds are reported in the governmental activity column.

The proprietary funds have a reconciliation presented in the proprietary funds' Statement of Net Assets and Statement of Revenues, Expenses, and Changes in Net Assets. The only reconciling item is the internal service fund allocation.

C. Fund Accounting

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets and other debits, liabilities, fund equity and other credits, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The City has three types of Funds: Governmental Funds, Proprietary Funds and Fiduciary Funds. The Fund Financial Statements provide more detailed information about the City's most significant funds, but not on the City as a whole. Major individual governmental funds and major enterprise funds are reported separately in the Fund Financial Statements. Nonmajor funds are independently presented in the combining statements.

The criteria used to determine if a governmental or enterprise funds should be reported as a major fund is as follows: The total assets, liabilities, revenues or expenditure/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type (that is, total governmental or total enterprise funds), and total assets and liabilities, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least 5% of the corresponding total for all governmental and enterprise funds combined.

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Fund Accounting (Continued)

The following is a brief description of the major governmental funds that are each presented in a separate column in the fund financial statements:

The General Fund is always presented as a major fund.

The Debt Service Fund accounts for the accumulation of resources for, and the payment of general long-term debt principal, interest and related costs except that which is accounted for in proprietary type funds.

The following is a brief description of the major enterprise funds that are each presented in a separate column in the fund financial statements:

The Airport System accounts for the operation of the San Antonio International Airport and Stinson Municipal Airport. Financing for the Airport System operations is provided by user fees.

The Parking System accounts for the operations of the City's parking facilities. Financing for the Parking Facilities Operations is provided by user fees.

1. Governmental Funds

General Fund - The General Fund of the City is the primary operating fund, which accounts for all financial resources of the general government except those required to be accounted for in another fund.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than private-purpose trusts and major capital projects) that are legally restricted to expenditures for specified purposes.

Debt Service Funds - Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Capital Projects Funds - Capital Projects Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds and Trust Funds).

Permanent Funds - This fund is a new governmental fund type established by GASB Statement No. 34. Permanent Funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs - that is, for the benefit of the government or its citizenry.

2. Proprietary Funds

Enterprise Funds - Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis should be financed or recovered primarily through user charges.

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Fund Accounting (Continued)

2. Proprietary Funds (Continued)

Internal Service Funds - Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City, or to other governmental units, on a cost-reimbursement basis. The City's self-insurance programs, data processing programs, and other internal service programs are accounted for in this fund.

3. Fiduciary Funds

Trust and Agency Funds - Trust and Agency Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. These include Pension Trust, Retiree Health Care Trust, Private Purpose Trust Funds, and Agency Funds. Pension Trust, Retiree Health Care Trust, and Private Purpose Trust Funds are accounted for in essentially the same manner as proprietary funds since capital maintenance is critical. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

D. Measurement Focus and Basis of Accounting

The government-wide financial statements present information about the City as a whole. Government-wide financial statements exclude both fiduciary funds and fiduciary component units. The statement of net assets and the statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year they are levied. Other taxes and fees are recognized as revenue in the year they are earned. Revenue from grants and similar items are recognized in the fiscal year the qualifying expenditures are made and all other eligibility requirements have been satisfied.

Program Revenues are presented in the Government-wide Statement of Activities. The City reports program revenues into three categories: 1) Charges for services, 2) Operating grants and contributions and 3) Capital grants and contributions. (Further descriptions of these three categories follow.) They are presented separately as a reduction of the total expense to arrive at the net expense of each functional activity. Program revenues are revenues generated by transactions with outside parties who purchase, use, or directly benefit from a program. They also include amounts such as grants and contributions received from outside parties that restrict the use of those funds to specific programs. Investment earnings that are legally restricted to specific programs are also reported as program revenues.

1) Charges for services are revenues that are generated by those who purchase goods or services from the City. Examples of charges for services include airport landing fees, solid waste collection and disposal fees, vacant lot clean up, golf course fees, and food establishment licenses. Fines and forfeitures are also reported under charges for services.

2) Operating grants and contributions are those revenues that are restricted in the way they may be spent - either for operations of a particular program or to purchase a capital asset for a particular program.

3) Capital grants and contributions are also restricted revenues; the funds may only be spent to purchase capital assets for specified programs.

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Measurement Focus and Basis of Accounting (Continued)

All governmental funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. This means that only current assets and current liabilities are generally included on their balance sheets. Revenues are recognized in the accounting period in which they become available and measurable. For this purpose, the City considers revenues, other than grants, to be available if the revenues are collected within sixty days after year-end. Grant revenues are recognized when reimbursable expenditures are made and all other eligibility requirements imposed by the provider are met. Grant funds received in advance and delinquent property taxes are recorded as deferred revenue until earned and available. Gross receipts and sales taxes are considered available when in the hands of intermediary collecting governments and are recognized at that time. Anticipated refunds of such taxes are recorded as liabilities and reductions of revenue when they are measurable and their validity seems certain. Expenditures are recognized in the accounting period in which the fund liability is incurred. However, compensated absences, debt service expenditures, claims and judgments and arbitrage rebate are recorded only when the liability is matured.

The reported fund balance (net current assets) for each fund is considered a measure of "current financial resources." Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "current financial resources" during the period.

Special reporting treatments are applied to governmental fund inventories and prepaid expenditures to indicate that they do not represent "current financial resources", since they do not represent net current assets. Such amounts are generally offset by fund balance reserve accounts.

Proprietary, Pension Trust, Private Purpose Trust, and Retiree Health Care Funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses and related liabilities, including claims, judgments, and compensated absences, are recognized when they are incurred. These funds are accounted for on a cost of services or "economic resources" measurement focus. Consequently, all assets and all liabilities (whether current or noncurrent) associated with their activity are included on their balance sheets. The reported Proprietary Fund net assets is segregated into three components: 1) invested in capital assets, net of related debt, 2) restricted net assets and 3) unrestricted net assets. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net assets.

Proprietary funds report both operating and nonoperating revenues and expenses in the Statement of Revenues, Expenses and Changes in Fund Net Assets. The City defines operating revenues as those receipts generated by a specified program offering either a good or service. For example, parking garage and street lot fees are operating revenues of the Parking Fund. This definition is consistent with GASB Statement No. 9 which defines operating receipts as cash receipts from customers and other cash receipts that do not result from transactions defined as capital and related financing, non-capital financing or investing activities. Operating expenses include personnel services, contractual services, commodities, other expenses (such as insurance), and depreciation. Revenues and expenses not fitting the above definitions are considered nonoperating.

The City's enterprise funds, pension trust, private purpose trust and retiree health care funds and business-type activities, as well as its discretely presented component units apply all applicable GASB Statements as well as FASB Statements and Interpretations, APB Opinions, and ARBs issued on or before November 30, 1989, in accordance with GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting." The City and its discretely presented major proprietary component units, CPS and SAWS, have elected not to apply any FASB Statements and Interpretations issued after November 30, 1989.

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Measurement Focus and Basis of Accounting (Continued)

CPS' operating revenue includes receipts from energy sales and miscellaneous revenue related to the electric and gas systems operations. This includes late payment fees, rental income, jobbing and contract work, ancillary services, and merchandise sales. Operating expenses include those expenses that result from the ongoing operations of the electric and gas systems. SAWS' principal operating revenues are charges to customers for water and wastewater services. Operating expenses include the cost of service, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Nonoperating revenues consist primarily of investment income, including the changes in fair value of investments. The amortization of net gains from the lease-back and the sale of water rights in prior years are also included. Some miscellaneous income from renting general property and miscellaneous service is also recorded in nonoperating when it's not directly identified with the electric, gas, water and wastewater systems.

E. Future GASB Implementations

GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units, an amendment of GASB Statement No. 14", provides criteria for determining whether certain organizations might be included in the financial reporting entity as component units based on the nature and significance of their relationship with the City, is effective for fiscal years beginning after June 15, 2003.

GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, an amendment to GASB Statement No. 3, addresses deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk and foreign currency risk. The provisions of this Statement are effective for fiscal years beginning after June 15, 2004.

The City has not fully determined the effect that implementation of Statements No. 39 and No. 40 will have on the City's financial statements.

F. Cash, Cash Equivalents and Investments

The City's investment practices are governed by state statutes and by the City's Investment Policy. City cash is required to be deposited in FDIC-insured banks located within the State of Texas. A pooled cash and investment strategy is utilized which enables the City to have one central depository. Investments are pooled into two primary categories, operating funds and debt service funds. The balances in these funds are invested in an aggregate or pooled amount with principal and interest income distributed to each respective fund on a pro rata basis. In addition, the City may purchase certain investments with the available balance of a specific fund for the sole benefit of such fund. As of September 30, 2003, the City's investment portfolio did not contain any derivative products nor is it leveraged in any way, except as noted in the Fire and Police Pension Fund. For a listing of authorized investments, see Note 3.

The City, CPS and SAWS account for and report investments in accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools." The Fire and Police Pension Trust and the Fire and Police Health Care Fund report investments at fair value in accordance with GASB Statement No. 25 "Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans." The City's policy with respect to money market investments, which had a remaining maturity of one year or less at the time of purchase, is to report those investments at amortized cost, which approximates fair value. Amortization of premium or accretion of discount is recorded over the term of the investments.

For purposes of the statement of cash flows, the City, SAWS and CPS consider all highly liquid investments with an original maturity of approximately ninety days or less to be cash equivalents.

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Inventories and Prepaid Items

Inventories of materials and supplies consist principally of expendable items held for consumption and are stated at cost, based on first-in, first-out or average cost or market methods. For governmental and proprietary fund types, the "consumption" method is used to account for inventories. Under the consumption method, inventory acquisitions are recorded in inventory accounts and charged as expenditures (governmental fund types) or expenses (proprietary fund types) when used.

Prepaid items are goods and services that are paid for in advance. These payments reflect costs applicable to future accounting periods, and are recorded in both government-wide and fund financial statements. Using the consumption method, prepaid items are charged as expenditures for governmental funds and as expenses for proprietary funds as the goods or services are used.

H. Capital Assets and Depreciation

1. Primary Government (City)

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair value on the date donated. Capital assets recorded under capital leases are recorded at the present value of future minimum lease payments. Depreciation on all exhaustible capital assets of the City is charged as an expense with accumulated depreciation being reported on the Statement of Net Assets. Depreciation is provided over the estimated useful lives of the assets using the straight-line method. With the implementation of GASB Statement No. 34, the City has established capitalization thresholds for infrastructure and machinery and equipment which include computer equipment. Retroactive reporting of all infrastructure assets is reported in the financial statements and the estimated useful lives and capitalization thresholds applied are as follows:

Assets	Useful Life Years	Capitalization Threshold
Buildings	15-40	\$100
Improvements (Other than buildings)	20-40	\$100
Machinery and Equipment	2-20	\$5
Furniture and Office Equipment	5-10	\$5
Infrastructure	15-100	\$250

2. City Public Service (CPS)

The CPS utility plant is stated at the cost of construction, including costs of contracted services, direct equipment material and labor, indirect costs, including general engineering, labor, equipment, and material overhead, and an allowance for funds used during construction (AFUDC). CPS computes AFUDC using rates which approximate the cost of borrowed funds, or the short-term investment rate for other funds used for construction. AFUDC is applied to projects estimated to cost in excess of \$250 and require thirty days or more to complete.

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Capital Assets and Depreciation (Continued)

2. City Public Service (CPS) (Continued)

CPS computes depreciation using the straight-line method over the estimated service lives of the depreciable property using specifically identified service lives for each asset type. In 2003, a depreciation study was conducted to determine if existing depreciation rates remained applicable to the depreciable property groups. Changes were found to be needed which caused annual depreciation to increase \$10.9 million in 2003 when compared to what depreciation would have been in 2003 without applying the new rates. Total depreciation and depletion as a percentage of total depreciable assets net of nuclear fuel was 3.36 percent in 2003.

CPS amortizes its share of nuclear fuel for the South Texas Project (STP) to fuel expense on a unit-of-production method. Under the Nuclear Waste Policy Act of 1982, the federal government assumed responsibility for the permanent disposal of spent nuclear fuel. CPS is charged a fee for disposal of spent nuclear fuel, which is based upon CPS' share of the STP generation that is available for sale to CPS customers. The charge is included in fuel expense monthly. For further discussion regarding the STP, see Note 11.

3. San Antonio Water System (SAWS)

The SAWS' capital assets in service are recorded on the basis of cost. Assets acquired through capital leases are recorded on the cost basis and are included in utility plant service. Assets acquired through contributions, such as those from land developers, are capitalized and recorded in the plant accounts at estimated fair value at date of donation. SAWS capitalizes certain interest costs on revenue bonds and commercial paper associated with newly constructed utility plant additions. Maintenance, repairs, and minor renewals are charged to operating expense, while major plant replacements are capitalized.

SAWS' capital assets are depreciated and property under capital lease is amortized on the straight-line method. This method is applied to all individual assets except distribution mains. Groups of mains are depreciated on the straight-line method using rates estimated to fully amortize the costs of the asset group over their estimated average useful life. The following estimated average useful lives are used in providing for depreciation of the SAWS' capital assets:

Structures and Improvements	50 years
Pumping and purification equipment	10 - 50 years
Distribution and transmission system	25 - 50 years
Collection system	50 years
Treatment facilities	25 years
Equipment and machinery	5 - 20 years
Furniture and fixtures	20 - 50 years
Computer equipment	5 years
Software	3 years

I. General Bonded Debt Service

The ad valorem tax rate is allocated each year between the General Fund and the Debt Service Fund. Amounts estimated to be required for debt service on general bonded debt are provided by allocated property taxes, interest earned within the Debt Service Fund, and transfers from other funds.

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Compensated Absences

In the governmental fund financial statements, the City accrues annual leave and associated employee related costs when matured (payable from available resources) for City non-uniformed employees and uniformed fire and police employees. In addition, the City accrues the matured portion of the City's uniformed fire and police employees accrued sick leave pay, holiday pay and bonus pay. Compensatory time is also accrued for the matured portion of the City's non-uniformed non-exempt employees as well as uniformed police officers.

For governmental fund types, the matured current portion of the liability resulting from the accrual of these compensated absences is recorded in the respective governmental fund and reported in the fund financial statements, while the entire vested liability is reported in the government-wide financials. The current and long-term portions of the liability related to proprietary fund types are accounted for in the respective proprietary fund.

K. Insurance

Activity for the City's self-insurance programs is recorded in the Internal Service Funds. Assets and obligations related to property and casualty liability, employee health benefits, workers' compensation, unemployment compensation, extended sick leave, and employee wellness are included.

The City is insured for property and casualty liability. As of the fiscal year end, Allianz Insurance Company insured the City's property, while the North River Insurance Company of New Jersey provided excess liability coverage. Related liabilities are accrued based on the City's estimates of the aggregate liability for claims made, and claims incurred but not reported prior to the end of the fiscal year.

The City also provides employee health, workers' compensation, and unemployment benefits under its self-insured programs. The City is a member of the Texas Municipal League Workers' Compensation Joint Insurance Fund, and uses this fund as a mechanism for administering workers' compensation claims for employees that occurred prior to September 30, 1986. Workers' compensation claims that occurred after October 1, 1986 are administered by third party administrators. In addition, the City has excess workers' compensation coverage through the North River Insurance Company as of September 30, 2003. The City records all workers' compensation loss contingencies, including claims incurred but not reported.

Employee health benefit liabilities are determined and accrued based upon the City's estimates of aggregate liabilities for unpaid benefits. Regarding unemployment compensation, the City is subject to the State of Texas Employment Commission Act. Under this act, the City's method for providing unemployment compensation is to reimburse the State for claims paid by the State.

All insurance carriers providing coverage for the City are required to possess an A.M. Best Company rating of A- or better, where A- denotes "Excellent". A.M. Best is an industry recognized rating service for insurance companies. For a more detailed explanation of the City's self-insurance programs, see Note 12.

L. Fund Equity

Reservations of fund equity represent amounts that are not appropriate or are legally segregated for a specific purpose. Designations of fund equity represent tentative plans identified by management and are subject to change. Designations are utilized in the City's governmental funds for amounts which have been designated for subsequent year's expenditures and amounts allocated to making future improvements and replacements. Such designations will be reflected on the fund financial statements.

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Revenue Recognition

Governmental fund types record revenues on the modified accrual basis of accounting and are reported as such in the fund financial statements. That is, revenues are recorded when they are both measurable and available to finance current operations or when they are considered susceptible to accrual. Revenues from property taxes, sales taxes, municipal court fines and fees, licenses, interest revenue and charges for services are recorded on the modified accrual basis of accounting, and therefore, are considered susceptible to accrual. The City's availability period is no more than 60 days beyond the end of the fiscal year. When collections are delayed beyond the normal time of receipt due to unusual circumstances, the amounts involved are still recognized as revenues of the current period. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Grant revenues are recognized when reimbursable expenditures are made and all other eligibility requirements imposed by the provider have been met. Proprietary-type funds record revenues when earned. In the government-wide financial statements, all revenues are recorded when earned.

CPS revenues are recorded when billed. Customers' meters are read and bills are rendered monthly. Rate schedules include fuel and gas cost adjustment clauses that permit recovery of fuel and gas costs in the month incurred. CPS reports fuel and distribution gas costs on the same basis as it recognizes revenue. SAWS revenues are recognized when earned under the accrual basis.

N. Allocation of Indirect Expenses

The City recovers indirect costs in the General Fund through the application of departmental indirect cost rates. These rates are developed and documented in the City's departmental indirect cost rate plan. In this plan, each department is classified by function. Indirect costs are budgeted by department and are used as a basis for the City's actual indirect cost allocation. Base rates are then applied to actual indirect costs recovered and indirect costs are reclassified to reduce general government expenditures. For fiscal year 2003, general government expenditures were reduced by \$7,396, resulting in increased expenditures in other governmental functions and in business-type activities in the amounts of \$4,565 and \$2,831, respectively.

O. Nuclear Decommissioning

CPS, together with the other owners of the STP, filed with the Nuclear Regulatory Commission (NRC) a certificate of financial assurance for the decommissioning of the nuclear plant. The certificate assures that CPS will meet the minimum decommissioning funding requirements mandated by the NRC. The STP owners agreed in the financial assurance plan that their estimate of decommissioning costs would be reviewed and updated periodically. In 1995, the owners conducted a review of decommissioning costs. The results estimated CPS' share of decommissioning costs at approximately \$270,000 in 1994 dollars. In 1999, the owners conducted an additional review of decommissioning, and results showed that CPS' share of decommissioning costs are now approximately \$311,000 in 1998 dollars.

In 1991, CPS started accumulating the decommissioning funds in an external trust, in accordance with the NRC's regulations. The Decommissioning Trust assets and related liabilities are included in CPS' financial statements as a component unit. At January 31, 2003, CPS had accumulated approximately \$183,300 of decommissioning funds in the external trust. Based on the annual calculation of financial assurance required by the NRC, CPS' trust balance exceeded the calculated financial assurance amount of \$69,100 at December 31, 2002 and \$61,400 at December 31, 2001. Based upon the 1998 and 1994 decommissioning cost studies, the annual level funding into the trust of \$15,900 for 2003 and 2002, was expensed by CPS.

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

P. Long-Term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts and debt issuance costs are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures of the funds in which proceeds of debt issuances are recorded.

Q. Elimination of Internal Activity

Eliminations of internal activity, particularly those related to internal service fund transactions, are needed to make the transition from governmental funds to government-wide activities. The overriding objective in "eliminating the effects of internal service fund activity" is to adjust the internal charges to cause a break-even result. Eliminating the "effect" of internal service fund activity requires the City to "look back" and adjust the internal service funds' internal charges. Net income derived from internal service fund activity would cause a pro rata reduction in the charges made to the participating funds/functions. Conversely, an internal service fund net loss would require a pro rata increase in the amounts charged to the participating funds/functions. Therefore, eliminations made to the statement of activities remove the "doubling up" effect of internal service fund activity. The residual internal balances between the governmental and business-type activities are reported in the statement of net assets and the internal balance amounts that exist within the governmental funds or within business-type funds are eliminated. The City reports internal service fund balances in both governmental and business-type activities based on the pro-rata share of the amounts charged to the participating funds/functions.

The City has three internal service funds: Other Internal Services, Information Technology Services, and Self-Insurance Funds. Other Internal Services and Information Technology Services charges users fees for requested goods or services. Building maintenance charges, a component of the Other Internal Services Fund, are based on the space occupied by departments. Through the tracking of these charges to the applicable departments, the net income or loss will be allocated back to the user department based on actual charges incurred.

The Self-Insurance Funds generate their revenues through fixed assessments charged to the various funds each year. The net income or loss generated by the Self-Insurance Funds is allocated back based on the same allocation by which the revenues are received.

R. Application of Restricted and Unrestricted Net Assets

The City may receive funding from an organization whose expenditure is restricted to certain allowable costs. In situations where both restricted and unrestricted net assets are expended to cover allowable expenses, the City will first expend the restricted net assets and cover additional costs with unrestricted net assets. The City reserves the right to selectively defer the use of restricted assets.

(amounts are expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

S. Other Budget Disclosures

Excess of expenditures, transfers and encumbrances over appropriations occurred as follows:

Excess of Expenditures, Transfers and Encumbrances Over Appropriations				
Fund/Expenditures	Appropriations	Expenditures, Transfers and Encumbrances	Excess of Expenditures, Transfers and Encumbrances over Appropriations	
General Fund:				
Health Services	\$ 13,603	\$ 13,815	\$	212
Sanitation	2,511	2,515		4
Special Revenue Funds:				
Alamodome	\$ 8,267	\$ 8,963	\$	696
Emergency Medical Services	38,046	38,786		740
International Center	810	815		5

With the exception of the Emergency Medical Services Fund, the excess expenditures over appropriations were fully offset by excess actual revenues or fund balances.

T. Prior Period Adjustments

A prior period adjustment for the San Antonio Water System has been made in the amount of \$500 due to a recognition of a liability in the amount of \$231, and an adjustment of prior year's revenue in the amount of \$269.

A prior period adjustment for the Brooks Development Authority has been made in the amount of \$2,635 due to the reduction of assets recorded in the prior year.

A prior period adjustment for the San Antonio Development Agency has been made in the amount of \$18 to correct errors involving notes payable.

2. PROPERTY TAXES

Property taxes are levied and due upon receipt on October 1, attached as an enforceable lien on property as of January 1st, and become delinquent the following February 1st. Property tax receivables, including related interest and penalty receivable, net of allowances for uncollectible amounts, represent amounts the City believes will ultimately be collected. The portion of property tax receivable, net of allowances for uncollectible amounts, that is not considered available, is offset by deferred revenues in the governmental fund financial statements. The City is permitted by the Municipal Finance Law of the State of Texas to levy taxes up to \$2.50 per \$100 of taxable valuation. The tax rate approved by City ordinance for the year ended September 30, 2003 was \$0.57854 per \$100 taxable valuation, which means that the City has a tax margin of \$1,921.46 per \$100 taxable valuation and could raise an additional \$798,089 per year based on the net taxable valuation of \$41,535,547 before the limit is reached.

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

City monies are deposited in demand accounts at the City's approved depository. The City utilizes a pooled cash and investment strategy with each fund's cash balance and pro rata share of highly liquid investments, including U.S. Treasury securities, U.S. Government Agency securities, and repurchase agreements with original maturities of ninety days or less, summarized by fund type and included in the combined statement of net assets as Cash and Cash Equivalents. Overdrafts which result from a fund overdrawing its share of pooled cash are reported as inter-fund payables by the overdrawn fund and as inter-fund receivables of the contributing funds.

Collateral is required for demand deposits and certificates of deposit at 100% of all deposits not covered by federal deposit insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities, school districts, and district corporations. Collateral pledged for demand deposits and certificates of deposit is required to be held in the City's name by the trust or safekeeping department of a bank other than the pledging bank.

Written custodial agreements are required which provide, among other things, that the collateral securities are held separate from the assets of the custodial banks. The City periodically determines that the collateral has a fair value adequate to cover the deposits and that the collateral has been segregated either physically or by book entry. At fiscal year-end, cash deposits for the City were entirely collateralized by the City's depository or federal depository insurance.

The City entered into repurchase agreements in connection with the investment of certain bond proceeds. Although these repurchase agreements are considered securities for purposes of credit risk classification, due to their 100% overnight liquidity, they are included with Cash and Cash Equivalents in the combined statement of net assets.

The investment policy of the City is governed by state statute and by its own written investment policy. Authorized investments include: demand accounts, certificates of deposit, obligations of the U.S. Treasury and U.S. Government Agencies, commercial paper, and repurchase agreements. The City maintains in its investment portfolio U.S. Treasury securities and U.S. Government Agency securities with original maturities of more than ninety days. Each fund's pro rata share of these longer-term investments is combined with similar non-pooled securities (i.e., securities purchased and held for specific funds), including U.S. Treasury securities, and U.S. Government Agency securities, and are reported as investments in the combined statement of net assets, as of September 30, 2003.

The City accounts for and reports investments in accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools". The City's policy with respect to money market investments which have a remaining maturity of one year or less at the time of purchase is to report these investments at amortized cost. Amortized cost approximates fair value for these investments. The decrease in fair value for investments of the City with a remaining maturity of greater than one year at the time of purchase was \$26 for the year ended September 30, 2003. The City does not participate in external investment pools.

Investments of the Fire and Police Pension Fund (Pension Fund), a blended component unit, are administered by the Fire and Police Pension Fund Board of Trustees. Investments of the Pension Fund are reported at fair value and include: corporate bonds; common stock; preferred stock; U.S. Treasury securities; U.S. Government Agency securities; notes, mortgages and contracts; and real estate. Equity and fixed income securities traded on a national or international exchanges are valued at the last reported sales price at current exchange rates. Notes, mortgages, and contracts are valued on the basis of future principal and interest payments discounted at prevailing interest rates. The fair value of real estate investments is based on independent appraisals and on the equity position of real estate partnerships in which the Pension Fund has invested. Gains and losses on sales and exchange of securities are recognized on the trade date. Investments that do not have an established fair value are reported at estimated fair value. No investments in any one organization (other than those issued by the U.S. Government) represent five percent or more in plan net assets.

(amounts are expressed in thousands)

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Continued)

The Pension Fund has entered into an agreement with its custodial bank to lend the Pension Fund's securities to one or more borrowers for a fee. It is the policy of the Pension Fund and the custodial bank to require that collateral equal to 102% and 105% for domestic and international securities, respectively, of the loaned securities is maintained by the custodial bank. Collateral may be in the form of cash, U.S. government securities and irrevocable letters of credit. Until such time as the loan is terminated, the borrower retains all incidents of ownership with respect to the collateral. In the event that the borrower fails to repay the borrowed securities when due and the value of the collateral is insufficient to replace the borrowed securities, the Pension Fund may suffer a loss. Management of the Pension Fund considers the possibility of such a loss to be remote.

As of September 30, 2003, the Pension Fund had lending arrangements outstanding with a total fair value of \$84,995, which were fully collateralized with cash and securities. Related to these loaned securities, cash collateral of \$87,107 is recorded in the accompanying statements. Net income for the year ended September 30, 2003 under the securities lending arrangement was \$244.

The Pension Fund has only limited involvement with derivative and other structured financial instruments and does not use them for trading purposes. The Pension Fund's investment philosophy in bond portfolios has centered on using derivatives and other structured financial instruments only when comparable cash alternatives are not available. Specifically, the Pension Fund has used the following basic guidelines when entering into such transactions: (1) small allocations, (2) no use of leverage, (3) price floors, (4) short maturities to mitigate potential problems with liquidity and (5) attention to credit risk of the issuer. The fair value of structured financial instruments held for the Pension Fund during fiscal year ended September 30, 2003 was approximately \$59,357.

The Pension Fund periodically participates in options and futures in order to hedge the value of a portion of its investments. Financial options and futures are agreements that give one party the right, but not the obligation, to buy or sell a specific amount of an asset for a specified price on or before a specified expiration date. Total exposure on these options and futures of approximately \$52,992 is included in net appreciation (depreciation) in fair value of investments at September 30, 2003.

The Fire and Police Retiree Health Care Fund Board of Trustees administers investments of the Fire and Police Retiree Health Care Fund, a blended component unit. Investments are reported at fair value and short-term investments are reported at amortized cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established fair value are reported at estimated fair value. All investment income, including changes in fair value of investments, is reported as additions in the statement of changes in post employment health care net assets. No investments in any one organization (other than those issued by the U.S. Government) represent five percent or more in plan net assets.

The investment policies of SAWS and CPS, the City's major discretely presented component units, are governed by state statute, local ordinance, and their own respective written investment policies. Authorized investments include: demand accounts, certificates of deposit, obligations of the U.S. Treasury and U.S. Government Agencies, commercial paper, and repurchase agreements.

SAWS is permitted by City Ordinance No. 75686 to invest in time deposits or certificates of deposit secured in the manner required by law for public funds, or to invest in direct obligations of, including obligations for which the principal and interest are unconditionally guaranteed by, the United States of America, in obligations of any agencies or instrumentalities of the United States of America or as otherwise permitted by SAWS' investment policy, which is governed by state statutes. SAWS' general depository agreement does not require SAWS to maintain an average monthly balance.

(amounts are expressed in thousands)

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Continued)

Under the provisions of GASB Statement No. 31, SAWS reports money market investments with a remaining maturity at time of purchase of one year or less at amortized cost, which approximates fair value. SAWS reports money market investments with a remaining maturity at time of purchase of greater than one year at amortized cost. As of December 31, 2002, the difference between the reported amount and fair value was \$1,948; therefore, an unrealized gain was reported.

CPS cash deposits at January 31, 2003 were entirely insured by federal depository insurance or collateralized by banks for the account of CPS. For deposits that were collateralized, the securities were U.S. Government or Government Agency or U.S. Government guaranteed obligations held in book entry form by the Federal Reserve Bank in CPS' name.

CPS investments with a maturity date within one year of the purchase date are reported at amortized cost, which approximates fair value. Amortization of premium and accretion of discount are recorded over the terms of the investments that mature within one year. CPS investments with a maturity date of one year or longer from the purchase date are accounted for using fair value. Fair value is determined by using generally accepted financial reporting services and publications and approved dealers and brokers as necessary. The specific identification method is used to determine costs in computing gain or loss on sales of securities.

CPS' allowable investments, excluding the Decommissioning Trust and the Employees Health and Welfare Plans, as defined by CPS Board Resolution and Policy, Bond Ordinances, Tax-Exempt Commercial Paper Ordinance, and State law include U.S. Government or Government Agency or U.S. Government guaranteed obligations, collateralized mortgage obligations issued by the U.S., fully secured certificates of deposit issued by a state, national bank or savings bank domiciled in the State of Texas, direct repurchase agreements, reverse repurchase agreements, defined bankers acceptances and commercial paper, no-load money market mutual funds, and other types of specific secured or guaranteed investments.

CPS reports all South Texas Nuclear Project (STP) decommissioning master trust investments and employee health and welfare investments at fair value.

CPS' investments in the STP decommissioning master trust are held by an independent trustee. Trust investments are limited to U.S. Government or Government Agency or U.S. Government guaranteed obligations by CPS Board Resolution and Policy, Trust Agreement, and State law. These investments are subject to market risk and their fair value will vary as interest rates fluctuate. This could affect the value at which these securities are recorded.

Investments in the employee health and welfare plans are held by an independent trustee. These investments are limited to those authorized by the plans' Administrative Committees, the Trust Agreements, and State law. These investments are subject to market risk and their fair value will vary as interest rates fluctuate. This could affect the value at which these securities are recorded. These investment policies follow the "prudent man" concept.

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Continued)

Combined cash and cash equivalents and investments are presented below as of year end for the City, and its significant discretely presented Component Units, SAWS and CPS. The information is provided to give an indication of the proportionate amount of cash and investments held by each respective entity.

Combined Cash, Cash Equivalents, and Investments			
	City ¹	SAWS ²	CPS ³
Cash and Cash Equivalents	\$ 430,621	\$ 54,510	\$ 319,204
Security Lending Collateral	95,492		
Cash and Cash Equivalents	2,132,663	351,569	1,081,599
Investments			
Less: Investments with original maturities of less than ninety days included in cash equivalents	(356,242)	(51,323)	(318,769)
Total	\$ 2,302,534	\$ 354,756	\$ 1,082,034

¹ The following amounts were held by the City in a fiduciary capacity and are excluded from the primary government statement of net assets: Cash and Cash Equivalents of \$45,695; Security Lending Collateral-Cash and Cash Equivalents of \$95,492; Investments of \$1,395,818.

² For the fiscal year ended December 31, 2002

³ For the fiscal year ended January 31, 2003

	City ¹	SAWS ²	CPS ³
Totals from Statement of Net Assets and Fiduciary Fund Statements			
Cash and Cash Equivalents	\$ 345,779	\$ 0	\$ 239,703
Security Lending Collateral	95,492		
Cash and Cash Equivalents	1,678,202	11,849	57,614
Investments	84,842	54,510	79,501
Restricted Cash and Cash Equivalents	98,219	288,397	705,216
Restricted Investments			
Total Cash, Cash Equivalents and Investments	\$ 2,302,534	\$ 354,756	\$ 1,082,034

¹ The following amounts were held by the City in a fiduciary capacity and are excluded from the primary government statement of net assets: Cash and Cash Equivalents of \$45,695; Security Lending Collateral-Cash and Cash Equivalents of \$95,492; Investments of \$1,395,818.

² For the fiscal year ended December 31, 2002

³ For the fiscal year ended January 31, 2003

(amounts are expressed in thousands)

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Continued)

The composition of Cash and Cash Equivalents included in the financial statements for the City and its major discretely presented Component Units as of the respective year-ends is presented below.

	City	SAWS ¹	CPS ²
Deposits with Financial Institutions	\$ 36,178	\$ 91,102	\$ 318
Less: Deposits with Original Maturities of Greater than Ninety Days		(87,945)	
Investments with Original Maturities of Less than Ninety Days	356,242	51,323	318,769
Cash with Pension/Retiree Healthcare Fiscal Agents	37,983		
Cash with Other Financial Agents	29		
Petty Cash Funds	189	30	117
Total Cash and Cash Equivalents	\$ 430,621	\$ 54,510	\$ 319,204

¹For the fiscal year ended December 31, 2002

²For the fiscal year ended January 31, 2003

Cash with fiscal agents of the Fire and Police Pension Fund and the Fire and Police Retiree Healthcare Fund of the City of San Antonio have been approved by the Funds' Board of Directors and are invested as authorized by Texas State Statutes.

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Continued)

Deposits with financial institutions are classified into three categories of custodial credit risk based upon the following:

Category	Description
1	Deposits insured by the FDIC or collateralized with securities held by the City or the City's agent in the City's name.
2	Deposits collateralized by securities held by the pledging bank's agent in the City's name.
3	Deposits uncollateralized which include deposits collateralized by securities held by the pledging financial institution or by its trust department or agent but not in the City's name.

Accordingly, deposits of the City, SAWS and CPS are categorized by custodial credit risk as follows:

Units	Carrying Amount	Bank Balance	Category
			1 2 3
City Deposits:			
With Financial Institutions	\$ 36,178	\$ 48,342	\$ 48,342 \$ 0 \$ 0
Deposits with Agents	38,012	38,012	38,012
SAWS Deposits:			
Demand and Savings Accounts	3,157	6,305	6,305
Certificates of Deposits	87,945	87,945	87,945
CPS Deposits:			
With Financial Institutions	318	7,939	7,939

Cash with fiscal agents of the Fire and Police Pension Fund and the Fire and Police Retiree Health Care Fund of the City of San Antonio are classified as Category 1. The Fire and Police Pension Fund also had securities lending collateral - cash and cash equivalents in the amount of \$95,492 which is not categorized for custodial credit risk as it had been invested in a securities lending collateral investment pool.

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Continued)

Investments are classified into three categories of custodial credit risk based upon the following:

Category	Description
1	Includes investments that are insured or registered, or for which the securities are held by the City or its agent in the City's name.
2	Includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the City's name.
3	Includes uninsured and unregistered investments for which the securities are held by the counterparty or by its trust department or agent but not in the City's name.

Accordingly, the investments of the City, SAWS, and CPS are categorized below to give an indication of the level of custodial credit risk assumed:

Total Investments By Category				
	1	2	3	Fair Value
City:				
Corporate Bonds	\$ 128,937	\$ 0	\$ 0	\$ 128,937
Preferred Stock	1,179			1,179
Common Stock	825,071			825,071
U.S. Treasury & Government				
Agency Securities	826,887	16,999	0	826,887
Repurchase Agreements		16,999		16,999
Total City	1,782,094	16,999	0	1,800,177
SAWS:				
Wachovia Held in Escrow	\$ 0	\$ 25,232	\$ 0	\$ 25,232
Bank One Held in Escrow		27,246		27,246
U.S. Treasury & Government				
Agency Securities	211,146	\$ 52,478	\$ 0	\$ 263,624
Total SAWS	211,146	79,720	0	290,866
CPS:				
U.S. Treasury & Government				
Agency Securities	181,467			181,467
South Texas Nuclear Project				
Decommissioning Master Trust				
U.S. Treasury & Government				
Agency Securities	19,951			19,951
Corporate Bonds	56,976			56,976
Common Stock	30,030			30,030
U.S. Treasury & Government				
Agency Securities	7,553			7,553
Global Bonds				
Total CPS	114,510			114,510
Total Investments	2,107,750	103,719	0	2,211,469

(amounts are expressed in thousands)

4. CAPITAL ASSETS

Capital asset activity for governmental activities, to include Internal Services Funds, for the year ended September 30, 2003 was as follows:

Capital Assets - Governmental Activities					
Governmental Activities	Beginning Balance	Increases	Decreases	Transfers	Ending Balance
Non-Depreciable Assets					
Land	\$ 1,215,391	\$ 23,517	\$ 0	\$ 0	\$ 1,238,908
Construction in Progress	524,898	98,600		(37,540)	585,958
Total Non-Depreciable Assets	1,740,289	122,117		(37,540)	1,824,866
Depreciable Assets					
Buildings	367,827			17,306	385,133
Improvements	59,589	376	(12)	9,961	69,914
Infrastructure	1,939,300	402		10,273	1,949,975
Machinery and Equipment	130,693	37,450	(11,182)		176,961
Total Depreciable Assets	2,517,409	38,228	(11,194)	37,540	2,581,983
Accumulated Depreciation					
Buildings	(134,361)	(11,753)			(146,114)
Improvements	(32,842)	(2,098)			(34,940)
Infrastructure	(1,080,544)	(64,104)			(1,144,648)
Machinery and Equipment	(71,794)	(15,558)	7,247		(80,105)
Total Accumulated Depreciation	(1,319,541)	(93,513)	7,247	0	(1,405,807)
Total Depreciable Assets, net	1,197,868	(55,285)	(3,947)	37,540	1,176,176
Total Capital Assets, net	\$ 2,938,157	\$ 66,832	\$ (3,947)	\$ 0	\$ 3,001,042
Depreciation expense was charged to governmental functions as follows:					
General Government			6,149		
Public Safety			4,277		
Public Works			63,335		
Health Services			334		
Welfare			364		
Culture and Recreation			4,081		
Convention and Tourism			22		
Urban Redevelopment and Housing			4,208		
Economic Development and Opportunity					
Depreciation on capital assets held by the City's internal service funds is charged to various functions based on asset usage			10,739		
Total Depreciation Expense for Governmental Activities			\$ 93,513		

¹ The capital assets of internal service funds are included in governmental activities. In fiscal year 2003, internal service fund capital assets increased by \$14,092, decreased by \$9,808, resulting in an ending balance of \$106,830. Depreciation expense of \$107,39 resulted in an ending accumulated depreciation balance of \$63,790, to arrive at a net book value of \$43,060.

(The remainder of this page left blank intentionally)

5. RECEIVABLES AND PAYABLES (Continued)

B. Interfund Receivable and Payable Balances (Continued)

As of September 30, 2003, the balances represent short-term loans resulting from (1) timing differences between the dates that transactions are recorded in the accounting system and (2) short-term borrowings at year end. Of the \$24,210 due from other funds in the General Fund, \$20,643 is a result of overdraws of pooled cash.

6. LONG-TERM DEBT

A. Primary Government (City)

1. Governmental Activity Long-Term Debt

The City's on-going capital improvement financing for infrastructure and "quality of life" purposes resulted in the issuance of additional indebtedness during fiscal year 2003. In December 2002, the City issued the following: \$55,850 General Improvement and Refunding Bonds, Series 2002 and \$69,930 Combination Tax and Revenue Certificates of Obligation, Series 2002. The bonds are secured by a pledge of ad valorem taxes while the certificates are secured by a pledge of ad valorem taxes and revenues from certain revenue generating operations.

The General Improvement and Refunding Bonds, Series 2002 were utilized to refund a portion of the City's outstanding tax supported debt, fund capital improvement projects to include streets and pedestrian improvements; drainage improvements; parks and recreation facilities improvements; library system improvements; and public safety improvements. The Series 2002 General Improvement and Refunding Bonds are retired serially in the years 2003 through 2023 and bear interest rates ranging from 2.000% to 5.500%.

A portion in the amount of \$25,581 of the net proceeds from the sale of the 2002 General Improvement and Refunding Bonds, including \$1,161 of the original issue premium, was applied to fund an escrow fund for the redemption, discharge, and defeasance of the refunded obligations. As a result of the 2002 refunding, the City will realize a total reduction of \$1,462 in debt service payments. Through the transaction, the City obtained a total economic gain (difference between the present values of the debt service payments on the old and new debt) of \$1,005.

Proceeds of the Combination Tax and Revenue Certificates of Obligation, Series 2002 will be utilized to fund capital improvements to include public safety, including constructing new fire stations and renovating and improving existing fire stations; street, sidewalk, bridge, and drainage improvements; improvements and renovations to existing municipal facilities; acquiring, constructing, renovating the City's library system; the construction of public improvements relating to KellyUSA and Brooks City-Base, including street and drainage improvements; construction of park improvements; the purchase of materials, supplies, machinery, land, and rights-of-way for authorized needs and purposes relating to public safety, drainage, street and public work purposes; the implementation of a new Enterprise Resource Management System, including development and installation costs relating thereto; and professional services related to the construction and financing of the aforementioned projects. The certificates are retired serially in the years 2004 through 2023 and bear interest rates ranging from 3.000% to 5.500%.

Additionally, in May 2003, the City issued \$40,905 of General Improvement Refunding Bonds, Series 2003. Delivery of the bonds occurred on May 8, 2003, and they are secured by a pledge of ad valorem taxes. These obligations were issued to refund \$43,200 of outstanding long-term debt. The obligations bear interest ranging from 2.750% to 5.000% and will be retired serially in the years 2004 through 2014.

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

6. LONG-TERM DEBT (Continued)

A. Primary Government (City) (Continued)

1. Governmental Activity Long-Term Debt (Continued)

The net proceeds from the sale of the 2003 General Improvement Refunding Bonds, which included an original issue premium of \$2,995, were applied, together with a cash contribution from the City, to fund an escrow fund for the redemption, discharge, and defeasance of the refunded obligations. As a result of the 2003 refunding, the City will realize a total reduction of \$1,793 in debt service payments. Through the transaction, the City obtained a total economic gain (difference between the present values of the debt service payments on the old and new debt) of \$1,683.

Also, in May 2003, the City issued \$44,150 of Municipal Drainage Utility System Revenue Bonds, Series 2003. Delivery of the bonds occurred on May 21, 2003. Pursuant to authority conferred by the Municipal Drainage Utility System Act, the City Council adopted an ordinance in 1993 declaring the drainage of the City to be a public utility, enabling the City to bill, along with other municipal utility system billings, a separate charge to lots and tracts of benefited property in the City for drainage services. Revenues of the System are pledged to the payment of the Bonds to the extent and in the manner specified in the ordinance. The obligations bear interest ranging from 2.000% to 5.000% and will be retired serially in the years 2004 through 2028.

Proceeds of the 2003 Municipal Drainage Utility System Revenue Bonds will be used to finance the costs of making drainage improvements, including the acquisition, construction, and repair of structures, equipment, and facilities for the City's Municipal Drainage Utility System (the "System").

In addition, in July 2003, the City issued \$56,515 of General Improvement Refunding Bonds, Series 2003-A. Delivery of the bonds occurred on July 16, 2003; they are secured by a pledge of ad valorem taxes. The obligations bear interest ranging from 2.000% to 5.000% and will be retired serially in the years 2006 through 2016. These obligations were issued to refund \$57,930 of outstanding long-term debt, of which \$57,105 was reported in governmental funds and \$825 was reported in proprietary funds.

The net proceeds from the sale of the 2003-A General Improvement Refunding Bonds, which included an original issue premium of \$7,307, were applied, together with a cash contribution from the City, to fund an escrow fund for the redemption, discharge, and defeasance of the refunded obligations. As a result of the 2003-A refunding, the City will realize a total reduction of \$5,588 in debt service payments, of which \$5,506 is governmental. Through the transactions, the City obtained a total economic gain (difference between the present values of the debt service payments on the old and new debt) of \$3,846, of which \$3,787 is classified governmental.

¹ Accretion of interest on the 1988 General Improvement Refunding Bonds through Fiscal Year 2003 has resulted in an increase of \$7,652 in General Obligation Bonds Payable. This increase is reflected on the Combined Balance Sheet but is not shown on the above table.

² A portion of the Hotel Occupancy Tax Revenue Bonds, Series 1996 was sold as Capital Appreciation Bonds (CABS). Interest on the CABS will accrete from the date of delivery and will be payable only at maturity or redemption. The interest accreted through fiscal year 2003 has resulted in an increase of \$13,079 in Revenue Bonds Payable. This increase is reflected on the Combined Balance Sheet but is not shown on the above table.

5-01-99	Public Safety	30,300	30,300
Total		\$ 315,959	\$ 299,299
			\$ 16,660

In addition to the debt authorized on May 1, 1999, the City has authority pursuant to an election held on January 26, 1980 to issue \$16,660,000 in bonds. The City does not currently intend to issue the bonds authorized in 1980.

Debt Limitation

The amount of debt that the City may incur is limited by City Charter and by the Constitution of the State of Texas. The City Charter establishes a limitation on the general obligation debt supported by ad valorem taxes to an amount not to exceed 10% of the total assessed valuation. The total assessed valuation for the fiscal year ending 2003 was \$46,320,796 which provides a debt ceiling of \$4,632,080. The total outstanding debt that is secured by an ad valorem tax pledge is \$881,038.

The Constitution of the State of Texas provides that the ad valorem taxes levied by the City for debt service and maintenance and operation purposes shall not exceed \$2.50 for each one hundred dollars of assessed valuation of taxable property. There is no limitation within the \$2.50 rate for interest and sinking fund purposes; however, it is the policy of the Attorney General of the State of Texas to prohibit the issuance of debt by a city if such issuance produces debt service requirements that exceed the amount that can be paid from \$1.50 tax rate calculated at 90% collections.

Interfund Borrowings

As an alternative to the issuance of external debt to finance certain projects/purchases, the City has determined that the use of available cash balances in the Internal Service Equipment Replacement Funds is a viable option. In certain instances, after an evaluation of project/purchase funding requirements, it has been determined that some funds or operations may require temporary financing. As an option, the City has authorized such internal temporary financing from available cash balances in the Internal Service Equipment Replacement Funds to meet these needs.

In June 1999, a loan was authorized from the City's Internal Service Fund to the International Center Special Revenue Fund to assist in the financing of permanent building improvements and leasing agent commissions. The principal amount of the note is \$200 with an annual interest rate of 6% and a repayment period of October 1999 through September 2003. In December 1999, a second loan was authorized from the City's Internal Service Fund to the International Center Fund to cover additional permanent building improvements. The principal amount of the note is \$137 with an annual interest rate of 6% and a repayment period of December 1999 through September 2003. In September 1999, a third loan was authorized from the City's Internal Service Fund to the International Center Fund to cover additional permanent building improvements. The principal amount of the note is \$62 with an annual interest rate of 6% and a repayment period of April 2000 through September 2003. Revenues from the International Center rentals will be utilized to meet the annual principal and interest requirements of the notes. As of September 30, 2003, the remaining balance for the notes payable from the International Center Fund was paid in full.

6. LONG-TERM DEBT (Continued)

A. Primary Government (City) (Continued)

Leases

The City leases property and equipment from others. Leased property having elements of ownership are recorded in the government-wide financial statements. The related obligations, in amounts equal to the present value of minimum lease payments payable during the remaining term of the leases, are also recorded in the government-wide financial statements. Other leased property, not having elements of ownership, are classified as operating leases. Both capital and operating lease payments are recorded as expenditures when matured in the governmental fund financial statements. Total expenditures for operating leases for the fiscal year ended September 30, 2003 were approximately \$3.6 million.

The City has entered into various lease purchase agreements for the acquisition of computers, copiers, fire trucks, golf equipment, public works equipment, a high capacity trailer, and a hazardous materials vehicle. These lease agreements qualify as capital leases for accounting purposes and have been recorded at the present value of their future minimum lease payments as of the date of inception. Payments on each of the lease purchases will be made from budgeted annual appropriations to be approved by the City Council.

The assets acquired through capital leases for governmental activities are as follows:

Asset:	
Machinery and Equipment	\$ 15,850
Less: Accumulated Depreciation	(3,061)
Total	<u>\$ 12,789</u>

As of September 30, 2003, the City (excluding discretely presented component units) had future minimum lease payments under capital and operating leases with a remaining term in excess of one year for governmental activities as follows:

Leases - Governmental Activities			
	Capital Leases	Operating Leases	Total
Governmental Activities:			
Fiscal year ending September 30:			
2004	\$ 3,535	\$ 3,085	\$ 6,620

6. LONG-TERM DEBT (Continued)

A. Primary Government (City) (Continued)

2. Proprietary Long-Term Debt

Proprietary long-term debt applies to those City operations that relate to business and quasi-business activities where net income and capital maintenance are measured (Enterprise and Internal Service Funds). Long-term debt, which is to be repaid from proprietary funds resources, is reported in the respective proprietary fund. The long-term indebtedness of the City's Enterprise Funds is presented in the discussion that follows.

Airport System: The Airport System includes the City of San Antonio International Airport and Stinson Municipal Airport and all land, buildings, structures, equipment, and facilities pertaining thereto. The Airport System's long-term debt is equally and ratably secured solely by a first lien on and pledge of the Gross Revenues of the Airport System. Gross Revenues of the Airport System include all revenues of any nature derived from contracts or use agreements with airlines and other users of the System and its facilities.

On April 19, 2001, the City Council approved the sale of the City of San Antonio, Texas Airport System Forward Refunding Revenue Bonds, Series 2003. Delivery of these obligations occurred on April 8, 2003. The principal amount is \$50,230 with maturities from 2004 through 2013, and interest rates from 5.50% to 6.00%. These bonds are special obligations of the City payable from gross revenues of the City's airport system. Proceeds will be combined with a cash contribution from the City and used to refund other Airport System obligations. As a result of the 2003 refunding, the city will realize a reduction of debt service payments of \$3,334 and obtained an economic gain of \$2,551.

On March 20, 2003, the City Council approved the sale of the City of San Antonio, Texas Airport System Forward Refunding Revenue Bonds, Series 2003A and Series 2003B. Delivery of these obligations occurred on May 1, 2003. The principal amount for the Series 2003A is \$8,175 with maturities from 2003 to 2006, and an interest rate from 2.00% to 2.25%. The principal amount for the Series 2003B is \$3,255 with maturities from 2007 to 2009, with an interest rate from 2.30% to 3.00%. These bonds are special obligations of the City payable from gross revenues of the City's airport system. Proceeds will be combined with a cash contribution from the City and used to refund other Airport System obligations. As a result of the 2003A and 2003B refunding, the City will realize a total reduction of \$793 in debt service payments and obtained an economic gain of \$741.

Parking System: The Parking System operation includes the ownership and operation of parking facilities, parking lots, parking meters and retail/office space. Long-term debt is allocated to the Parking System on a pro-rata basis from proceeds received from the issuance of general obligation and certificate of obligation debt and is paid from revenues derived from the operation of the Parking System. This allocated debt is additionally secured by an ad valorem tax pledge. The bonds are payable from and secured by a first lien on and a pledge of the gross revenues derived from the ownership and operation of the City's Parking system. The bonds are retired serially in years 2004 to 2024 and bear interest rates from ranging from 5.000% to 5.750%.

6. LONG-TERM DEBT (Continued)

A. Primary Government (City) (Continued)

2. Proprietary Long-Term Debt (Continued)

In July 2003, the City issued \$56,515 of General Improvement Refunding Bonds, Series 2003-A. Delivery of the bonds occurred on July 16, 2003. The obligations bear interest ranging from 2.000% to 5.000% and will be retired serially in the years 2006 through 2016. These obligations were issued to refund \$57,930 of outstanding long-term debt, of which \$57,105 was reported in governmental funds and \$825 was reported in proprietary funds.

The net proceeds from the sale of the 2003-A General Improvement Refunding Bonds, which included an original issue premium of \$7,307, were applied, together with a cash contribution from the City, to fund an escrow fund for the redemption, discharge, and defeasance of the refunded obligations. As a result of the 2003-A refunding, the City will realize a total reduction of \$5,588 in debt service payments, of which \$82 will be realized by the Parking Fund. Through the transactions, the City obtained a total economic gain (difference between the present values of the debt service payments on the old and new debt) of \$3,846, of which \$59 will be realized by the Parking Fund. Total annual principal and interest requirements for the Parking System are shown in the table at the end of this section.

Conduit Debt Obligations

The City facilitates the issuance of bonds to enable the San Antonio Industrial Development Authority, Health Facilities Development Corporation and the Education Facilities Corporation (formerly known as Higher Education Authority), component units of the City, to provide financial assistance to various entities for the acquisition, construction or renovation of facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired property transfers to the entity served by the bond issuance. As of September 30, 2003, there were thirty-five series of Industrial Revenue Bonds, twenty-one series of Health Facilities Development Bonds, and eleven series of Education Facility Revenue Bonds outstanding. The aggregate principal amount payable for the one series of Industrial Revenue Bonds, the one series of Health Facilities Development Bonds, and the four series Education Facility Revenue Bonds issued after October 1, 1997 was \$5,500, \$10,700, \$55,066, respectively. The aggregate principal amount payable for the remaining series of Industrial Revenue Bonds, Health Facilities Development Bonds, and Education Facility Revenue Bonds issued prior to October 1, 1997 is \$0, \$69,000, and \$0, respectively.

The City also facilitates the issuance of tax-exempt revenue bonds to enable the San Antonio Housing Finance Corporation to provide financing of residential developments for persons of low and moderate income. The bonds are secured by the property financed and are payable solely from and secured by a pledge of rental receipts. As of June 30, 2003, there were twenty-three four of tax-exempt revenue bonds outstanding with an aggregate principal amount payable of \$231,155 and an aggregate principal amount issued of \$253,950.

To provide for the acquisition and construction of certain airport facilities, the City has issued Special Facilities Airport Revenue Bonds, Series 1995 and Special Airport Facilities Revenue Refunding Bonds, Series 1999. The bonds are payable pursuant to lease agreements, which stipulate that various commercial entities are obligated to pay amounts to a third party trustee in-lieu of lease payments to the City. These payments are sufficient to pay when due the principal, premium, interest on and purchase price of the bonds. The aggregate principal amount payable for the Special Facilities Airport Revenue Bonds, Series 1995 and for the Special Airport Facilities Revenue Refunding Bonds, Series 1999 at September 30, 2003 was \$4,400 and \$3,826, respectively.

The Starbright Industrial Development Corporation was created to act on behalf of the City in the promotion and development of commercial, industrial and manufacturing enterprises to promote and encourage employment and the public welfare, including but not limited to the acquisition of land. The City of San Antonio, Starbright Industrial Development Corporation Contract Revenue Bonds, Series 2003 were issued to finance the acquisition and conveyance of land to Toyota Motor Manufacturing North America, Inc. for the construction of a training facility. The bonds are secured by pledged revenues and property are payable solely from payments made by the City sufficient to pay principal and interest on the bonds and are subject to annual budget appropriations. The bonds are not reported as liabilities in the accompanying financial statements. As of September 30, 2003, the Starbright Industrial Development Corporation Contract Revenue Bonds outstanding totaled \$24,685.

Neither the City, the State of Texas, nor any political subdivision is obligated in any manner for repayment of the aforementioned bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

6. LONG-TERM DEBT (Continued)

B. City Public Service (CPS)

As of January 31, 2003 the Bond Ordinances for New Series Bonds issued on and after August 6, 1992 contain, among others, the following provisions:

Funds in CPS's General Account shall be pledged and appropriated to be used in the following priority: (a) for maintenance and operating expenses of the systems, (b) for payments of the New Series Bonds, including the establishment and maintenance of the reserve therefore, (c) for the payment of any obligations inferior in lien to the New Series Bonds which may be issued, (d) for an amount equal to 6% of the gross revenues of the systems to be deposited in the Repair and Replacement Account, (e) for cash payments and benefits to the City not to exceed 14% of the gross revenues of the systems, and (f) any remaining net revenues in the General Account to the Repair and Replacement Account.

The maximum amount in cash to be transferred or credited to the General Fund of the City from the net revenues of the systems during any fiscal year shall not exceed 14% of the gross revenues of the systems less the value of gas and electric services of the systems used by the City for municipal purposes and the amounts expended during the fiscal year for additions to the street lighting system. The percentage of gross revenues of the systems to be paid over or credited to the General Fund of the City each fiscal year shall be determined (within the 14% limitation) by the governing body of the City. The net revenues of the systems are pledged to the payment of principal and interest on the New Series Bonds. All New Series Bonds and the interest thereon shall have a first lien upon the net revenues of the systems.

The City agrees that it will at all times maintain rates and charges for the sales of electric energy, gas, or other services furnished, provided, and supplied by the systems to the City and all other consumers which shall be reasonable and nondiscriminatory and which will produce income and revenues sufficient to pay:

- (a) all maintenance and operating expenses, depreciation, replacement and betterment expenses, and other costs as may be required by Chapter 1502, as amended, Texas Government Code;
- (b) the interest on and principal of all New Series Bonds, as and when the same shall become due, and for the establishment and maintenance of the funds and accounts created for the payment and security of the New Series Bonds;
- (c) to the extent the same are reasonably anticipated to be paid with available revenues (as defined in the ordinance authorizing the Commercial Paper), the interest on and principal of all Notes (as defined in said ordinance); and the credit agreement (as defined in said ordinance); and
- (d) a legal debt or obligation of the systems as and when the same shall become due.

6. LONG-TERM DEBT (Continued)

B. City Public Service (CPS) (Continued)

In August 2002 \$144.2 million par value of 1997 Parity Improvement Bonds were legally defeased with cash. The net accounting loss of \$7.1 million reported included \$149.7 million paid for the actual defeasance, less the par value of the debt, plus unamortized reacquisition and bond issue costs net of float forward agreement proceeds of \$1.6 million.

In September 2002, CPS issued \$576.7 million of Revenue and Refunding Bonds to refund \$445.1 million in certain outstanding New Series Bonds and to reimburse prior construction expenditures of \$150.0 million. The bonds were sold at a combined net premium of \$56.8 million.

The refunding bonds were issued to current refund \$48.7 million in 1992 New Series Bonds and advance refund \$396.3 in other New Series Bonds. The refunding transaction resulted in cash flow savings of \$24.1 million, which equated to a present value savings of \$18.1 million, or 4.06 percent of the par amount of refunded bonds. This transaction resulted in a loss for accounting purposes of \$34.4 million, which has been deferred and will be amortized over the shorter of life of the refunded or refunding bonds.

6. LONG-TERM DEBT (Continued)

C. San Antonio Water System (SAWS)

On April 30, 1992, City Ordinance No. 75686 was adopted. This ordinance authorized the issuance of \$635,925 Water System Revenue Refunding Bonds, Series 1992, dated April 15, 1992. These bonds were issued to refund in advance of maturity \$253,065 Water Revenue Bonds authorized and outstanding under terms of City Ordinance No. 52091, \$330,125 of Sewer Revenue Bonds authorized and outstanding under terms of City Ordinance No. 51975, \$14,500 of other bonded debt of annexed water districts, and \$49,200 of Sewer System Commercial Paper. The purpose of this advance refunding was to release and discharge the covenants contained in City Ordinance No. 52091 and No. 51975 in order to permit the City to consolidate the operations of the water related utilities.

The System: City Ordinance No. 75686 defines SAWS as all properties, facilities, plants owned, operated and maintained by the City and/or the Board of Trustees, for the supply, treatment, transmission and distribution of treated potable water, chilled water and steam, for the collection and treatment of wastewater and for water reuse, together with all future extensions, improvements, purchases, repairs, replacements and additions thereto, and any other projects and programs of SAWS; provided however, that the City retains the right to incorporate a stormwater system as provided by the Texas Local Government Code. See "Stormwater" below.

Funds Flow: City Ordinance No. 75686 requires that Gross Revenues of SAWS be applied in sequence to: (1) current maintenance and operating expenses including a two month reserve based upon the budgeted amount of maintenance and operating expenses for the current fiscal year; (2) Debt Service Fund requirements of Senior Lien Obligations; (3) Reserve Fund requirements of Senior Lien Obligations; (4) Interest and Sinking Fund and Reserve Fund requirements of Junior Lien Obligations; (5) Interest and Sinking Fund and Reserve Fund requirements of Subordinate Lien Obligations; (6) payment of amounts required on Inferior Lien Obligations, and (7) transfers to the City's General Fund and to the Renewal and Replacement Fund.

Reuse Contract: SAWS has a contract with City Public Service, the City owned electricity and gas utility, for the provision of reuse water. The revenues derived from the contract have been restricted in use to only reuse activities, are excluded from the calculation of Gross Revenues, and are not included in any transfers to the City's General Fund. Revenues derived from this contract were \$2,000 during the twelve months ended December 31, 2002.

SAWS is developing a recycled water system, which will provide non-potable water to various customers now using Edwards Aquifer water. During the twelve months ended December 31, 2002, the System generated an additional \$452 in revenue from sales of recycled water. Revenue from recycled water sales is recorded as revenue of the System and does have the restrictions of the reuse contract.

Stormwater: In addition to the water related utilities which the Board has under its control, the City Council approved Ordinance No. 77949 on May 13, 1993, which established initial responsibilities over the Stormwater Program with the System and adopts a schedule of rates to be charged for stormwater services and programs. The Stormwater Program is deemed to not be a part of SAWS as the term is defined in City Ordinance No. 75686. Accordingly, operations of the Stormwater Program are not considered when determining compliance with debt covenants contained in City Ordinance 75686 or in calculating payments to be made to the City. In fiscal year 1997, the City Council placed the administrative responsibility with its own staff and entered into an interlocal agreement with SAWS for the provision of services related to certain water quality monitoring functions.

No Free Service: City Ordinance No. 75686 also provides for no free services except for municipal fire-fighting purposes.

(amounts are expressed in thousands)

6. LONG-TERM DEBT (Continued)

C. San Antonio Water System (SAWS) (Continued)

Revenue Bonds

Senior Lien Water System Revenue Bonds, comprised of Series 1996, Series 1997, Series 1999, Series 2001, Series 2002, and Series 2002-A outstanding in the amounts of \$739,980 are collateralized by a senior lien and pledge of the Gross Revenues of SAWS after deducting and paying the current expenses of operation and maintenance of the System and maintaining an operating reserve for operating and maintenance expenses. At December 31, 2002, these bonds are due in varying amounts, from a low of \$865 in 2003 to a high of \$38,405 in 2028.

Junior Lien Water System Revenue Bonds, comprised of Series 1999, Series 1999-A, Series 2001, and Series 2001-A, Series 2002, Series 2002-A outstanding in the amount of \$157,480 at December 31, 2002, and are collateralized by a junior lien and pledge of the gross revenues of the System after deducting and paying the current expenses of operation and maintenance of the System, maintaining an operating reserve for operating and maintenance expenses, and debt service on senior lien debt. At December 31, 2002, the Junior Lien bonds were due in varying amounts, from a low of \$2,210 in 2022 to a high of \$12,880 in 2019.

Revenue bonds currently outstanding are as follows:

Purpose	San Antonio Water System				Due Within One Year
	Beginning Balance Jan. 1, 2002	Interest Rates 0.00-6.5%	Amount \$	Endings Balance Dec. 31, 2002

Total	\$ 157,480	\$ 61,758	\$ 739,980	\$ 681,171

Capitalized Interest Costs

Interest costs incurred on revenue bonds and short-term commercial paper debt totaled \$46,915 during the twelve months ended December 31, 2002, of which \$8,064 was capitalized as part of the cost of SAWS' utility plant additions.

Leases

SAWS entered into various lease agreements for financing the acquisition of computer equipment, software and heavy equipment. These lease agreements meet the requirements of capital lease for accounting purposes and therefore, are recorded at the present value of the future minimum lease payments as of the inception date. The terms of the leases are for three to five years with payments of \$29,913 monthly and \$355,785 annually. The annual percentage rate of the leases ranges from 3.18% to 5.8%. SAWS recorded capital leases related to computer equipment in the amount of \$1,216,948 and \$570,487 is related to vehicles. At the end of the respective lease terms, the ownership of the equipment transfers to SAWS. Please note the amounts in this paragraph are not stated in thousands.

7. COMMERCIAL PAPER PROGRAMS AND OTHER BORROWINGS

A. Primary Government (City)

Commercial Paper

On November 9, 2000, the City Council approved issuance of \$35,000 Sales Tax Commercial Paper Notes, Series A. The proceeds from the sale of the Notes are to provide for the planning, acquisition, establishment, development, construction, and renovation of the "Parks Development and Expansion Venue Project" authorized at an election held on May 6, 2000 which includes the acquisition of open space over the Edwards Aquifer Recharge Zone and linear parks along Leon Creek and Salado Creek, and the construction of improvements or additions to such Open Space Parks and Linear Parks. The Notes are supported by an irrevocable direct-pay Letter of Credit, dated as of December 5, 2000 to be issued by Landesbank Hessen-Thüringen Girozentrale, acting through its New York Bank (Helaba or the Bank). The Letter of Credit in an amount equal to \$37,589 enables the City to pay at maturity the principal amount of the Notes plus up to 270 days interest.

The City sold \$32,700 in Sales Tax Revenue Commercial Paper Notes in fiscal year 2001. As of September 30, 2003, \$10,500 of Commercial Paper notes are outstanding with interest rates on the notes between .750% and .850% and with various maturities ranging from 48 to 112 days. The aforementioned Commercial Paper Notes have been classified as long-term in accordance with the refinancing terms of the revolving credit agreement identified above.

The City has made the determination that it will not renew the existing Letter of Credit and Reimbursement Agreement which is currently due to expire on November 30, 2003 pertaining to the City's existing Sales Tax Commercial Paper Program (the "Program"). The City has made the determination that it will not take the actions at this point in time to secure a substitute credit provider for this Program, it will pay from lawfully available funds on hand all currently outstanding notes at maturity (currently outstanding in the principal amount of \$10,500 scheduled to mature on November 3, 2003, November 5, 2003 and November 7, 2003), and it will not issue any additional Commercial Paper Notes.

(amounts are expressed in thousands)

7. COMMERCIAL PAPER PROGRAMS AND OTHER BORROWINGS (Continued)

A. Primary Government (City) (Continued)

Revolving Line of Credit

The City uses a revolving line of credit for the Housing Asset Recovery Program. The line of credit is used to preserve housing stock and to revitalize neighborhoods by renovating and rehabilitating property owned by the City that is acquired through various programs (i.e. flood buyouts, facilities expansion, etc.). The City intends to finance their repayment with the proceeds received from the sale of the renovated houses. The amount of the line of credit is \$1,250, of which \$331 was outstanding as of September 30, 2003.

Revolving Line of Credit			
Beginning			Ending
Balance	Increases	Decreases	Balance
\$ 331	\$ 0	\$ 0	\$ 331

B. City Public Service (CPS)

Commercial Paper

In 1988, the City Council adopted an ordinance authorizing the issuance of up to \$300,000 in Tax-Exempt Commercial Paper (TECP). This ordinance, as amended, provides for funding to assist in the financing of eligible projects, in an aggregate amount not to exceed \$450,000. Eligible projects include fuel acquisition, capital improvements to the utility systems (the Systems), and refinancing or refunding any outstanding obligations which are secured by and payable from a lien on and/or a pledge of net revenues of the Systems. The program's scheduled maximum maturities will not extend beyond November 1, 2028.

The TECP has been classified as long-term in accordance with the refinancing terms under a revolving credit agreement with a consortium of banks, which supports the commercial paper. Under the terms of the agreement, CPS may borrow up to an aggregate amount not to exceed \$350,000 for the purpose of paying principal due under the TECP. The credit agreement has a term of two years, currently extended until November 1, 2004, and may be renewed for additional periods.

To date, there have been no borrowings under the credit agreement. The TECP is secured by the net revenues of the Systems. Such pledge of net revenues is subordinate and inferior to the pledge securing payment of existing New Series Bonds and any to be issued in the future.

CPS sold \$97,200 of TECP in fiscal year 2002; \$13,600 in proceeds remaining from 2002 has been used to fund construction expenditures in 2003.

As of January 31, 2003 a summary of TECP is as follows:

TECP Outstanding	\$	350,000
Weighted-average interest rate of outstanding TECP, approximate		1.1%
Average life of outstanding TECP approximate number of days		80

(amounts are expressed in thousands)

7. COMMERCIAL PAPER PROGRAMS AND OTHER BORROWINGS (Continued)

C. San Antonio Water System (SAWS)

Commercial Paper

The System maintains a Commercial Paper Program that is used to provide funds for the interim financing of a portion of capital improvements to the System.

On January 11, 2001, the City Council approved the expansion of the TECP Program (Tax Exempt Commercial Paper) from \$175,000 to \$350,000. The increase in the program provides interim financing for the increased level of future expenditures on water resource projects. Notes payable under the program cannot exceed maturities of 270 days and scheduled maturities of the short-term borrowing under the Commercial Paper Program may not extend past May 14, 2002.

The City has covenanted in the ordinance authorizing the Commercial Paper Program (the "Note Ordinance") to maintain at all times credit facilities with banks or other financial institutions which would provide available borrowing sufficient to pay the principal of the Commercial Paper Program. The credit facility is maintained under the terms of a revolving credit agreement.

To further support the issuance of the Commercial Paper Program, on June 2, 2001, the City entered into the agreements with the following:

- Dealer Agreements with Goldman Sachs & Co., J.P. Morgan Securities Inc., and Ramirez & Co., Inc.
- Revolving Credit Agreement with Westdeutsche Landesbank Girozentrale and Landesbank Baden Wurtemberg.
- Issuing and Paying Agency Agreement with Bank One, National Association Chicago, Illinois.

The borrowings under the Commercial Paper Program are equally and ratably secured by and are payable from (i) the proceeds from the sale of bonds or additional borrowing under the Commercial Paper Program and (ii) borrowing under and pursuant to the revolving credit agreement.

Commercial paper notes of \$255,000 are outstanding as of December 31, 2002. The proceeds of the notes have been used solely for financing of capital improvements of the System. The tax exempt commercial paper notes have been classified as long-term in accordance with the refinancing terms of the Credit Agreement and since management intends to continue the remarketing of the tax exempt commercial paper notes to maintain a portion of its debt in variable rates. Interest rates on the notes outstanding at year-end range from 1.00% to 1.65% and from 26 to 126 days to maturity. (The outstanding notes at December 31, 2002 had an average rate of 1.23% and averaged 76 days to maturity.)

The following summarizes transactions of the commercial paper program for the year ended December 31, 2002.

	Beginning Balance Jan. 1, 2002	Additions	Reductions	Ending Balance Dec. 31, 2002	Due Within One Year
Commercial Paper Notes	\$185,000	\$70,000	\$ —	\$255,000	\$ —

8. PENSION AND RETIREMENT PLANS

A. General Plan Information

The City of San Antonio, SAWS and CPS participate in several contributory retirement plans. These are funded plans covering substantial full-time employees. Payroll and contribution information as of the year-end for each entity is presented below:

Contributory Pension and Retirement Plans						
Entity	Title	Type of Plan	Covered Payroll	Employee Contribution	Employer Contribution	Total Contributions
City	Fire and Police Pension Fund	Single Employer Defined Benefit Plan	\$ 181,806	\$ 22,504	\$ 45,008	\$ 67,512
	Texas Municipal Retirement System (TMRS)	Non Traditional Hybrid Defined Benefit Agent Plan	197,742	11,864	22,684	34,548
Component Units:						
SAWS	¹ Texas Municipal Retirement System (TMRS)	Non Traditional Defined Contribution Agent Plan	Not Available	1,645	1,772	3,417
	² PMLIC Contract	Agent Multiple Employer Defined Benefit Plan	51,303		2,857	2,857
CPS	³ CPS All Employees Plan	Single Employer Defined Benefit Plan	180,292	8,733	5,213	13,946

¹ Plan year ended December 31, 2002

² Plan year ended December 31, 2002

³ Fiscal year ended January 31, 2003

(amounts are expressed in thousands)

8. PENSION AND RETIREMENT PLANS (Continued)

B. Primary Government (City)

Fire and Police Pension Plan

The Pension Fund is a single-employer defined benefit retirement plan established in accordance with the laws of the State of Texas. The City provides retirement benefits for all eligible full-time Fire and Police employees through the Pension Fund. Employees who terminate having five to twenty years of service may apply to receive a refund of their original contribution. Employees retiring who have served and contributed for twenty years or more shall, upon application to the Board of Trustees of the Pension Fund, receive a retirement pension based on the average of the employee's total salary, excluding overtime pay, for the highest three years of pay of the last five years of service. The retirement annuity for employees retiring after September 30, 2001 is computed at the rate of 2.25% of this average for each of the first twenty years of service, plus 4.5% of the member's average total salary for each of the next seven years, plus three percent of the member's average total salary for each of the next three years of service, plus 0.5% of the member's average total salary for each of the next four years of service, with fractional years of service prorated based on full months served as a contributing member. In making the computation for a year, the year is considered to begin on the first day a contribution is made. A retirement annuity under this subsection may not exceed, as of the date of retirement, 87.5% of the member's average total salary.

An employee with twenty years and one month of actual service credit may at the time of retirement elect a Backward Deferred Retirement Option Plan (Back DROP). The Back DROP election results in a lump sum payment equal to the number of full months of service elected by an employee that does not exceed the lesser of the number of months of service credit the employee had in excess of twenty years or thirty-six months and a reduced annuity payment.

There is also a provision for a 13th and a 14th pension check. The Board may authorize the disbursement of a 13th monthly pension check if the yield on the Pension Fund's investments exceeds the actuarial projections for the preceding five year period by at least 100 basis points. The Board may authorize a 14th monthly pension check if the yield on the Pension Fund's investments exceeds the actuarial projections for the preceding five year period by at least 300 basis points. The 13th and 14th pension checks are paid to each retiree and beneficiary receiving a pension at the time of the disbursement and are in an amount equal to the pension check paid in the last month of the preceding fiscal year of the Pension Fund (retirees/beneficiaries with less than one year of benefits will receive a prorated check, and no check will be paid to members who retired after the end of the fiscal year).

If service is terminated by reason of death or disability, the employee's beneficiary or the employee shall be entitled to one-half of the average of the employee's total salary, excluding overtime pay, based on the same number of years of the member's pay as used to compute normal retirement benefits. If a member is killed in the line of duty, the member's surviving spouse and dependent children are entitled to a pension based upon actual base salary at time of death.

The Pension Fund issues a publicly available financial report that includes financial statements and required supplemental information. That report may be obtained by writing to the Fire and Police Pension Fund of San Antonio, 311 Roosevelt, San Antonio, Texas 78210-2700 or by calling (210) 534-3262.

Contribution requirements of plan members and the City are established and may be amended by State statute. In the current year, the City contributed 24.64% of covered payroll and employees contributed 12.32% of covered payroll. The employer's required contribution of \$45,008 and the employee's required contribution of \$22,504 were made to the Pension Fund. (See summary of contribution information at Part A of this footnote).

(amounts are expressed in thousands)

8. PENSION AND RETIREMENT PLANS (Continued)

B. Primary Government (City) (Continued)

Fire and Police Pension Plan (Continued)

Effective October 1, 2001, in addition to the changes for credited service and the 14th check as mentioned above, other new provisions include allowing the surviving spouse of an active member to elect to receive benefits in the form of a lump-sum payment and reduced annuity, similar to a Back DROP election made by a retiring member, increasing the maximum benefit for surviving spouses and dependent children, equal to a 27 year pension, and increasing cost-of-living increases for all retirees who retired between August 30, 1971 and October 1, 1991.

For the year ended September 30, 2003, the City's annual pension cost of \$45,008 for the Pension Fund was equal to the City's required and actual contributions. The annual required contribution was determined as part of the October 2002 actuarial valuation using the entry-age actuarial cost method. The actuarial assumptions included (a) 8% investment rate of return, and (b) projected salary increase of 5.5% per year. Both (a) and (b) included an inflation component of 4.5%. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The Pension Fund's unfunded actuarial liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at October 1, 2002 was 32.40 years.

Texas Municipal Retirement System

The City provides benefits for all eligible employees (excluding firefighters and police officers) through a nontraditional, joint contributory, hybrid defined benefit plan in the TMRS. The TMRS is a statewide agent multiple-employer public employee retirement system created by law in 1948 to provide retirement and disability benefits to city employees. It is the opinion of the TMRS management that the plans in TMRS are substantially defined benefit plans, but they have elected to provide additional voluntary disclosure to help foster a better understanding of some of the nontraditional characteristics of the plan.

TMRS issues a publicly available financial report that includes financial information related to participating municipalities. The report may be obtained by writing to the TMRS, P.O. Box 149153, Austin, Texas 78714-9153 or calling (512) 476-7577.

Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the City financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are a percentage of the employee's accumulated contributions. In addition, the City may grant, as often as annually, another type of monetary credit referred to as an updated service credit. This is a theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and City matching percent had always been in existence and if the employee's salary had always been the average salary for the last three years. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the City-financed monetary credits with interest were used to purchase an annuity.

Members are eligible to retire upon attaining the normal retirement age of 60 and above with 5 or more years of service or with 20 years of service regardless of age. The plan also provides death and disability benefits. A member is vested after 5 years, but must leave accumulated contributions in the plan. If a member withdraws the contributions with interest, the member would not be entitled to the City-financed monetary credits, even if vested.

(amounts are expressed in thousands)

8. PENSION AND RETIREMENT PLANS (Continued)

B. Primary Government (City) (Continued)

Texas Municipal Retirement System (Continued)

The plan provisions and contribution requirements are adopted by the governing body of the City within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes.

Contribution requirements are actuarially determined by TMRS's actuary (See summary of TMRS Actuarial Assumptions and Methods in Part F of this footnote). The contribution rate for the City's employees is 6% and the matching percent is currently 11.42%, both as adopted by the governing body of the City. (See summary of contribution information in Part A of this footnote). Under the state law governing TMRS, the Employer's Contribution rates are annually determined by the actuary. This rate consists of the normal cost contribution rate and the prior service contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to the City matching percent, which are the obligation of the City as of an employee's retirement date, not at the time the employee's contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the City to each employee at the time the employee's retirement becomes effective. The prior service contribution rate amortizes the unfunded actuarial liability over the remainder of the plan's twenty-five year amortization period. When the City periodically adopts updated service credits and increases annuities in effect, the increased unfunded actuarial liability is being amortized over a new twenty-five year period. Currently, the unfunded actuarial liability is being amortized over a constant twenty-five year period as a level percent of payroll. Contributions are made monthly by both the employees and the City. All current year required contributions of the employees and the City were made to TMRS. Due to the fact that the City requires the contribution rates in advance for budget purposes, there is a one-year lag between the actuarial valuation that is the basis for the rate and the calendar year when the rate goes into effect.

C. San Antonio Water System (SAWS)

SAWS' retirement program includes benefits provided by the Texas Municipal Retirement System, a contract with Principal Mutual Life Insurance Company, and Social Security.

Covered employees are eligible to retire upon attaining the normal retirement age of 65. An employee may elect early retirement, with reduced benefits, upon attainment of:

1. 20 Years of credited service regardless of age, or
2. 25 Years of credited service and at least age 50, or
3. 10 Years of credited service and at least age 60.

The normal retirement benefit is based upon two factors, average compensation and years of credited service. Average Compensation is defined as the monthly average of total compensation received for the three consecutive years ending December 31, out of the latest ten compensation years prior to normal retirement date which gives the highest average.

The normal retirement benefit under the Principal Mutual contract is equal to:

1. 1.2% of the Average Compensation, times years of credited service not in excess of 25 years, plus
2. 0.75% of the Average Compensation, times years of credited service in excess of 25 years but not in excess of 35 years, plus
3. 0.375% of the Average Compensation, times years of credited service in excess of 35 years.

(amounts are expressed in thousands)

8. PENSION AND RETIREMENT PLANS (Continued)

C. San Antonio Water System (SAWS) (Continued)

Upon retirement, an employee must select from one of seven alternative payment plans. Each payment plan provides for monthly payments as long as the retired employee lives. The options available address how plan benefits are to be distributed to the designated beneficiary of the retired employee. The program also provides death and disability benefits. The following information related to the Texas Municipal Retirement System and Principal Mutual Life Insurance has been prepared as of January 1, 2001.

Texas Municipal Retirement System

SAWS provides pension benefits for all of its full-time employees through a nontraditional, joint contributory, defined benefit plan in the Texas Municipal Retirement System (TMRS), an agent multiple-employer public employee retirement system. The TMRS was established in 1948 as a retirement and disability pension system for municipal employees in the State of Texas, and is administered in accordance with the Texas Municipal Retirement System Act. It is the opinion of the TMRS management that the plans in the TMRS are substantially defined benefit plans, but they have elected to provide additional voluntary disclosure to help foster a better understanding of some of the nontraditional characteristics of the plan.

Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the SAWS-financed monetary credits, with interest. At the date the plan began, SAWS granted monetary credits for service rendered before the plan began of a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are a percent (100%, 150%, and 200%) of the employee's accumulated contributions. In addition, SAWS may grant, as often as annually, another type of monetary credit referred to as an updated service credit which is a theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and SAWS matching percent had always been in existence and if the employee's salary had always been the average salary for the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer-financed monetary credits with interest were used to purchase an annuity.

Members can retire at age 60 and above with 5 or more years of service or with 20 years of service regardless of age. A member is vested after 5 years. The plan provisions and contribution requirements are adopted by SAWS within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes.

Contribution requirements are actuarially determined by TMRS's Actuary (See Summary of TMRS's Actuarial Assumptions and Methods in Part F of this footnote). The contribution rate for the employees is 3% of salary, and SAWS matching rate approximates 100% of the employee rate, both as adopted by the SAWS. Under the state law governing TMRS, SAWS' contribution rate is annually determined by the actuary. This rate consists of the normal cost contribution rate and the prior service cost contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to SAWS' matching percent, which are the obligation of SAWS as of an employee's retirement date not at the time the employee's contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of SAWS to each employee at the time his/her retirement becomes effective. The prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the remainder of the plan's 25-year amortization period.

(amounts are expressed in thousands)

8. PENSION AND RETIREMENT PLANS (Continued)

C. San Antonio Water System (SAWS) (Continued)

Texas Municipal Retirement System (Continued)

When SAWS periodically adopts updated service credits and increases the annuities in effect, the increased unfunded actuarial liability is to be amortized over a new twenty-five year period. Currently, the unfunded actuarial liability is to be amortized over the twenty-five year period, which began January 1, 1998. The unit credit actuarial cost method is used for determining SAWS contribution rate.

Contributions are made monthly by both the employees and SAWS. Since SAWS needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that is the basis for the rate and the calendar year when the rate goes into effect. Significant assumptions used in the actuarial valuation of annual required contributions include a rate of return on the investment of present and future assets of 8.0% per year. Additionally, there is no need to project salary increases since the benefit credits earned for service to date are not dependent on future salaries. Likewise, inflation and cost-of-living adjustments are not accounted for in the actuarial study. Assets are valued at amortized cost.

Principal Mutual Life Insurance Company

The contract with Principal Mutual Life Insurance Company (PMLIC) serves as a supplement to the TMRS and Social Security benefits. SAWS' covered payroll at January 1, 2002 under this contract was \$51,303.

SAWS provides supplemental pension benefits for all persons customarily employed at least 20 hours per week and five months per year through this defined benefit plan. Employees are eligible to participate in the plan on January 1 of the calendar year following date of hire. An employee covered by the plan may vest a portion of the plan benefits if termination occurs after sufficient years of service have been credited. The plan allows an employee to accrue vesting benefits as follows:

Years of Service	Vested Percentage
Less than 5	0%
5	50%
6	60%
7	70%
8	80%
9	90%
10 or more	100%

An employee is automatically 100% vested upon attainment of age 65 or upon becoming totally and permanently disabled.

Benefits for retired employees are fully guaranteed at retirement. The pension plans unallocated insurance contracts are valued at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to purchase annuities or pay administrative expenses charged by Principal Life Insurance Co. The plan provisions and contribution requirements are governed by SAWS which may amend plan provisions and is responsible for the management of plan assets.

Significant assumptions used by PMLICs actuary to compute the actuarially determined contribution requirements include: (a) a rate of return on the investment of present and future assets of 8.5% per year, (b) salary scale from Table S-5 of the Actuary's Pension Handbook, plus 3.4%, and (c) plan expenses according to the expense scales of the Service Agreements.

(amounts are expressed in thousands)

8. PENSION AND RETIREMENT PLANS (Continued)

C. San Antonio Water System (SAWS) (Continued)

Principal Mutual Life Insurance Company (Continued)

The PMLIC contract funding policy provides for actuarially determined periodic contributions so that sufficient assets will be available to pay benefits when due. The actuarial cost method is known as the Entry Age Normal-Frozen Initial Liability Method. This method spreads the total cost of the projected pension benefits for each employee evenly from the date the employee is first eligible for the plan to the employee's assumed retirement date. As plan benefits are related to compensation, the cost is spread as a level percentage of compensation. The total of annual amounts for all employees combined is called the Normal Cost. The employee's Entry Age is determined as if the plan had always been in existence. Thus, as of the plan effective date, there are some accumulated Normal Costs for past years that have not been paid. The value of these costs is called the Frozen Initial Liability.

In subsequent years the Frozen Initial Liability is reduced by employer deposits to the plan in excess of employer Normal Cost and interest requirements. This reduced amount is known as the Unfunded Frozen Initial Liability. Contribution requirements are established and may be amended by the System. Active members are not required to contribute to the plan. Any obligation with respect to the pension plan shall be paid by the System. The actuarial valuation, which was performed for the plan year, ended December 31, 2001 reflects an unfunded frozen initial liability of \$8,884.

The PMLIC issues a publicly available financial report that includes financial statements and required supplemental information. That report may be obtained by writing to Principal Life Insurance Company, Pension Diversified Retirement Services, Des Moines, Iowa 50392-0001 or by calling (515) 247-5111.

D. City Public Service (CPS)

All Employee Plan

The CPS Pension Plan is a self-administered, single-employer, defined-benefit contributory pension plan (Plan) covering substantially all employees who have completed one year of service. Normal retirement is age 65; however, early retirement is available with 25 years of benefit service and to those employees who are ages 55 or older with at least 10 years of benefit service. Retirement benefits are based on length of service and compensation, and benefits are reduced for retirement before age 55 with 25 years or more of benefit service, or age 62 with less than 25 years of service.

The Plan and contribution requirements are sponsored by and may be amended by CPS, acting by and through the General Manager and Chief Executive Officer of CPS. The Plan assets are held in a separate trust that is periodically audited and which financial statements include historical trend information. Additional information may be obtained by writing the Employee Benefits Division of CPS, P.O. Box 1771, San Antonio, Texas 78296 or by calling (210) 978-2484.

Funding levels are established through annual actuarial evaluations and recommendations of an Administrative/Investment Committee, using both employee and employer contributions. Participating employees contribute 5% of their total compensation and are fully vested after completing 7 years of credited service or at age 40. The balance of contributions made amounted to 2.9% and is the responsibility of CPS, considering actuarial information, budgetary compliance, and the need to amend the Plan with legal requirements. (See Summary of Contribution Information at Part A of this footnote).

(amounts are expressed in thousands)

8. PENSION AND RETIREMENT PLANS (Continued)

D. City Public Service (CPS) (Continued)

All Employee Plan (Continued)

As calculated under GASB Statement No. 27, CPS' annual pension cost and net pension obligation for the fiscal year ended January 31, 2003 were \$4,921 and \$0 respectively. The annual required contribution was determined as part of the January 1, 2002 actuarial valuation using (a) the five-year smoothed market method for asset valuation, (b) the projected unit credit for pension cost, and (c) the level dollar open for amortization. The remaining amortization period is 18.9 years and is calculated using the level dollar open amortization method.

Significant actuarial assumptions used for the January 1, 2002 actuarial valuation include (a) a rate of return on the investment of present and future assets of 8.5 % per year compounded annually, (b) projected salary increases averaging 5.0 % and (c) post-retirement cost-of-living increases of 2.0 %. The projected salary increases include an inflation rate of 4.0 %.

E. Three Year Trend Information

Trend information compares the annual required contribution to annual pension cost and the resultant net pension obligation as required by GASB Statement No. 27.

Three Year Trend Information									
Pension Plan	Fiscal Year	Annual Required Contribution (ARC)	Annual Pension Cost (APC)	Annual Increase (Decrease) in NPO	Net Pension Obligation (NPO)	Adjustment To ARC	Contributions In relation to ARC	Net Pension Obligation at Beginning of Year	Percentage of ARC Contributed at End of Year
Fire and Police Pension-City of San Antonio	2001	\$ 42,065	\$ 42,065	\$ 0	\$ 0	0	(42,065)	\$ 0	0
	2002	43,615	43,615	0	0	0	(43,615)	0	100%

8. PENSION AND RETIREMENT PLANS (Continued)

F. Significant TMRS Actuarial Assumptions and Methods

Significant assumptions used in the actuarial valuation by the Texas Municipal Retirement System's (TMRS) actuary are provided in the table below for both the City and SAWS:

TMRS Actuarial Assumptions and Methods	
Investment Return	8%
Inflation Rate	None
Projected Salary Increases	None
Post Retirement Benefit Increases	None
Actuarial Cost Method	Unit Credit
Amortization Method	Level Percent of Payroll
Remaining Amortization Period	25 Years - Open Period
Asset Valuation Method	Amortized Cost

Location of Schedules of Funding Progress

The Schedule of Funding Progress is located in the "Required Supplementary Information" section of this report. The schedules are designed to provide information about each entity's progress in accumulating sufficient assets to pay benefits due.

9. POSTEMPLOYMENT RETIREMENT BENEFITS

A. Primary Government (City)

In addition to the pension benefits discussed in Note 8, the City provides all their retired employees with certain health benefits under two post-employment benefit programs. The first program is a health insurance plan, which provides benefits for all non-uniformed City retirees and for all, pre-October 1, 1989, uniformed (fire and police) retirees. Currently, there are 6,530 active civilian employees who may become eligible in the future. Employees become eligible for the program when they reach eligibility for the TMRS Pension Plan, discussed in Note 8. At September 30, 2003, there were 1,495 retirees participating in the program which covers eligible expenses at eighty percent after a deductible of \$250 (single/\$500 (family) for non-Medicare and \$125/\$250 for Medicare retirees. The cost of the program is reviewed annually, and actuarially determined costs of medical claims are funded jointly by the City and retirees on a pay-as-you-go basis shared on a targeted 67% City - 33% retiree cost allocation. Please note that the number of employees, retirees, and deductible amounts in this paragraph are not expressed in thousands. For retirees, total expenses for the year were \$6,302. For the year ended September 30, 2003, total contributions were as follows:

City	\$ 3,329
Employees	1,942
TOTAL	\$ 5,271

The second post-employment benefit program of the City provides retirement health care benefits for eligible Fire and Police retirees under the Fire and Police Retiree Healthcare Fund ("Fund"). The Fund was originally established as a fund of the City pursuant to the respective Fire and Police collective bargaining agreements to provide postemployment health benefits for San Antonio Fire Fighters and Police Officers who retired on or after October 1, 1989. Effective October 1, 1997, the Fund was created as a separate and distinct statutory trust. The Fund is governed by a nine member Board of Trustees comprised of the Mayor, two City Councilmembers, two active police officers, two active fire fighters, a retiree representative of the Fire Department, and a retiree representative of the Police Department. The Board of Trustees is responsible for the investment of the assets of the Fund. Contribution and benefit levels are determined by the respective collective bargaining agreements with the Fire and Police Associations.

(amounts are expressed in thousands)

9. POSTEMPLOYMENT RETIREMENT BENEFITS (Continued)

A. Primary Government (City) (Continued)

The benefits of this plan are financed on a prefunded basis. The City currently makes contributions on behalf of 3,429 active Fire Fighters and Police Officers who may be eligible for benefits under this plan in the future. The benefits of the plan are not available until the employee has completed twenty years of service and the plan is currently providing benefits to 962 eligible retirees. The Program reimburses 80 percent of the amount of eligible claims for standard medical costs and 100 percent for hospitalization costs incurred by the retiree and their eligible dependents. Based on the Police contract, the City contributed 9.4% of base pay plus longevity of all eligible police officers and each police officer contributed \$20 per month for fiscal years 2002 and 2003. Based on the Fire contract, the City contributed 9.4% of base pay plus longevity and fire fighters contributed \$20 per month, during the period from January 2001 to May 2002. Beginning in June 2002, the City contributed 8.92% of base pay plus longevity and active fire fighters contributed \$40 per month. For fiscal year 2003, the City contributed 8.71% of base pay plus longevity and active fire fighters contributed \$50 per month. Please note the number of firefighters and police officers, retirees, and monthly contribution rates in this section are not expressed in thousands. For the year ended September 30, 2003, total expenses for retired employees was \$8,513 and total contributions were as follows:

City	\$ 15,466
Employees and Retiree Dependent Premiums	1,678
TOTAL	\$ 17,144

Historically, actuarial valuations have been performed periodically to determine the actuarial position of the Fund and whether the existing financing of the Fund can be reasonably expected to be adequate over a long period of time. The Board of Trustees had an actuarial valuation performed as of July 1, 2000 and the results of that study indicated that based on employer contributions of 9.4% of covered payroll (base pay plus longevity) plus the employee monthly contributions of \$20, the unfunded liability of the Fund could be amortized over a 25 year period. Subsequently, the Board of Trustees engaged another actuarial firm to perform an actuarial valuation of the Fund as of October 1, 2001. The actuarial report was issued on May 20, 2002 and the results of this report indicated that the employer and employee contributions mentioned previously were not sufficient to amortize the unfunded liability. Additionally, the study recommended a contribution rate of 13.94% of covered payroll plus the employee monthly contributions of \$20 to amortize the unfunded liability of the Fund over a 40 year period. Based on this rate, the total contribution to the Fund would be have been required to increase from an estimated \$17,200 to \$23,100, an increase of \$7,900 beginning October 1, 2002.

Since then, the Board of Trustees has had another actuarial valuation of the Fund initiated with a valuation date of October 1, 2002. The results of the actuarial valuation as of October 1, 2002 were that, in the opinion of the actuary, the fund will have a long-term inadequate financing arrangement if present health benefits are left unchanged and if the monthly contribution rates remain at the level of \$20 per month per active participant. The Fund's actuary has recommended that the City's contribution be increased to 19.52% of covered payroll. The increase is based on actuarial assumptions for current health benefit claims costs and future annual increases for health benefit claims costs.

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

9. POSTEMPLOYMENT RETIREMENT BENEFITS (Continued)

A. Primary Government (City) (Continued)

While the results of both the 2002 and 2003 studies reflect significant changes in contribution levels, the actuarial reports also state that the Fund does not have a short term financing problem. As of September 30, 2003, net assets available for postemployment benefits were \$107,111 while benefits payments for the fiscal year ended September 30, 2003 were \$8,513. As noted above, contribution and benefit levels are established pursuant to the collective bargaining agreements. The current agreement with the Fire Association will expire September 30, 2005 and has an evergreen clause through September 30, 2015. This agreement was negotiated prior to the issuance of the actuarial valuation as of October 1, 2001, however, the agreement does contain a limited reopener related to contributions to the Fund. The City anticipates exercising the limited re-opener under its current agreement with the Fire Association in the Spring of 2004 for the purpose of discussing contributions to the Fund. As disclosed in Note 17, Subsequent Events, the City approved an agreement in November of 2003 with the Police Association which will expire on September 30, 2006 and has an evergreen clause through September 30, 2016.

This agreement with the Police Association increases both contributions by the City and active police officers over the term of the agreement. Effective November 1, 2003, the City will contribute an additional \$20 per eligible police officer per month during the term of the Agreement. Contributions by active police officers will increase from \$20 per month to the following based on the effective date: November 1, 2003 - \$40; April 1, 2004 - \$50; October 1, 2004 - \$60; and April 1, 2005 - \$ 70. The agreement makes certain changes in benefits such as expanding the list of preventive services and for in-network and out-of-network pharmacy benefits with increased co-payments for drugs purchased at out-of-network pharmacies which also became effective simultaneously under the Fire Contract. To coincide with the expiration of the City's current agreement with the Fire Association in September of 2005, the agreement with the Police Association also includes a re-opener on the benefits article in fiscal year 2005 which will allow the City to simultaneously work with both the Police and Fire Associations to continue to develop a comprehensive long-term solution for the Fund. Due to the differences in the results of the studies from July 2000 to October 2002, the City in conjunction with both the Fire and Police Associations are also currently in the process of completing an independent review and valuation of the Fund by another actuarial firm. In preparation for the negotiations in 2005, another actuarial valuation of the Fund will be completed, other similar plans and options from around the country will be reviewed, and a long-term dual-track strategy of restructuring benefits programs and increasing contributions will continue to be studied for potential implementation.

B. City Public Service (CPS)

CPS provides certain health care and life insurance benefits for retired employees. Most former CPS employees are eligible for these benefits upon retirement from CPS. Plan assets are held as part of CPS' Group Health and Life Insurance Plans and funding is from both participant and employer contributions determined by annual actuarial and in-house calculations. Retired employees contribute to the health plan in varying amounts depending upon an equity formula that considers age and years of service. The Plans may be amended by CPS. The annual cost of retiree health care and life insurance benefits funded by CPS is recognized as an expense of CPS as employer contributions are made to the programs.

These costs approximated \$3,600 for 2003. CPS reimbursed certain retirees and their spouses enrolled in Medicare Part B a percentage of the monthly premium, which totaled \$211 for fiscal year 2003.

Retired employees and covered dependents contributed \$1,300 for their health care and life insurance benefits in fiscal year 2003. There were approximately 2,201 retirees and covered dependents eligible for health care and life insurance benefits. Please note the number of retirees is not stated in thousands.

(amounts are expressed in thousands)

9. POSTEMPLOYMENT RETIREMENT BENEFITS (Continued)

B. City Public Service (CPS) (Continued)

In view of the potential economic significance of these benefits, CPS has reviewed the present value of the postemployment benefit obligations for current retirees. The January 1, 2002 valuations are \$65,400 for health and \$17,300 for life insurance benefits. The actuarial analysis of the present value of postemployment benefit obligations for other participants fully eligible for benefits are estimated to be \$39,400 for health, \$5,300 for life insurance, and \$2,800 for disability benefits. CPS began partial actuarial and funding of projected future benefits in 1992. Funding totaled \$4,800 in 2003. For the health care plan, the actuarial cost method used is the Projected Unit Credit Actuarial Cost Method. For the life insurance and disability plans, CPS uses a present value method to determine the cost of benefits.

Significant actuarial assumptions used in the calculations for the January 1, 2002 actuarial valuations include (a) a rate of return on the investment of present and future assets of 8.5% per year for the health, life, and disability plans, (b) projected salary increases for the plans ranging from 4.5% to 12.0% depending on age for base and other salaries, and (c) medical cost increases projected at 7.5% for 2002 decreasing to 6.0 percent in 2005 and thereafter.

C. San Antonio Water System (SAWS)

SAWS provides certain health care and life insurance benefits for retired employees. Substantially all full-time employees who retire from SAWS may become eligible for those benefits. On December 31, 2002, there were 404 retirees with life insurance and 423 retirees with medical coverage. Please note the numbers of retirees are not stated in thousands.

SAWS provides medical and life insurance for retirees and recognizes the cost of providing these benefits on a pay-as-you-go basis by expensing the annual insurance. Premiums for medical insurance and life insurance amounted to \$3,571 and \$60, respectively for January 1, 2002 through December 31, 2002. Those and similar benefits for active employees are provided through insurance companies.

10. CPS SOUTH TEXAS PROJECT (STP)

Joint Operations

CPS is one of four participants in the STP, which consists of two 1,250-megawatt nuclear generating units in Matagorda County, Texas. The other participants in the project are Texas Genco, L.P., formerly known as Houston Lighting & Power and Reliant Energy, American Electric Power - Central Power and Light Company, and the City of Austin. In-service dates for STP were August 1988 for Unit 1 and June 1989 for Unit 2. CPS' 28% ownership in the STP represents 700 megawatts of plant capacity. At January 31, 2003 and 2002, CPS' investment in the STP utility plant was approximately \$1,700,000, net of accumulated depreciation. Effective November 17, 1997, the Participation Agreement among the owners of STP was amended and restated and the STP Nuclear Operating Company (STP OPCO), a Texas non-profit non-member corporation created by the participants, assumed responsibility as the licensed operator of STP. The participants share costs in proportion to ownership interests, including all liabilities and expenses of STP OPCO.

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

10. CPS SOUTH TEXAS PROJECT (STP) (Continued)

Nuclear Insurance

The Price-Anderson Act is a comprehensive statutory arrangement for providing limitations on liability and governmental indemnities with respect to nuclear accidents or events. The maximum amount that each licensee may be assessed following a nuclear incident at any insured facility is \$88,100, subject to adjustment for inflation, for the number of operating nuclear units and for each licensed reactor, payable at \$10,000 per year per reactor for each nuclear incident. CPS and each of the other participants of STP are subject to such assessments, which will be borne on the basis of their respective ownership interests in STP. For purposes of these assessments, STP has two licensed reactors. The participants have purchased the maximum limits of nuclear liability insurance, as required by law, and have executed indemnification agreements with the Nuclear Regulatory Commission (NRC), in accordance with the financial protection requirements of the Price-Anderson Act.

A Master Worker Nuclear Liability policy, with a maximum limit of \$400,000 for the nuclear industry as a whole, provides protection from nuclear-related claims.

NRC regulations require licensees of nuclear power plants to obtain on-site property damage insurance in a minimum amount of \$1,060,000. NRC regulations also require that the proceeds from this insurance be used first to ensure that the licensed reactor is in a safe and stable condition so as to prevent any significant risk to the public health or safety, and then to complete any decontamination operations that may be ordered by the NRC. Any funds remaining would then be available for covering direct losses to property.

The owners of STP currently maintain \$2,750,000 of nuclear property insurance, which is above the legally required amount of \$1,060,000, but is less than the total amount available for such losses. The \$2,750,000 of nuclear property insurance consists of \$500,000 in primary property damage insurance and a layer of excess property damage insurance that would contribute \$2,250,000 of excess property damage insurance, both subject to a retrospective assessment being paid by all members of Nuclear Electric Insurance Limited (NEIL). In the event that property losses as a result of an accident at the nuclear plant of any utility insured by NEIL exceed the accumulated funds available to NEIL, a retrospective assessment could occur. The maximum aggregate assessment under current policies for both primary and excess property damage insurance is \$25,500 during any one-policy year.

Nuclear Decommissioning

CPS, together with the other owners of the STP, files with the NRC a certificate of financial assurance for the decommissioning of the nuclear power plant. The certificate assures that CPS will meet the minimum decommissioning funding requirements mandated by the NRC. The STP owners agreed in the financial assurance plan that their estimate of decommissioning costs would be reviewed and updated periodically. In 1995, the owners conducted a review of decommissioning costs. The results showed that CPS' share of decommissioning costs at approximately \$270,000 in 1994 dollars. In 1999, the owners conducted an additional review of decommissioning, and results estimated CPS' share of decommissioning costs are now approximately \$311,000 in 1998 dollars.

In 1991, CPS started accumulating the decommissioning funds in an external trust, in accordance with the NRC's regulations. The Decommissioning Trust assets and related liabilities are included in CPS' financial statements as a component unit. At January 31, 2003, CPS has accumulated approximately \$183,300 of funds in the external trust. Based on the annual calculation of financial assurance required by the NRC, CPS' trust balance exceeded the calculated financial assurance amounts of \$69,100 at December 31, 2002. Based upon the 1998 and 1994 decommissioning cost studies, the annual level funding into the trust of \$15,900 for 2003 was expensed by CPS.

(amounts are expressed in thousands)

11. COMMITMENTS AND CONTINGENCIES

A. Primary Government (City)

Grants

The City has received significant financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements, and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, liabilities resulting from disallowed claims, if any, will not have a materially adverse effect on the City's financial position at September 30, 2003. Grants awarded by federal, state and other governmental agencies but not yet earned nor received in cash as of September 30, 2003 were \$141,775.

Capital Improvement Program

The City will be undertaking various capital improvements to its airport system during fiscal year 2004. The estimated cost of these improvements is \$226,586. Approximately \$42,829 of the total will be funded by federal grants.

Litigation

The City is involved in various lawsuits related to alleged personal and property damages, wrongful death, breach of contract, various claims from contractors for additional amounts under construction contracts, property tax assessments, environmental matters, class action and promotional practices, and discrimination cases. The Office of the City Attorney estimates the probable liability for these suits, including those mentioned below, will approximate \$8,995 which is included as a component of the reserve for claims liability in the amount of \$16,179. The estimated liability, including an estimate of incurred but not reported claims, is recorded in the Insurance Reserve Fund. The City makes significant estimates in determining the amounts of unsettled claims under its self-insurance program and believes that the self-insurance reserves recorded in the Self-Insurance Funds are adequate to cover losses for which the City may be liable. It is not determinable whether additional claims or revisions to estimates required for settlement on existing claims could have a material effect on the government-wide financial statements.

Charles and Tracy Pollock, Individually and as next friend of Sarah Jane Pollock, a minor child v. City of San Antonio. This is a nuisance case alleging that benzene gas emitted from the West Avenue Landfill caused chromosomal damage to a fetus during the period of gestation, resulting in Plaintiff's contracting acute lymphoblastic leukemia. Although the trial court has entered against the City a judgment of approximately \$20,000, the City believes that \$19,980 of such sum (\$10,000 in exemplary damages and \$9,980 in personal injury damages) is not recoverable by the Plaintiff under a nuisance theory. Even if recoverable, the City believes that damages are capped at \$250 under the Texas Tort Claims Act. The City is appealing the judgment.

Matthew Jackson et. al. v. City of San Antonio. This is a Fair Labor Standards Act ("FLSA") lawsuit with 175 named plaintiffs who claim that they were required to report for duty 15 minutes prior to their shift and that they were not compensated for the time in violation of the FLSA. There are several other allegations based on the FLSA, as well. The lawsuit has been filed on behalf of all of the police officers similarly situated to the 175 plaintiffs. The Plaintiffs have a motion pending for class certification that could increase the size of the Plaintiff class to include all officers of the San Antonio Police Department, of which there are more than 2,000. Thus, the potential exists for more officers to join the lawsuit. The City expects to win the lawsuit, but the potential liability, if the case were lost, could be an amount well over \$1,000.

(amounts are expressed in thousands)

11. COMMITMENTS AND CONTINGENCIES (Continued)

A. Primary Government (City) (Continued)

Arbitrage

The City has issued certain tax-exempt obligations that are subject to Internal Revenue Service (IRS) arbitrage regulations. Non-compliance with these regulations, which pertain to the utilization and investment of proceeds, can result in penalties including the loss of the tax-exempt status of the applicable obligations retroactive to the date of original issuance. In addition, the IRS requires that interest income earned on proceeds in excess of the arbitrage rate on applicable obligations be rebated to the federal government. The City monitors its bond proceeds in relation to arbitrage regulations, and "arbitrage rebate" is estimated and recorded in the government-wide and proprietary financial statements when susceptible to accrual and in the governmental fund type when matured.

Leases

The City leases City-owned property to others which consists of buildings, real property, and parking spaces. Costs of specific leased components are not readily determinable. Total rental revenue on operating leases for fiscal year ended September 30, 2003 was \$16.3 million. As of September 30, 2003, the leases provide for the following future minimum rentals:

	Leases Receivable			
	Governmental Activities	Aviation	Parking	Total
Fiscal year ending September 30:				
2004	\$ 1,915	\$ 14,275	\$ 133	\$ 16,323
2005	1,667	14,046	42	15,755
2006	1,434	13,260		14,714
2007	917	1,866		2,783
2008	752	1,558		2,310
2009-2013	2,640	5,853		8,493
2014-2018	2,648	3,833		6,481
2019-2023	1,348	515		1,863
2024-2033	750	288		1,038
2034-2038	725			725
2039-2043	500			500
Future Minimum Lease Rentals	\$ 15,683	\$ 55,514	\$ 175	\$ 71,372

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

11. COMMITMENTS AND CONTINGENCIES (Continued)

A. Primary Government (City) (Continued)

Landfill Postclosure Care Costs

In October 1993, the City Council approved closure of the Nelson Gardens Landfill which immediately stopped accepting solid waste. Subsequent to landfill closure, Federal and State laws required the City to incur certain postclosure care costs over a period of thirty years. As of September 30, 1994, the City estimated these costs for postclosure of the Nelson Gardens Landfill at \$3,800. The estimate was based on estimated costs for installation of a leachate and groundwater collection system, installation of a methane recovery system, geotechnical and environmental engineering services, and monitoring and maintaining the facility for a thirty-year period. In accordance with GASB Statement No. 18, "Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs", the estimated postclosure cost of \$3,800 for the Nelson Gardens Landfill was recorded as a liability and expensed in the Environmental Services Fund in fiscal year 1994. This cost is an estimate and is subject to changes resulting from inflation/deflation, advances in technology, or changes in applicable laws or regulations.

Each fiscal year, the City performs an annual re-evaluation of the postclosure care costs associated with the Nelson Gardens Landfill. The annual re-evaluation conducted for the fiscal year ended September 30, 2003 resulted in an estimated postclosure care liability for the Nelson Gardens Landfill of \$1,061. This represents an increase of \$28 from the prior fiscal year for expenditures incurred for geotechnical and environmental engineering services.

TCEQ Financial Assurance

The City is required under the provision of the Texas Administrative Code to provide financial assurance to the Texas Commission on Environmental Quality (TCEQ), formerly known as the Texas Natural Resource Conservation Commission (TNRCC), related to the closure of municipal solid waste operations including, but not limited to, storage, collection, handling, transportation, processing, and disposal of municipal solid waste. As such, financial assurance is required to ensure that funds are available, when needed, to meet costs associated with the closure of the City's North East Transfer Station. Additionally, financial assurance is required to demonstrate financial responsibility for underground storage petroleum facilities. As of September 30, 2001, the permit for the North East Transfer Station has been transferred from the City and the new permittee has provided adequate financial assurance for this facility. Based on the number of underground petroleum storage tanks, the City is required to provide \$1,000 of financial assurance related to the underground storage facilities.

Brooks City-Base — Electric and Gas Utilities

The Brooks City-Base Project is a collaborative effort between the U.S. Air Force (the "Air Force") and the City designed to retain the Air Force missions and jobs at Brooks Air Force Base, improve mission effectiveness, assist in reducing operating costs, and promote and enhance economic development at Brooks. On July 22, 2002, the land and improvements were transferred to the Brooks Development Authority (BDA) for the purpose of creating the Brooks Technology & Business Park, a facility which will foster the development of key targeted industries. The Air Force is currently the Park's anchor tenant and is leasing back facilities to perform its missions.

As part of the conveyance, the electric and gas utilities were transferred to City Public Service (CPS), the City's utility. The electric and gas utility systems' infrastructure at Brooks are deficient and require extensive upgrades and improvements. Pursuant to the transfer, the Air Force, BDA, and CPS have committed to make certain improvements and upgrades to the electric and gas utility over a 20-year period. Funding for these improvements include \$3,400 from the Air Force and \$6,300 from BDA and CPS each, respectively for a total of \$16,000.

(amounts are expressed in thousands)

11. COMMITMENTS AND CONTINGENCIES (Continued)

A. Primary Government (City) (Continued)

Brooks City-Base — Electric and Gas Utilities (Continued)

With respect to BDA's obligation of \$6,300, the City has agreed, under certain circumstances and if necessary, to assist BDA in funding its obligation. The City has agreed to contribute to BDA on an annual basis an amount equivalent to the incremental increase in the City's payment from CPS derived from Brooks. The City, as the owner of CPS, receives 14% of CPS' gross revenues and this amount represents additional resources available to the City as a result of its increased payment from CPS derived at Brooks. The first payment is due in fiscal year 2004 and is estimated at \$75. Over the 20-year period, the City's annual payments will not exceed \$3,400. In the event BDA has exhausted all of its available resources and has been unable to fulfill its obligation of \$6,300 by the end of the 20-year term, the City has agreed in good faith to utilize all of its funding options to enable BDA to satisfy its obligation.

Alamodome Soil Remediation

The City has taken an aggressive approach to dealing with environmental issues resulting from the construction of the Alamodome, a multi-purpose domed facility. It is working in conjunction with the Texas Commission on Environmental Quality (TCEQ) on the continued development and implementation of a remediation plan that addresses both on and off-site locations that may contain contaminated soil. As of September 30, 2003, the City has expended approximately \$13,447 related to Alamodome soil remediation efforts, inclusive of the supplemental environmental projects, and estimates the remaining cost for soil remediation to be approximately \$21. In January 1996, TCEQ issued its Executive Director's Preliminary Report assessing a penalty against the City and VIA Metropolitan Transit (VIA) along with certain technical recommendations for alleged violations in the handling of contaminated soils at the Alamodome site. On February 12, 1997, the City and TCEQ entered into an Agreed Order relating to enforcement actions taken by the Commission against the City and VIA which provided for a reduced penalty amount because of positive actions taken by the City to initiate corrective actions in advance of the Agreed Order.

Under the Agreed Order, the Commission would also defer the remaining portion of the reduced fine upon successful completion, by the City, of certain supplemental environmental projects in the total amount of \$628. The City, under separate agreement with VIA, would assume responsibility for the remediation of the remaining sites, with VIA contributing \$350 towards these efforts.

The City to date has completed the Supplemental Environmental Projects as identified in the Agreed Order and has received concurrence from the TCEQ that these projects were successfully completed. Additionally, nine of the ten sites that require remedial activity under the Agreed Order have been completed. The TCEQ has provided closure letters for all of these sites. Final remediation is scheduled for fiscal year 2004 for the remaining site.

11. COMMITMENTS AND CONTINGENCIES (Continued)

B. City Public Service (CPS)

Other

Purchase and construction commitments amounted to approximately \$1,400,000 at January 31, 2003. This amount includes approximately \$65,400 that is expected to be paid for natural gas purchases to be made under various contracts currently in effect through June 2007; the actual amount to be paid will depend upon CPS' actual requirements during the contract period and the price of gas. Commitments also include \$68,300 for pipeline quality gas to be produced from the City of San Antonio "Nelson Gardens" landfill under the contract which is currently in effect through the year 2017. Also included is \$31,500 for coal purchases through December 2003, \$306,000 for coal transportation through December 2014, and \$3,000 for treated cooling water through December 2005, based upon the minimum firm commitment under these contracts.

CPS has also committed to purchase \$212,500 in wind power and \$20,000 in purchased power; \$28,400 for generation plant maintenance services, and \$17,000 for distribution system construction and maintenance.

Additional purchase commitments at January 31, 2003, which are related to STP, include approximately \$553,300 for raw uranium, associated fabrication and conversion services. This amount represents services that will be needed for refueling through the year 2028.

The PUC promulgated new rules in 1996 designed to comply with legislative changes affecting the utility industry. The Transmission Pricing and Access Rule (Rule) mandates that electric utilities charge customers for wholesale open transmission access according to a formula based on the amount of load served by each utility. CPS' cost for calendar years 2001 and 2002 were approximately \$5,600 and \$11,600, respectively. The estimated cost for calendar year 2003 is approximately \$12,800.

Joint Operations Agreement

A 1997 Joint Operations Agreement (JOA) resulted from the litigation settlement with Texas Genco, L.P., formerly known as Reliant Energy, Inc. and Houston Lighting & Power, over its management of STP during the construction and early operating periods. The JOA is an arrangement to jointly dispatch CPS' and Texas Genco, L.P.'s generating plants to take advantage of the most efficient plants and favorable fuel prices of each utility. Until June 2002, CPS received, in monthly cash payments, ninety percent of the savings realized from the jointly operated systems. As of June 2002, when Texas Genco, L.P. met the JOA \$200,000 cumulative savings obligation, monthly cash payments were reduced to 50 percent of the savings realized from the jointly operated systems. As of January 31, 2003, CPS' total cumulative payments from savings realized was \$212,600.

Litigation

Additionally, in the normal course of business, CPS is involved in other legal proceedings related to alleged personal and property damages, breach of contract, condemnation appeals and discrimination cases. Also, CPS power generation activities and other utility operations are subject to extensive state and federal environmental regulation. In the opinion of management of CPS, the outcome of such proceedings will not have a material adverse effect on the financial position or results of operations of CPS.

(amounts are expressed in thousands)

11. COMMITMENTS AND CONTINGENCIES (Continued)

C. San Antonio Water System (SAWS)

Other

SAWS is committed under various contracts for completion of construction or acquisition of utility plants totaling approximately \$273,300 as of December 31, 2002. Funding of this amount will come from available revenues of SAWS, contributions from developers, and restricted assets.

Litigation

SAWS is the subject of various claims and litigation which have risen in the ordinary course of its operations. Management, in consultation with legal counsel, is of the opinion that SAWS' liabilities in these cases, if decided adversely to SAWS, will not be material.

12. RISK FINANCING

A. Primary Government (City)

Property and Casualty Liability

At September 30, 2003, the City has excess insurance coverage through North River Insurance Company for liability. The blanket policy provides general and auto liability along with police professional errors and omissions and EMS Medical Malpractice, and Civil Rights and Employee Benefits Liability Coverage. Allianz Insurance Company provides property coverage on the City's building and contents inventory. The City utilizes a third party administrator for the handling of administration, investigation, and adjustment of liability claims.

Obligations for claims under these programs are accrued in the City's Self-Insurance Reserve Internal Service Fund based on the City's estimates of the aggregate liability for claims made and claims incurred but not reported, and Departments are assessed premiums to cover expenditures. There were no significant reductions in insurance coverage. Claims settlements did not exceed insurance coverage for each of the past three years.

Employee Health Benefits

The City provides its current employees with a comprehensive employee benefit program including coverage for medical, dental and life insurance, vision, dependent care reimbursement accounts and additional life insurance for its employees and their dependents. The City's self-insured medical programs are provided to all City employees. Obligations for benefits are accrued in the City's Self-Insurance Employee Benefits Internal Service Fund based upon the City's estimates of the aggregate liability for unpaid benefits.

(The remainder of this page left blank intentionally)

12. RISK FINANCING (Continued)

A. Primary Government (City) (Continued)

Workers' Compensation

The City self-insures for Workers' Compensation. The City is a member of the Texas Municipal League (TML) Workers' Compensation Joint Insurance Fund, an unincorporated association of political subdivisions of the State of Texas. The TML Workers' Compensation Joint Insurance Fund is not intended to operate as an insurance company, but rather is intended to be a contracting mechanism which the City as a member utilizes to administer self-insurance workers' compensation benefits to its employees for claims that occurred prior to September 30, 1986. The City also utilizes third party administrators for the handling of administration, investigation, and adjustment of workers' compensation claims that occurred after October 1, 1986. All loss contingencies, including claims incurred but not reported, if any, are recorded in the City's Self-Insurance Workers' Compensation Internal Service Fund and City departments are assessed premiums to cover expenditures. As of September 30, 2003, the City has excess workers' compensation coverage through the North River Insurance Company. Claims settlements did not exceed insurance coverage for each of the past three years.

Unemployment Compensation Program

The Unemployment Compensation Program of the Self-Insurance Internal Service Fund provides a central account for payment of unemployment compensation claims. As of the fiscal year end, claims were being administered internally by the City and are paid to the Texas Workforce Commission on a reimbursement basis. All costs incurred are recorded on a claim paid basis.

Extended Sick Leave Program

The Extended Sick Leave Program of the Self-Insurance Internal Service Fund is used to pay benefits associated with the City's employee long-term disability plan. Benefits are administered by the City. Actual costs are incurred when extended leave is taken.

Employee Wellness Program

The Self-Insurance Employee Wellness Program Internal Service Fund is used to account for revenues and operating expenses of the City Occupational Health Clinic operated by the San Antonio Metropolitan Health District. The clinic's operation is supported by transfers from the Workers' Compensation Fund and the Employee Health Benefits Fund as expenses are incurred. In fiscal year 1999, the Employee Assistance Program was established to offer City employees short-term mental, health, marital, and financial counseling, as well as substance abuse intake and assessment. The Program was funded by a transfer from the Workers' Compensation Fund.

12. RISK FINANCING (Continued)

A. Primary Government (City) (Continued)

Claims Liability

The liability for the Employees Benefits Program is based on the estimated aggregate amount outstanding at the balance sheet date for unpaid benefits. Liabilities for the Insurance Reserve and Workers' Compensation Programs are reported when it is probable that a loss has occurred as of the balance sheet date and the amount of the loss can be reasonably estimated. These liabilities include allocable loss adjustment expenses, specific incremental claim adjustment expenses such as the cost of outside legal counsel, and a provision for claims which have been incurred but not reported (IBNR). Unallocated claim adjustment expenses have not been included in the calculation of the outstanding claims liability as management of the City feel it would not be practical or cost beneficial. In addition, based on the difficulty in determining a basis for estimating potential recoveries and the immateriality of prior amounts, no provision for subrogation or salvage has been included in the calculation of the claims liability. The claims liability reported in the accompanying financial statements for the Insurance Reserve and Workers' Compensation Programs is based on an undiscounted rate.

The following is a summary of changes in claims liability for the City's Insurance Reserve, Employee Benefits, and Workers' Compensation Programs for the year ended September 30, 2003.

Fund	Schedule of Changes in Claims Liability				
	Liability October 1,	Change in Estimates	Claims & Adjustments	Claims Payments	Liability Balance September 30, ¹
Insurance Reserve					
Fiscal Year 2002	\$ 18,531	(2,152) \$	6,285 \$	(6,285) \$	16,179
Fiscal Year 2003	16,179		4,836	(4,836)	16,179
Employee Benefits					
Fiscal Year 2002	\$ 4,015	1,351 \$	38,980 \$	(38,980) \$	5,366
Fiscal Year 2003	5,366	3,182	36,997	(36,997)	8,548
Workers' Compensation					
Fiscal Year 2002	\$ 18,705	4,500 \$	9,946 \$	(9,946) \$	23,205
Fiscal Year 2003	23,205		10,035	(10,035)	23,205

¹The Workers' Compensation Liability Balance of \$23,205 is comprised of \$20,879 recorded in the Workers' Compensation Fund and the remaining liability of \$2,326 is recorded in Proprietary Funds.

12. RISK FINANCING (Continued)

B. City Public Service (CPS)

CPS is exposed to various risks of loss including those related to torts, theft or destruction of assets, errors and omissions, and natural disasters. CPS purchases commercial liability and property insurance coverages to provide protection in event of large/catastrophic claims. CPS performs actuarial studies periodically to determine its insurance retentions. An actuarial study was last performed in 2001.

In addition, CPS is exposed to risks of loss due to death of, and injuries to, or illness of, its employees. CPS makes payments to external trusts to cover the claims under the related plans. At January 31, 2003, CPS accumulated approximately \$122,700 in these external trusts. The trust accounts and related claims liabilities are included in CPS' financial statements. CPS has recorded \$23,800 of expense related to these plans for the year ended January 31, 2003.

Based upon the guidance of GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, the following information is provided regarding the changes in the insurance reserves for property, and employee and public liability claims for the years ended January 31:

City Public Service Schedule of Changes In Claims Liability				
Fund	Liability Balance February 1,	Claims & Adjustments	Claims Payments	Liability Balance January 31,
<i>Property Insurance</i>				
Fiscal Year 2002	9,944	7	(1,327)	8,624
Fiscal Year 2003	8,624	(3,019)	(52)	5,553
<i>Employee & Public Liability Claims</i>				
Fiscal Year 2002	5,840	2,056	(2,888)	5,008
Fiscal Year 2003	5,008	1,968	(110)	6,866
<i>Employee Health & Welfare Claims</i>				
Fiscal Year 2002	0	28,022	(24,381)	3,641
Fiscal Year 2003	3,641	29,425	(28,894)	4,172

The employee health and welfare plan assets are segregated from CPS's assets. They are separately managed by committee whose members are appointed by the CPS General Manager and CEO. These plans have separate financial statements for calendar year 2002. These separately audited financial statements are available upon request from CPS.

12. RISK FINANCING (Continued)

C. San Antonio Water System (SAWS)

Risk Management

SAWS is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

SAWS is self administered and self-insured for the first \$500 of each worker's compensation and \$250 for general liability, automobile liability, public official's liability and \$100 for pollution legal liability claim whereby any claim exceeding the self-insured retention limit would be covered through SAWS' comprehensive commercial insurance program. For the year ended December 31, 2002, there were no reductions in insurance coverage from the previous year and there were no claims which exceeded the self-insured retention limit. Settled claims have not exceeded the insurance coverage in any of the past three fiscal years.

SAWS had recorded a liability in the amount of \$1,184 as of December 31, 2002, which is reported as a current liability. The claims liability, including incurred but not reported claims, is based on the estimated ultimate cost of settling the claims. The claims liability includes medical and rehabilitation costs, which are considered incremental claim adjustment expenses. Changes in the liability amount for the last two fiscal years were:

San Antonio Water System Schedule of Changes In Claims Liability				
Year Ended	Balance at Beginning of Fiscal Year Liability	Claims & Adjustments	Claims Payments	Balance at End of Fiscal Year Liability
Seven Months Ended Dec. 31, 2001	\$ 2,174	\$ 824	\$ (1,269)	\$ 1,729
Dec. 31, 2002	\$ 1,729	\$ 1,058	\$ (1,603)	\$ 1,184

(amounts are expressed in thousands)

13. INTERFUND TRANSFERS (Continued)

Transfers are made to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds. These transfers are in the form of operating subsidies, grant matches and funding for capital projects. In addition, transfers are routinely made from other funds to fund debt service payments and for other restricted purposes. All transfers are in accordance with budgetary authorizations.

Other significant transfers by the General Fund include \$615 set aside for the purchase of additional ladder trucks from fiscal year 2006 through fiscal year 2009. This is the second year that funds have been set aside for that purpose as the Master Plan recommended in fiscal year 2001 that \$615 in funds be set aside each year through fiscal year 2005.

The Enterprise Resource Management Fund was established in fiscal year 2001 to record all operating revenues and expenditures associated with the development and implementation of the new enterprise system. Funding is provided by transfers from the Improvement Projects Fund. This year's support totaled \$5,382.

In addition, the Parking Facilities Fund made a \$3,318 transfer to the Hotel Motel Tax Capital Improvement Fund to cover demolition costs associated with the Hemisfair parking garage in fiscal year 2003.

(amounts are expressed in thousands)

14. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between fund balance-total governmental funds and net assets-governmental activities as reported in the Government-wide Statement of Net Assets.

One element of this reconciliation states, "Some of the City's revenues will be collected after year-end but are not available soon enough to pay for the current period's expenditures and therefore are not reported in the governmental funds." The detail of the \$42,936 is as follows:

Revenues previously reported as deferred in the fund financial statements	\$ 53,280
Receivable applicable to governmental activities, which are not available in the current period	565
Deferred revenues previously reported as income in the fund financial statements	<u>(10,909)</u>
Revenues collected after year end but are not available soon enough to pay for the current period's expenditures and therefore are recognized in governmental funds	<u>\$ 42,936</u>

Another element of this reconciliation states, "Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the governmental funds". The detail for the decrease related to capital leases is as follows:

Total capital leases reported on the Government-wide Statement of Net Assets	\$ 9,796
Less: Short-term available portion reported in fund financial statements	<u>(442)</u>

Net adjustment to decrease fund balance-total governmental funds to arrive at new assets-governmental activities for capital leases

	<u>\$ 9,354</u>
--	-----------------

The details for the decrease related to accrued interest is as follows:

Total Accrued Interest reported on the Government-wide Statement of Net Assets	\$ 8,992
Less: accrued interest reporting on the Debt Service Fund	<u>(324)</u>

Net adjustment to increase fund balance-total governmental funds to arrive at net assets-governmental activities for accrued interest

	<u>\$ 8,668</u>
--	-----------------

(amounts are expressed in thousands)

14. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Cont'd)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance and the Government-wide Statement of Activities

The governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between net changes in fund balances-total governmental funds and changes in net assets of governmental activities as reported in the Government-wide Statement of Activities.

The details of the increase of bond costs are as follows:

Issuance costs expended per fund financial statements	\$ 1,206
Less: amounts expended attributable to current period	<u>(13,505)</u>
Total bonds costs	<u>\$ (12,299)</u>

The details of the increase of bond premiums and deferred charges are as follows:

Amortization of bond premiums on long-term debt-Debt Service Fund, previously expensed in the fund financial statements	\$ 1,436
Amortization of bond premiums on long-term debt-General Obligation Bonds previously expensed in the fund financial statements	678
Less: premiums on bonds and certificates not previously recorded in the fund financial statements	<u>(2,019)</u>
Total amortization of bond premiums and deferred charges (net)	<u>\$ 95</u>

Another element of this reconciliation states, "Some expenses reported in the Statement of Activities are not reported as expenditures in governmental funds." The details of the \$1,154 are as follows:

Compensated Absences	\$ (1,080)
Interest Expense	(704)
Principal Paid on Leases	2,703
Arbitrage Rebate Expense	<u>235</u>

Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities.

	<u>\$ 1,154</u>
--	-----------------

(amounts are expressed in thousands)

15. DEFICITS IN FUND BALANCES / NET ASSETS

Special Revenue Funds

As of September 30, 2003, deficit fund balance at year-end is reported in the HOME Program, Categorical Grant In-Aid, and Community Development Program in the amounts of \$33, \$513, and \$251, respectively. The deficit is attributable to projects for which reprogramming of HOME Program and Community Development Program funds will occur subsequent to year-end. Upon reprogramming of funds, the deficit fund balances will be fully funded. The deficit for Categorical Grant-In Aid is attributable to projects that were overspent and for which local funding will be required to clear this deficit.

The Golf Course Fund had a deficit fund balance of \$1,091 as of September 30, 2003. The deficit is attributable to a decline in revenues in recent years due to increased competition by the private sector and extreme weather patterns. In addition, increased labor and equipment costs have contributed to the deficit.

The Emergency Medical Services had a deficit fund balance of \$424 as of September 30, 2003. The deficit is attributable to increased costs associated with ambulance services. Upon reprogramming of funds from the General Fund, the deficit balance will be fully funded in fiscal year 2004.

Internal Service Funds

As of September 30, 2003, a deficit of \$19,919 in net assets is reported in the Employee Benefits Program. To address specific issues related to the increasing costs of health benefits, a consultant was contracted in fiscal year 2002 to perform a three-year actuarial study and plan design review of the City's Employee Benefits program. The consultant was hired specifically to make recommendations on plan design changes to allow the City to more effectively control costs. Future plan modifications recommended by the consultant to be considered include establishing health care medical management programs focused on providing managed care for employees having chronic, high risk ailments involving high costs such as back pain, high risk maternity, heart disease and depression. Programs such as these will be carefully studied as means of providing long term solutions to address rising health care costs and increasing fund balance deficits. In fiscal year 2004, the HMO, PPO and health benefits third party administrator contracts will be coming up for renewal. The renewals will provide an opportunity to review other options for future plan modifications to address the increasing cost of providing health benefits. Options could include establishment of an Exclusive Provider Organization (EPO) as a means of extending benefits whereby employees select from a more exclusive group of healthcare providers operating under more defined and consistent expense guidelines.

Within the Internal Service Funds, the Workers Compensation Program and the Employee Wellness Program also reported deficit net assets of \$4,659 and \$80, respectively, at September 30, 2003. The City will fund the deficits through assessments charged to various City funds in future years.

(The remainder of this page left blank intentionally)

(amounts are expressed in thousands)

16. OTHER DISCLOSURES

A. Donor Restricted Endowment

The City of San Antonio has three permanent funds: the San Jose Burial Park Permanent Fund, the Carver Cultural Center Endowment Fund and the San Antonio Housing Trust Fund. The City is only allowed to spend interest proceeds generated from the principal amount for each of these funds. The net assets from these three endowment funds are classified as restricted net assets and are reported in the government-wide financial statements. The principal is required to be retained in perpetuity while the interest is available to cover specific expenditures.

The San Jose Burial Park Permanent Fund generated \$35 in interest to be expended for specified purposes. Chapter 713 of the Texas Health and Safety Code governs what expenditures the City may incur when spending the interest income. Per Chapter 713, the revenue can be spent for the maintenance and care of the graves, lots, and burial places, and to beautify the entire cemetery. The principal amount of this fund is increased each year by sales of lots from the San Jose Cemetery.

The Carver's Endowment Fund generated \$5 in interest. These earnings can be used for the Carver Community Cultural Center's operating program, or reinvestment expenses (as detailed in the grant agreement). This fund is managed in accordance with the Uniform Management of Institutional Funds Act, which is codified as Section 163.001 in the Texas Property Code. The principal portion of the fund came from a one-time grant from the National Endowment for the Arts.

The San Antonio Housing Trust Fund generated \$120 in interest. These earnings may be disbursed to projects with particular emphasis on housing programs as grants or secured loans. All distributions or disbursements of this trust shall be made for the primary purpose of providing additional and continuing housing opportunities for low and moderate income families. This trust shall at all times be governed by, construed, regulated and administered in all respects under the laws of the State of Texas.

17. SUBSEQUENT EVENTS

A. Primary Government (City)Bond Election

On November 4, 2003, City of San Antonio voters approved a \$115,000 bond issue comprised of five individual propositions. These bond propositions include 113 projects throughout the city that will improve streets, drainage, libraries, parks and public health and safety facilities. Sale of bonds and construction of approved projects will occur over three years according to the following schedule:

First Year (2004) – First year of bond sale, work begins on projects
 Second Year (2005) – Second year of bond sale, most design work completed
 Third Year (2006) – Third year of bond sale, construction initiated on most projects
 Fourth Year (2007) – Construction on all projects will be underway or substantially completed

Police Collective Bargaining Agreement

On November 13, 2003, the City Council approved the City's collective bargaining agreement with the San Antonio Police Officer's Association (SAPOA). The collective bargaining agreement is effective from October 1, 2002 to September 30, 2006 and contains an evergreen clause through September 30, 2016. The projected fiscal impact of the four year agreement is \$53,400.

Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and Expenditures

Sources/inflows of resources:

Actual amounts (budgetary basis) "available for appropriation" from the budgetary comparison schedule. \$ 609,272,307

Differences - budget to GAAP:

Transfers from other funds are inflows of budgetary resources but are not revenues for financial reporting purposes.

(13,120,941)

Total revenues as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds.

\$ 596,151,366

Uses/outflows of resources:

Actual amounts (budgetary basis) "total charges to appropriations" from the budgetary comparison schedule. \$ 594,854,751

Differences - budget to GAAP:

Encumbrances for supplies and equipment ordered but not received is reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.

(2,779,853)

Transfers to other funds are outflows of budgetary resources but are not expenditures for financial reporting purposes.

(70,377,939)

Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds.

\$ 521,696,959

General Fund Budgetary Information

The City Charter establishes requirements for the adoption of budgets and budgetary control. Under provisions of the Charter, expenditures of each City function and activity within individual funds cannot legally exceed the final budget approved by the City Council. Amendments to line items within a departmental budget may be initiated by Department Directors.

The City's prepares an annual budget for the General Fund on a modified accrual basis which is consistent with generally accepted accounting principles. The annual budgetary data reported for the General Fund represents the original appropriation ordinance and amendments thereto as adopted by the City Council, adjusted for encumbrances outstanding at the beginning of the fiscal year. All annual appropriations lapse at fiscal year end.
